<p>Eurosystem Eligibility</p>	<p>The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. On the Closing Date, the Class A Notes will be issued under the new safekeeping structure ("NSS"). This means the Class A Notes are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg as Common Safekeeper and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.</p>
<p>Risk Retention Undertaking</p>	<p>On and from the Closing Date, Finance Ireland will, as an originator for the purposes of the EU Securitisation Regulation and the UK Securitisation Regulation, retain on an ongoing basis a material net economic interest of not less than 5 per cent. in the securitisation in accordance with the text of (x) Article 6(3)(a) of the EU Securitisation Regulation (which does not take into account any national measures) and (y) Article 6(3)(a) of the UK Securitisation Regulation.</p> <p>On the Closing Date, such interest will be, in each case, comprised of the Originator (in its capacity as Retention Holder) holding no less than 5 per cent. of the nominal value of each Class of Notes sold or transferred to investors on the Closing Date, as required by each of Article 6(3)(a) of the EU Securitisation Regulation and Article 6(3)(a) of the UK Securitisation Regulation (the "Retention").</p> <p>Finance Ireland's continued holding of the Retention and its compliance with</p>

	<p>each of Article 6 of the EU Securitisation Regulation and Article 6 of the UK Securitisation Regulation will be disclosed on an ongoing basis in the Investor Report and Quarterly Investor Report to be provided in respect of the Notes.</p> <p>See the section entitled "<i>Regulatory Disclosures</i>" for further information.</p> <p>Finance Ireland intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions that meet certain requirements. Consequently, the Notes may not be purchased by persons except for: (a) persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules; and (b) persons that have obtained a written waiver from Finance Ireland as Originator in respect of any sale or distribution of the Notes to Risk Retention U.S. Persons on the Closing Date (a "U.S. Risk Retention Waiver") from the Finance Ireland as Originator. No other steps have been taken by the Issuer, the Originator, the Retention Holder, the Arranger or the Joint Lead Managers or any of their affiliates or any other party to accomplish such compliance.</p>
The Volcker Rule	<p>The Issuer is of the view that it is not now, and immediately after giving effect to the offering and sale of the Notes and the application of the proceeds thereof on the Closing Date will not be, a "covered fund" for purposes of regulations adopted under Section 13 of the Bank Holding Company Act of 1956, as amended (commonly known as the "Volcker Rule"). In reaching this conclusion, although other statutory or regulatory exclusions and/or exemptions under the United States Investment Company Act of 1940, as amended (the "Investment Company Act") and under the Volcker Rule and its related regulations may be available, the Issuer has relied on the determination that it would satisfy all of the elements of the exemption from the definition of "investment company" under the Investment Company Act provided by Section 3(c)(5) thereunder, and, accordingly, may rely on the exemption from the definition of a "covered fund" under the Volcker Rule made available to certain issuers that do not rely solely on Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act for their exemption from registration under the Investment Company Act. The general effects of the Volcker Rule remain uncertain and any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult its own legal advisers regarding such matters and other effects of the Volcker Rule. See the section entitled "<i>Risk Factors Effects of the Volcker Rule on the Issuer</i>".</p>

	constitute the assets of such an "employee benefit plan", "plan", person or governmental, church or non-U.S. plan subject to Similar Law.
Class Y Notes	<p>The Issuer will issue the Class Y Notes on the Closing Date. The Class Y Notes are issued to Finance Ireland as consideration in respect of the performance of the services by the Servicing Advisor and represent the right to receive the Class Y Payments, in accordance with the Conditions.</p> <p>The Class Y Notes are not being offered by this Prospectus.</p>
Class R1 Notes and Class R2 Notes	<p>The Issuer will issue the Class R1 Notes and the Class R2 Notes on the Closing Date. The Class R2 Notes represent the right of the Option Holder to exercise the Call Option.</p> <p>The Issuer will issue 47.5% of the initial principal amount of the Class R1 Notes and 47.5% of the initial principal amount of the Class R2 Notes to M&G Specialty Finance (Luxembourg) No. 1 S.à r.l. ("SFF") and 47.5% of the initial principal amount of the Class R1 Notes and 47.5% of the initial principal amount of the Class R2 Notes to Prudential Loan Investments 1 S.à r.l. Significant Investor:	<p>The Retention Holder will, on the Closing Date, acquire at least 5 per cent. of each of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes (such Notes to be held by the Retention Holder, the "Retained Exposures").</p> <p>Finance Ireland will, on the Closing Date, acquire 100% of the Class Y Notes.</p> <p>SFF will, on the Closing Date, acquire 47.5% of the initial principal amount of the Class R1 Notes and 47.5% of the initial principal amount of the Class R2 Notes.</p> <p>PLI will, on the Closing Date, acquire 47.5% of the initial principal amount of the Class R1 Notes and 47.5% of the initial principal amount of the Class R2 Notes.</p> <p>It is possible that on the Closing Date a third party investor may acquire a majority holding in the Class A Notes, potentially giving it an ability to pass or block Noteholder resolutions.</p> <p>Please refer to the section entitled "<i>Subscription and Sale</i>" for further information.</p>

THE "RISK FACTORS" SECTION CONTAINS DETAILS OF CERTAIN RISKS AND OTHER FACTORS THAT SHOULD BE GIVEN PARTICULAR CONSIDERATION BEFORE INVESTING IN THE NOTES. PROSPECTIVE INVESTORS SHOULD BE AWARE OF THE ISSUES SUMMARISED IN THE SECTION.

RISK FACTORS

The following is a description of the principal risks associated with an investment in the Notes. These risk factors are material to an investment in the Notes. Prospective Noteholders should carefully read and consider all the information contained in this Prospectus, including the risk factors set out in this section, prior to making any investment decision.

An investment in the Notes is only suitable for investors experienced in financial matters who are in a position to fully assess the risks relating to such an investment and who have sufficient financial means to suffer any potential loss stemming therefrom.

The Issuer believes that the risks described below are the material risks inherent in the transaction for Noteholders, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the risks identified below are exhaustive, however, the risk factors (as defined under Article 16 of the EU Prospectus Regulation) are exhaustive on the date of approval. Additional risks or uncertainties not presently known to the Issuer or that the Issuer currently considers immaterial may also have an adverse effect on the Issuer's ability to pay interest, principal or other amounts in respect of the Notes. Prospective Noteholders should read the detailed information set out in this document and reach their own views, together with their own professional advisers, prior to making any investment decision.

The purchase of the Notes involves substantial risks and is suitable only for sophisticated investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Notes. Before making an investment decision, prospective purchasers of the Notes should (i) ensure that they understand the nature of the Notes and the extent of their exposure to risk, (ii) consider carefully, in the light of their own financial circumstances and investment objectives (and those of any accounts for which they are acting) and in consultation with such legal, financial, regulatory and tax advisers as it deems appropriate, all the information set out in this Prospectus so as to arrive at their own independent evaluation of the investment and (iii) confirm that an investment in the Notes is fully consistent with their respective financial needs, objectives and any applicable investment restrictions and is suitable for them. The Notes are not a conventional investment and carry various unique investment risks, which prospective investors should understand clearly before investing in them. In particular, an investment in the Notes involves the risk of a partial or total loss of investment.

1. RISKS RELATING TO THE AVAILABILITY OF FUNDS TO MAKE PAYMENTS ON THE NOTES

1.1 The Issuer has a limited set of resources available to make payments on the Notes

The Notes will not be obligations of, or the responsibility of, or guaranteed by, any person other than the Issuer. No liability whatsoever in respect of any failure by the Issuer to pay any amount due under the Notes shall be accepted by any of the Relevant Parties or by any person other than the Issuer.

The ability of the Issuer to meet its obligations to pay principal, interest and other amounts due in relation to the Notes and its operating and administrative expenses will be dependent solely on receipts from the Loans in the Portfolio, interest earned on the Issuer Accounts (other than amounts representing interest earned on any Swap Collateral), the Class A Liquidity Reserve Fund and the General Reserve Fund (applied in accordance with the terms of the Cash Management Agreement) and the net receipts under the Swap Transaction between the Issuer and the Swap Provider (the "**Swap Agreement**"). Other than the foregoing, the Issuer is not expected to have any other funds available to it to meet its obligations under the Notes and/or any other payment obligation of the Issuer under the applicable Priority of Payments including in respect of any increased margin applicable to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes following the Step-Up Date. If such funds are insufficient, any such insufficiency will be borne by the Noteholders and the other Secured Creditors, subject to the applicable Priority of Payments. The recourse of the Noteholders to the Charged Assets following service of an Enforcement Notice is described below (see further "*Risk Factors - Legal Risks and Regulatory Risks*" - "*Insolvency legislation in Ireland relating to the Issuer*" - "*Examinership*" below).

1.2 **The Notes will be limited recourse obligations of the Issuer**

The Notes will be limited recourse obligations of the Issuer. Other than the Charged Assets, the Issuer is not expected to have any other funds available to it to meet its obligations under the Notes. If at any time following:

- (a) the occurrence of either:
 - (i) the Final Maturity Date or any earlier date upon which all of the Notes of each Class are due and payable; or
 - (ii) the service of an Enforcement Notice; and
- (b) realisation of the Charged Assets and application in full of any amounts available to pay amounts due and payable under the Notes in accordance with the applicable Priority of Payments,

the proceeds of such Realisation are insufficient, after payment of all other claims ranking in priority in accordance with the applicable Priority of Payments, to pay in full all amounts then due and payable under any Class of Notes then the amount remaining to be paid (after such application in full of the amounts first referred to in (b) above) under such Class of Notes (and any Class of Notes junior to that Class of Notes) shall, on the day following such application in full of the amounts referred to in (b) above, cease to be due and payable by the Issuer. The Issuer will not be obliged to pay any amount representing a shortfall and any claims in respect of such shortfall shall be extinguished.

1.3 **No additional sources of funds after the Step-Up Date**

As of the Step-Up Date, the margin on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be increased. There will not be any increase in the Class Y Payment, the interest payable on the Class X Notes or the Class R1 Payment or the Class R2 Payment on and after the Step-Up Date. There will, however, be no additional receipts or other sources of funds available to the Issuer at such time, nor is it expected that any of the sources of income available to the Issuer prior to the Step-Up Date will be increased in order to enable the Issuer to make the increased payments after the Step-Up Date. In such circumstances the Issuer may not have sufficient funds to pay all amounts of interest (including any increased Relevant Step-Up Margin on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and/or the Class E Notes).

1.4 **Shortfalls in Available Revenue Receipts may result in insufficient funds**

If, on any Interest Payment Date, as a result of shortfalls in Available Revenue Receipts, and after applying any Class A Liquidity Reserve Fund Release Amounts and any General Reserve Fund Release Amounts, there would be a Senior Expenses Deficit (arising as a result of any inability to pay amounts due in respect of interest on the Class A Notes, and (where such Classes of Notes are the Most Senior Class of Notes outstanding) the Class B Notes, the Class C Notes, the Class D Notes, and the Class E Notes, and certain prior ranking payments), the Issuer shall apply Available Redemption Receipts (if any) in accordance with item (a) of the Pre-Enforcement Redemption Priority of Payments to cure such Senior Expenses Deficit (such reapplied amounts, "**Principal Addition Amounts**"). Available Redemption Receipts (if any) may only be redirected as Principal Addition Amounts in respect of a Senior Expenses Deficit. The Issuer will not be able to use Available Redemption Receipts to pay interest on any Class of Notes (other than (a) the Class A Notes as set out above or (b) unless such Class of Notes (other than the Class A Notes) is the Most Senior Class or (c) after the delivery of an Enforcement Notice in accordance with the Post-Enforcement Priority of Payments) under any circumstances.

Available Redemption Receipts shall be applied as Principal Addition Amounts in addition to the aggregate of, without double counting, (a) all losses on the Loans as determined by the Servicer in accordance with its then current procedures arising in relation to the Loans in the Portfolio which

causes a shortfall in the amount available to pay principal on the Notes (including, without limitation, any write-down under the Personal Insolvency Acts 2012 to 2021 (the "**Personal Insolvency Act**") or set-off losses) or otherwise (the "**Losses**") and (b) in the case of a Loan in arrears by 180 days or more past the date originally specified for payment and in respect of which amounts have not been recorded in paragraph (a) above, an amount equal to the Current Balance of such Loan multiplied by the then applicable Arrears Percentage, provided that, for the avoidance of doubt, if (i) the number of days by which such Loan is in arrears increases such that the corresponding Arrears Percentage increases, the debit entry on the Principal Deficiency Ledger shall be increased to an amount equal to the Current Balance of such Loan multiplied by the then applicable Arrears Percentage; (ii) the number of days by which such Loan is in arrears decreases such that the corresponding Arrears Percentage decreases, the difference between the previous debit entry on the Principal Deficiency Ledger and the amount equal to the Current Balance of such Loan multiplied by the then applicable Arrears Percentage shall be credited to the Principal Deficiency Ledger; and (iii) such Loan no longer falls under paragraph (a), (b) or (c) of the definition of Arrears Percentage, the amount previously debited to the Principal Deficiency Ledger is instead credited to the Principal Deficiency Ledger (such amounts to be recorded on the date that the Cash Manager is informed of the relevant amount by the Servicer) ("**Arrears Percentage Losses**") shall be recorded on the applicable sub-ledgers of the Principal Deficiency Ledger. Application of any Available Redemption Receipts as Principal Addition Amounts will be recorded first on the Class E Principal Deficiency Sub-Ledger until the balance of the Class E Principal Deficiency Sub-Ledger is equal to the aggregate Principal Amount Outstanding of the Class E Notes then outstanding, and next on the Class D Principal Deficiency Sub-Ledger until the balance of the Class D Principal Deficiency Sub-Ledger is equal to the aggregate Principal Amount Outstanding of the Class D Notes then outstanding, and next on the Class C Principal Deficiency Sub-Ledger until the balance of the Class C Principal Deficiency Sub-Ledger is equal to the aggregate Principal Amount Outstanding of the Class C Notes then outstanding, and next on the Class B Principal Deficiency Sub-Ledger until the balance of the Class B Principal Deficiency Sub-Ledger is equal to the aggregate Principal Amount Outstanding of the Class B Notes then outstanding, and next on the Class A Principal Deficiency Sub-Ledger until the balance of the Class A Principal Deficiency Sub-Ledger is equal to the aggregate Principal Amount Outstanding of the Class A Notes then outstanding.

It is expected that during the course of the life of the Notes, any principal deficiencies (should they arise) will be recouped from Available Revenue Receipts (including from the General Reserve Fund Excess Amount and the Class A Liquidity Reserve Fund Excess Amount). Available Revenue Receipts will be applied, after meeting prior ranking obligations as set out under the Pre-Enforcement Revenue Priority of Payments, to credit first the Class A Principal Deficiency Sub-Ledger until the debit balance of such ledger is reduced to zero, second the Class B Principal Deficiency Sub-Ledger until the debit balance of such ledger is reduced to zero, third the Class C Principal Deficiency Sub-Ledger until the debit balance of such ledger is reduced to zero, fourth the Class D Principal Deficiency Sub-Ledger until the debit balance of such ledger is reduced to zero, and fifth the Class E Principal Deficiency Sub-Ledger until the debit balance of such ledger is reduced to zero. In addition, to the extent that the Notes have not been redeemed in full on any Interest Payment Date falling on or after the Step-Up Date, an amount equal to the lesser of: (i) all remaining Available Revenue Receipts (if any) after having paid or provided for items of higher priority in the Pre-Enforcement Revenue Priority of Payments; and (ii) the amount required by the Issuer to pay in full all amounts payable under items (a) to (f) (inclusive) of the Pre-Enforcement Redemption Priority of Payments, taking into account any Available Redemption Receipts (other than item (d) of the definition thereof) otherwise available to the Issuer to make such payments, will be applied as Available Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments until the Principal Amount Outstanding of the Rated Notes has been reduced to zero.

If there are insufficient funds available as a result of such income or principal deficiencies, then one or more of the following consequences may ensue:

- (a) the Available Revenue Receipts, any Class A Liquidity Reserve Fund Release Amounts, any General Reserve Fund Release Amounts and Available Redemption Receipts may not

be sufficient, after making the payments to be made in priority thereto, to pay, in full or at all, interest due on the Notes; and

- (b) there may be insufficient Available Revenue Receipts and Available Redemption Receipts to repay principal on the Notes on or prior to the Final Maturity Date of the Notes.

1.5 The timing and amount of payments on the loans could be affected by various factors which may adversely affect payments on the Notes

The yield to maturity on the Notes will depend on, among other things, the amount and timing of payment of principal and interest on the Loans. Prepayments on the Loans may result from early repayment of the Loans by the relevant Borrower (whether through refinancing or otherwise), sales of Properties by Borrowers (voluntarily or as a result of enforcement proceedings under the relevant Mortgages), as well as the receipt of proceeds under any applicable insurance policies. The yield to maturity of the Notes may be adversely affected by, among other things, a higher or lower than anticipated rate of prepayments on the Loans. In particular, a high rate of prepayments on the Loans may affect the Issuer's ability to make payments in respect of the Class X Notes.

The rate of prepayment of Loans is influenced by a wide variety of economic, social and other factors, including prevailing mortgage market interest rates, the availability of alternative financing programmes, local and regional economic conditions and homeowner mobility and recent impacts on the Irish economy caused by (i) higher inflation rates than seen in recent years and (ii) higher interest rates than seen in recent years. However, the rate of payment cannot be predicted. Subject to the terms and conditions of the Loans, a Borrower may "overpay" or prepay principal at any time. No assurance can be given as to the level of prepayments that the Portfolio will experience. Accelerated prepayments will lead to a reduction in the weighted average life of the Notes. See also the section entitled "*The Loans Overpayments and Early Repayment Charges*".

Generally, when market interest rates increase, borrowers are less likely to prepay their mortgage loans, while conversely, when market interest rates decrease, borrowers (in particular those paying by reference to a fixed interest rate, where there are no or minimal associated early repayment charges) are generally more likely to prepay their mortgage loans. Borrowers may prepay mortgage loans when they refinance their loans or sell their properties (either voluntarily or as a result of enforcement action taken). In certain circumstances (including if any of the Loans does not comply with the Loan Warranties), the Originator will be required to repurchase the relevant Loans. The payment received by the Issuer will have the same effect as a prepayment of all the relevant Loans. As a result of these and other relevant factors not being within the control of the Issuer, no assurance can be given as to the timing or level of redemptions of the Notes.

A Loan and its Related Security may also be repurchased where a Further Advance or a Product Switch is made in the circumstances, subject to the conditions summarised in and for the consideration set out in the section titled "*Overview of the Key Transaction Documents - Mortgage Sale Agreement*".

Payments and prepayments of principal on the Loans will be applied, inter alia, to reduce the Principal Amount Outstanding of the Notes on a pass-through basis on each Interest Payment Date in accordance with the Pre-Enforcement Redemption Priority of Payments (see "*Cashflows*" below).

Pursuant to the Call Option, the Option Holder may, subject to certain conditions, purchase all (but not some) of the Loans and their Related Security comprising the Portfolio at the Optional Purchase Price on any Interest Payment Date falling on or any time after the earlier to occur of (a) the Step-Up Date, (b) any Collection Period Start Date on which the aggregate Current Balance of the Loans was equal to or less than 10 per cent. of the aggregate Principal Amount Outstanding of the Collateralised Notes on the Closing Date, or (c) a change in tax law that results in the Issuer or the Swap Provider being required to make a deduction or withholding for or on account of tax or the occurrence of certain illegality events.

The Issuer shall redeem all of the Notes on the Interest Payment Date on which the sale of the Loans and their Related Security comprising the Portfolio to the Beneficial Title Transferee pursuant to the Call Option occurs. This may adversely affect the yield to maturity on the Notes.

Other than in relation to an enforcement of the Security or the repurchase of a Loan and its Related Security by the Originator (in the circumstances set out in the Mortgage Sale Agreement (including in case of breach of a Loan Warranty)) pursuant to the Mortgage Sale Agreement, the Issuer is not permitted to sell the Portfolio to anyone other than the Option Holder and in no circumstances (including following the occurrence of an illegality event or a tax event) is the Option Holder required to purchase the Portfolio. As such, no assurance can be given that the Notes will be redeemed in full prior to their Final Maturity Date.

See the section entitled "*Early Redemption of the Notes*" below.

2. RISKS RELATING TO THE UNDERLYING ASSETS

2.1 Delinquencies or default by Borrowers in paying amounts due on their Loans

Borrowers may default on their obligations under the Loans in the Portfolio. Defaults may occur for a variety of reasons. The Loans are affected by credit, liquidity and interest rate risks. Various factors influence mortgage delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic or housing conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments, government policies and health crises .

The higher inflation rates and interest rates seen in the Irish economy in the months preceding the date of this Prospectus, and the subsequent increase in the cost of living due to such higher levels of inflation and interest rates may adversely affect Borrowers' ability to pay interest or repay principal on their Loans. Other factors in Borrowers' individual, personal or financial circumstances may affect the ability of Borrowers to repay the Loans. In the months preceding the date of this Prospectus, a number of lenders/legal title holders have adjusted their variable rates on residential mortgage loans upwards following rate increases by the ECB, and withdrawn some fixed rate mortgage offerings, resulting in increased political, regulatory, judicial and media focus in Ireland (for further information, see the section titled "*Regulation of Interest Rates, Mortgage Switching and the No Consent, No Sale Bill 2019*"). Unemployment, loss of earnings (including and in particular self-employed Borrowers may be experiencing more volatile earnings), illness (including illness arising out of or in connection with an epidemic or infectious disease or fear of a health crisis), additional increases in the cost of living (including higher energy costs), divorce and other similar factors may lead to an increase in delinquencies by and bankruptcies (and analogous arrangements) of Borrowers, and could ultimately have an adverse impact on the ability of Borrowers to repay the Loans. Certain Borrowers may be, or may become, unemployed throughout the life of the Loan taken out by them, which could affect their ability to make payments and repayments under such Loan. Additionally, Borrowers who are self-employed may have an income stream which is more susceptible to change (including the reduction or loss of future earnings due to illness, loss of business, tax laws or general economic conditions) than Borrowers who are in full time employment. Each such Borrower may consequently be more likely to fall into payment difficulties. In addition, the ability of a Borrower to sell a property given as security for a Loan at a price sufficient to repay the amounts outstanding under that Loan will depend upon a number of factors, including the availability of buyers for that property, the value of that property and property values in general at the time. A valuation was obtained by the Originator (or by Pepper (as the Back Book Originator) as applicable) on or about the time of origination of each Loan, and, in certain circumstances, an updated valuation of a Property may be obtained or determined by the Servicer (on behalf of the Originator), see "*The Loans*". There are not expected to be updated valuations of the properties in respect of each of the Loans prior to the Portfolio Sale Date.

In order to enforce a power of sale in respect of a mortgaged property, the relevant mortgagee (which may be the Originator, the Issuer or a Receiver) must first obtain possession of the relevant property (unless the property is vacant). Possession is usually obtained by way of a court order

although this can be a lengthy process. The mortgagee must assume certain risks if it goes into possession of a property. Obtaining possession of a property could be a costly and lengthy process. The ability of the Issuer to make payments on the Notes could be affected by any delays in obtaining possession of properties within the Portfolio.

The Deeds of Charge provide that (irrespective of whether the Security has become enforceable) the Security Trustee is not obliged to seek possession of any properties within the Portfolio and/or to become a mortgagee in possession.

2.2 **Collectability of Mortgages will depend on various factors**

The collectability of amounts due under the Loans is subject to credit, liquidity and interest rate risks and will generally fluctuate in response to, among other things, market interest rates, general economic conditions, the financial standing of Borrowers and other similar factors. Other factors (which may not affect real estate values, such as Borrowers' personal or financial circumstances) may have an impact on the ability of Borrowers to repay Loans. Loss of earnings, redundancy, illness, higher cost of living, divorce and other similar factors may lead to an increase in delinquencies and bankruptcy filings by Borrowers and could ultimately have an adverse impact on the ability of Borrowers to repay the Loans. Specifically, the level of protections afforded to Borrowers under the Code of Conduct on Mortgage Arrears 2013, 2015 and 2021 addenda thereto (the "**Arrears Code**") and the general legislative framework including the provisions concerning personal insolvency arrangements ("**PIA**") in the Personal Insolvency Act, may result in a reduction in the amounts collected under the Loans. No assurance can be given that any ongoing PIAs or any future PIAs or bankruptcies that Borrowers in the Mortgage Portfolio may be the subject of would not adversely affect the Issuer's ability to make payments on the Notes.

In addition, the ability of the Borrower or, as the case may be, the Issuer to dispose of a Property given as security for a Loan at a price sufficient to repay the amounts outstanding under the relevant Loan will depend upon a number of factors including the availability of buyers for the Property, the value of the Property and property values in general at the time.

If a Borrower fails to repay its Loan and the related Property is repossessed, the likelihood of there being a net loss on disposal of the Property is increased by a higher "loan to value" ratio.

The Security Trustee is entitled to be indemnified and/or secured and/or prefunded to its satisfaction against any liabilities which it could incur. In no event can the Security Trustee be obliged to enter into possession of a Property or become a mortgagee in possession.

2.3 **Originator to initially retain legal title to the Loans and risks relating to set-off**

The Issuer only has a beneficial interest in the Loans and their Related Security. Legal title to the Loans is held by the Originator as bare nominee on trust for the Issuer. The sale by the Originator to the Issuer of the Loans and their Related Security (until legal title is conveyed following a Perfection Event) takes effect in equity only.

This means that legal title to the Loans and their Related Security in the Portfolio will remain with the Originator until certain perfection events occur under the terms of the Mortgage Sale Agreement (see "*Overview of the Key Transaction Documents - Mortgage Sale Agreement*", below). The Issuer has not applied, and prior to the occurrence of a Perfection Event will not apply, to the Land Registry or the Registry of Deeds to register or record its equitable interest in the Mortgages.

Further, unless notice of the assignment was given to the Borrowers in respect of the Loans and their Related Security, equitable or independent set-off rights may accrue in favour of any Borrower against his or her obligation to make payments to the Originator under the relevant Loan. These rights may result in the Issuer receiving reduced payments on the Loans. The transfer of the benefit of any Loans to the Issuer will continue to be subject to any prior rights any applicable Borrower may become entitled to after the transfer. Where notice of the assignment is given to any Borrower, however, some rights of set-off (being those rights that are not connected with or related

to the relevant Loan) may not arise after the date notice is given. For further information on the effects of set-off in relation to the Portfolio, see below "*Risk Factors – Risks relating to the availability of funds to make payments on the Notes*" – "*Set-off may adversely affect the value of the Portfolio or any part thereof*".

As a consequence of the Issuer not obtaining legal title to the Loans and their Related Security or the Properties secured thereby, a bona fide purchaser from the Originator for value of any of such Loans and their Related Security without notice of any of the interests of the Issuer might obtain a good title free of any such interest. If this occurred, then the Issuer would not have good title to the affected Loan and its Related Security, and it would not be entitled to payments by a Borrower in respect of that Loan. However, the risk of third party claims obtaining priority to the interests of the Issuer in this way would be likely to be limited to circumstances arising from a breach by the Originator of its contractual obligations or from fraud, negligence or mistake on the part of the Originator or any of its respective personnel or agents.

Borrowers will also have the right to redeem their Mortgages by repaying the Loan directly to the Originator. However, the Originator will undertake, pursuant to the Mortgage Sale Agreement, to hold any money repaid to it in respect of Loans to the order of the Issuer.

Until notice of the assignment is given to Borrowers, the Issuer would not be able to enforce any Borrower's obligations under a Loan or Related Security itself but would have to join the Originator as a party to any legal proceedings. Borrowers will also have the right to redeem their Mortgages by repaying the relevant Loan directly to the Originator. However, the Originator will undertake, pursuant to the Mortgage Sale Agreement, to hold any money repaid to it in respect of relevant Loans to the order of the Issuer.

If any of the risks described above were to occur then the realisable value of the Portfolio or any part thereof may be affected.

For so long as the Issuer does not have legal title to the Loans and their Related Security, the Originator will undertake in the Mortgage Sale Agreement for the benefit of the Issuer that it will lend its name to, and take such other steps as may reasonably be required by the Issuer in relation to, any legal proceedings in respect of the relevant Loans and their Related Security and the Issuer will have power of attorney to act in the name of the Originator, in respect of which please see the section entitled –"*The Loans - Characteristics of the Loans - Title to the Portfolio*" for further details.

2.4 **Set-off may adversely affect the value of the Portfolio or any part thereof**

As described below, the sale by the Originator to the Issuer of the Loans and their Related Security will be given effect by an assignment. As a result, legal title to the Loans and their Related Security sold by the Originator to the Issuer will remain with the Originator until the occurrence of a Perfection Event under the terms of the Mortgage Sale Agreement. Therefore, the rights of the Issuer may be subject to certain set-off rights which the relevant Borrower has against the Originator.

The Borrowers may be entitled to exercise certain independent or equitable set-off rights against the Issuer. Independent set-off will arise in connection with transactions that are unconnected with the relevant Borrower's Loan. Generally, an independent right of set-off could include, but is not limited to, claims by a Borrower for unpaid wages, pension liabilities or balances standing to the credit of savings and deposit accounts (though the Originator will represent and warrant that the Borrowers are not employees of the Originator or any of its Affiliates).

Equitable set-off rights may arise in connection with a transaction connected with the Loan. An equitable right of set-off could arise where the Originator has failed to make a Further Advance to the Borrower having made a commitment to do so or where the Originator is in breach of contract under the relevant Loan.

Once notice has been given to the Borrowers of the assignment of the Loans and their Related Security to the Issuer, independent set-off rights which a Borrower has against the Originator will crystallise and further rights of independent set-off would cease to accrue from that date and no new rights of independent set-off could be asserted following that notice. Set-off rights arising under "transaction set-off" (being those set-off claims arising out of a transaction connected with the Loan) will not be affected by that notice and will continue to exist.

The relevant Borrower may set off any claim for damages arising from the Originator's breach of contract against the Originator's (and, as equitable assignee of or holder of the beneficial interest in the Loans and their Related Security, the Issuer's) claim for payment of principal and/or interest under the relevant Loan as and when it becomes due. These set-off claims will constitute transaction set-off, as described above.

The amount of any such claim against the Originator for equitable set-off will, in many cases, be the cost to the Borrower of finding an alternative source of funds. For example in the case of a failure by the Originator to make a Further Advance having become bound to do so, the Borrower could set off against the Issuer any additional cost of funding incurred in borrowing an amount equal to the relevant Further Advance. In addition, where the Originator has failed to effect the Product Switch, having committed to do so, the Borrower could set off against the Issuer the difference between the rate of interest on the Loan and the interest rate at which the Borrower could borrow money in the market on the new property. However, the Originator will represent and warrant in the Mortgage Sale Agreement that there is no obligation for the Originator to make a Further Advance or a Product Switch other than in accordance with the applicable Mortgage Conditions. In addition to the difference in the cost of borrowing, the relevant Borrower could also set off any direct losses arising from the Originator's breach of contract, namely the associated costs of obtaining alternative funds (for example, legal fees and survey fees).

If the Borrower is unable to obtain an alternative mortgage loan, he or she may have a claim in respect of other indirect losses arising from the Originator's breach of contract where there are special circumstances communicated by the Borrower to the Originator at the time the Borrower entered into the Mortgage or which otherwise were reasonably foreseeable. A Borrower may also attempt to set off an amount greater than the amount of his or her damages claim against his or her mortgage payments. In that case, the Originator will be entitled to take enforcement proceedings against the Borrower, although the period of non-payment by the Borrower is likely to continue until a judgment is obtained.

The exercise of set-off rights by Borrowers may adversely affect the timing of receipt and ultimate amount received by the Issuer in respect of the relevant Loans and the realisable value of the Portfolio and/or the ability of the Issuer to make payments under the Notes.

2.5 The value of the Related Security in respect of the Loans may be affected by, among other things, a decline in the residential property values in Ireland

The value of the Related Security in respect of the Loans may be affected by, among other things, a decline in the residential property values in Ireland, especially when the European capital markets are experiencing a period of volatility and at a time of increasing interest rates both domestically and internationally. Downturns in the performance of the Irish economy (due to the local, national and/or global macroeconomics factors) generally may have a negative effect on the housing market. In addition, any natural disasters, or widespread health crises (such as a pandemic or epidemic, including but not limited to the COVID-19 pandemic), governmental policies, action or inaction in response to such crises or such potential crises and/or the fear of such crises, whether in Ireland or in any other jurisdictions, may lead to a deterioration of the economic conditions in Ireland and also globally and may reduce the value of the affected properties. If the residential property market in Ireland should experience an overall decline in property values, such a decline could in certain circumstances result in the value of the Related Security being significantly reduced and, in the event that the Related Security is required to be enforced, may result in an adverse effect on payments on the Notes.

The Issuer cannot guarantee that the value of a Property will remain at the same level as on the date of origination of the related Loan or in relation to the Loans in the Portfolio as at 31 May 2024 (the "**Portfolio Reference Date**"). The Irish residential property market suffered a very significant downturn during the period 2007 to 2013, with property prices falling by 53.3 per cent. from their peak. Property prices have since recovered, increasing by 16.3 per cent. in 2014, 6.6 per cent. in 2015, 8.1 per cent. in 2016, 12.3 per cent. in 2017, 6.5 per cent. in 2018, 0.9 per cent. in 2019 and by 2.2 per cent. in 2020. Residential property prices increased by 14.2 per cent. in the year to December 2021, by 7.8 per cent. in the year to December 2022 and by 4.1 per cent. in the year to December 2023. Residential property prices increased by 6.1 per cent. nationally in the twelve months to February 2024 (Source: CSO Residential Property Price Index).

If the residential property market in Ireland should experience another decline in property values, such a decline could result in the value of the Related Security being significantly reduced and, in the event that the Related Security is required to be enforced, may result in the net recovery proceeds being insufficient to redeem the outstanding Loans. This may ultimately result in losses to Noteholders if the resulting proceeds are insufficient to make payments on all Notes.

2.6 **Loans may be subject to geographic concentration risks within certain regions of Ireland**

Loans in the Portfolio may also be subject to geographic concentration risks within certain regions of Ireland, in particular approximately 47.12% (by Current Balance) of the Portfolio (as at the Portfolio Reference Date) relates to Loans for properties in Dublin. To the extent that specific geographic regions within Ireland have experienced or may experience in the future weaker regional economic conditions and housing markets than other regions in Ireland, a concentration of the Loans in such a region may be expected to exacerbate the risks relating to the Loans described in this section. Certain geographic regions within Ireland rely on different types of industries. Any downturn in a local economy or particular industry may adversely affect the regional employment levels and consequently the repayment ability of the Borrowers in that region or in the region that relies most heavily on that industry. Any natural disasters in a particular region may reduce the value of affected Properties. This may result in a loss being incurred upon the sale of such Properties. These circumstances could affect receipts on the Loans and ultimately result in losses on the Notes. For an overview of the geographical distribution of the Loans in the Portfolio, see "*Characteristics of the Portfolio – Geographical distribution*".

2.7 **Buy to let Loans**

34.23% (by Current Balance) of the Portfolio are BTL Loans, where the relevant Properties (in respect of the mortgages forming part of the collateral Security for such BTL Loans) are not owner-occupied. The Borrower's ability to service payment obligations in respect of a Loan secured on such a property is likely to depend on the Borrower's ability to lease the Properties on appropriate terms. This dependency on leasing income increases the likelihood, during difficult market conditions that the rate of delinquencies and losses on Loans secured by such non-owner occupied properties will be higher than for Loans secured on the primary residence of a Borrower.

There can be no guarantee that each Property will be tenanted throughout the life of the Loan, that the rental income achievable from the tenancies of the relevant Property will be sufficient to provide the Borrower with sufficient income to meet the Borrower's obligations in respect of the Loan during the life of such Loan, that the tenancies will be on market terms, that a tenant will always be able to pay their rent and that a Borrower will always respect the terms of such tenancy relating to the maintenance of the relevant Property. The obligations of a Borrower to make payments under a Loan are without regard to whether the relevant Property is let and without regard to the amount of rent received from the relevant tenant however these factors may affect the Borrower's ability to satisfy its obligations under the Loans.

Upon enforcement of a Loan in respect of a property which is the subject of an existing tenancy, the Servicer may not be able to obtain vacant possession of that property, in which case the Servicer will only be able to sell the property as an investment property with one or more sitting tenants. This may affect (i) the amount that the Servicer could realise upon enforcement of the mortgage and a sale of the relevant property, and (ii) the speed at which such a sale can be

achieved. However, the Servicer will have the ability to appoint a receiver of rent to collect any rents payable in respect of such property and apply them in payment of any interest and arrears accruing under that Loan.

2.8 **Insurance policies**

The Mortgage Conditions require borrowers to have buildings insurance for the relevant Property. However, it will be difficult in practice for the Originator and/or the Issuer to determine whether the relevant Borrower has valid insurance in place at any time. However, the Issuer will also have the benefit of the Block Insurance Policy, which will give the Issuer certain protection should the relevant Borrower not have any valid insurance in place. However, no assurance can be given that the Issuer will always receive the benefit of any claims made under any applicable building's insurance contracts or contingent insurance contracts or that the amounts received in respect of a successful claim will be sufficient to reinstate the affected Property. This could adversely affect the Issuer's ability to make payment of interest and/or principal in respect of the Notes.

2.9 **Searches, investigations and warranties in relation to the Loans, repurchase of Loans**

The Originator will give certain warranties to each of the Issuer and the Security Trustee regarding the Loans and their Related Security sold to the Issuer on the Portfolio Sale Date (see "*Overview of the Key Transaction Documents - Mortgage Sale Agreement*" below for a summary of these).

Neither the Note Trustee, the Security Trustee, the Arranger, the Joint Lead Managers nor the Issuer has undertaken, or will undertake, any investigations, searches or other actions of any nature whatsoever in respect of any Loan or its Related Security in the Portfolio and each relies instead on the warranties given in the Mortgage Sale Agreement by the Originator. As such, the Loans may be subject to matters which would have been revealed by a full investigation of title and which may have been remedied or, if incapable of remedy, may have resulted in the Related Security not being accepted as security for a Loan had such matters been revealed.

The primary remedy of the Issuer against the Originator if any of the warranties made by the Originator is materially breached or proves to be materially untrue as at the Portfolio Reference Date which breach is not remedied in accordance with the Mortgage Sale Agreement, will be to require the Originator to repurchase any relevant Loan and its Related Security in accordance with the repurchase provisions in the Mortgage Sale Agreement.

A Loan and its Related Security may also be repurchased where a Further Advance or a Product Switch is made in the circumstances, subject to the conditions and for the consideration set out in the section titled "*Overview of Key Transaction Documents - Mortgage Sale Agreement*".

However, there can be no assurance that the Originator will have the financial resources to honour such obligations under the Mortgage Sale Agreement. In each case, none of the Issuer, the Security Trustee or the Note Trustee will have recourse to any other person in the event that the Originator, for whatever reason, fails to meet such obligations.

Furthermore, although the Originator and the Servicer have undertaken, pursuant to the Mortgage Sale Agreement and Servicing Agreement, to notify the Issuer (and, if applicable, the Servicer) upon becoming aware of a breach of any Loan Warranty, there shall be no obligation on the part of the Originator or the Servicer to monitor compliance of the Loans with the Loan Warranties following the Portfolio Sale Date. This may affect the quality of the Loans and their Related Security in the Portfolio and accordingly the ability of the Issuer to make payments due on the Notes.

2.10 **Borrowers may fail to make their first payment before the Portfolio Sale Date**

The data set out in the section titled "*Characteristics of the Portfolio*" is set out (except as otherwise indicated) as at the Portfolio Reference Date. As such, it is possible that Borrowers in respect of any Loans which were originated in May 2024 subsequently fail to pay the first instalment in respect of such Loans on or before the Portfolio Sale Date (each such Loan being a

"**Withdrawn Loan**"), and such Withdrawn Loans will not be sold by the Originator to the Issuer on the Portfolio Sale Date. An amount representing the Current Balance (as at the Portfolio Reference Date) of all such Withdrawn Loans will be applied by the Issuer on the first Interest Payment Date in or towards repayment, *pro rata and pari passu*, of principal amounts outstanding on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, and the Class E Notes. This may result in a reduction in the weighted average life of the Notes.

3. **RISKS RELATING TO THE STRUCTURE**

3.1 **Deferral of interest payments on the Notes**

If, on any Interest Payment Date, the Issuer has, after having paid or provided for items of higher priority in the Pre-Enforcement Revenue Priority of Payments, insufficient funds to make payment in full of all amounts of interest (including any accrued interest thereon) that would otherwise be payable absent the deferral provisions in respect of any Class of Notes (other than the Most Senior Class of Notes), then the Issuer will be entitled under Condition 18 (*Subordination by Deferral*) to defer payment of that amount (to the extent of the insufficiency) until the following Interest Payment Date or such earlier date as the relevant Class of Notes becomes due and repayable in full in accordance with the Conditions. Any such deferral in accordance with the Conditions will not constitute an Event of Default.

The obligation to pay interest on the Most Senior Class of Notes may not be deferred. Failure to pay interest on the Most Senior Class when due shall constitute an Event of Default under the Notes which may result in the Notes being declared due and payable, and the Security becoming enforceable in accordance with the Condition 12 (*Enforcement*).

3.2 **Subordination of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes**

The Class A Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times and will rank in priority to payments of interest and principal on all other Classes of Notes, as provided in the Conditions and the Transaction Documents.

The Class Y Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of the Class Y Payment and principal at all times, but, in relation to payment of the Class Y Payment and principal, subordinate to the Class A Notes as provided in the Conditions and the Transaction Documents.

The Class B Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but, in relation to payment of interest, subordinate to the Class A Notes and the Class Y Payments and, in relation to payment of principal, subordinate to the Class A Notes, as provided in the Conditions and the Transaction Documents.

The Class C Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but, in relation to payment of interest, subordinate to the Class A Notes, the Class B Notes and the Class Y Payments and, in relation to payment of principal, subordinate to the Class A Notes and the Class B Notes, as provided in the Conditions and the Transaction Documents.

The Class D Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but, in relation to payment of interest, subordinate to the Class A Notes, the Class B Notes, the Class C Notes and the Class Y Payments and, in relation to payment of principal, subordinate to the Class A Notes, the Class B Notes and the Class C Notes, as provided in the Conditions and the Transaction Documents.

The Class E Notes rank *pro rata and pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but, in relation to payment of interest,

subordinate to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class Y Payments and, in relation to payment of principal, subordinate to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, as provided in the Conditions and the Transaction Documents.

Prior to the service of an Enforcement Notice, the Class X Notes rank *pro rata* and *pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but subordinate to all payments due in respect of items ranking senior thereto in the Pre-Enforcement Revenue Priority of Payments, as provided in the Conditions and the Transaction Documents. Following the service of an Enforcement Notice, the Class X Notes rank *pro rata* and *pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but subordinate to all payments due in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, and to the Class Y Payments, as provided in the Conditions and the Transaction Documents.

The Class R1 Notes rank *pro rata* and *pari passu* without preference or priority among themselves in relation to payment of principal and the Class R1 Payment at all times, but, in relation to payment of the R1 Payments, subordinate to payments of interest on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, and the Class X Notes and to the Class Y Payment and, in relation to payment of principal, subordinate to Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, and the Class Y Notes, as provided in the Conditions and the Transaction Documents.

The Class R2 Notes rank *pro rata* and *pari passu* without preference or priority in relation to payment of principal and the Class R2 Payment at all times but, in relation to payment of the Class R2 Payment, subordinate to payment of interest on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, Class X Notes and to the Class Y Payment and, in relation to payment of principal, subordinate to Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, and the Class Y Notes, as provided in the Conditions and the Transaction Documents.

In addition to the above, payments on the Notes are subordinate to payments of certain fees, costs and expenses payable to the other Secured Creditors and reimbursement of liabilities to the other Secured Creditors (including, amongst others, the Note Trustee, the Security Trustee, the Issuer Account Bank, the Swap Provider (other than certain subordinated swap termination payments) and in relation to the Retention Financing Costs, the Servicer, the Cash Manager, the Paying Agents, the Registrar and the Agent Bank) and certain third parties. For further information on the likely costs payable to such Secured Creditors, please see "*Transaction Overview – Fees*" below.

To the extent that the Issuer does not have sufficient funds to satisfy its obligations to all its creditors, the holders of the lower ranking Notes will be the first to see their claims against the Issuer unfulfilled. However, there is no assurance that these subordination provisions will protect the holders of the more senior classes of Notes (including the Most Senior Class of Notes) from all or any risk of loss.

The priority of the Notes are further set out in "*Cashflows Application of Available Revenue Receipts prior to the service of an Enforcement Notice on the Issuer*", "*Cashflows Application of Available Redemption Receipts prior to the service of an Enforcement Notice on the Issuer*" and "*Cashflows Distributions Following the Service of an Enforcement Notice on the Issuer*".

3.3 **No sale of Portfolio before the Portfolio Sale Longstop Date will result in an early prepayment of the Notes**

The Originator will sell the Portfolio and the Issuer will acquire the Portfolio from the Originator on the Portfolio Sale Date. As at the Closing Date, the Originator will not hold beneficial title to any of the Loans in the Portfolio. The Originator is expected to acquire beneficial title to some of the Loans in the Portfolio pursuant to a call option granted by Finance Ireland RMBS No. 3 Designated Activity Company ("**FI RMBS 3 Call Option**"), and will then immediately sell these Loans to the Issuer under the Mortgage Sale Agreement on the Portfolio Sale Date. The notice in

respect of the FI RMBS 3 Call Option was delivered on 14 June 2024, and this was accepted on 14 June 2024, with an agreed call date of 24 June 2024. Finance Ireland RMBS No. 3 Designated Activity Company and the Originator have, on or prior to the Closing Date, entered into binding arrangements for the transfer of the Portfolio on the Portfolio Sale Date.

Notwithstanding the above, there remains a risk that the FI RMBS 3 Call Option does not get implemented on or prior to the Portfolio Sale Longstop Date. In this scenario, the Issuer will be required to redeem the Notes in full in accordance with Condition 8.6 (*Mandatory Redemption if no sale of Portfolio before Portfolio Sale Longstop Date*). This will negatively affect the yield to maturity of the Notes. Investors should take this into account when making their investment decision with respect to the Notes.

4. RISKS RELATING TO CHANGES TO THE STRUCTURE AND DOCUMENTS

4.1 Meetings of Noteholders, modification and waivers

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders (including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the requisite majority for such vote).

The Conditions also provide that the Note Trustee may agree, without the consent of the Noteholders or the other Secured Creditors (other than any Secured Creditors which are party to the relevant Transaction Document), to (a) except in the case of a Basic Terms Modification, any modification of, or the waiver or authorisation of, any breach or proposed breach of, the Conditions or any of the Transaction Documents which is not, in the opinion of the Note Trustee materially prejudicial to the interests of the Noteholders or (b) any modification which, in the opinion of the Note Trustee, is of a formal, minor or technical nature or to correct a manifest error. The Conditions also specify that certain categories of amendments (including changes to majorities required to pass resolutions or quorum requirements) would be classified as Basic Terms Modifications. Investors should note that a Basic Terms Modification is required to be sanctioned by an Extraordinary Resolution of the holders of the relevant affected Class or Classes of Notes, as applicable which are affected by such Basic Terms Modifications. The Note Trustee may also, without the consent of the Noteholders, if it is of the opinion that such determination will not be materially prejudicial to the interests of the Noteholders, at any time authorise or waive any proposed or actual breach of any of the covenants or provisions contained in the Conditions or the Transaction Documents.

The Note Trustee and the Security Trustee may also be obliged, in certain circumstances, to agree to amendments to the Conditions and/or the Transaction Documents for the purpose of (i) complying with, or implementing or reflecting, any change in the criteria of one or more of the Rating Agencies which may be applicable from time to time, (ii) enabling the appointment of any additional or replacement account bank and/or the opening of any additional or replacement account in the name of the Issuer in accordance with the Transaction Documents, (iii) enabling the Notes to be (or to remain) listed on the regulated market of the Luxembourg Stock Exchange or, if applicable, the Vienna MTF, (iv) enabling the appointment of any additional or replacement account bank and/or the opening of any additional or replacement account in the name of the Issuer in accordance with the Transaction Documents, (v) enabling the Issuer or any of the other Transaction Parties to comply with FATCA (or any voluntary agreement entered into which a taxing authority in relation thereto), (vi) enabling the Issuer to comply with any obligations which apply to it under Regulation (EU) 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties and trade repositories dated 4 July 2012 (known as the European Market Infrastructure Regulation (as amended, including by Regulation (EU) No. 2019/834 of the European Parliament and of the Council dated 20 May 2019) as amended by Regulation (EU) 2019/834 of the European Parliament and of the Council dated 20 May 2019) ("EU EMIR") or the Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "UK EMIR") (including, without limitation, in each case, any associated regulatory technical standards and advice, guidance

or recommendations from relevant supervisory regulators in relation to either UK EMIR or EU EMIR) (vii) enabling the Notes, Finance Ireland as Originator and the Issuer to comply with the EU Securitisation Regulation, the UK Securitisation Regulation and any related regulatory technical standards adopted under the UK Securitisation Regulation or the EU Securitisation Regulation and/or any new regulations or official guidance in relation thereto (viii) changing the base rate in respect of the Notes from EURIBOR to an alternative base rate and make such other amendments as are necessary or advisable in the reasonable commercial judgment of the Issuer (or the Servicing Advisor on its behalf) to facilitate such change (a "**Base Rate Modification**") or (ix) changing the base rate in respect of the Swap Transaction to an alternative base rate as is necessary or advisable in the reasonable judgment of the Issuer (or the Servicing Advisor on its behalf) and the Swap Provider in order to align the Swap Transaction with the base rate of the Notes following a Base Rate Modification implemented after the Closing Date (each a "**Proposed Amendment**"), without the consent of the Noteholders.

In relation to any such Proposed Amendments, the Issuer is required, amongst other things, to certify in writing to the Note Trustee and the Security Trustee that the Issuer has provided at least 30 calendar days' notice (and where the Proposed Amendment is a Base Rate Modification, 40 calendar days' notice) to the Noteholders of each Class of the proposed modification in accordance with Condition 16 (*Notice to Noteholders*). Noteholders should be aware that, in relation to any Proposed Amendment, if Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes have not contacted the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within such notification period notifying the Issuer that such Noteholders do not consent to the modification, the Note Trustee and the Security Trustee may agree to such Proposed Amendments without the consent of the Noteholders.

If Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding have notified the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within the notification period referred to above that they do not consent to the Proposed Amendment, such modifications will not be made unless an Extraordinary Resolution of the Noteholders of the Most Senior Class of Notes then outstanding is passed in favour of such Proposed Amendment in accordance with Condition 13 (*Meetings of Noteholders, modification, waiver and substitution*). See "*Terms and Conditions of the Notes Condition 13 (Meetings of Noteholders, modification, waiver and substitution)*" below.

It is possible that on the Closing Date a third party investor may acquire a majority holding in the Class A Notes, potentially giving it an ability to pass or block Noteholder resolutions (including, for the avoidance of doubt, the ability to instruct the Note Trustee to deliver an Enforcement Notice following the occurrence of an Event of Default). Therefore, no assurance can be given that any other Noteholder will at any time have the power to block or pass Ordinary Resolutions and/or Extraordinary Resolutions whilst the Class A Notes are the Most Senior Class of Notes.

There is no guarantee that any changes made to the Transaction Documents and/or the Conditions pursuant to the obligations imposed on the Note Trustee and the Security Trustee, as described above, would not be prejudicial to the Noteholders.

Neither the Note Trustee nor the Security Trustee shall be obliged to agree to any Proposed Amendment which would have the effect of exposing the Note Trustee and/or the Security Trustee to any liability against which it has not been indemnified and/or secured and/or prefunded to its satisfaction or increasing the obligations or duties, or decreasing the protections of the Note Trustee and/or the Security Trustee in the Transaction Documents and/or the Conditions of the Notes.

4.2 **The Note Trustee and the Security Trustee are not obliged to act in certain circumstances**

Upon the occurrence of an Event of Default, the Note Trustee in its absolute discretion may, and if so directed in writing by the holders of not less than 25 per cent. in aggregate Principal Amount Outstanding of the Most Senior Class or if so directed by an Extraordinary Resolution of the

holders of the Most Senior Class outstanding shall (subject, in each case, to being indemnified and/or prefunded and/or secured to its satisfaction), deliver an Enforcement Notice to the Issuer declaring that the Notes are immediately due and repayable at their respective Principal Amount Outstanding, together with accrued interest thereon and the Security will become enforceable as provided in the trust deed dated on or about the Closing Date between the Issuer, the Security Trustee and the Note Trustee (the "**Trust Deed**").

Each of the Note Trustee and the Security Trustee may, at any time, at their discretion and without notice, take such proceedings, actions or steps against the Issuer or any other party to any of the Transaction Documents as it may think fit to enforce the provisions of (in the case of the Note Trustee) the Notes or the Trust Deed (including the Conditions) or (in the case of the Security Trustee) the Deeds of Charge or (in either case) the other Transaction Documents to which it is a party or in respect of which (in the case of the Security Trustee) it holds security. In respect of and at any time after the service of an Enforcement Notice, the Security Trustee may, at its discretion and without notice, take such steps as it may think fit to enforce the Security. However, neither the Note Trustee nor the Security Trustee shall be bound to take any such proceedings or steps (including, but not limited to, the giving of an Enforcement Notice in accordance with Condition 11 (*Events of default*)) unless it should have been directed to do so by the holders of not less than 25 per cent. in aggregate Principal Amount Outstanding of the Most Senior Class and it shall have been indemnified and/or secured and/or prefunded to its satisfaction.

In addition, each of the Note Trustee and the Security Trustee benefit from indemnities given to them by the Issuer pursuant to the Transaction Documents which rank in priority to the payments of interest and principal on the Notes.

In relation to the covenant to be given by the Retention Holder to the Issuer and the Security Trustee in the Mortgage Sale Agreement in accordance with the EU Securitisation Regulation and the UK Securitisation Regulation regarding the material net economic interest to be retained by the Retention Holder in the securitisation and certain requirements as to providing investor information in connection therewith, neither the Note Trustee nor the Security Trustee will be under any obligation to monitor the compliance by the Retention Holder with such covenant and will not be under any obligation to take any action in relation to non-compliance with such covenant (unless otherwise directed by the Secured Creditors (including the Noteholders) in accordance with the Transaction Documents and subject always to their right to be indemnified against any liability they may incur by so acting).

4.3 **Conflict between Noteholders**

The Trust Deed and the Deeds of Charge contain provisions requiring the Note Trustee and the Security Trustee to have regard to the interests of all Classes of Noteholders as regards all powers, trusts, authorities, duties and discretions of the Note Trustee and the Security Trustee (except where expressly provided otherwise).

If, in the Note Trustee's or, as the case may be, the Security Trustee's opinion, however, there is or may be a conflict between the interests of the holders of one or more Classes of Notes, on the one hand, and the interests of the holders of one or more Classes of Notes, on the other hand, then the Note Trustee or, as the case may be, the Security Trustee is required to have regard only to the interests of the holders of the relevant affected Class of Notes ranking in priority to other relevant Classes of Notes in the Post-Enforcement Priority of Payments.

Accordingly, holders of the Notes of the Most Senior Class may direct the Note Trustee or the Security Trustee to take action or pass an Extraordinary Resolution (unless the matter relates to a Basic Terms Modification) which is contrary to the interests of the other Classes of Noteholders.

As a result, holders of Notes other than the Most Senior Class may not have their interests taken into account by the Note Trustee (acting in accordance with the Trust Deed) or the Security Trustee (acting on the direction of the Note Trustee) when the Note Trustee or the Security Trustee exercises discretion where there is a conflict of interest.

In addition, prospective investors should note that the Trust Deed provides that no Extraordinary Resolution of the holders of a Class of Notes, other than the holders of the Most Senior Class, shall take effect for any purpose while the Most Senior Class remains outstanding unless such Extraordinary Resolution shall have been sanctioned by an Extraordinary Resolution of the holders of the Most Senior Class or the Note Trustee and/or Security Trustee is of the opinion it would not be materially prejudicial to the interests of the holders of the Most Senior Class.

For certain purposes, including the determination as to whether Notes are deemed outstanding, for the purposes of convening a meeting of Noteholders, those Notes which are for the time being held by or on behalf of or for the benefit of the Issuer, Finance Ireland, any holding company as defined in section 8 of the Companies Act 2014, as amended of Ireland ("**CA 2014**") ("**Holding Company**") of any of them or any subsidiary as defined in section 7 of CA 2014 ("**Subsidiary**") of any of the Issuer, Finance Ireland or of any such Holding Company (each such entity a "**Relevant Person**"), in each case as beneficial owner, shall (unless and until ceasing to be so held) be deemed not to remain outstanding or in issue, except where all of the Notes of any Classes are held by or on behalf of or for the benefit of one or more Relevant Persons, in which case such Classes of Notes (the "**Relevant Class**") shall be deemed to remain outstanding or in issue (as the case may be) except that, if there is any other Class of Notes ranking (with regard to the definition of Most Senior Class) *pari passu* with, or junior to, the Relevant Class and one or more Relevant Persons are not the beneficial owners of all the Notes of such Class, then the Relevant Class shall be deemed not to remain outstanding and provided that in relation to a matter relating to a Basic Terms Modification any Notes which are for the time being held by or on behalf of or for the benefit of a Relevant Person, in each case as beneficial owner, shall be deemed to remain outstanding or in issue, as applicable.

4.4 **Conflict between Noteholders and other Secured Creditors**

So long as any of the Notes are outstanding, except where expressly provided otherwise, neither the Security Trustee nor the Note Trustee shall have regard to the interests of the other Secured Creditors as regards all powers, trusts, authorities, duties and discretions of the Note Trustee and the Security Trustee, subject to the provisions of the Trust Deed, Condition 13.5 (*Modification to the Transaction Documents*), 13.6 (*Additional Right of Modification*) and 13.7 (*Base Rate Modification and Swap Rate Modification*).

5. **COUNTERPARTY AND THIRD PARTY RISKS**

5.1 **Delay in payment by the Borrowers may affect the Issuer's ability to make payments on the Notes**

The Issuer is subject to the risk of insufficiency of funds on any Interest Payment Date as a result of payments being made late by Borrowers (if, for example, such payment is made after the end of the Collection Period immediately preceding the Interest Payment Date). This risk is addressed in respect of the Collateralised Notes and (in certain cases) the Class Y Payments by the provision of liquidity from alternative sources (including, in the case of the Class A Notes and the Class Y Payments, the Class A Liquidity Reserve Fund Release Amounts (subject to the limitations set out in the definition of Class A Liquidity Deficit), in the case of all of the Rated Notes and the Class Y Payments, the General Reserve Fund Release Amounts (subject to the limitations set out in the definition of Revenue Deficit) and the General Reserve Fund Excess Amounts, in case of all the Collateralised Notes only, and the use of Principal Addition Amounts (subject to the limitations set out in the definition of Senior Expenses Deficit)), as more fully described in the section entitled "*Credit Structure*". However, no assurance can be made as to the effectiveness of such liquidity support features, or that such features will protect the Noteholders from all risk of delayed payment and/or loss.

5.2 **Early termination payments under the Swap Transaction in certain circumstances**

Subject to the following, the Swap Agreement will provide that, upon the occurrence of certain events, the Swap Transaction may be terminated and a termination amount may be payable by either the Issuer or the Swap Provider. The amount of such payment could be determined by one or

both parties, and may reflect, among other things, the cost of entering into a replacement transaction at the time and third party market data such as rates, prices, yields and yield curves, or similar information derived from internal sources of the party or parties making the determination. Any termination payment due by the Issuer, other than (where applicable) in respect of any Hedge Subordinated Amounts, will rank prior to payments in respect of the Notes. As such, if any termination amount is payable to the Swap Provider, the payment of such termination amount may lead to a shortfall in amounts available to pay interest and principal on all the Notes.

Any additional amounts required to be paid by the Issuer following termination of the Swap Transaction (including any extra costs incurred in entering into a replacement swap that are not otherwise provided for) to the extent not satisfied by amounts applied in accordance with the Swap Collateral Account Payments will also rank prior to payments in respect of the Notes. This may lead to a shortfall in amounts available to pay interest on the Notes and, following service of an Enforcement Notice on the Issuer (which has not been revoked), interest and principal on the Notes.

If the Swap Transaction is terminated, no assurance can be given as to the ability of the Issuer to enter into a replacement swap transaction, or if a replacement swap transaction is entered into, as to the ultimate creditworthiness of the swap provider for this replacement swap transaction.

5.3 Prior written consent of Swap Provider for certain modifications to Transaction Documents

In respect of any modifications to any of the Transaction Documents which, in the opinion of the Swap Provider, would (a) have the effect that immediately thereafter, the Swap Provider would be required to pay more to, or receive less from, a third party transferee if it were to transfer the Swap Transaction to such third party transferee (subject to and in accordance with Section 7 of the Swap Agreement) than would otherwise be the case if such amendment were not made; (b) have the effect, directly or indirectly, of altering (i) the amount, timing, calculation or priority of any payments due from the Issuer or from the Swap Provider (including pursuant to any gross-up or indemnity under the Swap Agreement) or the amount of collateral or other credit support required to be posted or returned under the Swap Agreement or other actions to be taken by the Swap Provider linked to the rating of the Notes; (ii) the Swap Provider's rights in relation to any security (howsoever described, and including as a result of changing the nature or the scope of, or releasing such security) granted by the Issuer in favour of the Security Trustee on behalf of the Secured Creditors; (iii) the Swap Collateral Account Payments or the manner in which the Swap Collateral Accounts operate or (iv) any redemption rights in respect of the Notes; (c) have the effect of altering any requirement to obtain the Swap Provider's prior consent (written or otherwise) in respect of any matter or (d) otherwise adversely affect the Swap Provider, the prior written consent of the Swap Provider is also required prior to such amendments being made. A failure in these circumstances to obtain such consent from the Swap Provider would mean that the Issuer is unable to make modifications to the relevant Transaction Documents, which could have an adverse effect on the value and/or liquidity of the Notes.

5.4 Claims against third parties

On the Portfolio Sale Date the Originator will assign its causes and rights of actions against solicitors and valuers to the Issuer pursuant to the Mortgage Sale Agreement, to the extent they are assignable. The Originator has, pursuant to the Mortgage Sale Agreement, undertaken, where appropriate, to either instigate action against such solicitor or valuer, provided that the Issuer first indemnifies the Originator, as applicable, for the costs of taking such action, and subject to any limitations or conditions contained in the relevant documentation under which the Originator acquired title to the related Loan. Any failure by or inability of the Originator to take action against third parties may have an adverse effect on the Issuer's ability to make payments of interest and/or principal in respect of the Notes.

5.5 Ratings of the Notes

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency if, in its judgement,

circumstances (including a reduction in the perceived creditworthiness of third parties, including a reduction in the credit rating of the Swap Provider and/or the Issuer Account Bank) in the future so warrant. See also "*Change of counterparties*" below. At any time, any Rating Agency may revise its relevant rating methodology, with the result that any rating assigned to the Rated Notes may be withdrawn, lowered or qualified.

Rating agencies other than the Rating Agencies could seek to rate the Rated Notes and if such unsolicited ratings are lower than the comparable ratings assigned to the Rated Notes by the Rating Agencies, those unsolicited ratings could have an adverse effect on the value of the Rated Notes. For the avoidance of doubt and unless the context otherwise requires, any reference to "**ratings**" or "**rating**" in this Prospectus is to the ratings assigned by the Rating Agencies only.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances while the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

5.6 **Rating Agency confirmation in relation to the Rated Notes in respect of certain actions**

The terms of certain Transaction Documents provide that certain actions to be taken by the Issuer and/or the other parties to the Transaction Documents are contingent on such actions not having an adverse effect on the ratings assigned to the Rated Notes. In such circumstances, the Note Trustee or the Security Trustee may require the Issuer to seek confirmation from the Rating Agencies that certain actions proposed to be taken by the Issuer and the Note Trustee, or, as the case may be, the Security Trustee will not have an adverse effect on the then current ratings of the Rated Notes (a "**Rating Agency Confirmation**").

A Rating Agency Confirmation that any action or inaction proposed to be taken by the Issuer or the Note Trustee or as the case may be, the Security Trustee will not have an adverse effect on the then current ratings of the Rated Notes does not, for example, confirm that such action (i) is permitted by the terms of the Transaction Documents or (ii) is in the best interests of, or not prejudicial to, the Noteholders. While entitled to have regard to the fact that the Rating Agencies have confirmed in writing that the then current ratings of the Rated Notes would not be adversely affected, the above does not impose or extend any actual or contingent liability on the Rating Agencies to the Secured Creditors (including the Noteholders), the Issuer, the Note Trustee, the Security Trustee or any other person or create any legal relationship between the Rating Agencies and the Secured Creditors (including the Noteholders), the Issuer, the Note Trustee, the Security Trustee or any other person whether by way of contract or otherwise. In addition the Note Trustee and/or the Security Trustee, as applicable, may, but is not required to, have regard to any Rating Agency Confirmation.

Any such Rating Agency Confirmation may or may not be given at the sole discretion of each Rating Agency. Certain Rating Agencies have indicated that they will no longer provide Rating Agency Confirmations as a matter of policy. To the extent that a Rating Agency Confirmation cannot be obtained, whether or not a proposed action will ultimately take place will be determined in accordance with the provisions of the relevant Transaction Documents and specifically the relevant modification and waiver provisions. It should be noted that, depending on the nature of the request, the timing of delivery of the request and of any information needed to be provided as part of any such request, it may be the case that a Rating Agency cannot provide a Rating Agency Confirmation in the time available or at all, and the Rating Agency will not be responsible for the consequences thereof. A Rating Agency Confirmation, if given, will be given on the basis of the facts and circumstances prevailing at the relevant time and in the context of cumulative changes to the transaction of which the securities form part since the Closing Date. A Rating Agency

Confirmation represents only a restatement of the opinions given as at the Closing Date and cannot be construed as advice for the benefit of any parties to the transaction.

Where the Transaction Documents allow the Note Trustee or the Security Trustee to seek a Rating Agency Confirmation and a written request for such Rating Agency Confirmation or response is delivered to each Rating Agency by or on behalf of the Issuer and (i) (A) one Rating Agency (such Rating Agency, a "**Non-Responsive Rating Agency**") indicates that it does not consider such Rating Agency Confirmation or response necessary in the circumstances or that it does not, as a matter of practice or policy, provide such Rating Agency Confirmation or response or (B) within 30 days of delivery of such request, no Rating Agency Confirmation or response is received and/or such request elicits no statement by such Rating Agency that such Rating Agency Confirmation or response could not be given; and (ii) one Rating Agency gives such Rating Agency Confirmation or response based on the same facts, then such condition to receive a Rating Agency Confirmation or response from each Rating Agency shall be modified so that there shall be no requirement for the Rating Agency Confirmation or response from the Non-Responsive Rating Agency if the Issuer provides to the Note Trustee and the Security Trustee a certificate signed by two directors certifying and confirming that each of the events in sub-paragraphs (i) (A) or (B) and (ii) has occurred, the Issuer having sent a written request to each Rating Agency.

If no such Rating Agency Confirmation is forthcoming within 30 days of such a request and two directors of the Issuer have certified the same in writing to the Note Trustee and the Security Trustee (an "**Issuer Certificate**"), Note Trustee and the Security Trustee shall be entitled (but not obliged) to assume from a written certificate of the Cash Manager to the Note Trustee and Security Trustee (a "**Cash Manager Certificate**") that such proposed action:

- (a) (while any of the Rated Notes remain outstanding) has been notified to the Rating Agencies;
- (b) would not adversely impact on the Issuer's ability to make payment when due in respect of the Notes;
- (c) would not affect the legality, validity and enforceability of any of the Transaction Documents or any Security; and
- (d) (while any of the Rated Notes remain outstanding) the then current rating of the Rated Notes would not be reduced, qualified, adversely affected or withdrawn,

upon which confirmation from the Rating Agencies, Issuer Certificate and/or Cash Manager Certificate, the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person for so doing. In being entitled to take into account any such confirmation from the Rating Agencies, it is agreed and acknowledged by the Note Trustee and the Security Trustee that this does not impose or extend any actual or contingent liability for each of the Rating Agencies to the Security Trustee, the Note Trustee, the Noteholders or any other person or create any legal relations between each of the Rating Agencies and the Security Trustee, the Note Trustee, the Noteholders or any other person whether by way of contract or otherwise.

Where a Rating Agency Confirmation is a condition to any action or step under any Transaction Document and it is deemed to be modified as a result of a Non-Responsive Rating Agency not having responded to the relevant request from the Issuer within 30 days, there remains a risk that such Non-Responsive Rating Agency may subsequently downgrade, qualify or withdraw the then current ratings of the Rated Notes as a result of the action or step. Such a downgrade, qualification or withdrawal to the then current ratings of the Rated Notes may have an adverse effect on the value of the Rated Notes.

5.7 **The Servicer's aggregate liability is limited in certain circumstances and any changes in the Servicer could delay collection of payments on Loans**

Pepper will be appointed as Servicer by the Issuer and, as applicable, the Originator, to service the Loans and their Related Security. If the Servicer breaches the terms of the Servicing Agreement, then:

- (a) prior to the delivery of an Enforcement Notice, the Issuer (acting with the prior written consent of the Security Trustee, itself acting on the instructions of the Note Trustee (which acts on the instructions of the Noteholders)); or
- (b) after delivery of an Enforcement Notice, the Security Trustee (itself acting on the instructions of the Note Trustee (which acts on the instructions of the Noteholders)),

will be entitled to terminate the appointment of the Servicer in accordance with the terms of the Servicing Agreement. Upon any such termination, the Issuer and the Originator shall use their reasonable endeavours (with the assistance of the Back-Up Servicer Facilitator) to appoint a substitute servicer in its place whose appointment is approved by the Security Trustee (acting on the instructions of the Note Trustee (itself acting on the instructions of the Noteholders)).

The aggregate liability of the Servicer in respect of any claim arising out of or in connection with the Servicing Agreement shall, except in respect of matters for which the Servicer has agreed not to exclude or limit liability for under the Servicing Agreement, (i) be limited to an amount equal to (x) the aggregate of the Servicer Fee paid or payable to the Servicer in accordance with clause 11 (*Servicing Fees*) of the Servicing Agreement, in the preceding twelve (12) month period multiplied by (y) 1.5 for so long as the Servicer is appointed under the Servicing Agreement and (ii) not include any claim for any increased costs and expenses, loss of profit, business, contracts, revenues or anticipated savings or for any special indirect or consequential damage of any nature whatsoever. Matters for which the Servicer has agreed, in the Servicing Agreement, not to exclude or limit liability include: death or personal injury caused by its negligence or that of its employees, agents or sub-contractors; fraud (including fraudulent misrepresentation) and any liability which cannot be excluded or limited by applicable law or regulation.

In the event that the Issuer suffers a loss in respect of the Portfolio, or becomes liable to a third party, in each case as a result of any claim arising out of or in connection with the performance (or non-performance) of the Servicer's duties and obligations under the Servicing Agreement and the Servicer is liable to the Issuer for such acts or omissions pursuant to the terms of the Servicing Agreement, any loss over and above the liability cap set out in the Servicing Agreement (to the extent enforceable under applicable law and other than as a result of the fraud, Gross Negligence (as defined in the Servicing Agreement) or wilful default of the Servicer or that of its officers, directors or employees) may be irrecoverable by the Issuer. This may result in less proceeds being available to meet the obligations of the Issuer in respect of the Notes.

Any change in Servicer could delay collection of payments on the Loans and ultimately could adversely affect the ability of the Issuer to make payments in full on the Notes.

If a Servicer Termination Event occurs, there can be no assurance that a substitute servicer with sufficient experience of servicing the Loans and their Related Security would be found who would be willing and able to service the Loans and their Related Security on the terms, or substantially similar terms, set out in the Servicing Agreement. Further, it may be that the terms on which a substitute servicer may be appointed are substantially different from those set out in the Servicing Agreement and the terms may be such that the Noteholders may be adversely affected. In addition, as described below, any substitute servicer will be required, inter alia, to be authorised under Part V of the Central Bank Act 1997, as amended (the "**CBA 1997**") in order to service Loans and their Related Security. The ability of a substitute servicer to fully perform the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a substitute servicer may affect payments on the Loans and hence the Issuer's ability to make payments when due on the Notes.

Further, if the appointment of the Servicer is terminated, the collection of payments on the Loans and the provision of the Services could be disrupted during the transitional period in which the performance of the Services is transferred to a replacement servicer. Any failure or delay in

collection of payments on the relevant Loans resulting from a disruption in the servicing of the Loans could ultimately adversely affect payments of interest and principal on the Notes. A failure or delay in the performance of the services, in particular reporting obligations, could affect the payments of interest and principal on the Notes.

Such risks described above are mitigated by the provisions of the Servicing Agreement pursuant to which the Back-Up Servicer Facilitator, in certain circumstances, will assist the Issuer in appointing a substitute servicer.

In addition, Noteholders should be aware that the Servicer has no obligation itself to advance payments that Borrowers fail to make in a timely fashion.

For further details on the arrangements with the Servicer, please see "*Overview of the Key Transaction Documents – Servicing Agreement*" below.

5.8 **Issuer reliance on other third parties**

The Issuer is a party to contracts with a number of other third parties who have agreed to perform services in relation to the Issuer and/or the Notes. In particular, but without limitation, the Corporate Services Provider has agreed to provide certain corporate services to the Issuer pursuant to the Corporate Services Agreement, the Issuer Account Bank has agreed to provide the Issuer Accounts to the Issuer pursuant to the Bank Account Agreement, the Swap Provider has agreed to enter into the Swap Transaction pursuant to the terms of the Swap Agreement, the Servicer has agreed to service the Portfolio pursuant to the Servicing Agreement, the Back-Up Servicer Facilitator has agreed to provide back-up servicer facilitation services in relation to the Portfolio pursuant to the Servicing Agreement, the Cash Manager has agreed to provide cash management services pursuant to the Cash Management Agreement, the Paying Agents, the Registrar and the Agent Bank have all agreed to provide services with respect to the Notes pursuant to the Agency Agreement and the Servicing Advisor has agreed to provide certain monitoring services in relation to the Portfolio to the Issuer pursuant to the Servicing Agreement. In the event that any of the above parties were to fail to perform their obligations under the respective agreements to which they are a party and/or are removed or if such a party resigns without a sufficiently experienced substitute or any substitute being appointed in their place promptly thereafter, collections on the Portfolio and/or payments to Noteholders may be disrupted and Noteholders may be adversely affected.

The Transaction Documents do not contain any restrictions on the ability of any third party providing services to the Issuer to change their business plans and strategies and access other business lines or markets after the Closing Date. Any changes of the business plans and strategies of a third party service provider could expose that third party to additional risks (including regulatory, operational and systems risk) which could have an adverse effect on the ability of the third party to provide services to the Issuer and consequently could have an adverse effect on the Issuer's ability to perform its obligations under the Notes.

Investors should note that a third party may be unable to perform its obligations under the agreements to which it is a party as a result of factors outside of its control, including disruptions due to technical difficulties and local, national and/or global macroeconomic factors (such as epidemics). In particular, whilst the Servicer's systems and infrastructure have continued to routinely operate and function to date, there is no guarantee that this will continue and such factors may affect the servicing, collection and enforcement of the Loans by the Servicer in accordance with the Servicing Agreement. It may also result in the Originator not having the financial resources to honour its repurchase obligations under the Mortgage Sale Agreement. In the event that any of the above parties were to fail to perform their obligations under the respective agreements to which they are a party, then the Issuer may be unable to perform its obligations under the Notes, including its obligations to make timely payments on the Notes.

One of the lasting impacts of the COVID-19 outbreak is that many organisations (including courts, other government agencies and service providers) have implemented policies which includes the right for their employees to work at home. Such remote working policies are dependent upon a

number of factors to be successful, including communications, internet connectivity and the proper functioning of information technology systems, all of which can vary from organisation to organisation. As a result, such remote working policies may lead to delays or disruptions in otherwise routine functions.

5.9 Conflicts of interest

Certain of the Relevant Parties and their respective affiliates are acting in a number of capacities in connection with the transaction described herein. Those Relevant Parties and any of their respective affiliates acting in such capacities will have only the duties and responsibilities expressly agreed by each such entity in the relevant capacity and will not, by reason of it or any of its affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided with respect to each such capacity. In no event shall such Transaction Parties or any of their respective affiliates be deemed to have any fiduciary obligations to any person by reason of their respective affiliates acting in any capacity.

In particular, Bank of America Europe Designated Activity Company (the "**Warehouse Lender**"), an affiliate of BofA Securities, has provided financing to the Originator indirectly through a warehouse facility made available to Eclipse Ireland Residential Securities Designated Activity Company as the interim purchaser (the "**Interim Purchaser**"). The proceeds of such warehouse facility have been and will continue to be used by the Interim Purchaser to purchase loans from the Originator. Part of the proceeds of the issuance of the Notes will be used by the Issuer to, on or about the Portfolio Sale Date, purchase the Loans from the Originator. The Originator will use some of the proceeds of the sale of the Loans to purchase the relevant Loans from the Interim Purchaser under the warehouse facility before on-selling such Loans to the Issuer. The Interim Purchaser as borrower under the warehouse facility and the Originator will ultimately use such funds to partially repay the Warehouse Lender. Other than where required in accordance with applicable law, the Warehouse Lender and its affiliates have no obligation to act in any particular manner as a result of its or the Warehouse Lender's prior, indirect involvement with the Loans and any information in relation thereto. With respect to the refinancing, the Warehouse Lender and its affiliates will act in their own commercial interest.

In addition to the interests described in this Prospectus, the Arranger and the Joint Lead Managers and their respective related entities, associates, officers or employees (each a "**Joint Lead Managers Related Person**"):

- (a) may from time to time be a Noteholder or have other interests with respect to the Notes and they may also have interests relating to other arrangements with respect to a Noteholder or a Note;
- (b) may receive (and will not have to account to any person for) fees, brokerage and commission or other benefits and act as principal with respect to any dealing with respect to any Notes;
- (c) may purchase all or some of the Notes and resell them in individually negotiated transactions with varying terms; and
- (d) maybe or have been involved in a broad range of transactions including, without limitation, banking, lending, advisory, dealing in financial products, credit derivative and liquidity transactions, investment management, corporate and investment banking and research in various capacities in respect of the Notes, the Issuer or any other Transaction Party or any related entity, both on its own account and for the account of other persons.

Prospective investors should be aware that:

- (i) each Joint Lead Managers Related Person in the course of its business (including in respect of interests described above) may act independently of any other Joint Lead Managers Related Person or Relevant Party;

- (ii) to the maximum extent permitted by applicable law, the duties of each Joint Lead Managers Related Person in respect of the Notes are limited to the relevant contractual obligations set out in the Transaction Documents (if any) and, in particular, no advisory or fiduciary duty is owed to any person. No Joint Lead Managers Related Person shall have any obligation to account to the Issuer, any Relevant Party or any Noteholder for any profit as a result of any other business that it may conduct with either the Issuer or any Relevant Party;
- (iii) a Joint Lead Managers Related Person may have or come into possession of information not contained in this Prospectus that may be relevant to any Noteholder or to any decision by a potential investor to acquire the Notes and which may or may not be publicly available to potential investors ("**Relevant Information**");
- (iv) to the maximum extent permitted by applicable law no Joint Lead Managers Related Person is under any obligation to disclose any Relevant Information to any other Joint Lead Managers Related Person, to any Relevant Party or to any potential investor and this Prospectus and any subsequent conduct by a Joint Lead Managers Related Person should not be construed as implying that such Joint Lead Managers Related Person is not in possession of such Relevant Information; and
- (v) each Joint Lead Managers Related Person may have various potential and actual conflicts of interest arising in the ordinary course of its businesses, including in respect of the interests described above. For example, a Joint Lead Managers Related Person's dealings with respect to a Note, the Issuer or a Relevant Party, may affect the value of a Note.

These interests may conflict with the interests of a Noteholder and the Noteholder may suffer loss as a result. To the maximum extent permitted by applicable law, a Joint Lead Managers Related Person is not restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents, the Notes or the interests described above and may otherwise continue or take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of Noteholders, and the Joint Lead Managers Related Persons in so doing so act in its own commercial interests and without notice to, and without regard to, the interests of any such person.

In relation to certain potential conflicts of interest relating to Citigroup Global Markets Limited, please also see "*Risk Factors - Risks in respect of the Retention Financing – Retention Financing*" and "*Risk Factors - Risks in respect of the Retention Financing – Conflicts of interest – Citigroup Global Markets Limited and its affiliates*".

5.10 **Interest rate risk**

The Issuer is subject to the risk of a mismatch between the rate of interest payable in respect of the Loans and the rate of interest payable in respect of the Notes. Some of the Loans in the Portfolio pay or will pay a fixed rate of interest for an initial period of time before switching to a variable rate, and certain other Loans may, following a Product Switch, either extend the initial fixed rate period or switch from a variable rate to a fixed rate of interest. However, the Issuer's liabilities under the Notes are based on EURIBOR for the relevant period.

To provide a hedge against the possible variance between:

- (a) the fixed rates of interest payable on the Fixed Rate Loans in the Portfolio; and
- (b) the rate of interest under the Notes being calculated by reference to EURIBOR,

the Issuer will enter into an interest rate swap transaction with the Swap Provider under the Swap Master Agreement on or about the Closing Date (the "**Swap Transaction**").

Additionally, on each Swap Determination Date (as defined below), the Swap Provider and the Issuer will determine the adjustment (if any) to the Swap Notional Amount and the Swap Fixed Rate of the Swap Transaction that will apply from the Swap Calculation Period commencing on the immediately following Swap Payment Date, in accordance with the following: (a) the Swap Provider and the Issuer will calculate the Swap Shortfall Amount (as defined below) for each Swap Calculation Period that commences on or after the immediately following Swap Payment Date; and (b) if the Swap Provider and the Issuer confirm that a Swap Adjustment Trigger (as defined below) applies to such Swap Determination Date, the Swap Transaction will be adjusted such that, (i) for each Swap Calculation Period that has a Swap Shortfall Amount greater than zero, the Swap Notional Amount for such Swap Calculation Period will be increased by an amount equal to that Swap Shortfall Amount and (ii) the Swap Provider and the Issuer will calculate the Swap Blended Fixed Rate (as defined below) in respect of such Swap Determination Date, which will apply for the purpose of determining the Swap Fixed Rate from the Swap Calculation Period that commences on the immediately following Swap Payment Date (see "*Credit Structure Interest Rate Risk for the Notes*" below).

The Swap Agreement provides that the Euro amounts owed by the Swap Provider on any payment date under the Swap Transaction (which corresponds to an Interest Payment Date) may be netted against the Euro amounts owed by the Issuer on the same payment date under the Swap Transaction, where the amounts owed by the Swap Provider may be negative. Accordingly, if the amounts owed by the Swap Provider to the Issuer on a payment date under the Swap Transaction are negative, the Issuer will pay the sum of the amounts owed by the Issuer and the absolute value of the amounts owed by the Swap Provider to the Swap Provider on such payment date in respect of the Swap Transaction. Otherwise, if the amounts owed by the Issuer to the Swap Provider on such payment date in respect of the Swap Transaction are greater than the amounts owed by the Swap Provider to the Issuer on the same payment date under the Swap Transaction, then the Issuer will pay the difference to the Swap Provider on such payment date in respect of the Swap Transaction. Conversely, if the amounts owed by the Swap Provider to the Issuer on a payment date are greater than the amounts owed by the Issuer to the Swap Provider on the same payment date in respect of the Swap Transaction, then the Swap Provider will pay the difference to the Issuer on such payment date; and if the amounts owed by both parties are equal on a payment date in respect of the Swap Transaction are equal, neither party will make a payment to the other on such payment date in respect of the Swap Transaction.

A failure by the Swap Provider to make timely payments of amounts due under the Swap Transaction will constitute a default under the Swap Agreement and the Issuer will be exposed to the possible variance between, on the one hand, amounts it receives on the Loans (which are calculated by reference to the various fixed rates payable on the Loans in the Portfolio) and, on the other hand, amounts it owes on the Notes (which are calculated by reference to EURIBOR). Such default and resulting potential variance may cause the Issuer to have insufficient funds to make the required payments under the Notes.

The fixed amount calculated in respect of the Issuer for a Swap Calculation Period under the Swap Transaction is equal to the product of: (a) the notional amount of the Swap Transaction for that Swap Calculation Period (where the notional amount of the Swap Transaction is amortised over time as specified in the confirmation for such Swap Transaction, and may be increased on a Swap Determination Date), (b) a fixed rate, which is adjusted each time the Swap Transaction is adjusted to reflect the rate that would apply to a reference transaction representing the adjustment, as calculated in accordance with the confirmation for such Swap Transaction, and (c) the relevant day count fraction. The fixed rate used for the calculation of the fixed amounts in respect of the Issuer is not intended to be an exact match for the interest rates that the Issuer receives in respect of the Fixed Rate Loans in the Portfolio.

The floating amount calculated in respect of the Swap Provider for a Swap Calculation Period under the Swap Transaction will be equal to the product of: (a) EURIBOR for such Swap Calculation Period, subject to a floor of minus 0.67% until the Step-Up Date under the Notes and minus 1.005% thereafter, (b) the notional of the Swap Transaction for that Swap Calculation Period and (c) the relevant day count fraction. If the floating amount is more negative than the

positive margin on the Notes in relation to which the rates of interest are calculated with reference to EURIBOR, the Issuer will not be compensated by a corresponding reduction in payments of interest to the relevant Noteholders or by payment from the Noteholders. If the Issuer is required to pay an amount to the Swap Provider under the Swap Transaction, the Issuer may have insufficient funds to meet its payment obligations to the Secured Creditors.

The Issuer has not entered into any interest rate swap or other hedging transaction in relation to Loans other than Fixed Rate Loans, and as a result there is no hedge in respect of the risk of any variances in the Variable Rate charged on any Loans in the Portfolio and interest set by reference to three month EURIBOR (except for the first Interest Period, which shall be the linear interpolation of EURIBOR for three and six month Euro deposits) (the "**Reference Rate**") on the Notes. The Issuer is therefore subject to the risk of a mismatch between the rate of interest payable in respect of such Loans and the rate of interest payable in respect of the Notes, which in turn may result in insufficient funds being available for the Issuer to meet its payment obligations to the Secured Creditors. See further "*Risk Factors - Macroeconomic and market risks*" – "*Changes or uncertainty in respect of EURIBOR may affect the value or payment of interest under the Notes*" below.

5.11 **Borrower default or failure by the Servicer may affect the Issuer's ability to make payments on the Notes**

The Issuer is subject to the risk of default in payment by the Borrowers and the failure by the Servicer, on behalf of the Issuer, to realise or recover sufficient funds under the arrears and default procedures in respect of any Loan and its Related Security in order to discharge all amounts due and owing by the relevant Borrower(s) under such Loan, which may adversely affect payments on the Notes. This risk is mitigated to some extent by certain credit enhancement features which are described in the section entitled "Credit Structure". However, no assurance can be made as to the effectiveness of such credit enhancement features, or that such credit enhancement features will protect the Noteholders from all risk of loss. Should there be credit losses arising in respect of the Loans, this could have an adverse effect on the ability of the Issuer to make payments of interest and/or principal on the Notes.

5.12 **Change of counterparties**

The parties to the Transaction Documents who receive and hold monies or provide support to the transaction pursuant to the terms of such documents (such as the Issuer Account Bank and the Swap Provider) are required to satisfy certain criteria in order that they can continue to be a counterparty to the Issuer.

These criteria include requirements in relation to the short term, unsecured unguaranteed and unsubordinated debt obligations of the Issuer Account Bank and the Swap Provider and/or long term unsecured unguaranteed and unsubordinated debt obligations of the Issuer Account Bank and the Swap Provider. If the party concerned ceases to satisfy the applicable criteria, including the ratings criteria set out in the relevant Transaction Documents and as described in this Prospectus, then the rights and obligations of that party (including the right or obligation to receive monies on behalf of the Issuer) may be required to be transferred to another entity which does satisfy the applicable ratings criteria. In these circumstances, the terms agreed with the replacement entity may not be as favourable as those agreed with the original party pursuant to the relevant Transaction Document and the cost to the Issuer may therefore increase. In addition, it may not be possible to find an entity with the ratings prescribed in the relevant Transaction Document who would be willing to act in the role. This may reduce amounts available to the Issuer to make payments of interest and principal on the Notes and/or lead to a downgrade in the ratings of the Rated Notes.

In addition, should the applicable criteria cease to be satisfied, then the parties to the relevant Transaction Document may agree to amend or waive certain of the terms of such document, including the applicable criteria (although this will not apply to mandatory provisions of law), in order to avoid the need for a replacement entity to be appointed. The Note Trustee may agree to instruct the Security Trustee to agree to such amendment and/or waivers on the basis that these

would not be materially prejudicial to the Noteholders. Accordingly, the consent of Noteholders may not be required in relation to such amendments and/or waivers.

6. MACROECONOMIC AND MARKET RISKS

6.1 Changes or uncertainty in respect of EURIBOR may affect the value or payment of interest under the Notes

Various interest rate benchmarks (including the Eurozone Interbank Offered Rate for deposits ("EURIBOR")) are the subjects of recent national and international regulatory guidance and proposals for reform. EURIBOR is set by the European Money Markets Institute (the "EMMI") and has been subject to review and various investigations to analyse how increasing loss of confidence in interbank offered rates, including EURIBOR, could be improved. Whilst no changes to the EURIBOR methodology are expected in the short term, the EMMI has stated that it remains committed to reforming the EURIBOR quote based methodology to anchor it in transactions and adapt it to the evolving market circumstances.

Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark; and/or (iii) leading to the disappearance of the benchmark. Any of the above changes, or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on the Notes.

Investors should be aware that:

- (a) actions by the EMMI, regulators or law enforcement agencies may affect EURIBOR (and/or the determination or availability thereof) in unknown ways which could affect the determination of the rate of interest on the Notes and the value of the Notes, including to cause EURIBOR to be lower and/or more volatile when it would otherwise be;
- (b) if EURIBOR is discontinued or is otherwise unavailable and an amendment as described in paragraph (c) below has not been made at the relevant time, then the rate of interest on the Notes will be determined for a period by the fall-back provisions provided for under Condition 6 (*Interest*) of the Terms and Conditions of the Notes, although such provisions, being dependent in part upon the provision by reference banks of offered quotations for leading banks in the Eurozone interbank market (in the case of EURIBOR), may not operate as intended (depending on market circumstances and the availability of rate information at the relevant time) and may in certain circumstances result in the effective application of a fixed rate based on the rate which applied in the previous period when EURIBOR was available;
- (c) while (i) an amendment may be made under Condition 13.7 (*Base Rate Modification and Swap Rate Modification*) of the Terms and Conditions of the Notes to change the base rate on the Notes from EURIBOR to an alternative base rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation and subject to certain conditions being satisfied including no objection to the proposal being received by at least 10 per cent. of Noteholders of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding (in this regard please also refer to the risk factor entitled "*Meetings of Noteholders, Modifications and Waivers*"), (ii) the Issuer (or the Servicing Advisor on its behalf) is under an obligation to use commercially reasonable endeavours to determine an Alternative Base Rate in accordance with Condition 13.7 (*Base Rate Modification and Swap Rate Modification*) under Condition 6.3 (*Rate of Interest, Class Y Payment, Class R1 Payment and Class R2 Payment*), and (iii) an amendment may be made under Condition 13.7 (*Base Rate Modification and Swap Rate Modification*) to change the base rate that then applies in respect of the Swap Transaction for the purpose of aligning the Swap Transaction to the base rate of the Notes following a Base Rate Modification, there can be no assurance that any such amendments will be made or, if made, that they (i) will fully or effectively mitigate all relevant interest rate

risks or result in an equivalent methodology for determining the interest rates on the Notes and the Swap Transaction or (ii) will be made prior to any date on which any of the risks described in this risk factor may become relevant (in this regard, please also refer to the risk factor entitled "*Meetings of Noteholders, Modifications and Waivers*"); and

- (d) if EURIBOR is discontinued, and whether or not an amendment is made under Condition 13.7 (*Base Rate Modification and Swap Rate Modification*) to change the base rate with respect to the Notes as described in paragraph (c) above, if a proposal for an equivalent change to the base rate on the Swap Transaction is not approved in accordance with Condition 13.7 (*Base Rate Modification and Swap Rate Modification*), there can be no assurance that the applicable fall-back provisions under the Swap Agreement would operate such that the Swap Transaction under the Swap Agreement would continue to effectively mitigate interest rate risk in respect of the Notes. This, in turn, could cause a risk of mismatch of interest and reduced payments on the Notes.

In addition, no assurance can be given that the fall-back provisions relating to the changes of EURIBOR methodology set out below and elsewhere in this Prospectus relating to the Notes will be adopted in the same manner with respect to the calculation of EURIBOR under the Swap Transaction. As a result of this mismatch the Issuer may find itself in an under-hedged position.

Moreover, any of the above matters (including an amendment to change the base rate as described in paragraph (c) above) or any other significant change to the setting or existence of EURIBOR could affect the ability of the Issuer to meet its obligations under the Notes and/or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Notes. Changes in the manner of administration of EURIBOR could result in amendments to the Conditions and the Swap Transaction, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequences in relation to the Notes. No assurance may be provided that relevant changes will not occur with respect to EURIBOR or any other relevant interest rate benchmark and/or that such benchmarks will continue to exist. Investors should consider these matters when making their investment decision with respect to the Notes.

6.2 **General market volatility**

Concerns relating to credit risk (including that of sovereigns and of those entities which have exposure to sovereigns) persist, in particular with respect to current economic, monetary and political conditions in the Eurozone and outside the Eurozone. Any slowdown or reversal of the positive economic or political trends (including as a result of any default or restructuring of indebtedness by one or more Member States or institutions and/or any changes to, including any break up of, the Eurozone or any other epidemic) may cause further severe stress in the financial system generally.

If such conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any exit(s) by any member state(s) from the European Union and/or any changes to, including any break up of, the Eurozone), then these matters may cause further severe stress in the financial system generally and/or may adversely affect the Irish housing market, the Issuer, one or more of the other parties to the Transaction Documents (including the Originator, the Retention Holder, the Servicing Advisor, the Servicer, the Issuer Account Bank and/or the Swap Provider) and/or any Borrower in respect of the underlying loans.

In addition, geopolitical risks, such as Russia's invasion of Ukraine and the ongoing Israel-Hamas conflict, may have potential implications on the Irish economy (including, for example, an increase in energy and oil prices or inflation), which may weaken economic conditions and negatively impact the ability of Borrowers' to make timely payments on their mortgage loans.

No assurance can be given that any of the matters outlined above would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market.

6.3 **Increases in prevailing market interest rates may adversely affect the performance of the Portfolio**

The Portfolio will include Loans subject to variable rates of interest set by the Originator (each, a "**Variable Rate**") from time to time. Borrowers with a Loan subject to a Variable Rate will be exposed to increased monthly payments if the related mortgage interest rate adjusts upward. Any increase in the Variable Rate may have an effect by increasing levels of default (in particular if this not covered by the security for the Loan) and would increase the likelihood of default in respect of the loans in the Portfolio.

Borrowers seeking to avoid increased monthly payments (caused by, for example, the expiry of an initial fixed or low introductory rate, or a rise in the related mortgage interest rates) by refinancing their Loans may no longer be able to find available replacement mortgage loans at comparably low interest rates. Any decline in housing prices may also leave Borrowers with insufficient equity in their homes to permit them to refinance. These events, alone or in combination, may contribute to higher delinquency rates and losses on the Portfolio, which in turn may affect the ability of the Issuer to make payments of interest and principal on the Notes.

6.4 **Absence of secondary market or lack of liquidity in the secondary market may affect the market value of the Notes**

There is currently a limited secondary market for the Notes, and no assurance is provided that an active and liquid secondary market for the Notes will develop further. None of the Notes have been, or will be, registered under the Securities Act or any other applicable securities laws and they are subject to certain restrictions on the resale and other transfer thereof as set out under "*Subscription and Sale*" and "*Transfer Restrictions and Investor Representations*". To the extent that a secondary market exists or develops further, it may not continue for the life of the Notes or it may not provide Noteholders with liquidity of investment with the result that a Noteholder may not be able to find a buyer to buy its notes readily or at prices that will enable the Noteholder to realise a desired yield. Any investor in the Notes must be prepared to hold their Notes until the Final Maturity Date.

The secondary market for mortgage-backed securities similar to the Notes has at times experienced limited liquidity resulting from reduced investor demand for such securities. Limited liquidity in the secondary market may have an adverse effect on the market value of mortgage-backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the requirements of limited categories of investors.

Whilst central bank schemes such as, amongst others, the European Central Bank's liquidity scheme provides an important source of liquidity in respect of eligible securities, further restrictions in respect of the relevant eligibility criteria for eligible collateral which applies and will apply in future are likely to adversely impact secondary market liquidity for mortgage-backed securities in general, regardless of whether the Notes are eligible securities. Neither the Issuer nor Finance Ireland (in any of its capacities) gives any representation, warranty, confirmation or guarantee to any investor in the Notes that the Notes will, either upon issue or at any time prior to redemption in full, satisfy all or any of the requirements for such central bank schemes.

In addition, potential investors should be aware that global markets have had numerous set-backs in recent years, and uncertainty is continuing in many parts of the global markets. This could affect the secondary market for instruments similar to the Notes. In particular, at the date of this Prospectus, there are challenges not only for the Irish economy, but also for the broader European economy as a result of the Russian invasion of Ukraine, higher inflation rates and a higher cost of living. It is unclear what the effect of these events will have on the Eurozone and/or the Irish economy. This uncertainty may have implications for the liquidity of the Notes in the secondary market.

Any potential investor in the Notes should make their own conclusions and seek their own advice with respect to whether or not the Notes constitute eligible collateral for such central bank schemes.

7. LEGAL RISKS AND REGULATORY RISKS

7.1 Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory position for certain investors in securitisation exposures and/or on the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and should consult their own advisors in this respect. None of the Issuer, the Joint Lead Managers, the Arranger, Finance Ireland, the Servicer or any other party to the Transaction Documents makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the Closing Date, or at any time in the future. Any changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

For more details about regulatory capital requirements, please see the section titled "*Regulatory Disclosures – The Basel Capital Accord and Regulatory Capital Requirements*".

7.2 EU Securitisation Regulation

The EU Securitisation Regulation establishes certain common rules for all securitisations that fall within its scope (including recast of pre-1 January 2019 risk retention and investor due diligence regimes). The EU Securitisation Regulation applies in general (subject to certain grandfathering) from 1 January 2019. Amendments are expected to be introduced around certain elements (such as disclosure templates) of the EU Securitisation Regulation regime as a result of the European Commission's 2022 report on the functioning of the EU Securitisation Regulation. On 18 October 2023, the Commission Delegated Regulation (EU) 2023/2175 supplementing the EU Securitisation Regulation with regard to regulatory technical standards specifying in greater detail the risk retention requirements (the "**EU Recast Risk Retention RTS**") was published in the Official Journal of the European Union.

The EU Securitisation Regulation has direct effect in member states of the EU. Once the EU Securitisation Regulation is incorporated in the EEA Agreement, it will apply more broadly in the EEA (including Iceland, Norway and Liechtenstein).

The EU Securitisation Regulation requirements apply to the Notes. As such, certain European regulated institutional investors, including credit institutions, investment firms, authorised alternative investment fund managers, insurance and reinsurance undertakings, certain undertakings for the collective investment of transferable securities ("**UCITs**") and certain regulated pension funds (institutions for occupational retirement provision), are required to comply under Article 5 with certain due diligence requirements prior to holding a securitisation position and on an ongoing basis while holding the position. Among other things, prior to holding a securitisation position, such institutional investors are required to verify certain matters with respect to compliance of the relevant transaction parties with credit granting standards, risk retention and transparency requirements. If the relevant European-regulated institutional investor elects to acquire or holds the Notes having failed to comply with one or more of these requirements, this may result in the imposition of a penal capital charge on the Notes for institutional investors subject to regulatory capital requirements or a requirement to take a corrective action, in the case of a certain type of regulated fund investors. Prospective investors should therefore make themselves aware of requirements applicable to them and are required to independently assess and determine the sufficiency of the information described in this Prospectus

generally for the purposes of complying with such due diligence requirements under the EU Securitisation Regulation.

Various parties to the securitisation transaction described in this Prospectus (including both Finance Ireland (as the originator) and the Issuer) are also subject to the requirements of the EU Securitisation Regulation. There is at present some uncertainty in relation to what is or will be required to demonstrate compliance with the EU Securitisation Regulation to national regulators, including in particular with regard to the transparency obligations imposed under Article 7 of the EU Securitisation Regulation, the application of the transitional provisions in connection with such Article and the final position on the new disclosure templates to be applied under the new technical standards. On 3 September 2020, the Commission Delegated Regulation 2020/1224 supplementing Regulation (EU) 2017/2402 with regard to regulatory technical standards and Commission Implementing Regulation (EU) 2020/1225 with regard to implementing technical standards were published in the Official Journal of the European Union, specifying the information and the details of a securitisation to be made available by the originator, sponsor and SSPE.

Article 6 of the EU Securitisation Regulation imposes a direct obligation on the originator, sponsor or original lender of a securitisation to retain on an ongoing basis a material net economic interest in the securitisation of not less than five per cent. in the securitisation. If the Retention Holder does not comply with its obligations under Article 6 of the EU Securitisation Regulation, the ability of the Noteholders to sell and/or the price investors receive for, the Notes in the secondary market may be adversely affected.

The EU authorities have published only limited binding guidance relating to the satisfaction of the requirements of the EU Securitisation Regulation by institutions such as Finance Ireland as Originator and the Issuer. Furthermore, any relevant regulator's views with regard to the EU Securitisation Regulation may not be based exclusively on technical standards, guidance or other information known at this time.

If a competent authority determines that the transaction or an investor's investment in the transaction did not comply or is no longer in compliance with the transparency requirements under the EU Securitisation Regulation, then: (i) investors may be required by their regulator to set aside additional capital against their investment in the Notes or take other remedial measures in respect of their investment in the Notes; and (ii) the Issuer and Finance Ireland as Originator may be subject to the pecuniary, administrative and/or criminal sanctions prescribed under the EU Securitisation Regulation. Any such sanctions levied on Finance Ireland as Originator and/or Issuer may materially adversely affect their ability to perform their obligations under the Transaction Documents and, in the case of the Issuer, the Notes, which may have a negative impact on the price and liquidity of the Notes in the secondary market.

No assurance can be given that the EU Securitisation Regulation, or the interpretation or application thereof, will not change, and, if any such change is effected, whether such change would affect the regulatory position of current or future investors in the Notes.

Prospective investors in the Notes are responsible for analysing their own regulatory position, and should consult their own advisers in this respect.

For further information on the EU Securitisation Regulation and the obligations thereunder, please see section titled "*Regulatory Disclosures – EU Securitisation Regulation*" below.

7.3 **UK Securitisation Regulation**

The UK Securitisation Regulation commenced application in the UK at 11p.m. (London time) on 31 December 2020. The UK Securitisation Regulation largely mirrors (with some amendments) the EU Securitisation Regulation as it applied in the UK at the end of 2020 (meaning that the amendments that took effect in the EU from 9 April 2021 are not part of the UK regime). The currently applicable UK Securitisation Regulation regime will be revoked and replaced in due course with a new recast regime as a result of the ongoing legislative reforms introduced under the "Edinburgh Reforms" of the UK financial services unveiled on 9 December 2022 and the UK post-

Brexit move to "A Smarter Regulatory Framework for Financial Services", the Financial Services and Markets Act 2020 regime, as amended by the Financial Services and Markets Act 2023 ("**FSMA 2023**") and related thereto (i) the Securitisation Regulations 2024 (SI 2024/102) published on 29 January 2024 (the "**2024 UK SR SI**"); as well as (ii) the PRA and the FCA consultations published in the summer of 2023, including the FCA consultation addendum of October 2023 (the "**PRA/FCA 2023 Consultations**") on the exercise of their rulemaking powers and the draft amendments to their rulebooks which (together with the FSMA and 2024 UK SR SI) recast (with various changes that result in further divergence from the EU Securitisation Regulation) currently applicable UK Securitisation Regulation requirements. The 2024 UK SR SI provides that upon the repeal of the current UK Securitisation Regulation pursuant to FSMA 2023, the securitisation regulatory framework of the UK will be moved to a combination of 2024 UK SR SI and the PRA and FCA rulebooks. On 30 April 2024, a policy statement by the FCA (PS24/4): Rules relating to securitisation and a policy statement made by the PRA (PS7/24): Securitisation: General requirements (together, the "**UK Regulatory Rules**") were published. The UK Regulatory Rules have an implementation date of 1 November 2024 (6 months after the date of publication). Under the transitional provisions contained therein, the UK Regulatory Rules will not apply to securitisation transactions which close before 1 November 2024. The implementation date of the UK Regulatory Rules is in line with the Securitisation (Amendment) Regulations 2024, made on 22 May 2024 which contemplates the repeal of the UK Securitisation Regulation commencing on 1 November 2024.

Note that under the proposed reforms to the UK Securitisation Regulation mentioned above, the recast of the investor due diligence provisions will result in a more fragmented implementation of such requirements such that different type of UK institutional investors (depending on how and by which UK regulators they are authorised or supervised) will need to refer to either the provisions on investor due diligence in the 2024 UK SR SI, or such provisions in the UK Regulatory Rules. While the recast of the requirements (which broadly builds on the existing requirements under Article 5 but with some material divergence from the requirements under Article 5 of the EU Securitisation Regulation, in particular around due diligence on transparency and the delegation of the investment decision to another investor) is fragmented, it is intended to ensure coherence of the overall framework. However, the final position is yet to be confirmed.

Although the parties to the securitisation transaction described in this Prospectus are not subject to the requirements of the UK Securitisation Regulation, certain investors in the Notes may be subject to the due diligence requirements of investors under Article 5 of the UK Securitisation Regulation. Some divergence between EU and UK regimes exists already and the risk of more divergence in the future between EU and UK regimes cannot be ruled out. Prospective investors should therefore make themselves aware of the requirements applicable to them and are required to independently assess and determine the sufficiency of the information described in this Prospectus generally for the purposes of complying with the due diligence requirements under the UK Securitisation Regulation.

7.4 **Insolvency legislation in Ireland relating to the Issuer**

The Issuer has represented in the Transaction Documents that it will have its centre of main interests in Ireland and may therefore be subject to the insolvency proceedings under the laws of Ireland.

Preferred Creditors under Irish Law

Under Irish law, if a liquidator or a receiver is appointed to an Irish company such as the Issuer, the claims of a limited category of preferential creditors will take priority over the claims of unsecured creditors and holders of floating security. These preferred claims include taxes, such as income tax and corporation tax payable before the date of appointment of the liquidator or receiver and arrears of VAT, together with accrued interest thereon. For the circumstances in which fixed security granted by the Issuer may take effect as floating security see "*Fixed Charges may take effect as Floating Charges*" below.

Under Irish law, upon an insolvency of an Irish company such as the Issuer, when applying the proceeds of assets subject to fixed security which may have been realised in the course of a

liquidation or receivership, the claims of a limited category of creditors will take priority over the claims of creditors holding the relevant fixed security. These preferred claims include the remuneration, costs and expenses properly incurred by any examiner of the company (which may include any borrowings made by an examiner to fund the company's requirements for the duration of his or her appointment) which have been approved by the Irish courts. See "*Risk Factors - Legal Risks and Regulatory Risks*"- "*Insolvency legislation in Ireland relating to the Issuer*" - "*Examinership*" below.

The holder of a fixed security over the book debts of an Irish incorporated company (which would include the Issuer) may be required by the Irish Revenue Commissioners (the "**Revenue Commissioners**"), by notice in writing from the Revenue Commissioners, to pay to them sums equivalent to those which the holder received in payment of debts due to it by the company. Where the holder of the security has given notice to the Revenue Commissioners of the creation of the security within 21 days of its creation, the holder's liability is limited to the amount of certain outstanding Irish tax liabilities of the company (including liabilities in respect of value added tax) arising after the issuance of the Revenue Commissioners' notice to the holder of fixed security.

The Revenue Commissioners may also attach any debt due to an Irish tax resident company (or any person who is liable to pay, remit or account for tax to the Revenue Commissioners) by another person in order to discharge any liabilities of the company in respect of outstanding tax (whether Irish, EU, or pursuant to a treaty or mutual assistance agreement) whether the liabilities are due on its own account or as an agent or trustee. The scope of this right of the Revenue Commissioners has not yet been considered by the Irish courts and it may override the rights of holders of security (whether fixed or floating) over the debt in question.

In relation to the disposal of assets of any Irish tax resident company which are subject to security, a person entitled to the benefit of the security may be liable out of the proceeds of such disposal for tax in relation to any capital gains made by the company on a disposal of those assets on exercise of the security.

In relation to the disposal of assets of an Irish tax resident individual which are subject to security, such as the disposal of a property on which the borrower has secured a Loan, a person entitled to the benefit of the security may be liable for tax in relation to any capital gains made by the individual on a disposal of those assets on exercise of the security. Capital gains tax will arise on the gain at a rate which is currently 33 per cent. Tax is calculated by reference to the excess of the net disposal proceeds over the allowable acquisition costs (including enhancement expenditure) and is calculated without reference to the amounts outstanding on a Loan. There is an exemption from Irish capital gains tax on gains arising on the disposal by an individual of his principal private residence, which broadly covers gains arising on the disposal of the dwelling house which has been occupied by the individual as his only or main residence since he acquired the property.

This principal private residence exception is unlikely to be available in respect of the disposal of Properties which secure BTL Loans. Therefore, if enforcement proceedings are taken in respect of a BTL Loans and the related Property is disposed of as part of such proceedings, any capital gains tax arising from such disposal will have to be paid out of the net disposal proceeds and in priority to the payments of amounts due under the related Loan. This priority ranking of a capital gains tax liability could result in there being insufficient funds to repay all amounts due under the related Loan even in circumstances where the net disposal proceeds are greater than such due amounts (a "**shortfall risk**") and in turn may adversely affect the funds available to the Issuer to meet its obligations under the Notes.

However, this shortfall risk will only occur where, as part of enforcement proceedings, a capital gain is realised on the disposal of a Property. In addition, this shortfall risk is most likely to arise in circumstances where (i) a Borrower originally acquires a Property with finance provided by a third party and subsequently refinances such acquisition with a Loan (a "**Refinancing Loan**") or (ii) the Originator has provided a further advance to an existing Loan, in each case in circumstances where the value of the Property has increased from the date of its original acquisition.

Examinership

Examinership is a court procedure available under CA 2014 to facilitate the survival of Irish companies in financial difficulties.

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after this appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to this appointment. Furthermore, the examiner may sell assets, the subject of a fixed charge. However, if such power is exercised the examiner must account to the holders of the fixed charge for the amount realised and discharge the amount due to the holders of the fixed charge out of the proceeds of the sale.

During the period of protection (which is for an initial period of 70 days and may be extended to 100 days if the examiner is unable to formulate a scheme of arrangement), the examiner will compile proposals for a compromise or scheme of arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. However, in no circumstances can the period of protection extend for more than 12 months from the date of the presentation of the petition. A scheme of arrangement may be approved by either the Irish Circuit Court or the Irish High Court (as applicable, and each, a "**relevant Irish Court**") when at least one class of creditors whose interests or claims would be impaired by the implementation of the proposals has voted in favour of the proposals and the relevant Irish Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and the proposals are not unduly prejudicial to the interests of any interested party. The relevant Irish Court shall not confirm such proposals for a scheme of arrangement unless, among other things:

- (a) a majority in number of creditors whose interests or claims would be impaired by implementation of the proposals, representing a majority in value of the claims that would be impaired by implementation of the proposals, have voted to accept the proposals; or
- (b) if the above requirement is not satisfied, then a majority of the classes of creditors whose interests would be impaired by the scheme of arrangement have voted to accept them, provided that at least one of those creditor classes is a class of secured creditors or is senior to the class of ordinary unsecured creditors; or
- (c) if the above requirement is not satisfied, at least one class of creditors whose interests or claims would be impaired by the proposals, other than a class which would not receive any payment or keep any interest in a liquidation, has voted to accept them; and
- (d) no dissenting creditor would be worse off if the proposals are confirmed and implemented than such a creditor would be if the normal ranking of liquidation priorities were applied, either in the event of liquidation, whether piecemeal or by sale as a going concern, or in the event of the next-best-alternative scenario if the proposals were not confirmed.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Security Trustee represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by the Issuer in the Conditions), the Security Trustee would be in a position to reject any proposal which was unfavourable to the Noteholders. The Security Trustee would only be obliged to reject any proposal act if (i) it were instructed to do so by the Note Trustee itself (acting on the instructions of the Noteholders through an Extraordinary Resolution) and (ii) it were indemnified and/or secured and/or prefunded to its satisfaction against any liabilities which it may incur by so acting. To the extent so instructed and indemnified, the

Security Trustee may be entitled to argue, on behalf of the Secured Creditors, at any Irish Court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Noteholders or the other Secured Creditors, or does not satisfy the “best interests of creditors” test, especially if such proposals included a writing down to the value of amounts due by the Issuer to the Noteholders or the other Secured Creditors or resulted in Noteholders or the other Secured Creditors receiving less than they would have if the Issuer was wound up.

Once confirmed by the relevant Irish Court, the scheme of arrangement becomes binding on the company and all creditors whose rights are impaired by the scheme of arrangement and who received notice of the meetings convened for the purposes of voting on the proposals.

If an examiner were appointed to the Issuer, there are a number of risks to the Noteholders. One such risk is that the Security Trustee may not be able to enforce the Security during the period of examinership. Further, if an examiner were appointed to the Issuer, any scheme of arrangement approved may involve the writing down of the debt due by the Issuer to the Noteholders and the other Secured Creditors as secured pursuant to the Irish Deed of Charge and the English Deed of Charge or if a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant Irish Court) will take priority over the amounts secured by the charges held for the benefit of the Noteholders and the other Secured Creditors under the Irish Deed of Charge and the English Deed of Charge. The Noteholders are also subject to the risk that the examiner would seek to set aside any negative pledge in the Notes prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period.

7.5 **Insolvency proceedings and subordination provisions**

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a swap provider's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty (so-called “**flip clauses**”). Such provisions are similar in effect to the terms which will be included in the Transaction Documents relating to the subordination of Hedge Subordinated Amounts.

The Supreme Court of the United Kingdom has held that a flip clause as described above is valid under English law. Contrary to this, however, in parallel proceedings the U.S. Bankruptcy Court has held that such a subordination provision is unenforceable under U.S. bankruptcy law and that any action to enforce such provision would violate the automatic stay which applies under such law in the case of a U.S. bankruptcy of the counterparty. The implications of this conflict remain unresolved.

If a creditor of the Issuer (such as the Swap Provider) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales (including, but not limited to, the U.S.), and it is owed a payment by the Issuer, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the English law governed Transaction Documents (such as a provision of the applicable Priority of Payments which refers to the ranking of the Swap Provider's payment rights in respect of Hedge Subordinated Amounts). In particular, based on the decision of the U.S. Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under U.S. bankruptcy laws.

In general, if a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction outside England and Wales and any relevant foreign judgment or order was recognised by the English courts, there can be no assurance that such actions would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

Lastly, given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents will include terms providing for the subordination of Hedge Subordinated Amounts, there is a risk that the final outcome of the dispute in such judgments (including any recognition action by the English courts) may result in negative rating pressure in respect of the Rated Notes. If any rating assigned to the Rated Notes is lowered, the market value of the Notes may reduce.

7.6 **Fixed charges may take effect as floating charges**

It is the essence of a fixed charge that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security. Dealing with the assets includes disposing of such assets or expending or appropriating the moneys or claims constituting such assets. Accordingly, if and to the extent that such liberty is given to the Issuer, any such fixed charge may instead operate as a floating charge.

In particular, the Irish courts have held that in order to create a fixed charge on receivables it is necessary to oblige the chargor to pay the proceeds of collection of the receivables into a designated bank account and to prohibit the chargor from withdrawing or otherwise dealing with the monies standing to the credit of such account without the consent of the chargee.

Floating charges have certain weaknesses, including that they have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off, that they rank after certain preferential creditors (such as claims of employees and certain taxes on winding-up), that they rank after certain insolvency remuneration expenses and liabilities, that the examiner of a company has certain rights to deal with the property covered by the floating charge and that they rank after fixed charges.

In case of any such recharacterisation of a fixed charge as a floating charge, there can be no assurance that Noteholders will not be adversely affected by the ranking of the security or the reduction in floating charge realisations upon enforcement of the security.

7.7 **Change of Law**

The structure of the transaction as described in this Prospectus and, inter alia, the issue of the Notes and the ratings which are to be assigned to the Rated Notes are based on the law and administrative practice in effect as at the date of this Prospectus as it affects the parties to the transaction and the Portfolio, and having regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to such law (including any change in regulation which may occur without a change in primary legislation), the interpretation or application of any law or regulation, changes to the regulatory capital treatment of the Notes for some or all investors, or practice or tax treatment after the date of this Prospectus nor can any assurance be given as to whether any such change would adversely affect the ability of the Issuer to make payments under the Notes and/or the regulatory capital requirements in respect of the Notes for potential investors.

7.8 **European Market Infrastructure Regulation**

EU EMIR and the requirements under it impose certain obligations on parties to "over the counter" ("OTC") derivative contracts, including (i) a mandatory clearing obligation for certain product classes of, and certain categories of counterparties to, standardised OTC derivatives contracts (the "**Clearing Obligation**") through an authorised central counterparty (a "**CCP**"), (ii) a margin posting obligation for OTC derivatives contracts not subject to the Clearing Obligation (the "**Collateral Obligation**"), (iii) daily valuation, timely confirmation and other risk-mitigation techniques for OTC derivatives contracts not subject to the Clearing Obligation, (iv) the reporting of all derivative contracts to trade repository (the "**Reporting Obligation**"), and (v) in respect of all derivative contracts, portfolio reconciliation and record keeping requirements..

Under EU EMIR, a party to derivative transaction can be classified as (i) a financial counterparty (an "FC"), or (ii) a non-financial counterparty (an "NFC"), with further categorisation as + or – under each classification.

EU EMIR excludes securitisation special purpose entities from being categorised as AIFs (as defined in Article 4(1)(a) of Directive 2011/61/EU (AIFMD)), which are generally FCs under EU EMIR, and so the Issuer is of the view that it should be categorised as an NFC.

The Issuer is of the view that it should be treated as an NFC- and consequently, the Issuer should not be subject to the Clearing Obligation but will be subject to the Reporting Obligation and certain risk mitigation obligations. In addition, because the Reporting Obligation applies to the entry into, modification or termination of all derivative contracts by FCs and NFCs (including the Issuer), it will therefore apply to the Swap Transaction entered into by the Issuer. The Issuer's Reporting Obligation covers the details of all derivative contracts (including details of any collateral posted) that are required to be reported to a registered or recognised trade repository. EU EMIR provides for mandatory delegated reporting by any FCs subject to EU EMIR on behalf of any NFC-s also subject to EU EMIR for any OTC derivative contracts entered into by such FC and NFC-.

If the Issuer's counterparty status changes because it exceeds a clearing threshold, the Issuer may become subject to greater obligations under EU EMIR, including the Clearing Obligation. For the purposes of satisfying the Clearing Obligation, EU EMIR requires derivative counterparties to become clearing members of a CCP, a client of a clearing member or to otherwise establish indirect clearing arrangements with a clearing member. Each derivative counterparty will be required to post both initial and variation margin to the clearing member (which in turn will itself be required to post margin to the CCP). In this regard, it should be noted that it is not clear that the Swap Transaction would constitute a type of OTC derivative contract that would be subject to the Clearing Obligation under the implementing measures made to date, if the Issuer were otherwise not exempt from the Clearing Obligation.

No assurances can be given that any future changes to EU EMIR would not cause the status of the Issuer to change and lead to an increased regulatory burden on the Issuer in respect of its hedging arrangements.

Investors should be aware of the following:

- (a) regardless of the Issuer's classification under EU EMIR, the Issuer may need to appoint a third party and/or incur costs and expenses to enable it to comply with the regulatory requirements imposed by EU EMIR, in particular, in relation to reporting and record-keeping; and
- (b) the characterisation of the Issuer under EU EMIR as is currently in force will determine whether, among other things, it is required to comply with the clearing, margin-posting and trading requirements in relation to the Swap Transaction or any replacement swap transaction. If it were required to clear, post margin or trade on an exchange or other electronic platform, it is unlikely that the Issuer would be able to comply with such an obligation.

Prospective investors should also be aware of the regulatory changes arising from EU EMIR and directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as amended) (together known as "EU MiFID II") / Regulation (EU) No 600/2014 of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) No 648/2012 ("EU MiFIR") and/or from Regulation (EU) No 2015/2365 of 25 November 2015 which was published in the Official Journal of the European Union on 23 December 2015 and took effect as of 12 January 2016 known as the Securities Financing Transactions Regulation ("SFTR" and together with EU EMIR, EU MiFID II and EU MiFIR, the "**Derivatives Regulations**"). SFTR may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the Issuer's ability to engage in transactions in OTC derivatives. If this does occur, a consequence of such increased costs or increased regulatory requirements is that investors may receive less interest or a lower return, as the case may be, which

may be material. Investors should consult their own independent advisers and make their own assessment about the potential risks posed by the Derivatives Regulations, in making any investment decision in respect of the Notes.

Please see section titled "*Regulatory Disclosures - European Market Infrastructure Regulation, Markets in Financial Instruments Directive and Securities Financing Transactions Regulation*" for further information in this regard.

It should also be noted that the EU Securitisation Regulation (which applied in general from 1 January 2019), among other things, makes provisions for the development of technical standards in connection with the EU EMIR regime specifying (i) an exemption from the Clearing Obligation and (ii) a partial exemption from the Collateral Obligation, in each case for non-cleared derivatives that are "simple, transparent and standardised" securitisation swaps (subject to the satisfaction of the relevant conditions). Please see the section titled "*Regulatory Disclosure – STS – Simple, transparent and standardised securitisation*" for further information in this regard.

In order to enable the Issuer to comply with any obligation which applies to it under EU EMIR, amendments may be made to the Transaction Documents or the Conditions without the consent of the Noteholders and without the consent of any Secured Creditors (other than those Secured Creditors who are party to the relevant Transaction Document(s)), provided that the Issuer certifies in writing to the Note Trustee that, in the reasonable opinion of the Issuer, such amendment would not (a) adversely impact the Issuer's ability to make payments when due in respect of the Notes; or (b) affect the legality, validity and enforceability of any of the Transaction Documents or any Security created therein, as described above under Condition 13 (*Meetings of Noteholders, modification, waiver and substitution*).

7.9 U.S. risk retention requirements

Finance Ireland, as the sponsor under Regulation RR (17 C.F.R. Part 246 implementing the Risk Retention Requirements of Section 15G of the United States Securities Exchange Act of 1934, as amended (the "**U.S. Risk Retention Rules**"), does not intend to retain at least 5 per cent. of the credit risk of the securitized assets for purposes of compliance with the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the "ABS interests" (as defined in Section 2 of the U.S. Risk Retention Rules) are issued) of all classes of ABS interests issued in the securitization transaction are sold or transferred to, or for the account or benefit of, U.S. persons (as defined in the U.S. Risk Retention Rules, "**Risk Retention U.S. Persons**"); (3) neither the sponsor nor the issuer of the securitization transaction is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Portfolio will be comprised of mortgage loans and their related security, all of which are originated by or acquired by the Originator, which is a company incorporated in Ireland. See the sections entitled "*The Originator, Retention Holder and Servicing Advisor*". Except with the prior consent of Finance Ireland as Originator in the form of a written waiver from Finance Ireland in respect of any sale or distribution of the Notes to Risk Retention U.S. Persons on the Closing Date (a "**U.S. Risk Retention Waiver**") and where such sale falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules, the Notes may not be sold to, or for the account or benefit of, any Risk Retention U.S. Person.

Prospective investors should note that the definition of U.S. person in the U.S. Risk Retention Rules is similar to, but not identical to, the definition of U.S. person under Regulation S, and that persons who are not "U.S. persons" under Regulation S may be U.S. persons under the U.S. Risk Retention Rules. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (b) and (h)(ii), which are different than

comparable provisions from Regulation S. Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- (a) any natural person resident in the United States;
- (b) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States³;
- (c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) any agency or branch of a foreign entity located in the United States;
- (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act⁴;

Each purchaser of a Note or a beneficial interest therein acquired in the initial distribution, by its acquisition of a Note or a beneficial interest in a Note, will be deemed to represent to the Issuer, Finance Ireland and the Joint Lead Managers that it (1) either (i) is not a Risk Retention U.S. Person or (ii) if it is a Risk Retention U.S. Person, it has obtained the prior written consent of Finance Ireland in the form of a U.S. Risk Retention Waiver, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein).

There can be no assurance that the requirement to request Finance Ireland to give its prior written consent to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person will be complied with or will be made by such Risk Retention U.S. Persons.

There can be no assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. No assurance can be given as to whether a failure by Finance Ireland to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) may give rise to regulatory action which may adversely affect the Notes or the market value of the Notes. Furthermore, the impact of the U.S. Risk

³ The comparable provision from Regulation S is "(ii) any partnership or corporation organised or incorporated under the laws of the United States.

⁴ The comparable provision from Regulation S "(vii)(B) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organised or incorporated, and owned, by accredited investors (as defined in 17 CFR 230.501(a)) who are not natural persons, estates or trusts.

Retention Rules on the securitization market generally is uncertain, and a failure by Finance Ireland to comply with the U.S. Risk Retention Rules could therefore negatively affect the market value and secondary market liquidity of the Notes.

None of the Joint Lead Managers or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Closing Date or at any time in the future. Prospective investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

7.10 **EU Benchmarks Regulation**

The EU Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU. The EU Benchmarks Regulation could have a material impact on the Notes, the interest rate of which is linked to EURIBOR, in particular, if the methodology or other terms of EURIBOR are changed in order to comply with the terms of the EU Benchmarks Regulation. Such changes could have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of EURIBOR. This could lead to changes or amendments being required to the interest calculation provisions in the Conditions, or result in adverse consequences to holders of the relevant Notes.

8. **RISKS IN RESPECT OF THE RETENTION FINANCING**

8.1 **Retention Financing**

On or about the Closing Date, the Originator (in its capacity as Retention Holder) will enter into financing arrangements by way of a repo transaction (the "**Retention Financing**") in respect of the Retained Exposures that it is required to acquire in order to comply with the EU Securitisation Regulation and the UK Securitisation Regulation. The Retention Financing would be provided directly or indirectly by a funding vehicle which is a special purpose vehicle whose shares are held on charitable trust (the "**Repo SPV**"). The Retention Holder will transfer title to the Retained Exposures in connection with the Retention Financing. The Retention Financing will be on full-recourse terms. Although the Originator will transfer legal and beneficial title to the Retention Exposures to the Repo SPV as part of the Retention Financing, the Originator would retain the economic risk in the Retention Exposures but not legal ownership of them.

The establishment and running costs of any Retention Financing (including, for the avoidance of doubt the cost of establishing and maintaining a special purpose vehicle for the purposes of such arrangements) will, at the direction of the Retention Holder, be payable by the Issuer in an amount up to the Retention Financing Costs Cap.

None of the Issuer, any Agent, the Security Trustee, the Note Trustee, the Joint lead Managers or any of their respective affiliates makes any representation, warranty or guarantee that the Retention Financing will comply with the EU Securitisation Regulation or with the UK Securitisation Regulation. In particular, should the Originator or Repo SPV default in the performance of its obligations under the Retention Financing, or the Retention Financing is otherwise terminated before its stated maturity, the Originator would not be entitled to have the Retention Exposures (or equivalent securities) retransferred to it and instead the Retention Financing will terminate on a cash settlement basis. In exercising its rights pursuant to the Retention Financing, the Repo SPV would not be required to have regard to the EU Securitisation Regulation or with the UK Securitisation Regulation and any such termination of the Retention Financing may therefore cause the transaction described in this Prospectus to be non-compliant with the Retention Requirements. See "*Risk Factors - Risks in respect of the Retention Financing*" – "*Conflicts of interest – The Retention Financing Parties*".

8.2 **Originator recourse risk**

The Originator will enter into the Retention Financing, as to which see "*Risk Factors - Risks in respect of the Retention Financing*" - "*Retention Financing*" above. Noteholders should also be aware that any incurrence of debt by the Originator, including that used to finance the acquisition of the Retention Exposures, could potentially lead to an increased risk of the Originator becoming insolvent and therefore unable to fulfil its obligations in its capacity as Originator, Servicing Advisor and Retention Holder.

8.3 **Conflicts of Interest – the Retention Financing parties**

The Originator will enter into the Retention Financing, as to which see "*Risk Factors - Risks in respect of the Retention Financing*" - "*Retention Financing*" above. Noteholders should also be aware that the terms of the Retention Financing are such that certain parties to it would benefit from a situation where credit losses are incurred on the Retained Exposures. Furthermore, title to the Retained Exposures will be transferred to the Repo SPV under the terms of the Retention Financing and the Repo SPV (or any other party to which title to the Retained Exposures is transferred) may sell the Retained Exposures or otherwise transfer title to the Retained Exposures to another party, and in doing so, neither the Repo SPV nor any other party to which title to the Retained Exposures is transferred shall have any duties or obligations to consider the effect of any such actions on the Noteholders. As of the Closing Date such parties are not otherwise parties to the Transaction Documents and, as such, have no direct rights to control or influence the performance of the transactions contemplated by the Transaction Documents.

8.4 **Conflicts of Interest – Citigroup Global Markets Limited and its affiliates**

Citigroup Global Markets Limited and its affiliates are a part of a global investment banking and securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. As such, they actively make markets in and trade financial instruments for their own account and for the accounts of customers in the ordinary course of their business. The financial services that Citigroup Global Markets Limited and/or its affiliates may provide also include providing or arranging financing and, as such, Citigroup Global Markets Limited and/or its affiliates may provide or arrange financing to the Originator (as to which see "*Risk Factors - Risks in respect of the Retention Financing*" - "*Retention Financing*" above in respect of the Retention Financing contemplated as of the Closing Date). If it is a lender under any such retention financing (which is not currently envisaged to be the case in respect of the Retention Financing), Citigroup Global Markets Limited and/or its affiliates could seek to enforce its security over all or some of the Retention Exposures and, directly or indirectly, take possession or sell such Retention Exposures to a third party. In addition, Citigroup Global Markets Limited and/or its affiliates may derive fees and other revenues from the provision or arrangement of any such financings.

9. **TAX RISKS**

9.1 **Corporation Tax – Deductibility of Interest**

Under the rules set out in Section 110 (the "**Section 110 Regime**") of the Taxes Consolidation Act 1997, as amended, of Ireland (the "**TCA**"), interest or other distributions may be re-characterised as a non-deductible distribution (and potentially subject to dividend withholding tax) where the payment is made to a person which is not resident in Ireland for tax purposes and which is not otherwise within the charge to corporation tax in Ireland and which is a "specified person".

A "specified person" in relation to the Issuer for these purposes means (A) a company which indirectly (i) controls the Issuer, (ii) is controlled by the Issuer, or (iii) is controlled by a third company which also directly or indirectly controls the Issuer, or (B) a person, or persons who are connected with each other, (i) from whom assets were acquired, (ii) to whom the Issuer has made loans or advances, (iii) to whom loans or advances held by the Issuer were made, or (iv) with whom the qualifying company has entered into specified agreements (as defined by Section 110 TCA), where the aggregate value of such assets, loans, advances or agreements represents not less

than 75 per cent of the aggregate value of the “qualifying assets” (as defined by Section 110 TCA) of the Issuer.

A person has "control" of the Issuer for these purposes where that person has (a) the power to secure by means of the holding of shares or the possession of voting power in or in relation to the Issuer or any other company, or by virtue of any powers conferred by the constitution, articles of association or other document regulating the Issuer or any other company, that the affairs of the Issuer are conducted in accordance with the wishes of that person, or (b) "significant influence" (being the ability to participate in the financial and operating policy decisions of a company) over the Issuer and holds an entitlement to more than 20 per cent of the shares in the Issuer, 20 per cent by principal value of the debt carrying profit-dependent or excessive interest issued by the Issuer (or any securities with no par value) or 20 per cent of the interest on such securities.

However, these recharacterisation rules under the Section 110 Regime only apply where the payment is made to a “specified person” and the Issuer, at the time the Notes were issued, was aware that interest or other distributions paid on such Notes would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a Member State of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty ("**Relevant Territory**"). As a result, these recharacterisation rules should not apply to the Notes as: (a) the Issuer has confirmed that, at the time any Notes (other than the Class Y Notes) were issued, the Issuer was not in possession or aware of any information, including information about any arrangement or understanding in relation to ownership of those Notes after that time, which could reasonably be taken to indicate that interest or other distributions paid on the Notes would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a Relevant Territory which generally applies to profits, income or gains received in that relevant territory by persons from sources outside that Relevant Territory (the "**Issuer Confirmation**"), and (b) the Class Y Notes will be held by either the Originator (which is an Irish resident company) or another Irish resident company or other person which will be within the charge to Irish corporation tax on receipt of the interest or other distributions on the Class Y Notes.

Irish Specified Property Business

Interest or other distributions paid on the Notes which are to any extent profit dependent (to the extent to which such payments exceed a reasonable commercial rate of return as determined at the creation of the Notes) or any part of which exceeds a reasonable commercial return may not be deductible in full to the extent that the interest is associated with a "specified property business" carried on by that qualifying company. A "specified property business" of a qualifying company means, subject to a number of exceptions, a business of holding 'specified mortgages', units in an IREF (being a specified form of investment undertaking within the meaning of Chapter 1B of Part 27 of the TCA) or shares that derive their value or the greater part of their value, directly or indirectly, from Irish land. A "specified mortgage" for this purpose is (a) a loan which is secured on, and which derives its value from, or the greater part of its value from, directly or indirectly, Irish land, (b) a 'specified agreement' (effectively a profit dependent derivative) which derives its value, or the greater part of its value, directly or indirectly, from Irish land or a loan to which (a) applies, or (c) the portion of a specified security (essentially a security carrying profit dependent or commercially excessive return in respect of which, if these specified property business rules did not apply to it, payments on that security would be deductible under Section 110 of the TCA) treated as attributable to the specified property business in accordance with the rules.

The legislation treats the holding of such assets as a separate business to the rest of the qualifying company's activities (if any). The qualifying company is taxed on any profit that is attributable to that business at 25% and any such interest that is profit dependent or any part of that interest which exceeds a reasonable commercial return is not deductible, subject to a number of exceptions including where the interest is paid to a person who is within the charge to corporation tax in Ireland in respect of that interest.

However, these rules do not apply to "CMBS/RMBS transactions" as defined in Section 110(5A) of the TCA. Broadly, a "CMBS/RMBS transaction" refers to a securitisation transaction within the

meaning of Article 4(1)(61) of the CRR (now Article 2(1) of the EU Securitisation Regulation) which is entered into by a Qualifying Company within the meaning of Section 110 of the TCA where the originator, within the meaning of Article 4 of the CRR (now Article 2(3) of the EU Securitisation Regulation), retains a net economic interest in the credit risk of the securitisation position in accordance with Article 405 of the CRR (now Article 6 of the EU Securitisation Regulation) and, in the case of an entity that is an originator because it purchases a third party's exposures for its own account and then securitises them, is a "financial institution" or "credit institution" each within the meaning of the CRR. The Issuer considers that the transaction described in this prospectus is within the definition of "CMBS/RMBS transaction".

9.2 **EU Anti-Tax Avoidance Directive and EU Anti-Tax Avoidance Directive 2**

As part of its anti-tax avoidance package, and to provide a harmonised implementation of a number of the OECD Base Erosion and Profit Shifting (BEPS) concluding reports across the EU, the EU Council adopted Council Directive (EU) 2016/1164 (the "**Anti-Tax Avoidance Directive**") on 12 July 2016, to be transposed by 31 December 2018.

The EU Council adopted Council Directive (EU) 2017/952 (the "**Anti-Tax Avoidance Directive 2**") on 29 May 2017, amending the Anti-Tax Avoidance Directive, to provide for minimum standards for counteracting hybrid mismatches involving EU member states and third countries, which were required to be implemented by 31 December 2021.

Ireland has now fully transposed both the ATAD Directive and Anti-Tax Avoidance Directive 2. There are two measures of particular relevance.

First, the Anti-Tax Avoidance Directive provides for an "interest limitation rule" which restricts the deductible interest of an entity to the higher of (a) EUR 3,000,000 or (b) 30% of its earnings before interest, tax, depreciation and amortisation. This measure was introduced in Ireland with effect for accounting periods commencing on or after 1 January 2022. These rules may not impact the Issuer if (i) it does not have excess borrowing costs or (ii) if it qualifies as a "single company worldwide group", as defined in the implementing legislation, and does not make any interest equivalent payments to associated enterprises (within the meaning of the hybrid mismatch rules discussed below).

It is currently anticipated that in any given accounting period of the Issuer, the Issuer's profits, income or gains that it recognises for tax purposes on the assets it owns which consist of amounts other than Interest Equivalent will not exceed an aggregate amount of (i) €3,000,000 in any accounting period of a duration of twelve months or (ii) €3,000,000 reduced pro rata in any accounting period of a duration of less than twelve months and so the rules should not have a significant impact of the Issuer.

Secondly, the Irish legislation transposing the Anti-Tax Avoidance Directive (as amended by the Anti-Tax Avoidance Directive 2) provides for hybrid mismatch rules that are designed to neutralise arrangements where amounts are deductible from the income of one entity but are not taxable for another, or the same amounts are deductible for two entities by denying a deduction for the paying entity. These rules could potentially apply to the Issuer where: (i) the interest that it pays under the Notes, and claims deductions from its taxable income for, is not brought into account as taxable income by the relevant Noteholder, either because of the characterisation of the Notes, or the payments made under them, or because of the nature of the Noteholder itself; and (ii) the mismatch arises between associated enterprises, between the Issuer and an associated enterprise or under a structured arrangement, 'Associated' for these purposes includes direct and indirect participation in terms of voting rights or capital ownership of 25.0 per cent. or more or an entitlement to receive 25.0 per cent. or more (50.0 per cent. in certain circumstances) of the profits of that entity, as well as entities that are part of the same consolidated group for financial accounting purposes or enterprises that have a significant influence in the management of the taxpayer. It is not expected that the Issuer will make any interest or interest equivalent payments to associated enterprises, however, if the Issuer does make such a payment to an associated enterprise the measures should not impact the payment on the Notes unless it gives rise to a hybrid mismatch.

For the purposes of the hybrid rules, a structured arrangement is one involving a mismatch outcome where the mismatch outcome is priced into the terms of the arrangement or the arrangement was designed to give rise to a mismatch outcome. If the Issuer's ability to deduct interest in a tax year is restricted by Ireland's anti-hybrid rules, the Issuer may have material tax liabilities in Ireland as a consequence of interest not being deductible in computing its profits for Irish corporation tax purposes.

9.3 **OECD Model GloBE Rules and the European Commission's directive on GloBE Rules**

On 20 December 2021, the Organisation for Economic Co-operation and Development (the "**OECD**") published the draft Global Anti-Base Erosion Model Rules which are aimed at ensuring that multinational enterprises ("**MNEs**") will be subject to a global minimum 15% tax rate ("**GloBE Rules**"). The GloBE Rules are part of the OECD/G20 Inclusive Framework on BEPS which currently has 141 participant countries. A directive to implement the rules on minimum effective taxation in the EU (the "**Pillar 2 Directive**") was adopted by the Council of the EU on 15 December 2022.

The Pillar 2 Directive introduces a minimum effective tax rate of 15% for MNEs (or large-scale domestic groups) with consolidated revenues of at least €750 million for at least 2 of the previous 4 fiscal years (or €750 million reduced pro rata in any accounting period which has a duration of less than 12 months) which are operating in the EU's internal market and beyond. It provides a common framework for implementing a set of three complementary rules known as the GloBE rules comprising of the qualified domestic top up tax ("**QDTT**"), the income inclusion rule ("**IIR**"), and a backstop rule known as the under taxed profit rule ("**UTPR**"). The QDTT ensures that the 15% rate applies to relevant companies operating in each Member State. The IIR requires the ultimate parent entity of the group to look down through its group on a jurisdiction-by-jurisdiction basis and in the event that any of its subsidiaries do not pay an effective tax rate of 15%, the ultimate parent entity would have to pay a top-up tax. The UTPR acts as a backstop rule to tax profits not subject to QDTT and/or IIR. The Pillar 2 Directive was required to be transposed by all EU Member States by 31 December 2023. The implementing Irish legislation is contained in the Irish Finance (No. 2) Act 2023 and applies for accounting periods commencing on or after 31 December 2023 (the "**Irish Pillar 2 Legislation**").

The Issuer could be within scope of the Irish Pillar 2 Legislation if (i) it is regarded as part of an MNE Group or a largescale domestic group which has revenues of more than EUR 750 million a year, or (ii) it is a standalone entity which has revenues of more than EUR 750 million a year.

Broadly, the Issuer will be part of an MNE Group or a large-scale domestic group for these purposes if it is consolidated with other entities under specified financial accounting standards (or would be but for certain exceptions).

To the extent that the Issuer is not a member of a MNE Group or a large-scale domestic group it would be considered a standalone entity. Where a standalone entity has revenue in excess of EUR 750 million for an accounting period in 2 of the previous 4 years (or EUR 750 million reduced pro rata in any accounting period which has a duration of less than 12 months) it may also be within scope of the Irish Pillar 2 Legislation.

If the Issuer is within scope of the Irish Pillar II Legislation, it may be subject to a QDTT. The QDTT is, very broadly, calculated by reference to 15% of the profits of the Issuer and the other members of that consolidated group in Ireland for accounting purposes. There are complex rules outlining how those profits are calculated and adjusted for tax purposes, how the effective tax rate of the group in Ireland (which is to be compared with the minimum tax rate of 15%) is calculated and adjusted and how the QDTT is adjusted and allocated between different members of the group (including the Issuer).

The Irish Pillar II Legislation also provides for an IIR and a UTPR. The Issuer should not be subject to the IIR unless it has ownership interests in an entity which is part of the same consolidated group. This is not anticipated to be relevant to the Issuer as it does not have any subsidiaries or branches. The UTPR allocates any top-up tax based on the value of the tangible

assets and number of employees and is not anticipated to be relevant to the Issuer (as it does not have any tangible assets or employees).

The Issuer does not itself anticipate to have standalone revenues in excess of EUR 750 million in any accounting period and to the best of the Issuer's knowledge and belief, it was not and does not expect to be financially consolidated by any person into a MNE Group or a large-scale domestic group that will exceed the consolidated revenue threshold for an accounting period in at least 2 previous accounting periods of the immediately previous 4 accounting periods, determined by reference to such group's Consolidated Financial Statements (within the meaning of the Irish Pillar 2 Legislation), whereby the consolidated revenue threshold is calculated as €750,000,000 x A/365 (where A is the number of days in the accounting period concerned). As such, the Issuer anticipates that the Irish Pillar II Legislation is unlikely to apply.

The Pillar 2 rules are new and complex, and it is not currently known how the Irish Revenue will interpret and apply the Irish Pillar 2 Legislation. As such, the potential application of the Irish Pillar 2 Legislation (and the equivalent legislation in any other country) to the Issuer remains unknown and could impact the tax position of the Issuer. It is not possible to determine definitively how material such tax liability could be. In the event a tax liability does arise under the Irish Pillar II Legislation, such tax liability would reduce the assets available to the Issuer to make payments and distributions on the Notes.

9.4 **Withholding tax under the Notes**

In the event that any withholding or deduction for or on account of any tax is imposed on payments in respect of the Notes, neither the Issuer nor any other person is obliged to gross up or otherwise compensate the Noteholders for such withholding or deduction. However, where by reason of a change in tax law (or the application or official interpretation thereof) on or after the Closing Date, the Issuer or the Paying Agents would be required to deduct or withhold from any payment of principal or interest on any Notes (other than because the relevant holder has some connection with Ireland other than the holding of such Notes) any amount in respect of Irish tax, the Issuer will, in accordance with Condition 8.5 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*) of the Notes, be required (subject to certain conditions, including that taking such action would prevent the deduction or withholding) to appoint the Paying Agents in another jurisdiction or use its reasonable endeavours to arrange the substitution of a company incorporated and/or tax resident in another jurisdiction approved in writing by the Note Trustee, as principal debtor under the Notes and the Trust Deed.

With respect to the Offered Notes, provided that the Notes are and continue to be quoted on a recognised stock exchange, are held in a recognised clearing system such as Euroclear, Clearstream Banking SA or Clearstream Banking AG (or, if not so held, payments on the Offered Notes are made through a paying agent not in Ireland) and it is reasonable to consider that the Issuer is not, and should not be, aware that interest is paid to an 'associated entity', as at the date of this Prospectus no withholding or deduction for account of Irish income tax will be required on payments of interest on the Offered Notes. However, there can be no assurance that the law will not change during the life of the Offered Notes.

The applicability of any withholding or deduction for or on account of Irish tax on payments of interest on the Offered Notes is discussed further under "*Taxation*" below.

REGULATORY DISCLOSURES

The following outlines certain matters that may be relevant to some investors. It does not purport to be a comprehensive list of regulatory matters that pertain to investors. All investors are responsible for analysing their own regulatory position.

Please refer to "*Risk Factors – Legal Risks and Regulatory Risks – Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes*" for more information.

EU Securitisation Regulation and the CRR Amending Regulation

The EU Securitisation Regulation (EU) 2017/2401 of the European Parliament and of the Council of 12 December 2017 (the "**CRR Amending Regulation**") amending the CRR apply to the Notes. Among other things, the EU Securitisation Regulation and the CRR Amending Regulation together include provisions intended to implement the revised securitisation framework developed by the BCBS (with adjustments) and provisions intended to harmonise and replace the risk retention and due diligence requirements applicable to certain EU regulated investors.

UK Securitisation Regulation

Pursuant to the EUWA, from the Implementation Period Completion Day, EU regulations (including the EU Securitisation Regulation) which previously had direct effect in the UK by virtue of the European Communities Act 1972 were transposed into domestic law. The UK Securitisation Regulation comprises, as at the date of this Prospectus, substantively very similar provisions to the EU Securitisation Regulation, save for EU-specific references having been deleted and/or replaced with UK-specific references pursuant to various UK statutory instruments including, notably, references to EU Affected Investors having been replaced, in the UK Securitisation Regulation, with references to UK regulated investors. The amendments to the EU Securitisation Regulation regime that took effect in the EU from 9 April 2021, as well as any subsequent changes (including the EU Recast Risk Retention RTS), are not part of the UK regime. The Securitisation Regulations 2024 (SI 2024/102) ("**2024 UK SR SI**") published on 29 January 2024 provide that upon the repeal of the current UK Securitisation Regulation pursuant to the Financial Services Markets Act 2023 ("**FSMA 2023**"), the securitisation regulatory framework of the UK will be moved to a combination of 2024 UK SR SI and the PRA and FCA rulebooks. On 30 April 2024, a policy statement by the FCA (PS24/4): Rules relating to securitisation and a policy statement made by the PRA (PS7/24): Securitisation: General requirements (together, the "**UK Regulatory Rules**") were published. The UK Regulatory Rules have an implementation date of 1 November 2024 (6 months after the date of publication). Under the transitional provisions contained therein, the UK Regulatory Rules will not apply to securitisation transactions which close before 1 November 2024. The implementation date of the UK Regulatory Rules is in line with the Securitisation (Amendment) Regulations 2024, made on 22 May 2024 which contemplates the repeal of the UK Securitisation Regulation commencing on 1 November 2024. Some divergence between EU and UK regimes exists already and the risk of more divergence in the future between EU and UK regimes cannot be ruled out.

Due Diligence requirements for EU Institutional Investors and for UK Institutional Investors

The EU Securitisation Regulation contains due diligence requirements that apply to certain types of "institutional investor" as defined in Article 2(12) of the EU Securitisation Regulation ("**EU Institutional Investors**"). Such EU Institutional Investors include institutions for occupational retirement provision, credit institutions, alternative investment fund managers that manage and/or market alternative investment funds in the EU, investment firms as defined in the CRR, insurance and reinsurance undertakings, and management companies of UCITS funds (or internally managed UCITS).

The UK Securitisation Regulation contains due diligence requirements that apply to certain types of "institutional investor" as defined in Article 2(12) of the UK Securitisation Regulation ("**UK Institutional Investors**"). Such UK Institutional Investors include institutions for occupational retirement provision, credit institutions, alternative investment fund managers that manage and/or market alternative investment funds in the United Kingdom, insurance and reinsurance undertakings, and management companies of UCITS funds (or internally managed UCITS).

Article 5(1)(c) of the EU Securitisation Regulation also requires EU Institutional Investors to verify that, if established in the European Union, the originator, sponsor or original lender retains on an ongoing basis a

material net economic interest in accordance with Article 6 of the EU Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7(1)(e) of the EU Securitisation Regulation.

Article 5(1)(c) of the UK Securitisation Regulation also requires UK Institutional Investors to verify that, if established in country other than the United Kingdom, the originator, sponsor or original lender retains on an ongoing basis a material net economic interest in accordance with Article 6 of the UK Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7(1)(e) of the UK Securitisation Regulation.

Further, Article 5 of the EU Securitisation Regulation places an obligation on institutional investors (as defined in the EU Securitisation Regulation) before investing in a securitisation and thereafter, to analyse, understand and stress test their securitisation positions and monitor on an on-going basis in a timely manner performance information on the exposures underlying their securitisation positions.

Further, Article 5 of the UK Securitisation Regulation places an obligation on institutional investors (as defined in the UK Securitisation Regulation) before investing in a securitisation and thereafter, to analyse, understand and stress test their securitisation positions and monitor on an on-going basis in a timely manner performance information on the exposures underlying their securitisation positions.

Failure to comply with one or more of the requirements set out in (i) Article 5 of the EU Securitisation Regulation or (ii) Article 5 of the UK Securitisation Regulation in any material respect and any negligence or omission in the fulfilment of the due diligence obligations on the part of any credit institutions that invests in the Notes will result in the imposition of a penal capital charge (potentially a risk weight of up to 1250 per cent.) on the notes acquired by the relevant investor, progressively increasing with each subsequent infringement of the due diligence provisions.

Any prospective investor to which these requirements apply should make themselves aware of such requirements and should ensure that the requirements which need to be satisfied prior to holding a securitisation position have been complied with prior to an investment in the Notes by such investor. In addition any such investor should ensure that it will be able to comply with the on-going requirements of Article 5 of the EU Securitisation Regulation and/or the Article 5 of the UK Securitisation Regulation in relation to an investment in the Notes. None of the Issuer, Finance Ireland, the Servicer, the Arranger, any of the Joint Lead Managers, the Note Trustee or the Security Trustee provides any assurance that the information provided in this Prospectus, or any other information that will be provided to investors in relation to the Notes (including without limitation any investor report or loan level data that is published in relation to the Notes) is sufficient for the satisfaction by any investor of the requirements in Article 5 of the EU Securitisation Regulation and/or the UK Securitisation Regulation (as the case may be) as they apply to that investor. Investors should note that the requirements of Article 5 of the EU Securitisation Regulation and/or the UK Securitisation Regulation (as the case may be) apply in addition to any other applicable regulatory requirements applying to such investor in relation to an investment in the Notes.

Compliance with EU Risk Retention Requirements and UK Risk Retention Requirements

Finance Ireland, as an originator for the purposes of the EU Securitisation Regulation and the UK Securitisation Regulation, will retain a material net economic interest of not less than 5 per cent. in the securitisation in accordance with the text of Article 6(1) of the EU Securitisation Regulation (which does not take into account any corresponding national measures) and Article 6(1) of the UK Securitisation Regulation. As at the Closing Date, such interest will comprise of Finance Ireland (as Retention Holder) holding no less than 5 per cent. of the nominal value of each Class of Notes sold or transferred to investors on the Closing Date as required by the text of (i) Article 6(3)(a) of the EU Securitisation Regulation and (ii) Article 6(3)(a) of the UK Securitisation Regulation. Any change to the manner in which such interest is held will be notified to Noteholders.

Article 2(4)(a) of the EU Recast Risk Retention RTS provides that, where the securitised exposures are created by multiple originators (as is the case in the Loans), the retention requirement may be fulfilled in full by a single originator provided that the originator has established and is managing the securitisation.

Article 2(4) of Commission Delegated Regulation (EU) No.625/2014 (as it forms part of domestic law in the United Kingdom by virtue of the EUWA) (the "**UK Risk Retention RTS**") provides that, where the securitised exposures are created by multiple originators (as is the case in the Loans), the retention requirement may be fulfilled in full by a single originator provided that the originator has established and is managing the securitisation.

See "*The Originator, Retention Holder and Servicing Advisor*" for further information.

As to the information made available to prospective investors by the Issuer, reference is made to the information set out herein and forming part of this Prospectus and to any other information provided separately (which information shall not form part of this Prospectus) and, after the Closing Date, to the Investor Reports provided to the Noteholders pursuant to the Cash Management Agreement and published on <https://pivot.usbank.com> and Quarterly Investor Reports provided to the Noteholders pursuant to the Cash Management Agreement and published on the website of the European Data Warehouse (the "**SR Repository**") at <https://eurodw.eu> (the "**SR Repository Website**"). These websites and their respective contents do not form part of the Prospectus.

Finance Ireland will undertake to (i) the Joint Lead Managers and the Arranger in the Subscription Agreement and (ii) to the Issuer and the Security Trustee in the Mortgage Sale Agreement that, for so long as any Notes remain outstanding:

- (a) it will, as originator (as defined in Article 2(3) of the EU Securitisation Regulation and in Article 2(3) of the UK Securitisation Regulation), retain on an ongoing basis, a material net economic interest of not less than 5 per cent. in the nominal value of the securitisation in accordance with Article 6 of the EU Securitisation Regulation and Article 6 of the UK Securitisation Regulation (as the case may be);
- (b) as at the Closing Date, such interest will comprise retention of no less than 5 per cent. of the nominal value of each of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes (such Notes held by the Retention Holder, the "**Retained Exposures**"), as required by the text of (i) Article 6(3)(a) of the EU Securitisation Regulation and (ii) Article 6(3)(a) of the UK Securitisation Regulation;
- (c) it will not change the manner or form in which it retains such net economic interest, except to the extent permitted or required under the EU Securitisation Regulation and under the UK Securitisation Regulation, in which case, it shall report (or cause to be reported) such change through the EU Quarterly Investor Report or the UK Quarterly Investor Report (as the case may be);
- (d) it will immediately notify the Issuer, the Security Trustee and the Note Trustee if for any reason it (i) ceases to hold the Retained Exposures in accordance with the requirements of the Mortgage Sale Agreement or (ii) fails to comply with the covenants set out in the Mortgage Sale Agreement in respect of the Retained Exposures;
- (e) it will comply with the disclosures and obligations described in (i) Article 7(1)(e)(iii) of the EU Securitisation Regulation including by confirming the Retention Holder's risk retention as contemplated by Article 6(1) of the EU Securitisation Regulation and (ii) Article 7(1)(e)(iii) of the UK Securitisation Regulation including by confirming the Retention Holder's risk retention as contemplated by Article 6(1) of the UK Securitisation Regulation, in each case, through the timely provision of the information in the prospectus for the securitisation, disclosure in the Quarterly Investor Report and procuring provision to the Joint Lead Managers, the Arranger and the Issuer access to any reasonable and relevant additional data reasonably available to Finance Ireland, the Retention Holder and information referred to in Article 7(1)(e)(iii) of the EU Securitisation Regulation and Article 7(1)(e)(iii) of the UK Securitisation Regulation (subject, in each case, to all applicable laws);
- (f) it will at all times confirm, promptly upon the written request of the Issuer or the Security Trustee, the continued compliance with paragraphs (a) and (b) above and (g) and (h) below;

- (g) it will not (i) sell, hedge or otherwise transfer all or part of the Retained Exposures, (ii) enter into a transaction synthetically effecting any such actions or (iii) take any action which would reduce its exposure to the economic risk of the Retained Exposures in such a way that it ceases to hold the Retained Exposures, except to the extent permitted under the EU Securitisation Regulation or under the UK Securitisation Regulation (as the case may be); and
- (h) the entry by the Originator into the Retention Financing will not constitute a hedge or transfer of the credit risk exposure of the Retained Exposures as prohibited by (i) Article 6 of the EU Securitisation Regulation and Article 12 of the Commission Delegated Regulation (EU) 2023/2175 supplementing the EU Securitisation Regulation with regard to regulatory technical standards specifying in greater detail the risk retention requirements (the "**EU Recast Risk Retention RTS**"), but rather will constitute a permitted secured funding transaction for the purposes of Article 12(2) of the EU Recast Risk Retention RTS and by (ii) Article 6 of the UK Securitisation Regulation and Article 12 of the UK Risk Retention RTS, but rather will constitute a permitted secured funding transaction for the purposes of Article 12(2) of the UK Risk Retention RTS.

As at the Closing Date, such interest will comprise retention of no less than 5 per cent. of the nominal value of each of the Class A Notes, Class B Notes, Class C Notes, the Class D Notes, Class E Notes, Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes, as required by the text of (i) Article 6(3)(a) of the EU Securitisation Regulation and (ii) Article 6(3)(a) of the UK Securitisation Regulation. Finance Ireland has provided a corresponding undertaking with respect to the interest to be retained by it to the Arranger and the Joint Lead Managers in the Subscription Agreement.

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and in the Prospectus generally for the purposes of complying with Article 5 of the EU Securitisation Regulation and any corresponding national measures which may be relevant or with Article 5 of the UK Securitisation Regulation (as the case may be) and none of the Issuer nor any Relevant Party, (i) makes any representation that the information described above or in the Prospectus is sufficient in all circumstances for such purposes (ii) should have any liability to any prospective investor or any other person for any insufficiency of such information or any failure of the transactions contemplated herein to comply with or otherwise satisfy the requirements of the EU Securitisation Regulation, the UK Securitisation Regulation or any other applicable legal, regulatory or other requirements, or (iii) shall have any obligation (other than the obligations in respect of Article 6 of the EU Securitisation Regulation and Article 6 of the UK Securitisation Regulation undertaken by the Retention Holder in the Mortgage Sale Agreement) to enable compliance with the requirements of Article 6 of the EU Securitisation Regulation, Article 6 of the UK Securitisation Regulation or any other applicable legal, regulatory or other requirements.

Transparency Requirements

Article 7 of the EU Securitisation Regulation includes ongoing reporting obligations which include quarterly portfolio level disclosure; quarterly investor reports; any inside information relating to the securitisation that the reporting entity is obliged to make public under the Market Abuse Regulation (Regulation (EU) No 596/2014) and, where applicable, information on "significant events". The loan reports and the investor reports are to be made available simultaneously on a quarterly basis and at the latest one month after each Interest Payment Date. Disclosures relating to any inside information or significant events are required to be made available "without delay".

Article 7 of the UK Securitisation Regulation includes ongoing reporting obligations which include quarterly portfolio level disclosure; quarterly investor reports; any inside information relating to the securitisation that the reporting entity is obliged to make public under the Market Abuse Regulation (Regulation (EU) No 596/2014) (as it forms part of domestic law of the United Kingdom by virtue of the EUWA) and, where applicable, information on "significant events". The loan reports and the investor reports are to be made available simultaneously on a quarterly basis and at the latest one month after each Interest Payment Date. Disclosures relating to any inside information or significant events are required to be made available "without delay".

Each of Article 7 of the EU Securitisation Regulation and Article 7 of the UK Securitisation Regulation also requires certain Transaction Documents to be made available to investors before pricing. It is not

possible to make final documentation available before pricing and so Finance Ireland as Originator (acting on behalf of the Issuer), has made draft documentation available in substantially final form (which may be subject to change following pricing) by way of the SR Repository Website of the SR Repository, being a website which conforms to the requirements set out in (i) Article 7(2) of the EU Securitisation Regulation and (ii) Article 7(2) of the UK Securitisation Regulation. Such Transaction Documents in final form will be available on and after the Closing Date. This website and its contents do not form part of this Prospectus.

Credit Granting

In the Mortgage Sale Agreement, the Originator has provided the following warranties in relation to the Loans:

- (a) it has made each Loan originated by it on the basis of sound and well-defined criteria for credit-granting, and has clearly established processes for approving, amending, renewing and financing that Loan and has effective systems in place to apply those criteria and processes to ensure that any such credit-granting was based on a thorough assessment of the Borrower's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the customer meeting its obligations under the Loan;
- (b) it has applied to the Loans originated by it and purported to be sold by the Originator to the Issuer under the Mortgage Sale Agreement, the same sound and well-defined criteria for credit-granting which it applies to non-securitised mortgage loans and has applied the same clearly established processes for approving and, where relevant, amending, renewing and refinancing credits in relation to the Loans which it applies to other loans to its other customers that are originated by it but are not securitised, and it has effective systems in place to apply those criteria and processes in order to ensure that credit-granting is based on a thorough assessment of the relevant obligor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the customer meeting its obligations under the relevant Loan;
- (c) none of the Loans was marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the information provided by the loan applicant might not be verified by the lender;
- (d) none of the Loans is a securitisation position (as defined in the EU Securitisation Regulation or as defined in the UK Securitisation Regulation);
- (e) in relation to Loans originated by Pepper Finance Corporation (Ireland) DAC as Back Book Originator, the Originator has verified that Pepper Finance Corporation (Ireland) DAC as Back Book Originator fulfilled the requirements referred to in paragraphs (a) to (d) above; and
- (f) it shall not engage in any active portfolio management of the Loans on a discretionary basis.

Reporting Entity for the purposes of the EU Securitisation Regulation and the UK Securitisation Regulation

The originator, sponsor and SSPE of a securitisation are required to designate one of them as the reporting entity to fulfil the reporting requirements in Article 7 of the EU Securitisation Regulation and the reporting requirements in Article 7 of the UK Securitisation Regulation. The reporting entity must make certain prescribed information available to holders of a securitisation position, to the relevant competent authorities and, upon request, to potential investors. For the purposes of Article 7(2) of the EU Securitisation Regulation and Article 7(2) of the UK Securitisation Regulation, Finance Ireland as originator and the Issuer have agreed that the Issuer is designated as the entity responsible for compliance with the requirements of each of Article 7 of the EU Securitisation Regulation and Article 7 of the UK Securitisation Regulation, and will either fulfil such requirements itself or shall procure that such requirements are complied with on its behalf. The Originator is responsible for compliance with Article 7 of the EU Securitisation Regulation pursuant to Article 22(5) of the EU Securitisation Regulation.

Reporting under the EU Securitisation Regulation and the UK Securitisation Regulation

The Issuer (in its capacity as Reporting Entity for the purposes of Article 7(2) of the EU Securitisation Regulation and Article 7(2) of the UK Securitisation Regulation) will procure that:

- (a) the Servicer will prepare on a quarterly basis (i) a loan-by-loan information report in relation to the Portfolio in respect of the relevant Collection Period as required by and in accordance with Article 7(1)(a) and (e)(i) of the EU Securitisation Regulation (the "**EU Quarterly Servicer Data Tape**"), which shall follow the technical standards required under the Commission Delegated Regulation 2020/1224 (as amended or supplemented from time to time, the "**2020/1224 RTS**") and Commission Implementing Regulation (EU) 2020/1225 (as amended or supplemented from time to time, the "**2020/1225 ITS**"), and together with the 2020/1224 RTS, in each case, including any relevant guidance and policy statements relating to the application of the 2020/1224 RTS or the 2020/1224 ITS (as the case may be) published by the EBA, the ESMA, the EIOPA (or any relevant successor) or by the European Commission, the "**EU Disclosure Technical Standards**") and (ii) a loan-by-loan information report in relation to the Portfolio in respect of the relevant Collection Period as required by and in accordance with Article 7(1)(a) and (e)(i) of the UK Securitisation Regulation (the "**UK Quarterly Servicer Data Tape**"), which shall follow the technical standards required under the 2020/1224 RTS (as it forms part of domestic law in the United Kingdom by virtue of the EUWA) (as amended or supplemented from time to time, the "**UK Article 7 RTS**") and the 2020/1225 ITS (as it forms part of domestic law in the United Kingdom by virtue of the EUWA) (as amended or supplemented from time to time, the "**UK Article 7 ITS**") and together with the UK Article 7 RTS, in each case, including any applicable laws, regulations, rules, guidance and other implementing measures of the FCA, the PRA or other relevant regulators in the United Kingdom, the "**UK Disclosure Technical Standards**"). The EU Quarterly Servicer Data Tapes and the UK Quarterly Servicer Data Tapes (together, the "**Quarterly Servicer Data Tapes**") will be prepared by the Servicer and provided to the Cash Manager and the Swap Provider by no later than 5 p.m. on the 12th calendar day of each of December, March, June and September of each year, and if such a day is not a Business Day on the immediately preceding Business Day (each, a "**Quarterly Servicer Reporting Date**");
- (b) subject to receipt of the (i) EU Quarterly Servicer Data Tape and all underlying asset/loan level data on the Quarterly Servicer Reporting Date immediately preceding each Interest Payment Date, the Cash Manager will, on each Interest Payment Date, prepare a quarterly investor report as required by and in accordance with Article 7(1)(e) of the EU Securitisation Regulation (the "**EU Quarterly Investor Report**"), which shall be in the form of Annex XII of the technical standards required under the EU Disclosure Technical Standards and (ii) UK Quarterly Servicer Data Tape and all underlying asset/loan level data on the Quarterly Servicer Reporting Date immediately preceding each Interest Payment Date, the Cash Manager will, on each Interest Payment Date, prepare a quarterly investor report as required by and in accordance with Article 7(1)(e) of the UK Securitisation Regulation (the "**UK Quarterly Investor Report**"), which shall be in the form of Annex XII of the technical standards required under the UK Disclosure Technical Standards. Such EU Quarterly Investor Report and such UK Quarterly Investor Report shall include any change in the Priority of Payment which will materially affect the repayment of the Notes; and
- (c) the Servicer will, subject to receipt (in a format which is acceptable to the Servicer) of the relevant information from or on behalf of the Issuer (including all information which is required from the Cash Manager), publish any information required to be reported pursuant to (i) Articles 7(1)(f) or 7(1)(g) (as applicable) of the EU Securitisation Regulation (the "**EU Inside Information and Significant Event Report**") without delay, which shall follow the technical standards required under the EU Disclosure Technical Standards and (ii) Articles 7(1)(f) or 7(1)(g) (as applicable) of the UK Securitisation Regulation (the "**UK Inside Information and Significant Event Report**") without delay, which shall follow the technical standards required under the UK Disclosure Technical Standards.

The Servicer will make (i) the information set out in paragraph (a) above available no later than 5 p.m. on each Interest Payment Date and (ii) the information set out in paragraph (c) above available without delay, in each case, to Issuer, the Originator, the Swap Provider, the Servicing Advisor, the Noteholders, the competent authorities and, upon request, to potential noteholders, by publishing such information on the SR Repository Website of the SR Repository, being a securitisation repository registered under Article 10 of

the EU Securitisation Regulation and Article 10 of the UK Securitisation Regulation. On or prior to Closing Date the Issuer will appoint European Data Warehouse as the securitisation repository for the purposes of compliance with the EU Securitisation Regulation and the UK Securitisation Regulation.

The Cash Manager shall make the Quarterly Investor Reports available to the Issuer, the Servicer, the Originator, the Servicing Advisor and the Swap Provider by publication on <https://pivot.usbank.com> which is a password protected website of the Cash Manager no later than 4 p.m. on each Interest Payment Date. The Servicer shall, subject to receipt of the Quarterly Investor Reports as set out above, make the Quarterly Investor Reports available to the Noteholders, the competent authorities and, upon request, to potential noteholders by publishing such information on the SR Repository Website no later than 5 p.m. on each Interest Payment Date.

STS - Simple, transparent and standardised securitisation

The EU Securitisation Regulation makes provision for a securitisation transaction to be designated a simple, transparent and standardised transaction (an "**STS Securitisation**"). In order to obtain this designation, a transaction is required to comply with the EU STS Requirements and one of the originator or sponsor in relation to such transaction is required to file an EU STS Notification to ESMA and the Central Bank confirming the compliance of the relevant transaction with the EU STS Requirements. The Originator believes, to the best of its knowledge, that the elements of the EU STS Requirements have been, or will at the Closing Date be, complied with in relation to the securitisation transaction described in this Prospectus, and it is intended that an EU STS Notification will be filed with ESMA within 15 Business Days of the Closing Date by Finance Ireland, as the originator, in accordance with Article 27 of the EU Securitisation Regulation. However, none of the Issuer, the Originator, the Arranger, the Joint Lead Managers, the Security Trustee or the Note Trustee gives any explicit or implied representation or warranty as to (i) inclusion in the list administered by ESMA within the meaning of Article 27 of the EU Securitisation Regulation, (ii) that the securitisation transaction described in this Prospectus does or continues to comply with the EU Securitisation Regulation or (iii) that this securitisation transaction does or continues to be recognised or designated as 'STS' or 'simple, transparent and standardised' within the meaning of Article 18 of the EU Securitisation Regulation after the date of this Prospectus. The 'STS' status of the securitisation transaction described in this Prospectus may change and prospective investors should verify the current status of the securitisation transaction described in this Prospectus on ESMA's website. Investors should also note that, to the extent the securitisation transaction described in this Prospectus is designated an STS Securitisation the designation of a transaction as an STS Securitisation is not an assessment by any party as to the creditworthiness of that transaction but is instead a reflection that the specific requirements of the EU Securitisation Regulation have been met as regards compliance with the criteria of STS Securitisations.

In addition, under the UK Securitisation Regulation, the Notes can also qualify as UK STS eligible until maturity, provided the Notes are notified as EU STS to ESMA prior to 1 January 2025 and remain on the ESMA STS Register and continue to meet the EU STS Requirements and, as such, the EU STS Securitisation designation impacts on the potential ability of the Notes to achieve better or more flexible regulatory treatment from the perspective of the applicable UK regulatory regimes, such as the prudential regulation of UK CRR firms and UK Solvency II firms, and from the perspective of the UK EMIR regime.

Neither the Arranger, the Joint Lead Managers, the Security Trustee nor the Note Trustee has or shall have any liability to any prospective investor or any other person for any insufficiency of such information or any non-compliance by any such person with the due diligence and retention rules set out in Article 5 (Due-diligence requirements for institutional investors) and Article 6 (Risk retention) of the EU Securitisation Regulation or any other applicable legal, regulatory or other requirements, or has any obligation to provide any further information or take any other steps that may be required by any institutional investor to enable compliance by such person with the requirements of any due diligence and investor requirement or any other applicable legal, regulatory or other requirements.

Investors should consider the consequence from a regulatory perspective of the Notes not being considered an STS Securitisation, including (but not limited to) that the lack of such designation may negatively affect the regulatory position of the Notes and, in addition, have a negative effect on the price and liquidity of the Notes in the secondary market.

It is important to note that the involvement of SVI as an authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation remains with the relevant institutional investors, originators and issuers, as applicable in each case. An EU STS Verification will not absolve such entities from making their own assessment and assessments with respect to the EU Securitisation Regulation, and an STS Assessment cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities. Furthermore, an EU STS Verification is not an opinion on the creditworthiness of the relevant Notes nor on the level of risk associated with an investment in the relevant Notes. It is not an indication of the suitability of the relevant Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the due diligence requirements of the EU Securitisation Regulation need to make their own independent assessment and may not solely rely on an EU STS Verification, the EU STS Notification or other disclosed information.

Investors should note that a draft EU STS Notification will be made available to investors before pricing.

Retention, due diligence and transparency requirements

Investors should be aware, and in some cases are required to be aware, of the retention, due diligence and transparency requirements set out in the EU Securitisation Regulation and the UK Securitisation Regulation (as applicable) (and of any corresponding implementing rules of their regulator), in addition to any other regulatory requirements that are (or may become) applicable to them and/or with respect to their investment in the Notes. Each investor should independently assess and determine the sufficiency of the information described above for the purposes of complying with the CRD IV Package, Article 5 of the EU Securitisation Regulation or the UK Securitisation Regulation and should consult with its own legal, accounting, regulatory and other advisors and/or its regulator before committing to acquire any Notes to determine whether, and to what extent, the information set out in this Prospectus and in any investor report provided in relation to the transaction is sufficient for the purpose of satisfying such requirements. None of the Issuer, Finance Ireland, the Corporate Services Provider, the Joint Lead Managers, the Arranger, the Note Trustee nor the Security Trustee makes any representation that the information described above and in this Prospectus is sufficient in all circumstances for such purposes.

U.S. Risk Retention

The U.S. Risk Retention Rules generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for the purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitizer is required to retain. The U.S. Risk Retention Rules came into effect on 24 December 2016 with respect to all classes of asset-backed securitizations and provide for certain exemptions from the risk retention obligation that they generally impose.

The transaction is not intended to involve the retention by a sponsor of at least five per cent. of the credit risk of the securitized assets for the purposes of compliance with the U.S Risk Retention Rules. Instead, for these purposes, the intention is to rely on an exemption for certain non-U.S. transactions provided for in Section 20 of the U.S. Risk Retention Rules. Therefore, in order to ensure that the transaction falls within this exemption, the Notes offered and sold by the Issuer may not be purchased by, or for the account or benefit of, persons except for: (a) persons that are not "U.S. persons" (as defined in the U.S. Risk Retention Rules); and (b) persons that have obtained a U.S. Risk Retention Waiver from Finance Ireland. See "*Risk Factors - Legal Risks and Regulatory Risks*" – "*U.S. Risk Retention Requirements*".

For further information please refer to the Risk Factors entitled "*Legal Risks and Regulatory Risks - Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes*" and "*Legal Risks and Regulatory Risks – EU Securitisation Regulation and the CRR Amending Regulation*".

UK Securitisation Regulation

Pursuant to the EUWA, from 11 p.m. (GMT) on 31 December 2020 (the "**Implementation Period Completion Day**"), EU regulations (including the EU Securitisation Regulation) which previously had direct effect in the UK by virtue of the European Communities Act 1972 were transposed into domestic

law. Like the EU Securitisation Regulation, the UK Securitisation Regulation also includes risk retention and transparency requirements (imposed variously on the issuer, originator, sponsor and/or original lender of a securitisation) and due diligence requirements which are imposed, under the UK Securitisation Regulation on UK Affected Investors in a securitisation. If the due diligence requirements under the UK Securitisation Regulation are not satisfied then, depending on the regulatory requirements applicable to such UK Affected Investor, an additional risk weight, regulatory capital charge and/or other regulatory sanction may be applied to such securitisation investment and/or imposed on the UK Affected Investor.

"**UK Affected Investor**" means CRR firms as defined by Article 4(1)(2A) of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 as it forms part of domestic law in the United Kingdom by virtue of the EUWA, certain alternative investment fund managers which manage or market alternative investment funds in the UK, UK regulated insurers or reinsurers, certain management companies as defined in section 237(2) of the Financial Services and Markets Act 2000 ("**FSMA**"), UCITS as defined by section 236A of FSMA which is an authorised open ended investment company as defined in section 237(3) of FSMA and occupational pension schemes as defined in section 1(1) of the Pension Schemes Act 1993.

The Basel Capital Accord and Regulatory Capital Requirements

The regulatory framework published by the Basel Committee on Banking Supervision ("**BCBS**") in 2006 (the "**Basel II framework**") has not been fully implemented in all participating countries.

The Basel Committee has subsequently approved significant changes and extensions to the Basel II Framework (such changes and extensions finalised prior to 7 December 2017 being commonly referred to as "**Basel III**" and such changes and extensions finalised on or following such date being commonly referred to as "**Basel IV**").

The implementation of the framework, including the Basel III and Basel IV changes and extensions, in relevant jurisdictions may affect the risk-weighting of the Notes, or otherwise give rise to additional capital or liquidity costs arising from investing in or holding the Notes, for investors who are or may become subject to capital adequacy requirements that follow the framework.

Basel III and Basel IV include new capital and liquidity requirements intended to reinforce capital standards (with heightened requirements for global systemically important banks) and to establish a leverage ratio "backstop" for financial institutions and certain minimum liquidity standards for credit institutions. In particular, the changes refer to, amongst other things, new requirements for the capital base (including an increase in the minimum Tier 1 capital requirement), measures to strengthen the capital requirements for counterparty credit exposures arising from certain transactions and the introduction of a leverage ratio as well as short-term and longer-term standards for funding liquidity (the latter being referred to as the Liquidity Coverage Ratio ("**LCR**") and the "Net Stable Funding Ratio" ("**Net Stable Funding Ratio**") respectively). Requirements are also proposed that will introduce an output floor on the level of capital required to be held in respect of credit exposures by banks (which will include exposures to securitisation positions) with approval to use an internal ratings based (IRB) approach rather than the standardised approach.

The implementation date of most of the Basel IV reforms has been postponed by BCBS until January 2023 and full implementation is expected from 1 January 2028, although national implementation of the Basel IV reforms has been delayed and may be subject to additional reforms. The European Commission published legislative proposals for a Regulation amending Regulation (EU) 353/2013 (the "**CRR**") and a Directive amending Directive 2014/17/EU (the "**CRD IV**") (together, the "**EU Banking Package**"), and for a further regulation for targeted amendments to the CRR relating to the minimum requirements for own funds and eligible liabilities. The EU Banking Package has been reviewed by the Council of the European Union and a final text agreed with the European Parliament in 2023. The European Parliament adopted the text at its plenary session on 23 April 2024. The text must be confirmed by the European Council, after which it will be published in the Official Journal of the European Union. The amendments to the CRR are expected to enter into force on 1 January 2025 (with a transitional implementation of the output floor). Measures implementing the CRD VI are expected to be adopted 18 months from the date of its entry into force.

In the UK, EU law that applied before the Implementation Period Completion Day (including elements of CRR, CRD IV, the Banking Package, and the LCR Regulation, as defined below) have become part of UK law under the European Union (Withdrawal) Act which also amended the relevant EU law to remove any deficiencies which would prevent it operating in a UK context. The UK government introduced the Financial Services Act 2019 (the "**FS Act 2019**") which *inter alia* allowed for the implementation of aspects of the Basel III standards that were introduced into CRR but that did not apply until after the end of the Transition Period. The Prudential Regulation Authority (the "**PRA**") announced its intention to move the implementation date of Basel IV standards to 1 July 2025 (six months after the EU), with a corresponding transitional implementation of the output floor. On 12 December 2023, the PRA published a policy statement containing near-final standards implementing some of the Basel IV standards (including market risk, credit valuation adjustment and operational risk). In Q2 2024, the PRA intends to publish the second policy statement containing near-final standards for the remaining standards (including credit risk, credit risk mitigation and the output floor), although this may be delayed due to the announcement of the general election.

There is expected to be regulatory divergence between the EU and the UK as a result of these measures, including capital requirements relating to the holding of securitisation positions.

It should also be noted that changes to prudential requirements is expected to be made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II frameworks in Europe and the UK. On 22 September 2021, the European Commission put forward a proposal for a directive that would amend Solvency II. Following provisional agreement on the text in December 2023, the Committee on Economic and Monetary Affairs approved it on 29 January 2024, with the European Parliament having adopted the text at its plenary session on 23 April 2024. The text must be confirmed by the European Council, after which it will be published in the Official Journal of the European Union, with the expectation that it will come in force with effect from 1 January 2025. Meanwhile, UK authorities have on 29 June 2023 published a consultation paper on a review of the Solvency II framework. In February 2024, the PRA published a policy statement (PS2/24) in respect of the earlier consultation, setting out near-final rules and near-final policy materials. The PRA also set out proposed amendments to the matching adjustment regime in Solvency II in consultation paper 19/23. The PRA plans to publish the final policy rules relating to matching adjustment during the second quarter of 2024 with an effective date of 30 June 2024, with the majority of other amendments to Solvency II becoming effective from December 2024.

Additionally, in accordance with Article 460 of the CRR, on 17 January 2015, the Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 to supplement Regulation (EU) No 575/2013 of the European Parliament and the Council with regard to liquidity coverage requirement for Credit Institutions (the "**LCR Regulation**") was published in the Official Journal of the European Union and subsequently entered into application on 1 October 2015. The LCR Regulation sets out assumed asset inflow and outflow rates to better reflect actual experience in times of stress. Further, it sets out the EU application of the Liquidity Coverage Ratio, and defines specific criteria for assets to qualify as high quality liquid assets, the market value of which shall be used by credit institutions for the purposes of calculating their relevant Liquidity Coverage Ratio. The criteria for high quality liquid assets are not entirely consistent with recent market standards and, given the lack of guidance on the interpretation of the LCR Regulation, no assurance can be given as to whether the Notes qualify as high quality liquid assets in each participating EU Member State and the Issuer makes no representation as to whether such criteria are met by the Notes.

On 30 October 2018, Delegated Regulation (EU) 2018/1620 amending the LCR Regulation was published in the Official Journal of the European Union and subsequently entered into force on 19 November 2018, pursuant to which provides for (i) the alignment of the calculation of the expected liquidity outflows and inflows on repurchase agreements, reverse repurchase agreements and collateral swaps with the international liquidity standard developed by BCBS; (ii) an amended treatment of certain reserves held with third-country central banks and (iii) qualification of transaction exposures of securitisations, which qualify as simple, transparent and standardised securitisations in accordance with the EU Securitisation Regulation, shall qualify as Level 2B high quality liquid assets, if they additionally fulfil the conditions laid down in Article 13 of the LCR Regulation (the "**Amended LCR Delegated Regulation**").

On 10 February 2022, the European Commission adopted a Commission Delegated Regulation amending the LCR Regulation which, *inter alia*, seeks to address the overlap of the liquidity requirements set out in

the LCR Regulation and in Directive (EU) 2019/2162 (the "**Covered Bond Directive**"). This overlap results in credit institutions issuing covered bonds being required to hold a certain amount of liquid assets for the same period of 30 calendar days. The amendments to the LCR Regulation allow credit institutions to treat liquid assets held as part of the cover pool liquidity buffer as unencumbered up to the amount of net liquidity outflows from the associated covered bond programme. Provided the Council of the EU and the European Parliament have no objections, the amendments will apply from 8 July 2022. These amendments are being made after the Implementation Period Completion Day, so they will not affect the UK version of the LCR Regulation. In this respect, therefore, credit institutions who hold the Notes may be subject to different treatment depending on whether they are subject to the UK rules or the EU version of the LCR Regulation.

Although the transaction is expected to qualify as an STS transaction under Article 18 of the EU Securitisation Regulation, given the securitisation is backed by a pool of underlying exposures which includes both mortgages granted to individuals for the acquisition of their main residence and also buy-to-let mortgages, it is not expected that the Class A Notes (nor any other Notes) will be eligible to be treated as high quality liquid assets for the purposes of the liquidity coverage ratio.

On 5 December 2019 Directive (EU) 2019/2034 of the European Parliament and of the Council of 27 November 2019 on the prudential supervision of investment firms and amending Directives 2002/87/EC, 2009/65/EC, 2011/61/EU, 2013/36/EU, 2014/59/EU and 2014/65/EU (the Investment Firms Directive – "**IFD**") and Regulation (EU) 2019/2033 of the European Parliament and of the Council of 27 November 2019 on the prudential requirements of investment firms and amending Regulations (EU) No 1093/2010, (EU) No 575/2013, (EU) No 600/2014 and (EU) No 806/2014 (the Investment Firms Regulation – "**IFR**") were published in the Official Journal of the European Union. IFD and IFR establish a revised framework for prudential requirements for EU investment firms, and this framework will, for some EU investment firms, replace the existing prudential requirements for investment firms set out in the Banking Package and will change their capital requirements. The IFR applied, and Member states were expected to implement IFD from 26 June 2021. In the UK the FS Act 2019 enables the introduction of the Investment Firms Prudential Regime ("**IFPR**") which has applied to some investment firms in the UK since 1 January 2022. IFPR is based on, but not identical to, the prudential framework set out in the IFR and the IFD.

It should also be noted that other types of investors, in addition to banks, may be subject to regulatory rules that impose requirements in respect of an investment the Notes, and those rules may be derived from a framework other than Basel III and Basel IV. Which rules apply will depend on the jurisdiction in which an investor operates and the type of activities for which it is regulated. For example, insurance companies incorporated in the European Economic Area and the UK are subject to the Solvency II regulatory framework. Investors should consider the requirements imposed by any such regulatory rules as part of their assessment of whether to invest in the Notes.

Prospective investors should carefully consider (and, where appropriate, take independent advice) in relation to the capital charges associated with an investment in the Notes and as to the consequences to and effect on them of any changes to the Basel II framework (including the Basel III and Basel IV changes described above) and by the Banking Package in particular and the relevant implementing measures. These effects may include, but are not limited to, a decrease in demand for the Notes in the secondary market, which may lead to a decreased price for the Notes. It may also lead to decreased liquidity and increased volatility in the secondary market.

Effects of the Volcker Rule on the Issuer

The Issuer is of the view that it is not now, and immediately after giving effect to the offering and sale of the Notes and the application of the proceeds thereof on the Closing Date will not be a "covered fund" as defined in the regulations adopted under the Volcker Rule. Although other exclusions may be available to the Issuer, this conclusion is based on the exemption from the definition of "investment company" in the Investment Company Act provided by Section 3(c)(5) thereunder. The general effects of the Volcker Rule remain uncertain. Any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult its own legal advisers regarding such matters and other effects of the Volcker Rule.

European Market Infrastructure Regulation, Markets in Financial Instruments Directive and Securities Financing Transactions Regulation

EU EMIR came into force on 16 August 2012 and imposes certain obligations on parties to "over the counter" ("**OTC**") derivative contracts, including (i) a mandatory clearing obligation for certain product classes of, and certain categories of counterparties to, standardised OTC derivatives contracts (the "**Clearing Obligation**") through an authorised central counterparty (a "**CCP**"), (ii) a margin posting obligation for OTC derivatives contracts not subject to the Clearing Obligation (the "**Collateral Obligation**"), (iii) daily valuation, timely confirmation and other risk-mitigation techniques for OTC derivatives contracts not subject to the Clearing Obligation, (iv) the reporting of all derivative contracts to trade repository (the "**Reporting Obligation**"), and (v) in respect of all derivative contracts, portfolio reconciliation and record keeping requirements.

Much of the detail in respect of the obligations under EU EMIR is specified further in Regulatory Technical Standards ("**RTS**") and Implementing Technical Standards ("**ITS**"), which have come into effect since August 2012, with the Collateral Obligation in particular being implemented on a rolling basis following its coming into effect, applying progressively in stages from the largest to the smallest participants in the derivatives markets (together, the "**Adopted Technical Standards**").

Under EU EMIR, a party to derivative transaction can be classified as (i) a financial counterparty (an "**FC**"), or (ii) a non-financial counterparty (an "**NFC**").

An entity that is an "FC" is further categorised as either: (i) a financial counterparty above the specified clearing threshold (determined by reference to whether the FC's positions in OTC derivative contracts, calculated on the basis of the aggregate month-end average notional amount for the previous 12 months, exceed a specified clearing threshold) for at least one product class of the derivative contracts (an "**FC+**") or (ii) a financial counterparty below the specified clearing threshold for all product classes of derivative contracts (an "**FC-**"). An FC+ will be subject to the Clearing Obligation in respect of all product classes that are subject to mandatory clearing, while an FC- will not be subject to the Clearing Obligation in respect of any product class of derivative contracts.

EU EMIR excludes securitisation special purpose entities from being categorised as AIFs (as defined in Article 4(1)(a) of Directive 2011/61/EU (AIFMD)), which are generally FCs under EU EMIR, and so the Issuer is of the view that it should be categorised as an NFC.

The NFC category is also further split as follows: (i) a non-financial counterparty whose positions in OTC derivatives, excluding hedging positions (as defined in EU EMIR) (calculated on the basis of the aggregate month-end average notional amount for the previous 12 months), together with the positions of all other non-financial counterparties in its "group" (as defined in EU EMIR) exceed a specified clearing threshold for at least one of the derivative product types (an "**NFC+**"), or (ii) a non-financial counterparty whose combined "group" positions is below the applicable clearing thresholds for each of the derivative product types (an "**NFC-**"). NFC+ entities are only subject to the Clearing Obligation in respect of the product type(s) for which they have exceeded the specified clearing thresholds, but are otherwise subject, along with all FCs, to all of the other risk mitigation obligations that apply to an entity that is subject to the Clearing Obligation. In addition to being exempt from clearing, NFC- entities are also subject to less onerous risk mitigation techniques, although both NFC+ and NFC- entities (together with all FCs) are subject to the Reporting Obligation.

The Issuer is of the view that it should be treated as an NFC- and consequently, the Issuer should not be subject to the Clearing Obligation but will be subject to the Reporting Obligation and certain risk mitigation obligations. In addition, because the Reporting Obligation applies to the entry into, modification or termination of all derivative contracts by FCs and NFCs (including the Issuer), it will therefore apply to the Swap Transaction entered into by the Issuer. The Issuer's Reporting Obligation covers the details of all derivative contracts (including details of any collateral posted) that are required to be reported to a registered or recognised trade repository. EU EMIR provides for mandatory delegated reporting by any FCs subject to EU EMIR on behalf of any NFC-s also subject to EU EMIR for any OTC derivative contracts entered into by such FC and NFC-.

If the Issuer's counterparty status changes because it exceeds a clearing threshold, the Issuer may become subject to greater obligations under EU EMIR, including the Clearing Obligation. For the purposes of satisfying the Clearing Obligation, EU EMIR requires derivative counterparties to become clearing members of a CCP, a client of a clearing member or to otherwise establish indirect clearing arrangements with a clearing member. Each derivative counterparty will be required to post both initial and variation margin to the clearing member (which in turn will itself be required to post margin to the CCP). EU EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk, which is defined in the Adopted Technical Standards to include cash in certain currencies, gold and highly rated government bonds. In this regard, it should be noted that it is not clear that the Swap Transaction would constitute a type of OTC derivative contract that would be subject to the Clearing Obligation under the implementing measures made to date, if the Issuer were otherwise not exempt from the Clearing Obligation.

No assurances can be given that any future changes to EU EMIR would not cause the status of the Issuer to change and lead to an increased regulatory burden on the Issuer in respect of its hedging arrangements.

Investors should be aware of the following:

- (a) regardless of the Issuer's classification under EU EMIR, the Issuer may need to appoint a third party and/or incur costs and expenses to enable it to comply with the regulatory requirements imposed by EU EMIR, in particular, in relation to reporting and record-keeping; and
- (b) the characterisation of the Issuer under EU EMIR as is currently in force will determine whether, among other things, it is required to comply with the clearing, margin-posting and trading requirements in relation to the Swap Transaction or any replacement swap transaction. If it were required to clear, post margin or trade on an exchange or other electronic platform, it is unlikely that the Issuer would be able to comply with such an obligation.

FCs and NFCs that enter into non-cleared derivative contracts must ensure that appropriate procedures and arrangements are in place to measure, monitor and mitigate operational and counterparty credit risk. Such procedures and arrangements include, amongst other things, the timely confirmation of the terms of a derivative contract and formalised processes to reconcile trade portfolios, identify and resolve disputes and monitor the value of outstanding contracts.

The EU regulatory framework relating to derivatives is set not only by EU EMIR but also more generally by the Derivatives Regulations (as defined above).

Amongst other requirements, EU MiFIR requires certain sufficiently liquid and standardised derivatives that have been declared subject to the Clearing Obligation to be traded on a trading venue, specifically a regulated market, a multi-lateral trading facility, an organised trading facility or a third country trading venue granted equivalence status by the European Commission (the "**Trading Obligation**"). On the basis that it is unlikely that the Swap Transaction would be sufficiently standardised or liquid to be subject to the Clearing Obligation, it is therefore also unlikely that it would be subject to the Trading Obligation either.

The SFTR introduces certain requirements applying to financial counterparties ("**SFTR FCPs**"), such as investment firms, credit institutions and insurance companies, and to certain non-financial counterparties ("**SFTR Non-FCPs**") which enter into Securities Financing Transactions. Such requirements include, amongst other things, the reporting of each Securities Financing Transaction that has been concluded between in-scope SFTR FCPs and SFTR Non-FCPs, together with any modification or termination of a Securities Financing Transaction, to a trade repository (the "**SFTR Reporting Obligation**"). The definition of Securities Financing Transaction includes a repurchase transaction, securities or commodities lending transaction, a buy-sell back transaction and a margin lending transaction.

Prospective investors should be aware that the regulatory requirements that apply to the Issuer pursuant to the Derivatives Regulations, and any further changes to the same, may in due course significantly raise the

costs of entering into derivative contracts and may adversely affect the Issuer's ability to hedge its risk by entering into OTC derivatives. As a result of the Issuer being subject to such increased costs or impaired ability to hedge risk, investors may receive less interest or lower returns, as the case may be. Investors should be aware that such risks may be material and therefore, investors should consult their own independent advisers and make their own assessment about the potential risks posed by the Derivatives Regulations, in making any investment decision in respect of the Notes.

It should also be noted that the EU Securitisation Regulation (which applied in general from 1 January 2019), among other things, makes provisions for the development of technical standards in connection with the EU EMIR regime specifying (i) an exemption from the Clearing Obligation and (ii) a partial exemption from the Collateral Obligation, in each case for non-cleared derivatives that are "simple, transparent and standardised" securitisation swaps (subject to the satisfaction of the relevant conditions).

SVI Services

EU STS Verification and CRR Assessment

SVI has been engaged to conduct the EU STS Verification. There can be no assurance that the securitisation transaction described in this Prospectus will receive confirmation of compliance with the EU STS Requirements (either before issuance or at any time thereafter) and if the securitisation transaction described in this Prospectus does receive the EU STS Verification, this shall not, under any circumstances, affect the liability of the Originator and the Issuer in respect of their legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in Article 5 (*Due-diligence requirements for institutional investors*) of the EU Securitisation Regulation.

In addition, application has been made to SVI to assess compliance of the Notes with the criteria on EU STS Securitisation set forth in the CRR (the "**CRR Assessment**"). There can be no assurance that the Notes will receive the CRR Assessment (either before issuance or at any time thereafter) and that CRR is complied with.

The CRR Assessments and the EU STS Verification are provided by SVI. No CRR Assessment or EU STS Verification is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under Markets in Financial Instruments Directive (2014/65/EU) and none are a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC). SVI is not an "expert" as defined in the Securities Act.

SVI is not a law firm and nothing in any CRR Assessment or EU STS Verification constitutes legal advice in any jurisdiction. SVI is authorised by the German Federal Financial Supervisory Authority ("**BaFin**") as a third-party verification agent, pursuant to Article 28 (Third party verifying STS compliance) of the EU Securitisation Regulation, to act as a third party verifying STS compliance. This authorisation covers EU STS Verifications in the European Union. Other than as specifically set out above, none of the activities involved in providing the CRR Assessment or EU STS Verification are endorsed or regulated by any regulatory and/or supervisory authority nor is SVI regulated by any other regulator.

By providing any CRR Assessment or EU STS Verification in respect of any securities SVI does not express any views about the creditworthiness of the Notes or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings. Investors should conduct their own research regarding the nature of the CRR Assessment or EU STS Verification. It is expected that the CRR Assessments and the EU STS Verification prepared by SVI will be available on the SVI website (<https://www.sts-verification-international.com/transactions>) together with detailed explanations of its scope at <https://www.sts-verification-international.com/sts-verification> on and from the Closing Date. For the avoidance of doubt, this SVI website and the contents thereof do not form part of this Prospectus. In the provision of any EU STS Verification, SVI has based its decision on information provided directly and indirectly by the Seller. SVI does not undertake its own direct verification of the

underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any SVI Service is not a confirmation or implication that the information provided by or on behalf of the Seller as part of the relevant CRR Assessment or EU STS Verification is accurate or complete.

In completing an EU STS Verification, SVI bases its analysis on the EU STS Requirements. Unless specifically mentioned in the EU STS Verification, SVI relies on the English version of the EU Securitisation Regulation. In addition, Article 19(2) of the EU Securitisation Regulation requires the European Banking Authorities, from time to time, to issue guidelines and recommendations interpreting the EU STS Requirements.

The EBA has issued the EBA STS Guidelines for Non-ABCP Securitisations. The task of interpreting individual EU STS Requirements rests with national competent authorities ("**NCA**s"). Any NCA may publish or otherwise publicly disseminate from time to time interpretations of specific criteria ("**NCA Interpretations**"). The EU STS Requirements, as drafted in the EU Securitisation Regulation, are subject to a potentially wide variety of interpretations. In compiling an EU STS Verification, SVI uses its discretion to interpret the EU STS Requirements based on (a) the text of the EU Securitisation Regulation, (b) any relevant guidelines issued by EBA and (c) any relevant NCA Interpretation.

There can be no guarantees that any regulatory authority or any court of law interpreting the EU STS Requirements will agree with the interpretation of SVI. There can be no guarantees that any future guidelines issued by EBA or NCA Interpretations may not differ in their approach from those used by SVI in interpreting any EU STS Requirements prior to the issuance of such new guideline or interpretation. In particular, guidelines issued by EBA are not binding on any NCA. There can be no guarantees that any interpretation by any NCA will be the same as that set out in the EBA Guidelines and therefore used, prior to the publication of such NCA interpretation, by SVI in completing an EU STS Verification. Although SVI will use all reasonable endeavours to ascertain the position of any relevant NCA as to EU STS Requirements interpretation, SVI cannot guarantee that it will have been made aware of any NCA interpretation in cases where such interpretation has not been officially published by the relevant NCA.

Accordingly, the provision of an EU STS Verification is only an opinion by SVI and not a statement of fact. It is not a guarantee or warranty that any national competent authority, court, investor or any other person will accept the STS status of the relevant securitisation.

The task of interpreting individual CRR criteria, as well as the final determination of the capital required by a bank to allocate for any investment, rests with prudential authorities supervising any European bank. The CRR criteria, as drafted in the CRR, are subject to a potentially wide variety of interpretations. In compiling a CRR Assessment, SVI uses its discretion to interpret the CRR criteria based on the text of the CRR, and any relevant and public interpretation by the EBA. Although SVI believes its interpretations reflect a reasonable approach, there can be no guarantees that any prudential authority or any court of law interpreting the CRR criteria will agree with the SVI interpretation. SVI also draws attention to the fact that, in assessing capital requirements, prudential regulators possess wide discretions.

Accordingly, when performing a CRR Assessment, SVI is not confirming or indicating that the securitisation the subject of such assessment will be allowed to have lower capital allocated to it under the CRR Regulation. SVI is merely addressing the specific CRR criteria and determining whether, in SVI's opinion, these criteria have been met.

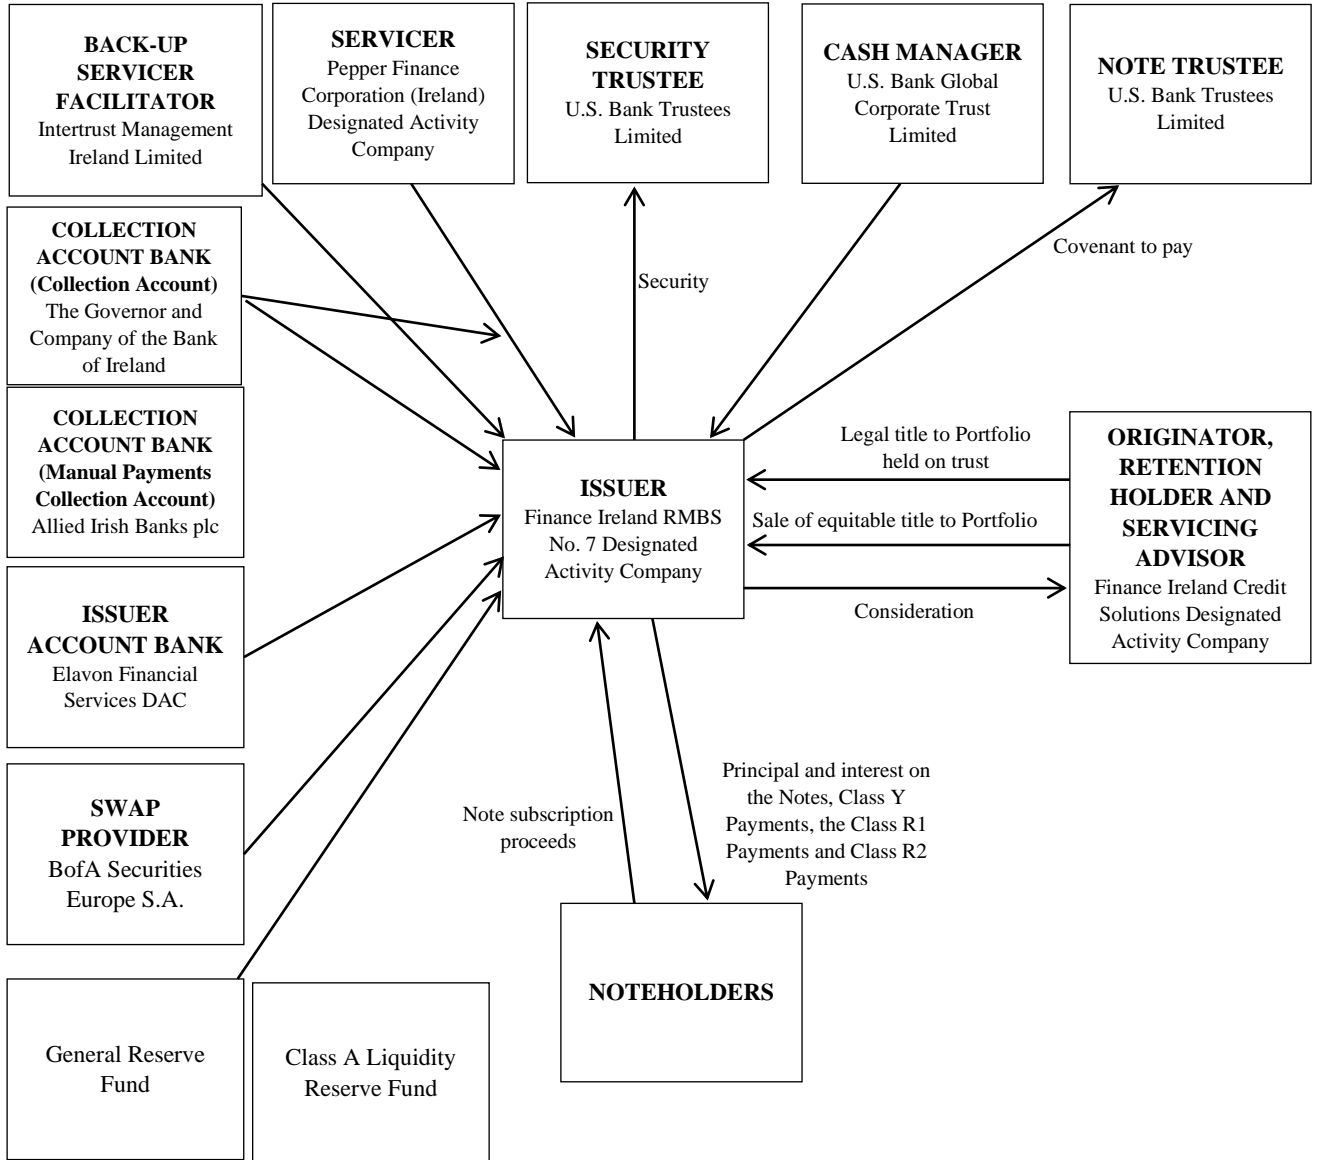

Therefore, no bank should rely on a CRR Assessment in determining the status of any securitisation in relation to capital requirements and must make its own determination. All of the CRR Assessment and the EU STS Verification speak only on the date on which they are issued. SVI has no obligation to monitor (nor any intention to monitor) any securitisation the subject of any SVI Service. SVI has no obligation and does not undertake to update any of the CRR Assessment or the EU STS Verification to account for: (a) any change of law or regulatory interpretation; or (b) any act or failure to act by any person relating to

those STS criteria that speak to actions taking place following the close of any transaction such as – without limitation – the obligation to continue to provide certain mandated information.

TRANSACTION OVERVIEW - PORTFOLIO AND SERVICING

Please refer to the sections entitled "Overview of the Key Transaction Documents - Mortgage Sale Agreement", "Overview of the Key Transaction Documents – Servicing Agreement", "Characteristics of the Portfolio" and "The Loans" for further detail in respect of the characteristics of the Portfolio and the sale and the servicing arrangements in respect of the Portfolio.

Sale of Portfolio:

The Portfolio will consist of the Loans and their Related Security which will be sold by the Originator to the Issuer on 24 June 2024 (or such later date as may be agreed between the Originator and the Issuer) (the "**Portfolio Sale Date**"), provided that the Portfolio Sale Date shall not occur after 28 June 2024 (the "**Portfolio Sale Longstop Date**") pursuant to the Mortgage Sale Agreement (the "**Portfolio**").

The Loans and their Related Security are governed by Irish law.

The Loans have either (i) been originated by the Originator or (ii) been originated by Pepper Finance Corporation (Ireland) Designated Activity Company ("**Pepper**") as the Back Book Originator, where the legal title has been acquired by the Originator from Pepper. The beneficial interest in the Loans was acquired by the Originator, in each case on the Portfolio Sale Date, from either:

- (a) the Interim Purchaser; or
- (b) Finance Ireland RMBS No. 3 Designated Activity Company following the exercise of a call option,

On and from (and including) the Portfolio Sale Date, the Originator will hold the legal title in the Loans in the Portfolio as bare nominee on trust for the Issuer.

The sale by the Originator to the Issuer of each Loan and its Related Security in the Portfolio will be given effect by an equitable assignment.

The terms "**sale**", "**sell**" and "**sold**" when used in this Prospectus in connection with the Loans and their Related Security shall be construed to mean each such creation of an equitable interest. The terms "**repurchase**" and "**repurchased**" when used in this Prospectus in connection with a Loan and its Related Security shall be construed to include the purchase by the Originator of such Loan and its Related Security from the Issuer pursuant to the terms of the Mortgage Sale Agreement.

Prior to the occurrence of a Perfection Event as set out below, notice of the sale of the Loans and their Related Security comprising the Portfolio will not be given to the relevant individual or individuals specified as borrowers in respect of a Loan or the individual or individuals (if any) from time to time assuming an obligation to repay such Loan or any part of it (collectively, the "**Borrowers**" and each a "**Borrower**") and the Issuer will not apply to the Land Registry or the Registry of Deeds to register or record its equitable or beneficial interest in the Mortgages. Prior to the occurrence of a Perfection Event, the legal title to each Loan and its Related Security in the Portfolio will be held by the Originator as bare nominee on trust for the Issuer. Following a Perfection Event and notice of the transfer of the Loans and their Related Security to the Issuer being sent to the relevant Borrowers, legal title to the Loans and their Related Security

(subject to appropriate registration or recording at the Land Registry or the Registry of Deeds) will pass to the Issuer.

Features of the Loans:

Except as otherwise indicated, the following is a summary of certain features of the Loans comprising the Portfolio determined by reference to the features of each loan in the Portfolio as at the Portfolio Reference Date and investors should refer to, and carefully consider, further details in respect of the Loans set out in the sections of this Prospectus entitled "*The Loans*" and "*Characteristics of the Portfolio*". The Loans comprise loans to Borrowers and are secured by first priority charges over freehold and leasehold properties in Ireland.

See the section entitled "*Overview of the Key Transaction Documents – Mortgage Sale Agreement – Representations and Warranties*" for further details.

Repurchase of the Loans and Related Security:

The Originator is liable for the repurchase of the relevant Loans and their Related Security in certain circumstances including the following:

- (a) upon a breach of Loan Warranties (which the Originator fails to remedy within the agreed grace period); or

Relationship between Classes of Noteholders:

Subject to the provisions governing a Basic Terms Modification, an Extraordinary Resolution of the holders of a relevant Class of Notes shall be binding on all other holders of Classes of Notes which are subordinate to such Class of Notes in the Post-Enforcement Priority of Payments, irrespective of the effect upon them. No Extraordinary Resolution of any other Class of Noteholders shall take effect for any purpose while the Most Senior Class remains outstanding unless it shall have been sanctioned by an Extraordinary Resolution of the holders of the Most Senior Class, or the Note Trustee (acting in accordance with the Trust Deed) is of the opinion it would not be materially prejudicial to the interests of the holders of the Most Senior Class.

A Basic Terms Modification requires an Extraordinary Resolution of the holders of the relevant affected Class or Classes of Notes.

Subject to the provisions governing a Basic Terms Modification and the foregoing paragraphs, a resolution which, in the opinion of the Note Trustee, affects the interests of the holders of:

- (a) Notes of only one Class shall be deemed to have been duly passed if passed at a separate meeting (or by a separate resolution in writing or by a separate resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of that Class of Notes so affected;
- (b) Notes of more than one Class but does not give rise to an actual or potential conflict of interest between the holders of

such Notes of more than one Class shall be deemed to have been duly passed if passed at a single meeting (or by a single resolution in writing or by a single resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of the Notes of each such Class;

- (c) one or more Classes of Notes and gives or may give rise to, an actual or potential conflict of interest between the holders of such Notes, shall be deemed to have been duly passed only if passed at separate meetings (or by separate resolutions in writing or by separate resolutions passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes so affected;
- (d) one or more Classes of Notes but does not give rise to, an actual or potential conflict of interest between the holders of such Notes, shall be deemed to have been duly passed if passed at a single meeting (or by a single resolution in writing or by a single resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes; and
- (e) two or more Classes of Notes and gives, or may give, rise to an actual or potential conflict of interest between the holders of such Classes of Notes, shall be deemed to have been duly passed only if passed at separate meetings (or by separate resolutions in writing or by separate resolutions passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes so affected.

Relationship between Noteholders and other Secured Creditors:

So long as any of the Notes are outstanding, neither the Security Trustee nor the Note Trustee shall have regard to the interests of the other Secured Creditors.

So long as the Notes are outstanding, the Note Trustee will have regard to the interests of each class of the Noteholders, but if in the Note Trustee's sole opinion there is a conflict between the interests of any Classes of Notes, it will have regard solely to the interests of the holders of the relevant affected Class of Notes ranking in priority to the other relevant Classes of Notes in the Post-Enforcement Priority of Payments and the holders of such subordinated Classes of Notes shall have no claim against the Note Trustee for so doing.

Redemption Priority of Payments, taking into account any Available Redemption Receipts (other than item (d) of the definition thereof) otherwise available to the Issuer, to be applied as Available Redemption Receipts;

- (v) *Pro rata* and *pari passu* to the interest due on the Class X Notes;

- (x) on any Interest Payment Date falling within a Determination Period, all remaining amounts to be credited to the Deposit Account to be applied on the next Interest Payment Date as Available Revenue Receipts;
- (y) On any Interest Payment Date prior to (but excluding) the Step-Up Date, all excess amounts to be applied as Class R1 Payment;
- (z) On any Interest Payment Date from (and including) the Step-Up Date, principal amounts due on the Class R1 Notes until the Principal Amount Outstanding on the Class R1 Notes has

been reduced to zero;
and

- (aa) On any Interest Payment Date from (and including) the Step-Up Date, all excess amounts to be applied as Class R2 Payment.

General Credit Structure: The credit structure of the transaction includes the following elements:

- (a) The availability of the General Reserve Fund, funded on the Closing Date by part of the proceeds of the relevant Noteholders' subscription of the Class X Notes. An amount equal to the General Reserve Fund Excess Amount will be debited from the General Reserve Fund and will be applied as Available Revenue Receipts on each Interest Payment Date. On each Interest Payment Date up to but excluding the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier), to the extent that there would be a Revenue Deficit on such Interest Payment Date (prior to the service of an Enforcement Notice), an amount equal to the General Reserve Fund Release Amounts shall be debited from the General Reserve Fund Ledger immediately prior to the application of Available Revenue Receipts pursuant to the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date and applied to cure such Revenue Deficit. Any General Reserve Fund Release Amounts will be applied to meet any Revenue Deficit (subject to the limitations set out in the definition of Revenue Deficit) against the relevant items in the Pre-Enforcement Revenue Priority of Payments in such order of priority as such items appear in the Pre-Enforcement Revenue Priority of Payments. After the Closing Date, the General Reserve Fund will be replenished up to the General Reserve Fund Required Amount on each Interest Payment Date up to but excluding the Early Redemption Date from Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments.
- (b) On the first Interest Payment Date only, the proceeds of the issue of the Class Y Notes will form part of the Available Redemption Receipts and be applied down the Pre-Enforcement Redemption Priority of Payments to make payments of principal on the Class A Notes.
- (c) On the Early Redemption Date only, all amounts standing to the credit of the General Reserve Fund Ledger will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments.
- (d) On the Optional Purchase Completion Date and/or following the delivery of an Enforcement Notice on the Issuer, all amounts standing to the credit of the General Reserve Fund Ledger will be applied in accordance with the Post-Enforcement Priority of Payments.

See the section "*Credit Structure – General Reserve Fund and General*

Reserve Fund Ledger";

- (e) The availability of the Class A Liquidity Reserve Fund, funded on the Closing Date by part of the proceeds of the subscription of the Class X Notes. On each Interest Payment Date, to the extent that there would be a Class A Liquidity Deficit on such Interest Payment Date, an amount equal to the Class A Liquidity Reserve Fund Release Amounts shall be debited from the Class A Liquidity Reserve Fund Ledger immediately prior to the application of Available Revenue Receipts pursuant to the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date and applied to meet any Class A Liquidity Deficit (subject to the limitations set out in the definition of Class A Liquidity Deficit) against the relevant items in the Pre-Enforcement Revenue Priority of Payments in such order of priority as such items appear in the Pre-Enforcement Revenue Priority of Payments. After the Closing Date on each Interest Payment Date up to but excluding the Class A Redemption Date, the Class A Liquidity Reserve Fund Excess Amount will be applied as Available Revenue Receipts and the Class A Liquidity Reserve Fund will be replenished up to the Class A Liquidity Reserve Fund Required Amount from Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments.
- (f) On the Class A Redemption Date only, all amounts standing to the credit of the Class A Liquidity Reserve Fund Ledger (after first having applied any Class A Liquidity Reserve Fund Release Amount in meeting any Class A Liquidity Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments and debiting such amount from the Class A Liquidity Reserve Fund Ledger) will be applied as Available Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments.

See the section "*Credit Structure – Class A Liquidity Reserve Fund and Class A Liquidity Reserve Fund Ledger*";

A Principal Deficiency Ledger will be established to record as a debit, without double counting, any Losses and Arrears Percentage Losses on the Portfolio and Principal Addition Amounts and record as a credit Available Revenue Receipts applied as Available Redemption Receipts (including any amounts in respect of Enhanced Amortisation Amounts) pursuant to the Pre-Enforcement Revenue Priority of Payments (if any). The Principal Deficiency Ledger will comprise the following sub-ledgers: the Class A Principal Deficiency Sub-Ledger (relating to the Class A Notes), the Class B Principal Deficiency Sub-Ledger (relating to the Class B Notes), the Class C Principal Deficiency Sub-Ledger (relating to the Class C Notes), the Class D Principal Deficiency Sub-Ledger (relating to the Class D Notes), and the Class E Principal Deficiency Sub-Ledger (relating to the Class E Notes). Any Losses and/or Arrears Percentage Losses on the Portfolio and/or any Principal Addition Amounts will be recorded, without double counting, as a debit (on the date that the Cash Manager is informed of such Losses or Arrears Percentage Losses (as applicable) by the Servicer or such Principal Addition Amounts are determined by the Cash Manager (as applicable)): first (a) to the Class E Principal Deficiency Sub-Ledger up to a maximum

amount equal to the Principal Amount Outstanding of the Class E Notes; then (b) to the Class D Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class D Notes; then (c) to the Class C Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class C Notes; then (d) to the Class B Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class B Notes and then (e) to the Class A Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class A Notes. The Principal Deficiency Ledger (i) will be credited by the amount of any Available Revenue Receipts applied as Available Redemption Receipts in accordance with items (i), (k), (m), (o), and (q) of the Pre-Enforcement Revenue Priority of Payments and (ii) Enhanced Amortisation Amounts applied in accordance with item (u) of the Pre-Enforcement Revenue Priority of Payments as follows:

- (a) first, to the Class A Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (b) second, to the Class B Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (c) third, to the Class C Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (d) fourth, to the Class D Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (e) fifth, to the Class E Principal Deficiency Sub-Ledger to reduce the debit balance to zero;

Prior to the Step-Up Date, in the event that it is subsequently determined that the debit balance of the Principal Deficiency Ledger was erroneously calculated as being higher than was subsequently found to be the case (as a result of Loans in arrears being subsequently found to have been fully or partially cured), it may be the case that, on any Interest Payment Date, the Available Revenue Receipts that were applied to cure a debit entry on the Principal Deficiency Ledger were excessive for such purpose. In such circumstances, following the application of Available Revenue Receipts, the Principal Deficiency Ledger will have a negative debit balance (any such amount, the "**Principal Deficiency Excess**"). Any amounts equal to the balance of such Principal Deficiency Excess shall form part of the Available Revenue Receipts on the next following Interest Payment Date (such amounts being "**Principal Deficiency Excess Revenue Amounts**") and shall be recorded as a credit against the Principal Deficiency Ledger. See the section "*Credit Structure – Principal Deficiency Ledger*" below;

Pursuant to item (u) of the Pre-Enforcement Revenue Priority of Payments, on or after the Step-Up Date or the Early Redemption Date, and after having paid or provided for items of higher priority in the Pre-Enforcement Revenue Priority of Payments, the Issuer will treat an amount equal to the lesser of (i) all remaining Available Revenue Receipts and (ii) the amount required by the Issuer to pay in full all amounts payable under items (a) to (f) (inclusive) of the Pre-Enforcement Redemption Priority of Payments, taking into account any Available Redemption Receipts (other than item (d) of the definition thereof) otherwise available to the Issuer, as Enhanced Amortisation Amounts and such amounts will be applied as Available Redemption Receipts to

be applied in accordance with the Pre-Enforcement Redemption Priority of Payments. Any amounts applied as Enhanced Amortisation Amounts will be recorded as a credit to the Principal Deficiency Ledger;

Pursuant to item (a) of the Pre-Enforcement Redemption Priority of Payments, to the extent that, after application of the Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments, the use of any Class A Liquidity Reserve Fund Release Amount to meet any Class A Liquidity Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments and the use of any General Reserve Fund Release Amount to meet any Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments, there is a Senior Expenses Deficit, the Issuer shall apply an amount of Available Redemption Receipts as Principal Addition Amounts to meet any Senior Expenses Deficit (subject to the limitations set out in the definition of Senior Expenses Deficit), against the relevant items in the Pre-Enforcement Revenue Priority of Payments in such order of priority as such items appear in the Pre-Enforcement Revenue Priority of Payments. Any Available Redemption Receipts applied as Principal Addition Amounts will be recorded as a debit to the Principal Deficiency Ledger;

The availability of interest provided by the Issuer Account Bank in respect of monies held in the Issuer Accounts (see the section "*Cashflows*" for further details); and

Availability of the swap provided by the Swap Provider to hedge against the possible variance between the rates of interest payable on the Fixed Rate Loans in the Portfolio and a rate of interest calculated by reference to three month EURIBOR (see the section "*Credit Structure - Interest Rate Risk for the Notes*" for further details).

Bank Accounts and Cash Management:

On the Closing Date the Issuer will enter into the Bank Account Agreement with the Issuer Account Bank in respect of the opening and maintenance of the Deposit Account and the Swap Collateral Account.

The Issuer will open a deposit account (the "**Deposit Account**") and a swap collateral account (the "**Swap Collateral Account**") pursuant to the Bank Account Agreement with the Issuer Account Bank on or prior to the Closing Date. The Issuer may from time to time open additional or replacement accounts (including, if applicable, any securities accounts (such accounts, together with the Deposit Account and the Swap Collateral Account, the "**Issuer Accounts**")) pursuant to the Bank Account Agreement and the Transaction Documents.

On each Interest Payment Date, the Cash Manager will transfer monies from the Deposit Account to be applied in accordance with the applicable Priority of Payments.

Amounts received by the Issuer in respect of Swap Collateral, Swap Tax Credits and Replacement Swap Premium (to the extent it is required to pay a termination payment due and payable by the Issuer to the Swap Provider) shall, to the extent due and payable under the terms of the Swap Agreement, be paid directly to the Swap Provider without regard to the Priority of Payments and in accordance with the terms of the Deeds of Charge and Cash Management Agreement.

Swap Agreement:

Payments received by the Issuer under certain of the Loans will be subject to fixed rates of interest for an initial period of time before switching to a variable rate, and certain other Loans may, following a Product Switch, either extend the initial fixed rate period or switch from a variable rate to a fixed rate of interest. The interest amounts payable by the Issuer in respect of the Notes will be calculated by reference to three-month EURIBOR or, in respect of the first Interest Period only, the linear interpolation of EURIBOR for three and six month Euro deposits. To hedge against the potential variance between the fixed rates of interest received on certain of the Loans in the Portfolio and the rate of interest payable on the Notes, the Issuer will enter into the Swap Transaction with the Swap Provider under the Swap Agreement.

Swap Provider

Initial Required Ratings

A rating of at least the following for each of S&P and DBRS:

- (a) In the case of S&P, the relevant required ratings depend on which S&P framework is elected by the Swap Provider from time to time (the "**S&P framework**") and the rating of the highest rated notes by S&P at such time. There are four S&P frameworks: Strong, Adequate, Moderate and Weak. On the date of the Swap Agreement, the provisions relating to S&P framework Strong are elected.
- Where the Strong, Adequate or Moderate S&P framework applies, the relevant required ratings will be the relevant S&P initial required rating (as set out in the table below) for such S&P framework.
- (b) In the case of DBRS, the relevant required ratings will be a long term

If the Swap Provider (or its successor or any relevant guarantor) does not have the Qualifying Collateral Trigger Rating and either (a) has not had a Qualifying Collateral Trigger Rating since the Closing Date or (b) at least 30 business days have elapsed since the last time the Swap Provider (or its successor or relevant guarantor) had a Qualifying Collateral Trigger Rating, the Swap Provider will (i) post collateral, or (ii) transfer its rights and obligations under the Swap Agreement to an appropriately rated replacement third party, or (iii) procure a guarantee from an appropriately rated third party or (iv) take any other action that will result in the rating of the Notes being maintained at, or restored to, the level at which it was immediately before such a rating trigger event has occurred.

A failure by the Swap Provider to take such steps will, in certain circumstances, allow the Issuer to terminate the Swap

COR of at least A by DBRS, or if a long term COR from DBRS is not available, a long-term, senior, unsecured debt rating of A by DBRS (either by way of a public rating or, in its absence, by way of a private rating supplied by DBRS), or if the Swap Provider is not rated by DBRS, a DBRS Equivalent Rating at least equal to A by DBRS. Transaction.

(or, in each case, such other credit rating for each rating agency as would not adversely affect the current rating of the Rated Notes (as applicable), being together, the "**Qualifying Collateral Trigger Rating**").

Subsequent Required Ratings

Additionally, if the Swap Provider (or its successor or any relevant guarantor) does not have the Qualifying Collateral Trigger Rating but has a rating of at least the following for S&P and DBRS:

- (c) In the case of S&P, where the Strong, Adequate or Moderate S&P framework applies, the relevant required ratings will be the relevant S&P subsequent required rating (as set out in the table below) for such S&P framework; and

where the Weak S&P framework applies, the relevant required ratings will be the relevant S&P required rating (as set out in the table below) for such S&P framework.

- (d) In the case of DBRS, the relevant required ratings will be a long term COR of at least BBB by DBRS, or if a long term COR from DBRS is not available, a long-term, senior, unsecured debt rating of BBB by DBRS (either by way of a public rating or, in its absence, by way of a private rating supplied by DBRS), or if the Swap Provider is not rated by DBRS, a DBRS Equivalent Rating at least equal

If the Swap Provider (or its successor or any relevant guarantor) does not have the Qualifying Transfer Trigger Rating and either (a) has not had a Qualifying Transfer Trigger Rating since the Closing Date or (b) at least 30 business days have elapsed since the last time the Swap Provider (or its successor or relevant guarantor) had a Qualifying Transfer Trigger Rating, the Swap Provider will (i) post collateral, and (ii) either (A) transfer its rights and obligations under the Swap Agreement to an appropriately rated replacement third party, or (B) procure a guarantee from an appropriately rated third party or (C) take any other action that will result in the rating of the Notes being maintained at, or restored to, the level at which it was immediately before such a rating trigger event has occurred.

A failure by the Swap Provider to take such steps will, in certain circumstances, allow the Issuer to terminate the Swap Transaction.

to BBB by DBRS.

(or, in each case, such other credit rating for each rating agency as would not adversely affect the current rating of the Rated Notes (as applicable), being together, the "**Qualifying Transfer Trigger Rating**").

"**COR**" means the critical obligation rating assigned and published by DBRS to address the risk of default of particular obligations and/or exposures of certain banks that have a higher probability of being excluded from bail-in and remaining in a continuing bank in the event of the resolution of a troubled bank than other senior unsecured obligations.

"**DBRS Equivalent Rating**" means with respect to any issuer rating or senior unsecured debt rating (or other rating equivalent), (a) if public ratings by Fitch, Moody's and S&P are all available, (i) the remaining rating (upon conversion on the basis of the DBRS Equivalent Rating Table) once the highest and the lowest rating have been excluded or (ii) in the case of two or more same ratings, any of such ratings (upon conversion on the basis of the DBRS Equivalent Rating Table); (b) if the DBRS Equivalent Rating cannot be determined under clause (a) above, but public ratings by any two of Fitch, Moody's and S&P are available, the lower rating available (upon conversion on the basis of the DBRS Equivalent Rating Table); and (c) if the DBRS Equivalent Rating cannot be determined under clause (a) or paragraph (b) above, and therefore only a public rating by one of Fitch, Moody's and S&P is available, such rating will be the DBRS Equivalent Rating (upon conversion on the basis of the DBRS Equivalent Rating Table).

Non-Rating Triggers Table

Perfection Events:

Prior to the completion of the transfer of legal title of the Loans to the Issuer, the Issuer will be subject to certain risks as set out in the risk factor entitled "*Originator to initially retain legal title to the Loans and risks relating to set-off*" and "*Set-off may adversely affect the value of the Portfolio or any part thereof*" in the section entitled "*Risk Factors*". Completion of transfer of the legal title of the Loans and their Related Security by the Originator to the Issuer will be completed as soon as reasonably practicable after the earliest to occur of the following:

- (a) the Originator being required to perfect legal title to the Loans (i) by an order of a court of competent jurisdiction or (ii) by a regulatory authority which has jurisdiction over the Originator or (iii) by any organisation of which the Originator is a member, or whose members comprise (but are not necessarily limited to) mortgage lenders and with whose instructions it is customary for the Originator to comply, to perfect legal title to the Loans and their Related Security;
- (b) the termination or resignation of the Servicer and the failure of any replacement servicer to assume the duties of the Servicer;
- (c) it becoming necessary by law to take any or all such actions referred to in paragraph (a) above (in which case the Issuer, in consultation with the Servicing Forum, shall take all necessary steps to ensure that it (or its nominee) is duly authorised under all applicable laws to hold such legal title);
- (d) the security created under or pursuant to either the English Deed of Charge or the Irish Deed of Charge or any material part of that security being in jeopardy;
- (e) an Insolvency Event occurring in relation to the Originator;
- (f) it becoming unlawful in any applicable jurisdiction for the Originator to hold legal title in respect of any Loan or its Related Security in the Portfolio;
- (g) all or any part of the property, business, undertakings, assets or revenues of the Originator having an aggregate value in excess of €10 million has been attached as a result of any distress, execution or diligence being levied or any encumbrance taking possession or similar attachment and such attachment has not been lifted within 30 days, unless in any such case the Security Trustee certifies that in its reasonable opinion such event will not materially prejudice the ability of the Originator to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans and their Related Security; or
- (h) the Originator is in breach of any of its obligations under the Mortgage Sale Agreement, provided that there shall be no Perfection Event hereunder if (1) the breach (if capable of remedy) has been remedied within 90 calendar days, or (2) (x) the breach (if capable of remedy) has not been remedied within 90 calendar days; and (y) the relevant Rating Agencies have confirmed that the then current ratings of the Class A Notes will not be withdrawn, downgraded or qualified as a result of such

breach, provided further that: (A) the Perfection Event in this provision (h) shall not apply if the Originator has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes; and (B) this Perfection Event (h) shall be subject to such amendment as the Originator may require, so long as the Originator delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes.

If the Loans and their Related Security are sold pursuant to the exercise of the Call Option, the Issuer (or its nominee) or (if at the time the Call Option is exercised the Issuer (or its nominee) does not hold the Whole Legal Title) the Originator, upon receipt of a direction from the Issuer and at the sole cost and expense of the Issuer, shall promptly transfer the Whole Legal Title in the Loans and their Related Security comprising the Portfolio to the Legal Title Transferee.

Servicer Events:	Termination	<p>The appointment of the Servicer may be terminated by the Issuer (subject to the prior written consent of the Security Trustee (as directed by the Note Trustee itself acting on the instruction of the Noteholders)) if any of the following events (each a "Servicer Termination Event") occurs and is continuing:</p> <ul style="list-style-type: none">(a) the Servicer defaults in the payment on the due date of any payment due and payable by it under the Servicing Agreement and the Servicer fails to remedy it for a period of 30 Business Days after: (i) where the failure to pay has arisen other than as a result of a Disruption Event, the Servicer becoming aware of such default and receipt by the Servicer (with a copy to the Back-Up Servicer Facilitator) of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee requiring the same to be remedied or (ii) where the failure to pay has arisen as a result of a Disruption Event, the cessation of the relevant Disruption Event or, if earlier, 60 Business Days following the Servicer becoming aware of such default and receipt by the Servicer (with a copy to the Back-Up Servicer Facilitator) of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee requiring the same to be remedied;(b) material non-performance of its other covenants and obligations, which failure in the reasonable opinion of the Issuer (prior to the delivery of an Enforcement Notice) or the opinion of the Security Trustee (acting on the directions of the Note Trustee (itself acting on the instructions of the Noteholders), after the delivery of an Enforcement Notice) is materially prejudicial to the interests of the Noteholders, which has not been remedied for a period of 30 Business Days after the earlier of the Servicer becoming aware of such default or of receipt by the Servicer (with a copy to the Back-Up Servicer Facilitator) of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee requiring the same to be remedied;
-------------------------	--------------------	---

- (c) an Insolvency Event occurring in respect of the Servicer; or
- (d) it becomes unlawful in any applicable jurisdiction for the Servicer to perform any of its obligations as contemplated by the Servicing Agreement, provided that a Servicer Termination Event shall not be deemed to have arisen where the obligations which it would be unlawful for the Servicer to perform arise from an instruction issued by the Issuer or the Security Trustee.

The Servicer may also resign upon giving not less than 12 months' written notice to the Issuer, the Originator, the Security Trustee and the Back-Up Servicer Facilitator (copied to the Security Trustee) provided that, *inter alia*, a replacement servicer has been appointed by the Issuer (subject to the prior written consent of the Security Trustee).

The Servicer may terminate the Servicing Agreement if any of the following events occurs and is continuing:

- (a) the Issuer defaults in the payment on the due date of any payment due and payable by it under the Servicing Agreement and the Issuer fails to remedy it for a period of 30 Business Days after: (i) where the failure to pay has arisen other than as a result of a Disruption Event, the Issuer becoming aware of such default and receipt by the Issuer (with a copy to the Note Trustee, Security Trustee and the Back-Up Servicer Facilitator) of written notice from the Servicer requiring the same to be remedied or (ii) where the failure to pay has arisen as a result of a Disruption Event, the cessation of the relevant Disruption Event or, if earlier, 60 Business Days following the Issuer becoming aware of such default and receipt by the Issuer (with a copy to the Note Trustee, the Security Trustee and the Back-Up Servicer Facilitator) of written notice from the Servicer requiring the same to be remedied; or
- (b) an Insolvency Event occurring in respect of the Issuer,

provided that, *inter alia*, a replacement servicer has been appointed.

The resignation of the Servicer and/or the termination by the Servicer of the Servicing Agreement is conditional on, *inter alia*:

- (a) (if the Notes remain outstanding) the resignation having no adverse effect on the then current ratings of the Rated Notes unless the Security Trustee (acting on the instruction of Note Trustee (itself acting on the instructions of the Noteholders)) or the Noteholders (the Noteholders acting by way of Extraordinary Resolution) agree otherwise; and
- (b) a substitute servicer assuming and performing all the material duties and obligations of the Servicer.

WEIGHTED AVERAGE LIVES OF THE NOTES

The term "**weighted average life**" refers to the average amount of time that will elapse from the date of issuance of a security to the date of distribution to the relevant investor of amounts sufficient to fully repay principal in respect of such security (assuming no losses on the Loans and weighted by the principal amortisation of the Notes on each Interest Payment Date). The weighted average lives of the Notes will be influenced by, among other things, the actual rate of repayment of the Loans in the Portfolio. In addition, the weighted average lives of the Notes, should they not be called on or after the Step-Up Date, will be influenced by, *inter alia*, the amount of Available Revenue Receipts used as Enhanced Amortisation Amounts in accordance with item (u) of the Pre-Enforcement Revenue Priority of Payments.

The actual weighted average lives of the Notes cannot be stated, as the ultimate rate of prepayment of the Loans and a number of other relevant factors are unknown. However, calculations of the possible average lives of the Notes can be made based on certain assumptions.

The following tables were prepared based on the characteristics of the loans included in the Portfolio, the provisions of the Conditions and the following additional assumptions (the "**Modelling Assumptions**").

Modelling Assumptions:

- (a) no Loan becomes delinquent or is enforced for so long as the Notes remain outstanding;
- (b) the Portfolio Sale Date falls on or prior to the Portfolio Sale Longstop Date;
- (c) no Loan is required to be repurchased by the Originator, whether as a result of a breach of Loan Warranty or otherwise;
- (d) the Notes are issued on 21 June 2024 and all payments on the Notes are received on the 24th day (without regard to whether such day is a Business Day) of December, March, June and September in each year, with the first Interest Payment Date falling in September 2024;
- (e) No Product Switches and Further Advances occur;
- (f) no interest accrues on the Deposit Account;
- (g) 3-month EURIBOR and 1-month EURIBOR is equal to 3.80 per cent.;
- (h) Variable Rate Loans pay 1-month EURIBOR (floored at zero) 2.4 per cent.;
- (i) the fixed rate under the Swap Transaction on the Closing Date is 2.0 per cent.;
- (j) the weighted average margin over 3-month EURIBOR of the Collateralised Notes is 0.88 per cent on the Closing Date and from (and including) the Step-Up Date, margins over 3 month EURIBOR are multiplied by 1.5 (capped at 1.0 per cent increase);
- (k) no Enforcement Notice is served on the Issuer, no Event of Default has occurred and the Security is not enforced;
- (l) fixed fees are EUR 150,000 per annum and servicing fees are 0.15 per cent.;
- (m) the Swap Transaction is not terminated and the Swap Provider fully complies with its obligations under the Swap Agreement;
- (n) with respect to the Loans, each month consists of 30 calendar days, and each year 360 days and with respect to the Notes and the Swap Transaction, each month consists of the actual number of days in the relevant month and 360 days in the relevant year;
- (o) the WAL calculations disregard Class Y, Class R1 and Class R2 principal that are paid under the Pre-Enforcement Redemption Priority of Payments and any Excess Consideration Funds paid on the first Interest Payment Date;

(p) for the purpose of WALs calculation, item (g), (h) and (l) - (n) of Available Revenue Receipts and item (f) of Available Redemption Receipts are considered to be zero; and

(q) The weighted average lives have been calculated on a 30/360 basis.

The actual characteristics and performance of the Loans are likely to differ from the Modelling Assumptions. The following tables are hypothetical in nature and are provided only to give a general sense of how the principal cash flows might behave under various prepayment scenarios. For example, the Issuer does not expect that the Loans will prepay at a constant rate until maturity, or that there will be no defaults or delinquencies on the Loans. Any difference between the Modelling Assumptions and, inter alia, the actual prepayment or loss experience on the Loans will affect the redemption profile of the Notes and cause the weighted average lives of the Notes to differ (which difference could be material) from the corresponding information in the tables for each indicated CPR.

"CPR" means, on any Calculation Date, the annualised principal prepayment rate of all the Loans during the previous Collection Period calculated as follows:

$$1 - ((1-R)^{12})$$

where R equals the result (expressed as a percentage) of the total principal prepayments received by the Issuer during the immediately preceding Collection Period divided by the aggregate outstanding principal balance of the Loans as at the first day of that Collection Period.

Assuming the Call Option is exercised on the Step-Up Date, possible WAL (in years):

CPR	0.00%	4.00%	8.00%	12.00%	16.00%	20.00%

E	2.26	2.26	2.26	2.26	2.26	2.26

EARLY REDEMPTION OF THE NOTES

The Option Holder may exercise the Call Option granted by the Issuer pursuant to the Deed Poll, requiring the Issuer to sell the Portfolio. The Issuer is not permitted to dispose of the Portfolio in any other circumstances (other than in relation to an enforcement of the Security or the repurchase of a Loan and its Related Security by the Originator pursuant to the Mortgage Sale Agreement).

Pursuant to and subject to the terms of the Deed Poll, the Issuer will grant to the Option Holder the following rights (collectively, the "**Call Option**"), which may be exercised at any time on or after the Optional Purchase Commencement Date:

- (a) the right to require the Issuer to sell and transfer to the Option Holder or a Third Party Purchaser or a nominee of the Option Holder (as identified in the Exercise Notice, the "**Beneficial Title Transferee**") the beneficial title to all (but not some) of the Loans and their Related Security comprising the Portfolio (the "**Whole Beneficial Title**") in consideration for the Optional Purchase Price;
- (b) the right to require the Issuer to transfer the legal title to all (but not some) of the Loans and their Related Security comprising the Portfolio (the "**Whole Legal Title**"), or if, at the time the Call Option is exercised, the Issuer does not hold legal title, the right to require the Issuer to procure that the Originator transfers legal title, to the Option Holder, a Third Party Purchaser or any nominee of the Option Holder or the Third Party Purchaser specified as such in the Exercise Notice (as identified in the Exercise Notice, the "**Legal Title Transferee**");
- (c) the right to require the Issuer to serve all notices, enter into such documents as may reasonably be required and to take all steps (including carrying out the requisite registrations and recordings) in order to vest or transfer legal title in and to the Portfolio to the Legal Title Transferee; and
- (d) the right to require the Issuer to assign the benefit of the Loan Warranties given to the Issuer pursuant to the Mortgage Sale Agreement to the Option Holder or (as the case may be) the Beneficial Title Transferee and the Legal Title Transferee.

The Call Option may be exercised at any time after the Optional Purchase Commencement Date by written notice from the Option Holder to the Issuer, with a copy to the Security Trustee, the Originator, the Servicer and each of the Rating Agencies, (such notice, an "**Exercise Notice**") confirming (i) that the Option Holder wishes to exercise the Call Option, for effect on an Interest Payment Date (or any date falling not more than 5 Business Days prior to such Interest Payment Date) following the service of the Exercise Notice (the Interest Payment Date (or such other date falling not more than 5 Business Days prior to such Interest Payment Date) identified as the date on which the purchase by the Beneficial Title Transferee of the Whole Beneficial Title and (if applicable) the transfer of the Whole Legal Title to the Legal Title Transferee is expected to be completed pursuant to the terms of the Deed Poll being the "**Optional Purchase Sale Date**") and (ii) how the Optional Purchase Price will be determined by the Option Holder.

The "**Optional Purchase Completion Date**" shall be the Interest Payment Date selected as the Optional Purchase Sale Date or, where the Optional Purchase Sale Date falls on any other date, on the immediately following Interest Payment Date.

The sale of the Whole Beneficial Title and (if applicable) the transfer of the Whole Legal Title pursuant to the Call Option shall also be subject to the following conditions:

- (a) either:
 - (i) the Beneficial Title Transferee and (if applicable) the Legal Title Transferee is/are a person or persons who can avail of an exemption from withholding tax in accordance with Section 246(3) of the TCA; or
 - (ii) the Issuer, having received tax advice from an appropriately qualified and experienced Irish tax adviser in the form and substance satisfactory to it (acting reasonably), or such

other comfort as may reasonably be required by it (including, without limitation, any clearance or other confirmation granted by the relevant Irish Tax Authorities ("**Tax Advice**")), is satisfied that sale of the Whole Beneficial Title and (if applicable) transfer of the Whole Legal Title will not create or increase any liabilities of the Issuer to Irish tax or any tax imposed by the jurisdiction of the Beneficial Title Transferee and (if applicable) the Legal Title Transferee. The costs relating to such Tax Advice shall be borne by the Option Holder;

- (b) either:
- (i) the Legal Title Transferee has all the appropriate licences, approvals, authorisations, consents, permissions and registrations required to administer residential mortgage loans such as the Loans and their Related Security comprising the Portfolio (the "**Relevant Authorisations**"); or
 - (ii) the Beneficial Title Transferee has appointed a servicer who has the Relevant Authorisations and that the Originator has confirmed in writing that it will hold legal title to the Loans and their Related Security comprising the Portfolio on trust for Beneficial Title Transferee; and
- (c) the Beneficial Title Transferee shall not be permitted to transfer the beneficial interest in any of the Loans and their Related Security comprising the Portfolio to a further purchaser until the transfer of the Whole Legal Title is perfected unless such transfer of beneficial interest is made to a person who can avail of an exemption from withholding tax in accordance with Section 246(3) of the TCA.

Optional Purchase Price

The purchase price for the Loans and their Related Security comprising the Portfolio pursuant to the Call Option shall be an amount equal to the higher of:

- (a) the Base Option Purchase Price; or
- (b) the Market Value Option Purchase Price,

in each case, plus (i) the Issuer's costs and expenses associated with transferring its interests in any Loan and its Related Security to the Option Holder or its nominee (if any) or a Third Party Purchaser (as applicable) and (ii) an amount agreed between the Issuer and the Option Holder in respect of costs anticipated to be incurred by the Issuer after the Optional Purchase Completion Date (the "**Optional Purchase Price**"). The Exercise Notice shall include confirmation of how the Optional Purchase Price will be determined by the Option Holder.

The "**Base Option Purchase Price**" being an amount equal to, without double counting:

- (i) the amount required by the Issuer to pay in full all amounts payable under items (a) to (s) (inclusive) of the Post-Enforcement Priority of Payments on the Optional Purchase Completion Date;

less

- (ii) any Available Revenue Receipts and Available Redemption Receipts otherwise available to the Issuer (including any amounts standing to the credit of the Class A Liquidity Reserve Fund and the General Reserve Fund).

The "**Market Value Option Purchase Price**" being any amount equal to or higher than the Base Option Purchase Price payable by a third party in the market and/or the Option Holder (acting at its sole discretion), **provided that** the Market Value Option Purchase Price shall not be less than the Base Option Purchase Price.

In connection with the exercise of the Call Option, the Beneficial Title Transferee will agree with the Issuer to (i) deposit an amount equal to the Optional Purchase Price in either an escrow account in the name of the Beneficial Title Transferee or in any other account as may be agreed between the Issuer and the Beneficial Title Transferee; or (ii) provide irrevocable payment instructions for an amount equal to the Optional Purchase Price for value on the Optional Purchase Sale Date to the Deposit Account or such other account as may be agreed between the Issuer and Beneficial Title Transferee; or (iii) in the case of a refinancing through a securitisation or other form of financing, provide proof of committed funds settling on the same day as the Optional Purchase Sale Date, provided that such deposit shall be made or irrevocable payment instructions or proof of committed funds shall be given no later than (x) five Business Days prior to the Optional Purchase Sale Date or (y) such other date as the Issuer, at its sole discretion and the Beneficial Title Transferee may agree, provided further that the Optional Purchase Price or irrevocable payment instructions proof of committed funds (as applicable) must be received by the Issuer in sufficient time to enable the Issuer to provide notice of redemption of the Notes to the Noteholders pursuant to Conditions 8.3 (*Mandatory Redemption of the Notes in Full*), 8.4 (*Ten per cent. clean-up call*) or 8.5 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*) (as applicable); and/or (iii) take any other action as may be agreed by the Beneficial Title Transferee, the Issuer and the Security Trustee in relation to the payment of the Optional Purchase Price.

At the cost of the Option Holder, the Issuer shall serve, or if, at the time the Call Option is exercised, the Issuer does not hold the Whole Legal Title, direct the Originator to serve all relevant notices and take all steps (including carrying out requisite registrations and recordings) in order to effectively vest the Whole Legal Title in the Legal Title Transferee, in each case subject to the terms and conditions set out in the Deed Poll, such notices to be given promptly after the Optional Purchase Sale Date.

Redemption of the Notes

On the Optional Purchase Completion Date, the Issuer (or the Cash Manager on its behalf) will apply the Optional Purchase Price and any other amounts (without double counting) representing Available Revenue Receipts and/or Available Redemption Receipts in accordance with the Post-Enforcement Priority of Payments which will result in the Notes being redeemed in full.

Any Revenue Receipts or Redemption Receipts received by the Issuer from and including the Collection Period Start Date immediately prior to the Optional Purchase Completion Date to and including the Optional Purchase Completion Date (such amounts being "**Optional Purchase Collections**") will be payable to or for the account of the Beneficial Title Transferee and the Issuer shall transfer all such amounts to or for the account of the Beneficial Title Transferee on the Optional Purchase Completion Date.

Holder, the person who holds the greatest aggregate percentage of Class R2 Notes (excluding the Class R2 Notes held by the Retention Holder) or, as applicable, beneficial interest in the greatest aggregate percentage of Class R2 Notes (excluding the Class R2 Notes held by the Retention Holder).

- (c) any Business Day following the occurrence of a Redemption Event.

"Third Party Purchaser" means a third party purchaser of the beneficial title to the Loans and their Related Security as nominated by the Option Holder in the Exercise Notice.

USE OF PROCEEDS

The Issuer will use the net proceeds of the Collateralised Notes and part of the proceeds of the Class X Notes (other than amounts described in paragraph (a) to (c) below) (which are expected to amount to €3,827,943.10) to pay on the Portfolio Sale Date, the Consideration payable by the Issuer for the Portfolio to be acquired from the Originator on the Portfolio Sale Date.

The Issuer will use the proceeds of the Class Y Notes, the Class R1 Notes and the Class R2 Notes (which will on the first Interest Payment Date, form part of the Available Redemption Receipts) to, on the first Interest Payment Date, redeem the Class A Notes up to an amount equal to the aggregate of the proceeds of the Class Y Notes, the Class R1 Notes and the Class R2 Notes.

RATINGS

The relevant Notes below, on issue, are expected to be assigned the following ratings by DBRS and S&P. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency if, in its judgement, circumstances so warrant.

Class of Notes	DBRS	S&P
Class A Notes	AAA (sf)	AAA (sf)
Class B Notes	AA (sf)	AA+ (sf)
Class C Notes	A (high) (sf)	AA (sf)
Class D Notes	BBB (high) (sf)	BBB+ (sf)
Class E Notes	BB (high) (sf)	BBB- (sf)
Class Y Notes	Unrated	Unrated
Class X Notes	BBB (sf)	B- (sf)
Class R1 Notes	Unrated	Unrated
Class R2 Notes	Unrated	Unrated

The ratings assigned to the Rated Notes by DBRS and S&P address, *inter alia* (a) the likelihood of full and timely payment to the holders of the Class A Notes and, if no Class A Notes remain outstanding, the Most Senior Class of Notes (other than the Class X Notes), of all payments of interest on each Interest Payment Date, (b) the likelihood of ultimate payment to the Noteholders of interest in relation to the Class X notes on or prior to the Final Maturity Date, (c) the likelihood of full and timely payment to the Noteholders of principal in relation to the Rated Notes on or prior to the Final Maturity Date.

Meaning of Ratings

The suffix (sf) for both DBRS and S&P denotes an issue that is a structured finance transaction. The addition of the (sf) identifier to a rating does not change that rating's definition.

Rating	Rating Agency	Meaning
AAA (sf)	DBRS	Highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.
AAA (sf)	S&P	An obligation rated 'AAA' has the highest rating assigned by S&P. The Issuer's capacity to meet its financial commitments on the obligation is extremely strong.
AA (sf)	DBRS	Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events.
AA+ (sf)	S&P	An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The Issuer's capacity to meet its financial commitments on the obligation is very strong.

Ratings may be modified by the addition of a plus (+) or minus (-)

		sign to show relative standing within the rating categories.
A (high) (sf)	DBRS	<p>Good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than AA. May be vulnerable to future events, but qualifying negative factors are considered manageable.</p> <p>All rating categories from AA to CCC contain the subcategories (high) and (low). The absence of either a (high) or (low) designation indicates the credit rating is in the middle of the category.</p>
AA (sf)	S&P	<p>An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The Issuer's capacity to meet its financial commitments on the obligation is very strong.</p> <p>Ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.</p>
BBB (high) (sf)	DBRS	<p>Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.</p> <p>All rating categories from AA to CCC contain the subcategories (high) and (low). The absence of either a (high) or (low) designation indicates the credit rating is in the middle of the category.</p>
BBB+ (sf) and BBB- (sf)	S&P	<p>An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the Issuer's capacity to meet its financial commitments on the obligation.</p> <p>Ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.</p>
BB (high) (sf)	DBRS	<p>Speculative, non-investment grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.</p> <p>All rating categories from AA to CCC contain the subcategories (high) and (low). The absence of either a (high) or (low) designation indicates the credit rating is in the middle of the category.</p>
B- (sf)	S&P	<p>An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitments on the obligation.</p> <p>Ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.</p>

THE LOANS

The Portfolio

Introduction

The following is a description of some of the characteristics of the Loans including details of loan types and selected statistical information.

Unless otherwise indicated, the description that follows relates to types of loans that could be sold to the Issuer as part of the Portfolio as at the Portfolio Sale Date.

The Portfolio

The Portfolio from time to time after the Portfolio Sale Date will comprise loans advanced to Borrowers upon the security of residential property situated in Ireland, such loans acquired pursuant to the Mortgage Sale Agreement on the Portfolio Sale Date, other than Loans which have been repaid or which have been repurchased from the Issuer pursuant to the Mortgage Sale Agreement.

The aggregate Current Balance of the loans in the Portfolio as at the Portfolio Reference Date was €264,054,081.45.

As at the Portfolio Reference Date, the Portfolio had the characteristics shown below. For further information on the characteristics of the Portfolio, see the section entitled "*Characteristics of the Portfolio*".

Origination of the Portfolio

The Portfolio comprises of Loans originated by the Originator or by Pepper as the Back Book Originator and acquired by the Originator prior to the Portfolio Reference Date.

The beneficial interest in the Portfolio immediately prior to the sale thereof to the Issuer pursuant to the Mortgage Sale Agreement was acquired by the Originator from either:

- (d) the Interim Purchaser; or
- (e) Finance Ireland RMBS No. 3 Designated Activity Company following the exercise of a call option,

in each case on the Portfolio Sale Date.

Security

All of the Loans are secured by first ranking mortgages.

Interest Rate Types

The Portfolio consists of:

- (f) Loans which have a variable interest rate (the "**Variable Rate**" or "**VR**") where the Variable Rate continues for the life of the Mortgage (the "**Variable Rate Loans**"); and
- (g) Loans where the interest rate applicable to that Loan is a fixed rate of interest for a specific period which:
 - (i) in respect to any Loans originated before 7 October 2019 has prepayment rights during the fixed rate period limited to 5 per cent. of the outstanding balance of such Loan (in no more than three lump sum payments); or

- (ii) in respect to any Loans originated on or after 7 October 2019 has prepayment rights during each 12 month period (starting on the anniversary of the date of provision of the Loan) during the fixed rate period limited to 20 per cent. of the outstanding balance of such Loan (with no carry over to any subsequent 12 month period if the full 20 per cent. prepayment right is not exercised in a particular 12 month period) that changes to a Variable Rate,

(such Loans being "**Fixed Rate Loans**").

Characteristics of the Loans

Eligibility Criteria

The Originator will represent and warrant to the Issuer and the Security Trustee on the Portfolio Sale Date that each Loan to be transferred to the Issuer on the Portfolio Sale Date complied with the Eligibility Criteria as at the Portfolio Reference Date (or, in relation to Eligibility Criteria (b) only, as at the Portfolio Sale Date).

For the avoidance of doubt, when applying the conditions below, the Loans have been selected randomly and not with the intention to prejudice Noteholders.

"**Eligibility Criteria**" means, in respect of any Loan (including, where relevant its Related Security):

- (a) each Loan has been originated in the normal course of business and in line with the Originator's or Back Book Originator's residential mortgage policy (the "**Lending Criteria**");
- (b) all Borrowers have paid at least one instalment in respect of the Loan as at the Portfolio Sale Date;
- (c) the maximum original loan balance is €1,250,000;
- (d) the minimum original loan balance is €1,000;
- (e) the maximum term of the Loan is 35.0 years;
- (f) no Loan in the Portfolio shall have a Current LTV or a Current Indexed LTV higher than 100%;
- (g) no Loan is a Lifetime Interest Only Loan;
- (h) all Properties securing the Loan are located in the Republic of Ireland;
- (i) all Borrowers are resident in Ireland;
- (j) each Loan is denominated in Euros;
- (k) no Loan is in arrears by more than two missed payments;
- (l) no Borrower is aged less than 18 years of age at time of origination of the loan;
- (m) no Loan has been subject to a Further Advance;
- (n) there are no connected or grouped Borrowers within the Portfolio; and
- (o) the aggregate Loan balance of all Loans granted to a single Borrower is lower than 2.0 per cent. of the Current Balance of all Loans in the Portfolio.

The Originator will give representations and warranties as to the compliance of the Loans with the Eligibility Criteria, and shall be required to repurchase any Loan in respect of which there is a breach of such representations and warranties. See "*Overview of Key Transaction Documents – Mortgage Sale Agreement – Representations and Warranties*" below.

Repayment Terms

Loans may combine one or more of the features listed in this section. Overpayments are allowed on all products, within certain limits. See "*Overpayments and Early Repayment Charges*" below.

Loans are typically repayable such that the Borrower makes monthly payments of both interest and principal so that, when the Loan matures, the full amount of the principal of the Loan will have been repaid.

The required monthly payment in respect of the Loans may alter from month to month for various reasons, including changes in interest rates.

There are no Lifetime Interest-Only Loans in the Portfolio.

"**Lifetime Interest-Only Loan**" means a Loan where the Borrower makes monthly payments of interest but not of principal so that, when the Loan matures, the entire principal amount of the Loan is still outstanding and is payable in one lump sum.

Principal prepayments may be made in whole or in part at any time during the term of a Loan, subject to the payment of any Early Repayment Charges (as described in "*Overpayments and Early Repayment Charges*" below). A prepayment of the entire outstanding balance of a loan discharges the mortgage. Any prepayment in full must be made together with all accrued interest, arrears of interest, any unpaid expenses and any applicable repayment fee(s).

Various methods are available to Borrowers for making payments on the Loans, including:

- (a) Direct Debit from a bank or building society account; and
- (b) Standing Order from a bank or building society account.

Capitalising Arrears

In certain circumstances following the accrual of Arrears representing amounts other than principal repayments on a Loan, the relevant Borrowers may be given the option to capitalise such Arrears. "**Capitalisation**" is an arrangement to manage Arrears in respect of a Loan, which involves adding the balance of Arrears (other than Arrears of principal) in respect of such Loan to the Current Balance of such Loan and allowing that amount to be cleared over the remaining term of such Loan.

The Servicer shall assess and service any Capitalisation in accordance with the capitalisation policy relating to the capitalisation of Arrears, as such policy applies to all loans serviced by the Servicer from time to time (including the Loans) (the "**Capitalisation Policy**"). As at the date of this Prospectus, the Capitalisation Policy contains the following features:

- (a) Capitalisation will only be considered as a treatment when:
 - (i) the Servicer understands the relevant Borrower's financial and personal circumstances;
 - (ii) long term affordability has been explored with the relevant Borrower;
 - (iii) it is deemed by the relevant Borrower to be in its best interest; and
 - (iv) the relevant Borrower has completed an income and expenditure assessment.
- (b) The risks and implications associated with Capitalisation will be clearly articulated to the Borrower prior to capitalising their Arrears. The Borrower will be advised to seek independent advice before deciding if Capitalisation is the right option for them.
- (c) Capitalisation will not be applied automatically.

The Servicer will assess each Borrower individually and will seek a course of action that is appropriate based on the circumstances of the case and their experience as a Prudent Mortgage Lender.

The Servicer may update the Capitalisation Policy from time to time in accordance with the standards of a Prudent Mortgage Lender. In so doing the Servicer shall adhere to the then current regulatory requirements imposed by and/or guidance issued by, without limitation, the Central Bank. See the sections entitled "*Risk Factors – Consumer Credit Act and Mortgage Credit Regulations*" and "*Risk Factors – Unfair Terms in Consumer Contracts Regulations*" for further details.

"**Arrears**" means as at any date in respect of any Loan, all amounts currently overdue and payable which arise on such Loan account where a borrower has not made a full mortgage repayment, or only makes a partial mortgage repayment, in accordance with the original mortgage contract, by the scheduled due date.

Overpayments and Early Repayment Charges

Overpayments – Overpayments are allowed on all products, although an Early Repayment Charge may be payable. Borrowers may either increase their regular monthly payments above the normal monthly payment then applicable or make lump sum payments at any time.

For the Loans in the Portfolio, if Borrowers with daily calculations of interest pay more than the scheduled monthly payment, in accordance with the Mortgage Conditions, the overpayment amount will not be applied to the Current Balance on their Loan, unless otherwise requested by the relevant Borrower. Overpayment amounts will as remain as a credit arrears position until such point as the relevant Borrower requests that it is applied to the Current Balance of their Loan. Only at that point will the contractual monthly mortgage payments be recalculated.

Early Repayment Charges – The Borrower will be required to pay an Early Repayment Charge if certain events occur during the predetermined product period and the Servicer has not waived or revised its policy with regards the payment of early repayment charges. These events include a full or partial unscheduled repayment of principal, or an agreement between the Originator and the Borrower to switch to a different mortgage product. If all or part of the principal owed by the Borrower, other than the scheduled monthly payments, is repaid before the end of the product period, the Borrower will be liable to pay to the Originator (for the benefit of the Issuer) an Early Repayment Charge based on the amount repaid or switched to another product. Amounts of principal may be prepaid in full or in part on any Business Day. The Borrower may make an early repayment of a part of the principal due on the relevant Loan.

For the Loans in the Portfolio, an Early Repayment Charge will be incurred if Borrowers pay more than the scheduled monthly payment in respect of their Loans. See the second paragraph above for further details.

Title to the Portfolio

Pursuant to and under the terms of the Mortgage Sale Agreement dated on or about the Closing Date, the Originator will transfer to the Issuer the equitable title to the Loans and their Related Security on the Portfolio Sale Date. The Originator has agreed to transfer legal title to the Loans and their Related Security to the Issuer, and the Issuer has undertaken to seek such transfer of legal title, only following the occurrence of a Perfection Event (as set out below).

No perfection of transfer of legal title in the Loans and their Related Security to the Issuer is proposed to be completed by registration at the Land Registry or Registry of Deeds and no notice is proposed to be given to any of the Borrowers of the transfer of their Loan and Related Security to the Issuer until the occurrence of one of the Perfection Events set out below. The Loans in the Portfolio and their Related Security are accordingly owned in equity only by the Issuer pending such registration and notification. Legal title to the Loans and their Related Security will continue to be vested in the Originator until the occurrence of a Perfection Event. Following the occurrence of a Perfection Event, the Originator has agreed, in the Mortgage Sale Agreement, to transfer legal title to the Issuer (or its nominee), which transfer will be perfected by steps including making any necessary notifications, filings and registrations at the Land Registry or Registry of Deeds and notifying the relevant Borrower of such transfer, as applicable, by the Issuer (or by the Servicer on behalf of the Issuer).

The Issuer will grant a first fixed charge in favour of the Security Trustee over its interest in the Loans pursuant to the Irish Deed of Charge.

The Security Trustee is not responsible for:

- (a) effecting any registration at the Land Registry or Registry of Deeds to perfect or protect either:
 - (i) the sale of the Loans to the Issuer; or
 - (ii) the granting of security over the Loans by the Issuer in favour of the Security Trustee; nor
- (b) obtaining possession of Title Deeds to the properties the subject of the Loans.

Notices of the equitable assignments or declarations of trust in favour of the Issuer and the security granted in favour of the Security Trustee by the Issuer will not, save as mentioned below, be given to the Borrowers under the Loans.

Until the occurrence of a Perfection Event, the Issuer will not take any action to effect a transfer of legal title to the Loans and their Related Security to the Issuer. The following events constitute Perfection Events:

- (a) the Originator being required to perfect legal title to the Loans by an order of a court of competent jurisdiction or by a regulatory authority which has jurisdiction over the Originator or by any organisation of which the Originator is a member, or whose members comprise (but are not necessarily limited to) mortgage lenders and with whose instructions it is customary for the Originator to comply, to perfect legal title to the Loans and their Related Security;
- (b) the termination or resignation of the Servicer and the failure of any replacement servicer to assume the duties of the Servicer;
- (c) it becoming necessary by law to do any or all of the acts referred to in paragraph (a) above (in which case the Issuer, in consultation with the Servicing Forum, shall take all necessary steps to ensure that it (or its nominee) is duly authorised under all applicable laws to hold such legal title);
- (d) the security created under or pursuant to either the Irish Deed of Charge or the English Deed of Charge or any material part of that security being, in the opinion of the Security Trustee, in jeopardy;
- (e) an Insolvency Event occurring in relation to the Originator;
- (f) it becoming unlawful in any applicable jurisdiction for the Originator to hold legal title in respect of any Loan or its Related Security in the Portfolio;
- (g) all or any part of the property, business, undertakings, assets or revenues of the Originator having an aggregate value in excess of €10 million has been attached as a result of any distress, execution or diligence being levied or any encumbrance taking possession or similar attachment and such attachment has not been lifted within 30 days, unless in any such case the Security Trustee certifies that in its reasonable opinion such event will not materially prejudice the ability of the Originator to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans and their Related Security; or
- (h) the Originator is in breach of any of its obligations under the Mortgage Sale Agreement, provided that there shall be no Perfection Event hereunder if (1) the breach (if capable of remedy) has been remedied within 90 calendar days, or (2) (x) the breach (if capable of remedy) has not been remedied within 90 calendar days; and (y) the relevant Rating Agencies have confirmed that the then current ratings of the Class A Notes will not be withdrawn, downgraded or qualified as a result of such breach, provided further that: (A) the Perfection Event in this provision (h) shall not apply if the Originator has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes; and (B) this

Perfection Event (h) shall be subject to such amendment as the Originator may require, so long as the Originator delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes.

Following the occurrence of a Perfection Event, the Issuer (or its nominee) will be entitled to take or instruct the taking of all necessary steps to perfect legal title to its interests in the Loans and their Related Security, including the carrying out of any necessary registrations, recordings and notifications. In furtherance of these rights, the Originator has granted the Issuer and the Security Trustee, on the Closing Date, an irrevocable power of attorney (being the Originator Power of Attorney) to take certain action in the name of the Originator (including action required to perfect a legal transfer of the Loans and their Related Security).

"Land Registry" means the land registry of Ireland, responsible for recording details of Registered Land in Ireland.

"Registry of Deeds" means the Property Registration Authority of Ireland, registry of deeds section.

Warranties and Breach of Warranties in relation to the Loans

The Mortgage Sale Agreement contains certain representations and warranties given by the Originator in favour of the Issuer in relation to the Loans and their Related Security sold to the Issuer pursuant to the Mortgage Sale Agreement.

No searches, enquiries or independent investigation of title of the type which a prudent purchaser or mortgagee would normally be expected to carry out have been or will be made by the Issuer. The Issuer will rely entirely on the benefit of the representations and warranties given to it under the Mortgage Sale Agreement.

If there is an unremedied breach of any of the Loan Warranties given under the Mortgage Sale Agreement then the Originator is required to repurchase the relevant Loan pursuant to the Mortgage Sale Agreement for consideration in cash equal to the Current Balance of the Loans (disregarding, for the purposes of any such calculation, the amount by which the Current Balance of such Loan has been reduced as a result of the exercise of any set-off right which the relevant Borrower has against the Originator,) and any repurchase costs on the relevant date of any such repurchase. If a Loan has never existed, or has ceased to exist, such that it is not outstanding on the date on which it is due to be repurchased then the Originator shall indemnify the Issuer and the Security Trustee against any loss, costs or expenses, suffered by reason of any Loan Warranty relating to or otherwise affecting that Loan being untrue or incorrect.

Lending Criteria

As at the date of this Prospectus, Finance Ireland offers first ranking mortgage loans. The loans comprised in the Portfolio will all consist of loans secured by a first charge against residential properties located in Ireland. All relevant Borrowers are required to have good and marketable title or long lease title to the relevant Property free from any encumbrance (except the relevant Mortgage) which would adversely affect such title.

Save for Title Deeds held at the Land Registry or the Registry of Deeds, all the Title Deeds and the mortgage files and computer tapes relating to each of the Loans and their Related Security are held by, under the control of or to the order of, the Originator or the Servicer (on behalf of the Originator) or its solicitors or agents and the Title Deeds are held in dematerialised form or are returned to the Borrower's solicitors. Such Title Deeds are held on the basis that they (other than the dematerialised copies of the Title Deeds) shall be returned to the Originator or the Servicer or its solicitors or agents.

Only properties of suitable construction are considered acceptable as security and properties including (but not limited to) the following are not acceptable to Finance Ireland:

- (a) studio flats;

- (b) property with a commercial element;
- (c) flats or maisonettes in blocks exceeding six storeys;
- (d) mobile homes and houseboats;
- (e) property where saleability may be adversely affected by local planning or by an unsatisfactory mining search; and
- (f) any property deemed unsuitable security by the valuer.

Finance Ireland does not accept any re-mortgage applications within 12 months of either the original purchase date of the property or the last re-mortgage date. The exceptions to this rule are where the remortgage is for a clear and justifiable purpose.

The maximum single loan amount permitted by Finance Ireland is €1,250,000. A single borrower can have one loan up to a maximum permitted amount of €1,250,000, or up to a maximum of ten separate loans, subject to a maximum combined permitted amount of €1,250,000. The maximum term is 35 years for a PDH Loan and 25 years for a BTL Loan. The minimum age of borrowers at the time of application is 18 years old. For PDH Loans, the Loan must be repaid normally before the oldest applicant's 70th birthday and for BTL Loans, the Loan must normally be repaid by the oldest applicant's 75th birthday. However, a 12 month extension period may be granted in exceptional cases due to extensions of a loan's offer period. The minimum loan term is 5 years.

The loan to value ("LTV") in relation to purchases is calculated by dividing the total amount of the loan (net of fees) by the current market value determined by the valuation or the purchase price of the property (whichever is the lower). At the date of origination, if any Loan is a PDH Loan, the maximum LTV (including fees) at the date of origination does not exceed 90 per cent, save in respect of Loans where the Borrower is a first time buyer in which case the relevant PDH Loan may have an LTV (including fees) at the date of origination of up to 95 per cent. In relation to BTL Loans, at the date of origination, the maximum LTV (including fees) is 80 per cent. All origination of PDH Loans or BTL Loans is subject to the prevailing Central Bank of Ireland's guidelines on Loan to Value. Valuations are carried out in accordance with a valuation methodology as would be acceptable to a Prudent Mortgage Lender.

The valuers panel is maintained (including the appointment of valuer firms to the panel) by the credit risk department of the Originator with no involvement of sales or product staff. Likewise, sales and product staff are not involved in the selection of the valuer firm from the valuers panel engaged to carry out the valuation of the Properties in connection with each Loan.

Letting Criteria

In Ireland, the residential properties may be let under a fixed term tenancy (that covers a specific period of time) or a periodic tenancy (where the tenancy agreement does not specify a fixed length of time). Any properties acquired with BTL Loans will need to be let under a fixed term tenancy agreement.

Servicing of the Portfolio

The Servicer will be required from the Closing Date to service the Portfolio on behalf of the Issuer and, where applicable, the Originator under and in accordance with the terms of the Servicing Agreement and following the delivery of an Enforcement Notice the Servicer will act in accordance with the instructions of the Security Trustee. The duties of the Servicer will include, among other things:

- (a) notifying the Borrowers of any change in their monthly instalments;
- (b) providing a redemption statement upon the request of a Borrower or the Borrower's solicitor or licensed conveyancer;
- (c) taking all reasonable steps to recover all sums due to the Issuer, including by the institution of proceedings and/or the enforcement of any Mortgage or any Related Security; and

- (d) taking all action and doing all things which it would be reasonable to expect a Prudent Mortgage Lender to do in administering its mortgages.

Enforcement Procedures

The Servicer has established procedures for managing loans which are in arrears, including early contact with Borrowers in order to find a solution to any financial difficulties they may be experiencing. The procedures permit discretion to be exercised by the appropriate officer of the Servicer in many circumstances. These procedures, as from time to time varied in accordance with the practice of a Prudent Mortgage Lender or with the prior written consent of the Issuer and the Security Trustee, are required to be used by the Servicer in respect of arrears arising on the Loans. These procedures include a suite of alternative repayment arrangements ("**ARAs**") including conversion to interest-only payments, deferral or reduced repayments, term extensions, capitalising arrears, temporary or permanent interest rate reductions or split mortgages. Where an ARA is not appropriate other options that can be explored include: mortgage to rent, voluntary sale, assisted voluntary sale or voluntary surrender.

"Prudent Mortgage Lender" means in the manner of a prudent mortgage lender, where such lender's principal business involves mortgage lending to borrowers in Ireland where the mortgage loan is secured over residential property;

In order to realise its security in respect of a Property, the relevant mortgagee (be it the legal owner (the Originator), the equitable or, as the case may be, the beneficial owner (the Issuer) or the Servicer on behalf of Issuer) will need to obtain possession. There are three means of obtaining possession for this purpose: first (and most common), the appointment of a receiver and the exercise of a power of sale, second by obtaining possession as a mortgagee in possession (seldom done in practice), and, third, by applying for, obtaining an enforcing a court order for possession.

If a mortgagee takes physical possession, it will, as mortgagee in possession, have an obligation to account to the Borrower for the income obtained from the Property, be liable for any damage to the Property, have a limited liability to repair the Property and, in certain circumstances, may be obliged to make improvements.

Actions for possession are regulated by statute and the courts have certain powers to adjourn possession proceedings, to stay any possession order or postpone the date for delivery of possession. The court will exercise such powers in favour of a Borrower, broadly, where it appears to the court that such Borrower is likely to be able, within a reasonable period, to pay any sums due under the Loan or to remedy any default consisting of a breach of any other obligation arising under or by virtue of the Loan and/or Mortgage.

The court has a very wide discretion and may adopt a sympathetic attitude towards a Borrower faced with eviction. If a possession order or decree in favour of the relevant mortgagee is granted, it may be suspended to allow the Borrower more time to pay. Once possession of the Property has been obtained, the relevant mortgagee has a duty to the Borrower to take reasonable care to obtain a proper price for the Property. Any failure to do so will put the relevant mortgagee at risk of an action for breach of such duty by the Borrower, although it is for the Borrower to prove breach of such duty. There is also a risk that a Borrower may also take court action to force the relevant mortgagee to sell the Property within a reasonable time.

The Deeds of Charge provide that (irrespective of whether the Security has become enforceable) the Security Trustee is not obliged to seek possession of any properties within the Portfolio and/or to become a mortgagee in possession.

Insurance Contracts

Buildings Insurance

Buildings insurance at the date of completion of the relevant Loan is confirmed prior to drawdown by receipt by the Originator of a building insurance policy noting the interests of the Originator or the Back Book Originator (as applicable). After the date of completion of the relevant Loan, to the extent that a Borrower does not maintain buildings insurance, the Originator maintains the following forms of contingency insurance cover JRP Underwriting Limited (with a maximum loss value per property of €1,500,000).

The relevant insurer under the above policy is subject to change from time to time as the Servicer (on behalf of the Originator) will endeavour to secure best quotation upon renewal/replacement of the policy.

Credit Risk Mitigation

The Originator has internal policies and procedures in relation to the granting of credit, administration of credit-risk bearing portfolios and risk mitigation.

The policies and procedures of the Originator in this regard broadly include the following:

Managers Related Person criteria for the granting of credit and the process for approving, amending, renewing and re-financing credits (as to which, in relation to the Loans, please see the information set out in this Prospectus headed "*The Loans – Lending Criteria*" and "*Overview of the Key Transaction Documents – Servicing Agreement*");

- (a) systems in place to administer and monitor the various credit-risk bearing portfolios and exposures (as to which it should be noted that the Portfolio will be serviced in line with the servicing procedures of the Originator and the Servicer please see further the section of this Prospectus headed "*Overview of the Key Transaction Documents – Servicing Agreement*");
- (b) diversification of credit portfolios taking into account the Originator's target market and overall credit strategy (as to which, in relation to the Portfolio, please see the section of this Prospectus headed "*Characteristics of the Portfolio*"); and
- (c) policies and procedures in relation to risk mitigation techniques (as to which, please see further the section of this Prospectus headed "*The Loans Lending Criteria*" and "*Overview of the Key Transaction Documents – Servicing Agreement*").

Governing Law

Each of the Loans and any non-contractual obligations arising out of or in connection with them are governed by Irish law.

CHARACTERISTICS OF THE PORTFOLIO

The statistical and other information contained in this Prospectus (including the tables below) has been compiled by reference to the portfolio of loans originated by either (i) the Originator or (ii) Pepper (as Back Book Originator) and acquired by the Originator, in each case extracted from the systems of the Servicer on the Portfolio Reference Date (or in the case of the table entitled "First payment", taking into account first payments received on or before 11 June 2024 (such loans comprising the "**Portfolio**")).

As at the Portfolio Reference Date, the Portfolio comprised of 1,483 loans originated either (i) by the Originator or (ii) by Pepper (as Back Book Originator) (as applicable) and acquired by the Originator on the Portfolio Sale Date and secured over properties located in Ireland. The aggregate Current Balance of the loans in the Portfolio as at the Portfolio Reference Date was €264,054,081.45.

Any Loans which were originated in May 2024 in relation to which the underlying Borrower has failed to pay the first instalment in respect of such Loan (each such Loan being a "**Withdrawn Loan**") will not be sold by the Originator to the Issuer on the Portfolio Sale Date. As at 11 June 2024, all Borrowers in the Portfolio had paid their first instalment. There are therefore not expected to be any Withdrawn Loans.

Columns may not add up to 100 per cent. due to rounding. The Properties over which the loans in the Portfolio are secured have not been revalued for the purposes of the issue of the Notes, and the original valuations quoted are as at the date of the original mortgage loan origination. Except as otherwise indicated, these tables have been prepared using the Current Balance of each loan in the Portfolio as at the Portfolio Reference Date, which includes all principal and accrued interest for the loans.

An independent third party has performed agreed upon procedures in order to verify that the stratification tables disclosed in respect of the underlying exposures are accurate as at the Portfolio Reference Date. The third party undertaking the review only has obligations to the parties to the engagement letters governing the performance of the agreed upon procedures subject to the limitations and exclusions contained therein.

"**Portfolio Reference Date**" means 31 May 2024.

INFORMATION RELATING TO THE REGULATION OF MORTGAGES IN IRELAND

Enforcement in respect of the Loans

Even assuming that the Properties provide adequate security for the Loans, delays could be encountered in connection with enforcement of and recovery under the Loans, resulting in corresponding delays in the receipt of related proceeds by the Issuer.

The Portfolio includes primary residences and family homes/shared homes and residential buy-to-let properties.

In order to realise its security in respect of a Property, the relevant mortgagee (be it Finance Ireland as Originator, the Issuer as beneficial owner or the Security Trustee or its Appointee (if the Security Trustee has taken enforcement action against the Issuer)) will need to obtain possession of such Property. Generally, there are two means of obtaining possession under Irish law: (i) by taking physical possession (seldom done in practice) and (ii) by applying for, obtaining and enforcing a court order for possession. Additionally, with respect to residential buy-to-let properties, the terms of the security over such residential buy-to-let properties may afford the mortgagee a power to appoint a receiver over the property to exercise a power of sale. In practice, this is a more common enforcement mechanism for such residential buy-to-let properties.

A court order for possession will be required in practice to obtain possession of primary residences and family homes/shared homes (as defined in the Family Home Protection Act 1976 and the Civil Partnership and Certain Rights and Obligations of Cohabitants Act 2010, respectively). In addition, under Section 97 of the Land and Conveyancing Law Reform Act 2009 (as amended) (the "**2009 Act**") (which applies to mortgages created after 1 December 2009), a mortgagee is required to either obtain a court order for possession or obtain the written consent of the Borrower for the taking of possession in respect of housing loan mortgages. For the purposes of the 2009 Act, a housing loan mortgage comes into existence where a person borrows money (for whatever reason) and provides, by way of security, a mortgage on that person's principal residence or the principal residence of that person's dependants. A housing loan mortgage also occurs where monies are advanced to a consumer and security is provided over a residential property (which may be the case in respect of some buy-to-let properties). In this regard, a consumer is defined as a natural person acting out of his/her business which includes trade or profession.

If a Borrower occupies a property with the effect of converting such property into a principal private residence/PDH, this will afford the Borrower with all of the protections available in respect of a mortgage loan over a principal private residence. This includes the protections outlined above in respect of the 2009 Act, the Land and Conveyancing Law Reform Act 2013 (the "**2013 Act**"), the Land and Conveyancing Law Reform (Amendment) Act 2019 (the "**2019 Act**") and the protections afforded by the Arrears Code. The Arrears Code sets out what the lender must do when managing mortgage arrears and pre-arrears cases and provides for, amongst other things, the actions a lender is required to take to address mortgage arrears before resorting to repossession of the relevant property (see "Code of Conduct on Mortgage Arrears and Consumer Protection Code" below).

In addition, if the property is tenanted, any termination of a valid lease by the mortgagee would have to be carried out in accordance with the terms of the relevant lease and the applicable minimum notice requirements under the Residential Tenancies Act 2004. If vacant possession of the property cannot be obtained because of an existing tenancy, the mortgagee will only be able to sell the property as an investment property with one or more sitting tenants. This may affect the amount which the mortgagee could realise upon enforcement of the mortgage and the sale of the property. Enforcement procedures in relation to such mortgage loans include appointing a receiver of rent, in which case such a receiver must collect any rents payable in respect of the property and apply them in payment of any interest and arrears accruing under the mortgage loan. In such a situation, amounts received in rent may not be sufficient to cover all amounts due in respect of the mortgage loan.

Court Orders and Enforcement

In considering an application for a possession order, an Irish court has a very wide discretion, and may adopt a sympathetic attitude towards a borrower at risk of eviction. For example, an Irish court has certain

powers to adjourn possession proceedings, to stay any possession order and to postpone the date for delivery of possession. In general, an Irish court would be likely to exercise such powers in favour of a Borrower where it appears to the court that such Borrower is likely to be able, within a reasonable period, to pay any sums due under his or her Loan or to remedy any default consisting of a breach of any other obligation arising under or by virtue of such Loan.

It should also be noted that a practice direction issued by the Irish Circuit Court pursuant to the Circuit Court Rules entitled '*Actions for Possession*' provides that no order for possession shall be made on the return date (i.e. the first hearing date) but rather the proceedings shall be adjourned to such later date as the County Registrar considers just in the circumstances. This has the effect of an automatic delay on possession proceedings. In practice, County Registrars are often more amenable to giving possession orders on vacant properties the subject of a buy-to-let loan than they are to giving possession orders in respect of mortgages relating to a principal private residence.

Where an order for possession is granted by a court, a sheriff will arrange for such orders to be effected. This can result in a delay of a number of months between the granting of the order and its execution. Once possession of a property has been obtained, the mortgagee has a duty to the mortgagor to take reasonable care to obtain a proper price for such property. Any failure to do so will put such mortgagee at risk of an action for breach of duty by the mortgagor, although it is for the mortgagor to prove breach of duty. There is also a risk that a mortgagor may take court action to force the mortgagee to sell the relevant property within a reasonable time. Under the 2009 Act, a mortgagee in possession is obliged by law to sell the relevant property, at the best price reasonably obtainable, within a reasonable time, or if it would be inappropriate to sell such property, to lease it within a reasonable time.

If a mortgagee takes possession of a property it will, as mortgagee in possession, have an obligation to account to the mortgagor for the income obtained from such property, be liable for any damage to such property, have a limited liability to repair such property, and, in certain circumstances, may be obliged to make improvements or may incur certain financial liabilities in respect of such property.

On 24 July 2013 the Land and Conveyancing Law Reform Act 2013 was signed into law (the "**2013 Act**"). The 2013 Act allows for the adjournment of possession actions in certain cases relating to the principal private residence ("**PPR**") of the Borrower where it is considered by the court that the matter could be resolved by recourse to a personal insolvency arrangement under the Personal Insolvency Act. The 2013 Act provides that the court, where it considers it appropriate or on application by the Borrower, in proceedings for possession of a PPR, may in certain circumstances adjourn the proceedings to enable the parties to consider whether a personal insolvency arrangement under the Personal Insolvency Act would be a more appropriate course of action than the seeking by the lender of an order for possession (see "Certain Insolvency Risks – Personal Insolvency Act" below). In the event that a lender does not implement a proposal put forward by a personal insolvency practitioner, a court could use its discretionary powers to delay granting an order for possession.

The Land and Conveyancing Law Reform (Amendment) Act 2019 (the "**Land and Conveyancing Amendment Act**") was commenced on 1 August 2019. The Land and Conveyancing Amendment Act further limits the ability of a lender to obtain orders for possession in respect of defaulted mortgage loans. The Land and Conveyancing Amendment Act aims to reform the factors taken into consideration by the Irish courts when determining applications for mortgagee possession under the 2013 Act. The Land and Conveyancing Amendment Act provides, amongst other things, that a court will have to take into account, *inter alia*, (i) the proportionality of making an order for possession; (ii) the circumstances of those resident in the property; (iii) the conduct of parties in attempting to find a resolution regarding the payment of arrears and (iv) such additional matters as it considers appropriate. While many of the now statutory-imposed considerations are ones a court already had taken into account, the Land and Conveyancing Amendment Act reinforces the special status of an owner occupied property (a "**PDH**") in residential mortgage arrears proceedings in Ireland and the policy objective of the Irish government of the time that repossession of a defaulting borrower's PDH should be an action of last resort. In enforcement proceedings affecting a PDH, lenders must now be prepared to demonstrate reasonable conduct towards seeking a sustainable solution with the borrower.

The Arrears Code sets out what the lender must do when managing mortgage arrears and pre-arrears cases and provides for, amongst other things, the actions a lender is required to take to address mortgage arrears before resorting to repossession of the relevant property. Please see the section below entitled “*Code of Conduct on Mortgage Arrears and Consumer Protection Code*” for further information.

If the enforcement process in respect of a Property is subjected to any of the above legislative regimes or codes this could significantly delay enforcement and, as a consequence, have a negative impact on the ability of the Issuer to recover amounts due under the Loans and on its ability to pay amounts due under the Notes.

Code of Conduct on Mortgage Arrears and Consumer Protection Code

The Arrears Code came in to force on 1 July 2013 replacing the previous code which came into force on 1 January 2011 (the “**Previous Code**”) and which applies to arrears cases existing both as at 1 July 2013 and those that arise thereafter. The Arrears Code is a legally binding code published by the Central Bank on the handling of mortgage arrears and pre-arrears. A pre-arrears case arises where a borrower contacts the relevant lender to inform them that he/she is in danger of going into financial difficulties and/or is concerned about going into mortgage arrears or when the relevant lender itself identifies that this is likely to occur.

The Arrears Code applies to the mortgage lending activities of regulated lenders (such as Pepper (as the entity that originated some of the Loans in the Portfolio) and the Originator) to Borrowers in respect of mortgages that are secured upon their primary residence or in respect of the only residential property in Ireland owned by the borrower and accordingly will apply to the activities of such as Pepper (as the entity that originated some of the Loans in the Portfolio), the Originator and the Servicer. It should be noted that the Arrears Code applies to borrowers in respect of their primary residence or where it is the only residential property owned by them in Ireland. As such, the protections afforded by the Arrears Code are unlikely to apply to BTL Loans unless secured on the only residential property of the borrower in Ireland, or unless a borrower occupies a Property as their primary residence.

The Originator, as a regulated entity, is obliged to comply with the Arrears Code. Furthermore, the Servicer as an authorised retail credit firm is required by law to administer the Loans in accordance with the Arrears Code (where the Loan is secured on a primary residence or in the event that the BTL Loans are secured on the only residential property of the borrower in Ireland or a borrower occupies a Property as their primary residence).

The Arrears Code sets out what the lender must do when managing mortgage arrears and pre-arrears cases and provides for, amongst other things, the actions a lender is required to take to address mortgage arrears before resorting to repossession of the relevant property. In particular, the Arrears Code provides that a lender:

1. must put in place a mortgage arrears resolution process (“**MARP**”) which complies with the Arrears Code;
2. must explore, and if appropriate, offer the borrower alternative repayment arrangements which may include full or partial interest only repayment for a specified period, full or partial deferral of the instalment repayment for a specified period, extension of the term, capitalising arrears and interest and any voluntary repayment scheme to which the lender has signed up under the Arrears Code;
3. in recognition of the serious impact of being classified as ‘not cooperating’, a lender must provide a warning letter giving at least 20 business days’ notice to the borrower, outlining the implications of being classified as not cooperating and providing specific information on how to avoid this classification;
4. must have a board-approved communications policy that will protect borrowers against unnecessarily frequent contact and harassment, while ensuring that the lender can make the necessary contact to progress resolution of arrears cases. This replaces the limit of three successful, unsolicited communications per month which was set out in the Previous Code and allows for an

- approach to lender and borrower communication that is suited to individual needs and circumstances;
5. must provide the standard financial statement ("**SFS**") to the borrower at the earliest opportunity, and to offer assistance to borrowers with completing the SFS and inform the borrower that the borrower may wish to seek independent advice to assist with completing the SFS. In addition, lenders can now agree with the borrower to put a temporary arrangement in place to prevent arrears from worsening while the full SFS is being completed and assessed;
 6. where there is no other sustainable option available, the lender can offer an arrangement to distressed mortgage holders which provides for the removal of a tracker rate, but only as a last resort, where the only alternative option is repossession of the home. Lenders must be able to demonstrate that there is no other sustainable option that would allow the borrower to keep the tracker rate, and the arrangement offered must be a long term sustainable solution that is affordable for the borrower;
 7. must provide cooperating borrowers with at least 8 months' notice from the date arrears first arise before legal action can commence and at the end of the MARP process, lenders will be required to provide a 3 month notice period to allow cooperating borrowers time to consider their options such as voluntary surrender or an arrangement under the Personal Insolvency Act (before legal action can start). In effect this means that legal proceedings may commence 3 months from the date the letter is issued to borrower or 8 months from the date the arrears first arose, whichever is the later; and
 8. must not apply to the courts to seek repossession of a borrower's primary residence until every reasonable effort has been made to agree an alternative repayment schedule with the relevant borrower in accordance with the MARP.

However, under the Arrears Code, a lender is permitted to seek repossession where it is clear that such borrower is deliberately not engaging with the lender, or where other circumstances reasonably so justify. In addition, a lender may enforce a mortgage in circumstances where application of the Arrears Code is not appropriate, such as, but not limited to, in the case of fraud or breach of contract other than the existence of arrears.

In October 2018, the Central Bank published its Report on the Effectiveness of the Code of Conduct on Mortgage Arrears in the context of the Sale of Loans by Regulated Lenders (October 2018). In the report, the Central Bank stated that the Arrears Code appears to be working effectively for borrowers, and the Central Bank will continue to assertively supervise regulated entities' compliance with the Arrears Code.

The Central Bank has requested banks to put in place longer term mortgage arrears resolution strategies ("**MARS**") to deal with borrowers in or facing arrears or in pre-arrears. It is likely that lenders' actions in dealing with borrowers who are in financial difficulties or whose mortgages are, or may become, in arrears will be subject to additional regulation in the future. Any such additional regulation may have a negative impact on the ability of the Issuer to recover amounts due under the Mortgage Loans and on its ability to pay amounts due under the Notes.

The Central Bank recently completed a thematic review of early mortgage arrears in the Irish market across a representative sample of mortgage lenders, including banks, retail credit firms and credit servicing firms. The purpose of the thematic review was to ensure that the existing regulatory framework is working as intended to support borrowers in, or facing, early arrears. As part of the thematic review, and by way of engagement with the representative sample, the Central Bank assessed the effectiveness of the borrower journey through the arrears resolution process with a particular focus on engagement and communication. The Central Bank's thematic review found that firms are progressing borrowers in pre-arrears and early arrears through MARP and that solutions are being found for borrowers. The Central Bank found that firms are going beyond minimal compliance with MARP and are implementing further improvements for impacted borrowers. The Central Bank did however identify certain deficiencies that reduce the effectiveness of the borrower journey, mainly relating to: (a) the provision of information to borrowers; (b) engagement with borrowers; and (c) delays and errors. The Central Bank also found that firms should make

more effective use of ARAs to better support borrowers. Firms are required to consider, and address, the Central Bank's findings to better support borrowers.

The revised Consumer Protection Code (the "**Consumer Protection Code**") came in to force on 1 January 2012. Amendments were made to the Consumer Protection Code by way of addendums in July 2015, July 2016, August 2017, December 2017, May 2018, June 2018, September 2019, July 2021, January 2022 and May 2022. The Consumer Protection Code sets out, among other requirements, how lending institutions (as regulated entities under the Consumer Protection Code) (such as Pepper (as the entity that originated some of the Loans in the Portfolio) and the Originator) must deal with customers, consumers and personal consumers. Under the Consumer Protection Code, personal consumers are defined as natural persons acting outside of his/her business, trade or profession. The arrears handling provisions (in addition to certain other provisions) in the Consumer Protection Code do not apply to a mortgage loan to which the Arrears Code applies, but it could apply to a mortgage not in respect of a primary residence, including a BTL Loan. Other provisions of the Consumer Protection Code apply irrespective of whether the mortgage loan is secured on a primary residence or a BTL Loan, including (but not limited to) documentary requirements such as the requirement to include a regulatory disclosure statement on all correspondence (and other relevant documents) issued to a borrower in relation to a mortgage loan. The Servicer (as an authorised retail credit firm) is required by law to administer the Loans in accordance with the Consumer Protection Code under its Administrative Sanctions Procedure, the Central Bank may impose a monetary penalty on regulated entities for a breach of any of the relevant obligations in the Consumer Protection Code. The maximum financial penalty, in case of a body corporate, is €10,000,000 or 10% of the annual turnover of the regulated financial services provider in the last financial year, whichever is greater.

The Central Bank commenced its review of the Consumer Protection Code in October 2022. The review is being conducted in three phases: (i) the publication of a Discussion Paper; (ii) the commencement of a Public Consultation – this phase is in train. ; and (iii) finalisation of a revised code. The Central Bank published its public consultation in March 2024 (open until 7 June 2024), integrating its policy proposals together with draft regulations putting its proposed standards for business and conduct standards on a statutory footing. The revised Consumer Protection Code and related legislation is anticipated to be in place in 2025 or 2026.

Central Bank (Supervision and Enforcement) Act 2013 (Section 48) (Lending to Small and Medium-Sized Enterprises) Regulations 2015

The Central Bank (Supervision and Enforcement) Act 2013 (Section 48) (Lending to Small and Medium-Sized Enterprises) Regulations 2015 (as amended) (the "**SME Regulations**") came into force on the 1 July 2016 for regulated lenders (with the exception of credit unions) and replaced the Code of Conduct on Lending to Small and Medium Enterprises (2012) (the "**SME Code**"). The SME Regulations apply to credit provided to micro, small and medium sized enterprises which can include natural persons acting within the course of a business, trade or profession. To the extent a borrower in respect of a BTL Loans falls within this category, the provisions of the SME Regulations could apply.

The Servicer (as an authorised retail credit firm) is required by law to administer the Loans in accordance with the SME Regulations to the extent that they are applicable to any of the Loans.

Credit Servicing Legislation – Ireland

The Consumer Protection (Regulation of Credit Servicing Firms) Act 2015 became law in Ireland on 8 July 2015 (the "**CSA 2015**"). Further to the introduction of the CSA 2015, the Consumer Protection (Regulation of Credit Servicing Firms) Act 2018 (the "**CSA 2018**") became law in Ireland on 21 January 2019. The CSA 2018 amends the definition of "credit servicing" in Part V of the CBA 1997 so that certain activities (which did not previously fall within the definition of 'credit servicing' under the legislation) now constitute 'credit servicing'. These activities include:

- holding legal title to credit (which would include the Loans);
- determining the overall strategy for the management and administration of a portfolio of credit agreements; and

- maintaining control over key decisions relating to such portfolio of credit agreements.

Subject to limited exceptions, an entity cannot perform "credit servicing" in respect of Irish credit agreements without holding an appropriate authorisation from the Central Bank. The CBA 1997 provides for an exemption from the requirement to be authorised (the "securitisation exemption") in the case of a securitisation special purpose entity ("**SSPE**") which satisfies certain conditions.

The securitisation exemption may be availed of by an SSPE to which any part of the interest of the owner of credit in the credit concerned is directly or indirectly assigned or otherwise disposed of, as part of a securitisation, where:

1. the securitisation special purpose entity was established by or on behalf of the owner of credit as part of the securitisation arranged by or on behalf of that owner of credit;
2. the owner of credit retains the legal title to the credit so assigned or otherwise disposed of; and
3. the originator, sponsor or original lender is required to retain on an ongoing basis a material net economic interest in the securitisation of not less than 5 per cent.

For these purposes, "owner of credit" means:

- (i) a person who is authorised, or taken to be authorised (by virtue of being authorised under the preceding regime), to carry on the business of a credit servicing firm; or
- (ii) a regulated financial services provider authorised, by the Central Bank or an authority that performs functions in an EEA country that are comparable to the functions performed by the Central Bank, to provide credit in the State.

As the Originator: (i) has established the Issuer for the purposes of securitising the Loans, (ii) will retain legal title to the Loans and transfer the beneficial title to the Loans to the Issuer or its nominee, (iii) will act as the Retention Holder and hold the Retention and (iv) is a retail credit firm authorised by the Central Bank and the "owner of credit" for the purposes of the CBA 1997, the Issuer expects that it will come within the securitisation exemption described above and will not be required to be authorised as a credit servicing firm.

The Transaction Documents have been prepared on the basis that, to the extent possible, no parties to the Transaction Documents (other than the Servicer and any delegate, or Finance Ireland as Originator) conduct any activities which would be considered to be "credit servicing" activities and would require such parties to be authorised as a credit servicing firm. The Servicer and any delegate, and Finance Ireland (as Originator) are (or will be as the case may be) appropriately authorised to discharge credit servicing activities in connection with the Portfolio.

The amendments to the CBA 1997 introduced by the CSA 2018 are broadly drafted and, as at the date of this Prospectus, there is no guidance from the Central Bank as to how the scope of activities within the ambit of the "credit servicing" or the securitisation exemption should be interpreted. If the Issuer (or any other party to the Transaction Documents) were determined to be undertaking credit servicing activities of a nature that require it to be authorised, the Issuer or such party could either seek the appropriate authorisations, or seek to amend the Transaction Documents accordingly. No assurance can be given that such authorisation would be forthcoming or that it would be possible to amend the Transaction Documents. Furthermore, the Issuer may be subject to sanctions by the Central Bank and, potentially, would be in breach of law and the Transaction Documents. Any of the foregoing circumstances could adversely affect the value of the Notes.

Directive (EU) 2021/2167 on credit servicers and credit purchasers (the "**Credit Servicers Directive**") was transposed into Irish law on 30 December 2023 by the European Union (Credit Servicers and Credit Purchasers) Regulations 2023 (the "**Irish Credit Servicers Regulations**"). From 30 December 2023 onwards, two parallel credit servicing frameworks exist in Ireland. The CSA 2018 framework will continue to apply to the sale and servicing of performing loans, pre-transposition non-performing loans ("**NPLs**") originated by EU banks, and the sale and servicing of NPLs originated by non-bank lenders. The Irish

Credit Servicers Regulations' framework will apply to post-transposition sales and servicing of loans originated by EU banks and classified as non-performing exposures under Article 47a of Regulation (EU) No 575/2013 (the "**Capital Requirements Regulation**"). A notable difference between the two frameworks is that holding legal title to credit triggers an authorisation requirement under the CSA 2018 framework, but not under the Irish Credit Servicers Regulations' framework. Any "credit servicing firm" already authorised by the Central Bank on 30 December 2023 benefits from a grandfathering provision whereby it is also deemed to be authorised as a "credit servicer" for the purposes of the Irish Credit Servicers Regulations.

Consumer Credit Act 1995 and the Mortgage Credit Regulations

The making of housing loans in Ireland is regulated by the Consumer Credit Act 1995 (as amended) of Ireland (the "**CCA**") and the European Union (Consumer Mortgage Credit Agreements) Regulations 2016 (the "**Mortgage Credit Regulations**"), which impose a range of obligations and restrictions on mortgage lenders and mortgage intermediaries.

A mortgage lender is an entity the business of which consists of or includes the making of housing loans. A housing loan is a loan that is secured by a mortgage on a house and which is, *inter alia*, made to a consumer for the purchase of the house to which the mortgage relates, or otherwise made to a person for the purchase or improvement of that person's principal residence. It is not anticipated that the Issuer will be a mortgage lender for the purposes of the CCA.

A mortgage intermediary is a person (other than a mortgage lender) who, in return for commission or some other form of consideration arranges, or offers to arrange, for a mortgage lender to provide a consumer with a housing loan, or introduces a consumer to an intermediary who arranges, or offers to arrange, for a mortgage lender to provide the consumer with such a loan. A mortgage intermediary requires an authorisation from the Central Bank in order to conduct its business. In the event that an unauthorised mortgage intermediary operates in Ireland, it is subject to penalties and sanctions that are discussed below. It is not anticipated that the Issuer will be a mortgage intermediary for the purposes of the CCA.

Relevant obligations imposed by the CCA include rules regulating advertising for housing loans; a requirement to furnish the borrower with a valuation report concerning the property; a requirement that specified warnings regarding the potential loss of the person's home be included in all key documentation relating to a housing loan and that key, prescribed information be displayed on the front page of a housing loan; and obligations to provide prescribed documents and information to a borrower. Restrictions include prohibitions on the imposition of a redemption fee in the case of many types of housing loan; compelling a borrower to pay the lender's legal costs of investigating title; and the linking of certain products.

A breach of any of these obligations or restrictions is a criminal offence by the mortgage lender or mortgage intermediary. The financial penalties may range from a maximum fine of €3,000 for most offences, to a maximum fine of €100,000 for the unlawful linking of certain services. A person (including a company) that is convicted of an offence under the CCA will normally be ordered to pay the costs of the prosecution.

The Mortgage Credit Regulations came into force on 21 March 2016 and transpose Directive 2014/17/EU on credit agreements for consumers relating to residential immovable property into Irish law. The Mortgage Credit Regulations apply to credit provided to a consumer under: (a) credit agreements secured by a mortgage or comparable security commonly used in a member state on residential immovable property, or secured by a right relating to residential immovable property; and (b) credit agreements the purpose of which is to acquire or retain rights in land or in an existing or proposed residential building.

The Mortgage Credit Regulations require (among other things): standard information in advertising; standard pre-contractual information; adequate explanations to the consumer on the proposed credit agreement and any ancillary service; calculation of the annual percentage rate of charge in accordance with a prescribed formula; assessment of creditworthiness of the consumer; a right of the consumer to make early repayment of the credit agreement; notifications to consumers concerning changes in the borrowing rates; and certain obligations in respect of arrears and repossessions. The Mortgage Credit Regulations also imposes prudential and supervisory requirements including the establishment and supervision of credit intermediaries and appointed representatives.

The Mortgage Credit Regulations were amended on 30 December 2023 (via the Irish Credit Servicers Regulations) to impose requirements on creditors including to communicate certain matters to consumers prior to modifying any conditions of their credit agreement; put in place policies and procedures that enable the creditor to exercise, where appropriate, reasonable forbearance measures before enforcement proceedings are initiated; among other changes introduced on 30 December 2023. The Mortgage Credit Regulations, as amended by the Irish Credit Servicers Regulations, also provide that where a creditor's rights are assigned to a third party, the consumer is entitled to plead against the assignee any defence available to that consumer against the original creditor and that the consumer must be informed of any such assignment except where the original creditor, by agreement with the assignee, continues to service the credit vis-à-vis the consumer.

A breach of any these obligations is a criminal offence. The financial penalties may range from a Class A fine on summary conviction with a maximum monetary fine of €5,000, to a maximum fine of €100,000 on indictment.

In respect of a regulated financial services provider, the Central Bank may impose a monetary penalty for breach of any of these obligations and restrictions, or a breach of Irish financial services legislation more generally, in addition to various other penalties that may be imposed by the Central Bank. The maximum financial penalty that may be imposed by the Central Bank under its Administrative Sanctions Procedure, in the case of a body corporate, is €10,000,000 or 10% of the annual turnover of the regulated financial services provider in the last financial year, whichever is the greater.

European Communities (Distance Marketing of Consumer Financial Services) Regulations 2004

The Distance Marketing of Consumer Financial Services Directive was implemented in Ireland by way of the European Communities (Distance Marketing of Consumer Financial Services) Regulations 2004 (as amended) (the "**DMR**"). The DMR implements the Distance Marketing of Consumer Financial Services Directive (Directive 2002/65/EC) in Ireland (the "**DMD**"). The DMR apply to, *inter alia*, consumer credit agreements entered into on or after 15 February 2005 by means of distance communication (i.e., without any physical or face-to-face contact between the lender and the borrower). The DMR requires suppliers of financial services by way of distance communication to provide certain pre-contractual information to consumers. This pre-contractual information must be provided within a reasonable time before the consumer is bound by a distance contract for the supply of the financial services in question and includes, but is not limited to, general information in respect of the supplier and the financial service contractual terms and conditions.

A failure by the supplier to comply with certain requirements under the DMR may result in the distance contract being unenforceable against the consumer. The discretion as to enforceability lies with the courts, who if satisfied that the supplier's non-compliance was not deliberate, and that the consumer has not been prejudiced by such non-compliance, and it is just and equitable to dispense with the relevant obligation, may decide that the contract is enforceable, subject to any conditions that the court sees fit to impose. The Central Bank may impose a monetary penalty for breach of the DMR under its Administrative Sanctions Procedure. The maximum financial penalty, in case of a body corporate, is €10,000,000 or 10% of the annual turnover of the regulated financial services provider in the last financial year, whichever is greater.

A new directive on financial services contracts concluded at a distance (the "**Revised DMD**") was published in the Official Journal on 28 November 2023. The Revised DMD repeals the DMD. The new rules on distance consumer financial services contracts under the Revised DMD will enter into force on 19 June 2026. EU Member States are required to publish their transposing legislation for the Revised DMD by 19 December 2025. The Revised DMD includes national discretions for EU Member States. No transposing legislation has yet been published in Ireland and we await further guidance on the transposition of the Revised DMD and the exercise of the national discretions under the Revised DMD.

Unfair Terms in Consumer Contracts Regulations

The Consumer Rights Act 2022 (the "**2022 Act**") repealed, *inter alia*, the European Communities (Unfair Terms in Consumer Contracts) Regulations 1995 (as amended) with effect from 29 November 2022. Part 6 of the 2022 Act applies in relation to the Loans. A Borrower may challenge a term in an agreement on the basis that it is "unfair" within the meaning of Part 6 of the 2022 Act and therefore not binding on the

Borrower. In addition, the Competition and Consumer Protection Commission (the "**CCPC**"), the Central Bank, the Commission for Communications Regulation, or a consumer organisation (collectively defined as "**authorised bodies**" and each an "**authorised body**"), may apply to the Circuit Court or the High Court for a declaration that a term drawn up for general use in contracts concluded by sellers or suppliers is unfair within the meaning of Part 6 of the 2022 Act. At the discretion of the court, an order banning the use of such a term can be subsequently granted. An authorised body may also seek an injunction (including an interim injunction) preventing the use of specific terms which the authorised body considers to be unfair.

The 2022 Act will not generally affect "core terms" which set out the main subject matter of the contract, such as the Borrower's obligation to repay principal, but may affect terms deemed to be ancillary terms, which may include terms the application of which are in the Servicer's discretion (such as a term permitting the Servicer to vary the interest rate).

If a term of a Loan is found to be unfair that term may not be enforceable. For example if a term permitting the lender to vary the interest rate is found to be unfair, the Borrower will not be liable to pay the increased rate or, to the extent that the Borrower has paid it, will be able, as against the Originator, or any assignee such as the Issuer, to claim repayment of the extra interest amounts paid or to set-off the amount of the claim against the amount owing by the Borrower under the Loan. Any such non-recovery, claim or set-off may adversely affect the realisable value of the Loans in the Portfolio and accordingly the ability of the Issuer to meet its obligations in respect of the Notes.

No assurance can be given that Part 6 of the 2022 Act, or any changes thereto, will not have an adverse effect on the Loans, the Originator, the Servicing Advisor, the Servicer or the Issuer and their respective businesses and operations. This may adversely affect the ability of the Issuer to dispose of the Portfolio, or any part thereof, in a timely manner and/or the realisable value of the Portfolio, or any part thereof, and accordingly affect the ability of the Issuer to meet its obligations under the Notes when due.

European Directive on Unfair Commercial Practices

On 11 May 2005, the European Council and European Parliament signed Directive 2005/29/EC (the "**EU Unfair Commercial Practices Directive**"). The EU Unfair Commercial Practices Directive applies to all consumer contracts and thus will have some impact in relation to the residential mortgage market.

Under the EU Unfair Commercial Practices Directive, a commercial practice is to be regarded as unfair if it is: (a) contrary to the requirements of professional diligence; and (b) materially distorts or is likely to materially distort the economic behaviour of the average consumer whom the practice reaches or to whom it is addressed or the average member of a group where a practice is directed at a particular group of consumers.

In addition to the general prohibition on unfair commercial practices, the EU Unfair Commercial Practices Directive contains provisions aimed at aggressive and misleading practices (including, but not limited to; (i) pressure selling; (ii) misleading marketing (whether by action or omission); and (iii) falsely claiming to be a signatory to a code of practice) and a list of practices which will in all cases and in all Member States be considered unfair. The EU Unfair Commercial Practices Directive also contains provisions aimed at preventing the exploitation of consumers whose characteristics make them particularly vulnerable to unfair commercial practices (which may include non-status, credit impaired or sub-prime Borrowers).

The Consumer Protection Act 2007 (as amended) (the "**CPA**") came into force on 1 May 2007 (other than Sections 48 and 49 of the CPA which have not yet been brought into effect) which implements the EU Unfair Commercial Practices Directive in Ireland. Under the CPA there are four principal heads of offences; (i) Unfair Commercial Practices, (ii) Misleading Commercial Practices, (iii) Aggressive Commercial Practices and (iv) Prohibited Commercial Practices.

In respect of most offences (other than, for example, pyramid selling schemes), the CPA contains a defence of "due diligence". This defence is available where the accused proves: (i) the commission of the offence was due to a mistake or the reliance on information supplied to the accused or to the act or default of another person, an accident of some other cause beyond the accused's control; and (ii) that the accused exercised due diligence and took all reasonable precautions to avoid the commission of the offence. Where due diligence means the standard of special skill and care which a trader may reasonably be expected to

exercise towards consumers, commensurate with honest market practice and/or the general principle of good faith in trader's field of activity.

Under the CPA, both civil proceedings and criminal proceedings may be brought against a trader engaging in an unfair act or practice albeit this should not impact on the enforceability of the underlying contract itself.

Any affected person, including consumers, other traders, and the CCPC may bring civil proceedings under the CPA for a prohibition order against a trader engaging in an unfair act or practice. The CCPC may also serve a compliance notice on a trader whom it considers to have engaged in an unfair commercial practice. A consumer aggrieved by an Unfair Commercial Practice also has a right of action for damages.

The CCPC is also empowered to institute summary proceedings for breaches of the CPA relating to misleading, aggressive and prohibited practices. A trader found guilty of an offence on summary conviction will be liable to a fine not exceeding €3,000 and/or six months imprisonment for a first offence and a fine of €5,000 and/or twelve months imprisonment for subsequent offences. Proceedings on indictment will be taken by the Director of Public Prosecutions (the "DPP"). On a first conviction on indictment an offending trader may be fined up to €60,000 and/or eighteen months imprisonment and subsequent convictions carry a fine of up to €100,000 and/or 24 months imprisonment.

The EU Unfair Commercial Practices Directive is stated to be without prejudice to contract law and the rules of the validity, formation or effect of a contract. There is, as yet, very little Irish reported case law on the CPA in the context of mortgage enforcement.

Regulation of Interest Rates, Mortgage Switching and the No Consent, No Sale Bill

The date of the next general election in Ireland is unknown but will be held before 20 February 2025. Latest political opinion polls suggest no one political party would currently receive an overall majority. As a result and as at the date of this Prospectus, there is some uncertainty as to the composition and policy agenda of any prospective future government. Any new Irish government may have different policies and priorities to a previous government and any changes to such policies or priorities may have an adverse effect on the Issuer's ability to make collections on the Loans or commence enforcement procedures, and accordingly its ability to make payments on the Notes.

For example, a bill entitled the "No Consent, No Sale Bill" was introduced in 2019 by Sinn Féin, an opposition party, to the last session of the Irish Parliament (the "NCNS Bill"). The NCNS Bill lapsed with the dissolution of the Irish Parliament prior to the Irish general election on 8 February 2020. A majority coalition government took office on 27 June 2020 – that new government does not include Sinn Féin, which remains an opposition party. If Sinn Féin wished to progress the NCNS Bill, it would need to reintroduce it to the new session of the Irish Parliament. It is not clear whether or not it intends to do so, or what support it would have from other parties. No measures equivalent to those contained in the NCNS Bill were set out in the new government's June 2020 Programme for Government and, when the NCNS Bill was initially introduced, notwithstanding that Fianna Fáil (now one of the parties that makes up the coalition government) did not object to it, it was strongly opposed by the government of the time, the European Central Bank, the Central Bank and industry bodies. Before the NCNS Bill lapsed with the dissolution of the last Irish Parliament, an independent impact assessment had been commissioned, which had not been published by the time of dissolution.

The Central Bank engaged with non-bank lenders, including regulated credit servicing firms ("NBLs") in Q1 2023 on whether standard variable rates increases reflected increased funding costs. When publishing the outcome of that engagement, it did not signal that any mismatch was identified. The Central Bank has confirmed that its focus will be on continued compliance with the Arrears Code, and how mortgage switching by residential mortgage borrowers from non-bank lenders (including credit servicing firms) to retail banks can be facilitated.

While the Central Bank has been clear that it has no role in interest rate setting, and servicers are required to set interest rates in accordance with applicable law, regulatory requirements and the underlying loan terms and conditions, there can be no certainty that servicers will change the interest rates (including to meet changes to funding costs) in accordance with the transaction documents due to regulatory and/or governmental pressure. While a refusal on the part of the Servicer to change the applicable interest rate could be challenged by the Issuer (including by removing the servicer in accordance with the Servicing Agreement or through legal challenge), there can be no assurance that a replacement servicer could be found, or that a court would rule in favour of such a challenge. It should be noted that the CCA imposes an APR cap of 23% in respect of credit agreements where the creditor is not regulated under the Central Bank's framework for 'high-cost credit providers'.

Personal Insolvency Act

The Personal Insolvency Act provides a framework for personal insolvency and for the settlement of debt, including residential mortgage debt. In particular, it provides for three court-approved debt resolution options for Borrowers deemed under the provisions of the Personal Insolvency Act to have unsustainable indebtedness levels. These three debt resolution options are alternatives to bankruptcy.

In summary, the key aspects of the Personal Insolvency Act are as follows:

- (a) the establishment of three new non-judicial settlement systems:
 - (i) a Debt Relief Notice ("**DRN**") which provides for the write-off of qualifying unsecured debt (including for example credit card debt and overdrafts) up to €35,000 under a three-year moratorium period (during which the debtor's circumstances must not have improved). During the moratorium, unsecured creditors are not permitted to pursue any action against a debtor for the recovery of debts covered by the DRN;
 - (ii) a Debt Settlement Arrangement ("**DSA**") provides for an agreed settlement of unsecured debt without a limit on the amount of debt over a period of five years (with a possible agreed extension to six years). A debtor must engage a personal insolvency practitioner ("**PIP**") to formulate the DSA. The DSA must be agreed by the debtor and approved at a creditor's meeting by 65% of creditors (in value). In addition, it must be processed by the Insolvency Service of Ireland and approved by the Court. A debtor can only avail themselves of a DSA once in their lifetime; and
 - (iii) a Personal Insolvency Arrangement ("**PIA**") for the agreed settlement of both secured and unsecured debt (secured liabilities are subject to a cap of €3,000,000 unless the cap is waived by an agreement of all secured creditors), including residential mortgage debt. A debtor must engage a PIP to formulate the PIA. The PIA must be agreed by the debtor and supported at a creditors' meeting by both secured and unsecured creditors representing at least 65% of a debtor's total debt. In addition, over 50% of secured creditors and over 50% of unsecured creditors must vote in favour of a PIA. The Personal Insolvency (Amendment) Act 2015 provides that a borrower who has entered a mortgage restructure is not excluded from applying for a PIA, should the restructure not succeed in returning the borrower to solvency;
- (b) the period for discharge of bankrupts was reduced from twelve to one year (subject to limited exceptions) and that the amount which must be owing before bankruptcy proceedings can be brought was increased from the euro equivalent of €1,900 to €20,001; and
- (c) the establishment of a State-funded independent body known as the Insolvency Service of Ireland which oversees, and gives determinations on, the non-judicial settlement procedures referred to above and which also maintains a Personal Insolvency Register which holds details of debtors subject to the above procedures.

Where a PIA is not approved by the creditors, the PIP may, where so instructed by the debtor, and where the PIP considers that there are reasonable grounds to do so, apply to the appropriate Court for an order

confirming the coming into effect of the PIA. Creditors must be notified of the appeal and can lodge a notice of objection. The Court must hold a hearing promptly and may confirm the PIA where it is satisfied as to various matters. In making its determination, the Court will consider (amongst other things):

- (i) the conduct of the debtor and creditors within 2 years prior to the issuing of the protective certificate;
- (ii) submissions by the creditors;
- (iii) any alternative option available to the creditors for the recovery of the debt; and
- (iv) whether the proposed PIA is fair and reasonable to any non-approving class of creditor and is not unfairly prejudicial to any interested party.

There are certain caveats to the appeals process. The PIA can only be appealed where the debt is secured on the debtor's family home. In addition, at least one class of creditor must have voted in favour of the PIA (by a majority of over 50 per cent of the value of the debts owed to that class) at the creditors meeting (provided there is more than one creditor).

DRNs and DSAs both deal with unsecured debt. However, the Personal Insolvency Act regime may result in the restructuring of the principal amount outstanding of the secured debt (which would include mortgage debt) of a borrower who completes a PIA and could also affect the enforcement of mortgages over residential property, and accordingly may have an adverse effect on the ability of the Issuer to fully recover amounts due under the Mortgages, which in turn may adversely affect the Issuer's ability to make payments under the Notes.

A PIA will not, however, involve an automatic writing down of negative equity and to be eligible, a debtor will have to show positive engagement with his/her secured creditors in the period leading up to the application for an arrangement.

In May 2023, the Circuit Court approved a PIA which fixed a borrower's interest rate at 2.5% for 25 years. Pepper (as legal title holder) had challenged the PIA proposal and offered to reduce the standard variable rate on the loan from 5% to 3%, but this was not accepted by the court. Pepper decided not to appeal the judgment on the basis that the case involved a unique set of circumstances specific to the borrower, however, this decision could result in an increase in the number of applications by borrowers for PIA arrangements,

OVERVIEW OF KEY TRANSACTION DOCUMENTS

Mortgage Sale Agreement

Portfolio

The Seller has identified the mortgage loans in the Portfolio as at the Portfolio Reference Date.

Under a mortgage sale agreement entered into on or around the Closing Date between, among others, the Originator, the Issuer, the Security Trustee and the Servicer (the "**Mortgage Sale Agreement**"), the Originator shall, on the Portfolio Sale Date, in consideration for payment of the Consideration, sell, assign or otherwise transfer to the Issuer pursuant to the Mortgage Sale Agreement a portfolio of Irish residential mortgage loans, secured by a Mortgage and, where applicable, other Related Security.

The Loans and their Related Security comprising the Portfolio will be assigned by way of equitable assignment to the Issuer and is referred to as the "**sale**" by the Originator to the Issuer of the Loans and Related Security. The Loans and Related Security sold and assigned to the Issuer and the Portfolio Sale Date and all monies derived therefrom from time to time are collectively referred to herein as the "**Portfolio**".

The consideration due to the Originator in respect of the sale of the Portfolio shall be the Consideration, which is due and payable on the Portfolio Sale Date.

The Originator shall transfer (or procure that there be transferred) to the Issuer within one Business Day of the Portfolio Sale Date an amount equal to all Collections received on the Loans and their Related Security comprised in the Portfolio from (and including) 1 June 2024 to (and including) the Portfolio Sale Date (the "**Portfolio Sale Collections Sweep**"). For the avoidance of doubt, no Collections received in respect of any Withdrawn Loans will form part of the Portfolio Sale Collections Sweep.

To the extent there are any failed payments by the Borrowers which would have otherwise formed part of the Portfolio Sale Collections Sweep (other than in respect of Withdrawn Loans), any such amounts, when received, may be set off against subsequent monthly Collections and transfer of Collections by the Servicer pursuant to the Servicing Agreement.

"**Collections**" means Revenue Receipts and Redemption Receipts.

Title to the Mortgages, Registration and Notifications

The completion of the transfer of the Loans and their Related Security (and, where appropriate, their registration or recording) to the Issuer is, save in the limited circumstances referred to below, deferred. Legal title to the Loans and their Related Security therefore remains with the Originator (and is held as bare nominee on trust for the Issuer) until the occurrence of a Perfection Event. Notice of the sale of the Loans and their Related Security to the Issuer will not be given to any Borrower until the occurrence of a Perfection Event.

The transfers to the Issuer (or its nominee) will be completed by the Originator (or by the Servicer on its behalf) as soon as reasonably practicable after any of the following Perfection Events occurs:

- (a) the Originator being required to perfect legal title to the Loans by an order of a court of competent jurisdiction or by a regulatory authority which has jurisdiction over the Originator or by any organisation of which the Originator is a member, or whose members comprise (but are not necessarily limited to) mortgage lenders and with whose instructions it is customary for the Originator to comply, to perfect legal title to the Loans and their Related Security;
- (b) the termination or resignation of the Servicer and the failure of any replacement servicer to assume the duties of the Servicer;
- (c) it becoming necessary by law to do any or all of the acts referred to in paragraph (a) above (in which case the Issuer, in consultation with the Servicing Forum, shall take all necessary steps to ensure that it (or its nominee) is duly authorised under all applicable laws to hold such legal title);

- (d) the security created under or pursuant to either the Irish Deed of Charge or the English Deed of Charge or any material part of that security being in jeopardy;
- (e) an Insolvency Event occurring in relation to the Originator;
- (f) it becoming unlawful in any applicable jurisdiction for the Originator to hold legal title in respect of any Loan or its Related Security in the Portfolio;
- (g) all or any part of the property, business, undertakings, assets or revenues of the Originator having an aggregate value in excess of €10 million has been attached as a result of any distress, execution or diligence being levied or any encumbrance taking possession or similar attachment and such attachment has not been lifted within 30 days, unless in any such case the Security Trustee certifies that in its reasonable opinion such event will not materially prejudice the ability of the Originator to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans and their Related Security; or
- (h) the Originator is in breach of any of its obligations under the Mortgage Sale Agreement, provided that there shall be no Perfection Event hereunder if (1) the breach (if capable of remedy) has been remedied within 90 calendar days, or (2) (x) the breach (if capable of remedy) has not been remedied within 90 calendar days; and (y) the relevant Rating Agencies have confirmed that the then current ratings of the Class A Notes will not be withdrawn, downgraded or qualified as a result of such breach, provided further that: (A) the Perfection Event in this provision (h) shall not apply if the Originator has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes; and (B) this Perfection Event (h) shall be subject to such amendment as the Originator may require, so long as the Originator delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of the Notes,

(each of the events set out in paragraphs (a) to (h) inclusive being a "**Perfection Event**").

If the Loans and their Related Security are sold pursuant to the exercise of the Call Option, the Issuer (or its nominee) or (if at the time the Call Option is exercised the Issuer (or its nominee) does not hold the Whole Legal Title) the Originator, upon receipt of a direction from the Issuer and at the sole cost and expense of the Issuer, shall promptly transfer the Whole Legal Title in the Loans and their Related Security comprising the Portfolio to the Legal Title Transferee.

 - (v) such company has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy, examinership or insolvency law or other similar law affecting creditors' rights, or has a petition presented for its winding-up or liquidation or examinership, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition is instituted or presented by a person or entity not described in paragraph (iv) above and:
 - (1) results in a judgment of insolvency or bankruptcy or examinership or the entry of an order for relief or the making of an order for its winding-up or liquidation or examinership; or

 - (ix) any procedure or step is taken, or any event occurs, analogous to those set out in (i) to (viii) above, in any jurisdiction; or
 - (x) such company takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts; and
- (b) in relation to any other entity:
- (i) an order is made or an effective resolution passed for the winding-up of the relevant entity (or it proposes or makes any composition or arrangement with its creditors); or
 - (ii) the relevant entity has exercised in respect of it one or more of the stabilisation, early intervention or resolution powers pursuant to Directive 2014/59/EU ("**BRRD**") as transposed into the laws of Ireland; or
 - (iii) the relevant entity stops or threatens to stop payment to its creditors generally or the relevant entity ceases or threatens to cease to carry on its business or substantially the whole of its business; or

- (iv) an encumbrancer takes possession or a Receiver is appointed to the whole or any material part of the undertaking, property and assets of the relevant entity or a distress, diligence or execution is levied or enforced upon or sued out against the whole or any material part of the chattels or property of the relevant entity and, in the case of any of the foregoing events, is not discharged within 30 days; or

Following the occurrence of a Perfection Event, notice of the legal assignments will be given to the Borrowers by the Issuer (or by the Servicer on behalf of the Issuer) and the Issuer (or the Servicer on behalf of the Issuer) will take steps to register and record such legal assignments at the Land Registry or the Registry of Deeds.

Save for Title Deeds held at the Land Registry or the Registry of Deeds, all the Title Deeds relating to each of the Loans and their Related Security are held by, under the control of, or to the order of, the Originator or the Servicer (on behalf of the Originator) or are returned to the Borrower's solicitors.

Neither the Security Trustee nor the Issuer has made or has caused to be made on its behalf any enquiries, searches or investigations, but each is relying entirely on the representations and warranties made by the Originator contained in the Mortgage Sale Agreement.

"Title Deeds" means, in relation to each Loan, and its Related Security and the Property relating thereto, all conveyancing deeds, certificates and all other documents which relate to the title to the Property and the security for the Loan and all searches and enquiries undertaken in connection with the grant by the relevant Borrower of the related Mortgage.

"Loan Files" means the file or files relating to each Loan (including files kept in microfiche format or similar electronic data retrieval system or the substance of which is transcribed and held on an electronic data retrieval system) containing inter alia correspondence between the Borrower and the Originator or the Back Book Originator and including mortgage documentation applicable to each Loan, each letter of offer for that Loan, the Valuation Report (if applicable) and, to the extent available, the solicitor's or licensed conveyancer's Certificate of Title.

"Certificate of Title" means a certificate of title in respect of a Property prepared by a solicitor;

"Valuation Report" means, in relation to any Loan, the most recent report of valuation of market value obtained by the Originator or the Back Book Originator from a valuer in respect of the Property which is to provide collateral for such Loan.

Conditions to Sale

The sale of Loans and their Related Security to the Issuer will be subject to various conditions being satisfied on the Portfolio Sale Date.

Representations and Warranties

The Loan Warranties will be given by the Originator in respect of the Loans and their Related Security sold by the Originator to the Issuer on (i) the Portfolio Sale Date; (ii) as at each Further Advance Date in respect of the relevant Further Advance; (iii) as at each Switch Date in respect of the relevant Product Switch; and (iv) (in respect of Loan Warranty number 60) on each date on and from the Portfolio Sale Date. These representations and warranties will also be given in relation to any Product Switches and Further Advances, as described below.

The Loan Warranties will separately be given by the Originator to the Security Trustee and the Security Trustee will hold the benefit of such Loan Warranties on trust for the Secured Creditors by virtue of the assignment of the Issuer's rights under the Mortgage sale Agreement to the Security Trustee.

The Loan Warranties that will be given to the Issuer and to the Security Trustee by the Originator pursuant to the Mortgage Sale Agreement (the "**Loan Warranties**") include, inter alia, (defined terms having the meaning given to them in the Mortgage Sale Agreement), and see also "*The Loans – Insurance Contracts*" above:

1. each Loan is secured by a valid, subsisting and first ranking legal mortgage over the relevant Property situated in Ireland (subject only to stamping at the Revenue Commissioners, where applicable, and to any registration which may be pending at the Land Registry or Registry of Deeds) (or, in the case of multiple advances over the same property, the advances rank above all security other than the security in favour of the Originator);
2. each Loan was made by the Originator or Pepper (as Back Book Originator) (as applicable) on its own account, arose from the ordinary course of the residential lending activities of the Originator or the Back Book Originator (as applicable) in Ireland and, in each case, at the relevant date upon which a Loan was drawn down in full or in part by a Borrower (the "**Origination Date**") and on the date on which any Further Advance was made (the "**Further Advance Date**") satisfied the Lending Criteria in force at such relevant Origination Date or Further Advance Date in all material respects and pursuant to underwriting standards that are no less stringent than those applied by the Originator or the Back Book Originator (as applicable) at the time of origination to similar loans that are not securitised;
3. each Loan is either a PDH Loan or a BTL Loan;
4. the particulars of each Loan in the Portfolio scheduled to the Mortgage Sale Agreement were true, correct and complete in all material respects;
5. each Loan and Related Security has been made upon the terms of the Standard Documentation (as appropriate) (save to the extent as may be required to comply with any applicable law or regulation or guidance issued by the Central Bank);
6. so far as the Originator is aware, in respect of each Loan, each relevant Borrower is a natural person and was aged 18 years or over at the date of execution of the relevant Loan and the Related Security;
7. each Borrower is a natural person resident in Ireland;
8. at the relevant Origination Date, no Borrower was an employee or officer of the Originator or the Back Book Originator (as applicable) or any of their respective Affiliates;
9. none of the Loans is a Lifetime Interest-Only Loan and all Loans are fully amortising to term;
10. none of the Loans are loans made pursuant to section 3(4) of the Housing (Miscellaneous Provisions) Act, 1992;
11. each Borrower has made at least one monthly payment as at the Portfolio Sale Date;
12. the relevant Mortgage Conditions provide for interest to be paid and principal to be repaid on a monthly basis (other than for Interest-Only Loans);

13. the Borrower in respect of the Loan makes its monthly payments by Direct Debit on the Origination Date (other than those Loans where the Borrower has exercised its legal right to make its monthly payments by means other than Direct Debit);
14. the amount outstanding under each Loan is a valid debt to the Originator from the Borrower and each Loan and its Related Security constitutes a legal, valid, binding and enforceable obligation of the relevant Borrower enforceable in accordance with its terms, except that enforceability may be limited by bankruptcy, insolvency or similar laws or regulations of general applicability affecting the enforcement of creditors' rights generally and the court's discretion in relation to equitable remedies and the terms of each related Mortgage provide that such related Mortgage secures the repayment of all advances, interest, costs and expenses payable by the relevant Borrower (other than in relation to any prepayment charges) in respect of the relevant Loan;
15. subject only to registration or recording at the Land Registry or Registry of Deeds or to stamping at the Revenue Commissioners, the Originator is the absolute legal and beneficial owner of all property, interests, rights and Benefits in relation to the Loans and their Related Security which are free and clear of all Encumbrances (other than those Encumbrances created by operation of law or which form part of the Loan or its Related Security) or any other condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect;
16. so far as the Originator is aware, neither the entry by the Originator into the Mortgage Sale Agreement nor any transfer or assignment or creation of trust contemplated by the Mortgage Sale Agreement affects or will adversely affect any of the Loans and their Related Security;
17. pursuant to the Borrower's solicitor's irrevocable undertaking or the Originator's instructions to its own solicitors, all steps necessary with a view to perfecting the Originator's legal title to each Loan and its Related Security were duly taken at the appropriate time or are in the process of being taken without undue delay on its part or on the part of those within its control including for the avoidance of doubt all registration applications to register the Borrower's and the Originator's legal title to the Loan and its Related Security in the Registry of Deeds and/or the Land Registry as appropriate and all necessary first registration applications in circumstances where an obligation to first register the Borrower's title to the Property has arisen pursuant to the Registration of Title Act 1964 (as amended);
18. each Loan is repayable by the relevant Borrower in euro;

The purchase price for the relevant Further Advance shall be an amount equal to the Current Balance of the Further Advance (the "**Further Advance Purchase Price**"). If the Redemption Receipts are insufficient to fund the purchase of a Further Advance to be granted in respect of a Loan, the Originator must repurchase the relevant Loan(s) and its Related Security from the Issuer.

Any Loan which has been subject to a Further Advance will remain in the Portfolio unless the Originator (or the Servicer on its behalf) has given notice (a "**Notice of Non-Satisfaction of Further Advance Conditions**") to the Issuer by the Calculation Date relating to the Collection Period during which the relevant Further Advance is effected (or, in the case of (n) below, by the Interest Payment Date immediately following the Collection Period during which the Further Advance was effected) and such notice has not been revoked prior to such date. A Notice of Non-Satisfaction of Further Advance Conditions shall be given by the Originator (or the Servicer on its behalf) to the Issuer if the Originator (or the Servicer on its behalf) has identified that any of the following conditions (the "**Further Advance Conditions**") are not satisfied:

- (a) the Further Advance Date falls before the Step-Up Date;

- (k) after making the Further Advance, the LTV of such Loan is not greater than 80%;
- (l) the Loan which is the subject of the Further Advance was in compliance with the Loan Warranties as at the Portfolio Sale Date and would not cease to be compliant with the Loan Warranties as a result of the Further Advance;
- (m) the Further Advance would be made in compliance with the Originator's Policies; and
- (n) to the extent that the granting of such Further Advance leads to an increase in the Aggregate Fixed Rate Loan Principal Amount which, as at the immediately following Swap Determination Date, results in the determination of a Swap Shortfall Amount greater than or equal to the Swap Shortfall Amount Threshold, the Swap Transaction shall be adjusted to hedge the additional exposure with an effective date on and from the Interest Payment Date immediately following the end of the Collection Period in which the relevant Further Advance Date occurs.

If by the Calculation Date relating to the Collection Period during which a Further Advance has been effected (or, in the case of (n) above, by the Interest Payment Date immediately following the Collection Period during which a Further Advance has been effected), no Notice of Non-Satisfaction of Further Advance Conditions has been given by the Originator (or the Servicer on its behalf) to the Issuer or has been so given but subsequently revoked by the Originator (or the Servicer on its behalf), and the Loan which is the subject of a Further Advance remains in the Portfolio, the Originator must, in relation to the relevant Loan, give the representations and warranties in respect of Further Advance set out in the Mortgage Sale Agreement on the Calculation Date relating to the Collection Period during which the Further Advance was effected (or, in the case of (n) above, by the Interest Payment Date immediately following the Collection Period during which a Further Advance has been effected) but such representations shall be made as at the Further Advance Date.

If by the Calculation Date relating to the Collection Period during which a Further Advance has been effected (or, in the case of (n) above, by the Interest Payment Date immediately following the Collection Period during which a Further Advance has been effected), a Notice of Non-Satisfaction of Further Advance Conditions has been given by the Originator (or the Servicer on its behalf) to the Issuer and has not yet to be revoked by the Originator (or the Servicer on its behalf), then the Originator shall repurchase the relevant Loan and its Related Security together with any other Loan secured or intended to be secured by such Related Security or any part of it from the Issuer within 75 days of the Notice of Non-Satisfaction of Further Advance Conditions served by the Originator (or the Servicer on its behalf) on the Issuer in this regard.

A Notice of Non-Satisfaction of Product Switch Conditions shall be given by the Originator (or the Servicer on its behalf) to the Issuer if the Originator (or the Servicer on its behalf) has identified that any of the following conditions (the "**Product Switch Conditions**") are not satisfied:

- (a) the Switch Date falls before the Step-Up Date;

- (j) following a Product Switch in relation to a Loan in relation to which interest is computed based on a Variable Rate, the interest rate on the relevant Loan on the Switch Date will be greater than the Variable Rate Floor;
- (k) following a Product Switch in relation to a Fixed Rate Loan, the interest rate on the relevant Loan is not less than the Fixed Rate Floor;
- (l) to the extent that the granting of such Product Switch leads to an increase in the Aggregate Fixed Rate Loan Principal Amount which, as at the immediately following Swap Determination Date, results in the determination of a Swap Shortfall Amount greater than or equal to the Swap Shortfall Amount Threshold, the Swap Transaction shall be adjusted to hedge the additional exposure, with an effective date on and from the Interest Payment Date immediately following the end of the Collection Period in which the relevant Switch Date occurs; and
- (m) following the Product Switch, the relevant Loan shall not have an initial Fixed Rate Period of more than 5.5 years.

If by the Calculation Date relating to the Collection Period during which a Product Switch has been effected (or, in the case of (l) above, by the Interest Payment Date immediately following the Collection Period during which a Product Switch has been effected), no Notice of Non-Satisfaction of Product Switch Conditions has been given by the Originator (or the Servicer on its behalf) to the Issuer or has been so given but subsequently revoked by the Originator (or the Servicer on its behalf), and the Loan which is the subject of a Product Switch remains in the Portfolio, the Originator (or the Servicer on its behalf) shall, in relation to the relevant Loan, give the representations and warranties in respect of Product Switches set out in the Mortgage Sale Agreement on the Calculation Date relating to the Collection Period during which the Product Switch was effected (or, in the case of (l) above, by the Interest Payment Date immediately following the Collection Period during which a Product Switch has been effected) but such representations shall be made as at the relevant date of the granting of any Product Switch (being the "**Switch Date**").

If by the Calculation Date relating to the Collection Period during which a Product Switch has been effected (or, in the case of (l) above, by the Interest Payment Date immediately following the Collection Period during which a Product Switch has been effected) a Notice of Non-Satisfaction of Product Switch Conditions has been given by the Originator (or the Servicer on its behalf) to the Issuer and has not yet to be revoked by the Originator, then the Originator must repurchase the relevant Loan and its Related Security from the Issuer within 75 days of the Notice of Non-Satisfaction of Product Switch Conditions served by the Originator (or the Servicer on its behalf) on the Issuer in this regard.

 - (c) calculate on each Calculation Date up to and including the Calculation Date immediately preceding the Class A Redemption Date (prior to the service of an Enforcement Notice) the amount of any Class A Liquidity Reserve Fund Release Amount to be applied on the immediately following Interest Payment Date (such amount to be determined after calculation of the Available Revenue Receipts or Available Redemption Receipts to be applied on such Interest Payment Date in accordance with the applicable Priority of Payments on such Interest Payment Date (including any Class A Liquidity Reserve Fund Excess Amount to be applied as Available Revenue Receipts on such Interest Payment Date));

- (d) calculate on each Calculation Date up to but excluding the Calculation Date immediately preceding the Early Redemption Date (prior to the service of an Enforcement Notice) the amount of any General Reserve Fund Release Amount to be applied on the immediately following Interest Payment Date (such amount to be determined after calculation of any Class A Liquidity Reserve Fund Release Amounts to be applied to meet any Class A Liquidity Deficit and the Available Revenue Receipts to be applied on such Interest Payment Date in accordance with the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date (including any General Reserve Fund Excess Amount to be applied as Available Revenue Receipts on such Interest Payment Date));
- (e) calculate on each Calculation Date up to but excluding the Calculation Date immediately preceding the Early Redemption Date (prior to the service of an Enforcement Notice) the amount of any Principal Addition Amounts to be applied on the immediately following Interest Payment Date (such amount to be determined after calculation of any Class A Liquidity Reserve Fund Release Amounts to be applied to meet any Class A Liquidity Deficit, any General Reserve Fund Release Amounts to be applied to meet any Revenue Deficit and the Available Revenue Receipts to be applied on such Interest Payment Date in accordance with the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date) and drawn from Available Redemption Receipts on such Interest Payment Date;
- (f) subject to the receipt of the Servicer Report, prepare a monthly Investor Report and provide the Issuer, the Originator, the Servicing Advisor, the Servicer, the Swap Provider, the Noteholders and the Rating Agencies with the Investor Report and the Servicer Report on the 24th day of each month (or if such day is not a Business Day, the immediately preceding Business Day) by publication on <https://pivot.usbank.com> which is a password protected website of the Cash Manager;
- (g) subject to receipt of the Quarterly Servicer Data Tape and all underlying asset/loan level data on the Quarterly Servicer Reporting Date immediately preceding each Interest Payment Date, on behalf of the Issuer, prepare a quarterly investor report as required by and in accordance with (i) Article 7(1)(e) of the EU Securitisation Regulation (each, an "**EU Quarterly Investor Report**"), which shall be in the form of Annex XII of the technical standards required under the EU Disclosure Technical Standards and (ii) Article 7(1)(e) of the UK Securitisation Regulation (each, a "**UK Quarterly Investor Report**"), which shall be in the form of Annex XII of the technical standards required under the UK Disclosure Technical Standards;
- (h) make the Quarterly Investor Reports available to the Issuer, the Servicer, the Originator, the Servicing Advisor and the Swap Provider by publication on <https://pivot.usbank.com> which is a password protected website of the Cash Manager no later than 4 p.m. on each Interest Payment Date; and
- (i) as soon as reasonably practicable upon receiving a request from the Issuer and/or the Security Trustee and provided that it has all information necessary to enable it to do so, calculate and provide to the Issuer and the Security Trustee:
 - (i) the Optional Purchase Price (or where such calculation is made prior to the Calculation Date immediately preceding the Optional Purchase Sale Date, an estimate of the Optional Purchase Price); and/or
 - (ii) (where the initial calculation is made prior to the Calculation Date immediately preceding the Optional Purchase Sale Date) the definitive Optional Purchase Price.

Cash Manager and Directions from the Security Trustee

The Cash Manager will act upon the direction of the Security Trustee (given in accordance with the terms and provisions of the Deeds of Charge) following delivery of an Enforcement Notice.

Remuneration of Cash Manager

The Cash Manager will be paid a cash management fee for its cash management services under the Cash Management Agreement. Such fees will be determined under a separate fee letter between the Issuer and the Cash Manager. Any sum (or other consideration) payable (or provided) by the Issuer to the Cash Manager in respect of that fee shall be deemed to be exclusive of VAT. The cash management fee is payable quarterly in arrear on each Interest Payment Date in the manner contemplated by and in accordance with the provisions of the Pre-Enforcement Revenue Priority of Payments or, as the case may be, the Post-Enforcement Priority of Payments.

Termination of Appointment and Replacement of Cash Manager

If any of the following events (the "**Cash Manager Termination Events**") shall occur:

- (a) default is made by the Cash Manager in the payment, on the due date, of any payment due and payable by it under the Cash Management Agreement and such default continues unremedied for a period of three Business Days after the earlier of the Cash Manager becoming aware of such default and receipt by the Cash Manager of written notice from the Issuer or (following the service of an Enforcement Notice) the Security Trustee, as the case may be, requiring the same to be remedied; or
- (b) default is made by the Cash Manager in the performance or observance of any of its other covenants and obligations under the Cash Management Agreement, which in the opinion of the Note Trustee (acting in accordance with the Trust Deed) as notified to the Security Trustee is materially prejudicial to the interests of the Noteholders, and such default continues unremedied for a period of 30 Business Days after the earlier of the Cash Manager becoming aware of such default and receipt by the Cash Manager of written notice from the Issuer or (following the service of an Enforcement Notice) the Security Trustee, as the case may be, requiring the same to be remedied; or
- (c) an Insolvency Event occurs in respect of the Cash Manager; or
- (d) it becomes unlawful for the Cash Manager to perform its obligations under the Cash Management Agreement or under any other Transaction Document,

then prior to the delivery of an Enforcement Notice, the Issuer (with the written consent of the Security Trustee), or following the delivery of an Enforcement Notice, the Security Trustee, may, at once or at any time thereafter while such default continues, by notice in writing to the Cash Manager (with a copy to the Security Trustee if such notice is delivered by the Issuer), terminate its appointment as Cash Manager under the Cash Management Agreement with effect from a date (not earlier than the date of the notice) specified in such notice. In determining whether to give or withhold consent to the termination of the Cash Manager by the Issuer, the Security Trustee will have regard to factors including, *inter alia*, the availability of a substitute cash manager and any suggestions and recommendations made by the Servicing Advisor. Upon termination of the appointment of the Cash Manager, the Issuer shall, in consultation with the Servicing Advisor, use reasonable endeavours to appoint a substitute cash manager that satisfies the conditions set out below.

Any substitute cash manager:

- (a) must agree to enter into an agreement with the Issuer on terms commercially acceptable in the market, pursuant to which the substitute cash manager agrees to assume and perform all material duties and obligations of the Cash Manager under the Cash Management Agreement;
- (b) must be a party that the Rating Agencies have previously confirmed by whatever means such Rating Agencies consider appropriate (provided that the Issuer is permitted to and does confirm in writing (including by email) to the Security Trustee that such confirmation has been obtained) the appointment of which will not cause the then current ratings of the Notes to be adversely affected; and
- (c) will be subject to the prior written approval of the Security Trustee.

For the avoidance of doubt, upon termination of the appointment of the Cash Manager, if the Issuer is unable to find a suitable third party willing to act as a substitute cash manager, this shall not constitute any breach of the provisions of the Cash Management Agreement.

Resignation of the Cash Manager

The Cash Manager may resign on giving not less than 45 days' written notice (or such shorter time as may be agreed between the Cash Manager, the Issuer, the Originator, (if the Servicing Advisor is a different entity from the Originator) the Servicing Advisor and the Security Trustee) of its resignation to the Issuer, the Servicing Advisor and the Security Trustee, provided that:

- (a) a substitute cash manager shall be appointed, such appointment to be effective not later than the date of such termination;
- (b) such substitute cash manager has the requisite cash management experience to perform the functions to be given to it under the Cash Management Agreement and is approved by the Issuer and the Security Trustee in consultation with the Servicing Advisor;
- (c) such substitute cash manager enters into a cash management agreement with the Issuer on terms commercially acceptable in the market, pursuant to which the substitute cash manager agrees to assume and perform all material duties and obligations of the Cash Manager under the Cash Management Agreement; and
- (d) (if Notes remain outstanding) the then current ratings of the Notes are not adversely affected as a result thereof, unless the Security Trustee or the relevant Class or Classes of Noteholders (acting by way of an Extraordinary Resolution) otherwise agree.

Governing Law

The Cash Management Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Bank Account Agreement

Pursuant to the terms of a bank account agreement entered into on or about the Closing Date between the Issuer, the Issuer Account Bank, the Cash Manager and the Security Trustee (the "**Bank Account Agreement**"), the Issuer will maintain with the Issuer Account Bank the Deposit Account and the Swap Collateral Account which will be operated in accordance with the Bank Account Agreement, Cash Management Agreement, the Deeds of Charge and, in relation to the Swap Collateral Account, the Swap Agreement. The Issuer Account Bank is required to have the Account Bank Rating.

Interest

If any amount is standing to the credit of an Issuer Account (other than the Deposit Account), such amount will bear interest at a rate and as agreed from time to time in writing between the Issuer and the Issuer Account Bank.

Governing Law

The Bank Account Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Corporate Services Agreement

On or prior to the Closing Date, the Issuer and the Corporate Services Provider will enter into a corporate services agreement (the "**Corporate Services Agreement**") pursuant to which the Corporate Services Provider will provide the Issuer with certain corporate and administrative functions against the payment of a fee. Such services include, inter alia, the performance of all general book-keeping, secretarial, registrar and company administration services for the Issuer (including the provision of directors), providing the

directors with information in connection with the Issuer, and the arrangement for the convening of shareholders' and directors' meetings.

Governing Law

The Corporate Services Agreement and any non-contractual obligations arising out of or in connection with it will be governed by Irish law.

The Originator Declaration of Trust

The Originator entered into an originator declaration of trust on 11 December 2018 (as amended and restated on 24 July 2019, 24 September 2020, 24 June 2021, 3 February 2022, 24 October 2022 and 22 September 2023) (the "**Original Originator Declaration of Trust**") with certain parties including Eclipse Ireland Residential Securities Designated Activity Company pursuant to which it created a trust over the Collection Account in favour of the beneficiaries named therein. Then, on or prior to the Closing Date the Issuer, the Originator, the Security Trustee and the parties to the Original Originator Declaration of Trust will agree to amend and restate the Original Originator Declaration of Trust (such amended document, the "**Originator Declaration of Trust**") pursuant to which the Originator will declare a trust (the "**Collection Accounts Trust**") in favour of the Issuer over all its rights, title, interest and benefit (both present and future) in the Collection Account absolutely for the beneficiaries set out therein (including the Issuer) in the manner and in the proportions specified in the Originator Declaration of Trust.

Governing Law

The Originator Declaration of Trust and any non-contractual obligations arising out of or in connection with it will be governed by Irish law.

Other Agreements

For a description of the Swap Agreement, see "*Credit Structure*" below.

CREDIT STRUCTURE

The Notes are obligations of the Issuer only. The Notes are not obligations of, or the responsibility of, or guaranteed by, any person other than the Issuer. In particular, the Notes are not obligations of, or the responsibility of, or guaranteed by, any of the Relevant Parties. No liability whatsoever in respect of any failure by the Issuer to pay any amount due under the Notes shall be accepted by any of the Relevant Parties or by any other person other than the Issuer.

The structure of the credit support arrangements may be summarised as follows:

1. **Liquidity Support for the Notes provided by Available Revenue Receipts**

It is anticipated that, during the life of the Notes, the interest payable by Borrowers on the Loans will, assuming that all of the Loans are fully performing, be sufficient so that the Available Revenue Receipts will be sufficient to pay the amounts payable under items (a) to (y) (inclusive) of the Pre-Enforcement Revenue Priority of Payments. Two of the key factors determining such variation are the interest rates applicable to the Loans in the Portfolio relative to the interest rates on the Notes (taking into account in respect of the Fixed Rate Loans amounts due to or by the Issuer pursuant to the terms of the Swap Agreement) (as to which, see "*Interest Rate Risk for the Notes*" below) and the performance of the Portfolio.

Available Revenue Receipts will be applied (after making payments ranking higher in the Pre-Enforcement Revenue Priority of Payments) on each Interest Payment Date in accordance with the Pre-Enforcement Revenue Priority of Payments, towards reducing any Principal Deficiency Ledger entries which may arise from Losses or from Arrears Percentage Losses on the Portfolio and from the application of Available Redemption Receipts as Principal Addition Amounts to cure any Senior Expenses Deficit in accordance with item (a) of the Pre-Enforcement Redemption Priority of Payments.

To the extent that the amount of Available Revenue Receipts on each Interest Payment Date up to but excluding the Class A Redemption Date exceeds the aggregate of the payments required to be met under items (a) to (g) (inclusive) of the Pre-Enforcement Revenue Priority of Payments, such excess is available to replenish the Class A Liquidity Reserve Fund Ledger up to and including an amount equal to the Class A Liquidity Reserve Fund Required Amount.

To the extent that the amount of Available Revenue Receipts on each Interest Payment Date exceeds the aggregate of the payments required to be met under items (a) to (q) (inclusive) of the Pre-Enforcement Revenue Priority of Payments, such excess is available to replenish the General Reserve Fund up to an amount equal to the General Reserve Fund Required Amount.

To the extent that the amount of Available Revenue Receipts on each Interest Payment Date from and including the Step-Up Date or the Early Redemption Date exceeds the aggregate of the payments required to be met under items (a) to (s) (inclusive) of the Pre-Enforcement Revenue Priority of Payments, an amount equal to the lesser of (i) all remaining amounts (if any); and (ii) the amount required by the Issuer to pay in full all amounts payable under items (a) to (f) (inclusive) of the Pre-Enforcement Redemption Priority of Payments, taking into account any Available Redemption Receipts (other than item (d) of the definition thereof) otherwise available to the Issuer, is available as Enhanced Amortisation Amounts to be applied as Available Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments.

2. **General Reserve Fund and General Reserve Fund Ledger**

On the Closing Date, the Issuer will establish a fund which will be credited with the General Reserve Fund Required Amount from part of the proceeds of the relevant Noteholder's subscription for the Class X Notes on the Closing Date (the "**General Reserve Fund**") to provide liquidity support (and ultimately, credit enhancement) for the Collateralised Notes. The General Reserve Fund will be deposited in the Deposit Account (with a corresponding credit being made to the General Reserve Fund Ledger). For more information about the application of the amounts

standing to the credit of the General Reserve Fund, see the section "*Cashflows - Application of Monies released from the General Reserve Fund*" below.

The Cash Manager will maintain the General Reserve Fund Ledger pursuant to the Cash Management Agreement to record the balance from time to time of the General Reserve Fund.

After the Closing Date, on each Interest Payment Date up to but excluding the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier), the General Reserve Fund will be replenished up to the General Reserve Fund Required Amount from Available Revenue Receipts (to the extent available) in accordance with the provisions of the Pre-Enforcement Revenue Priority of Payments.

On each Calculation Date, the Cash Manager shall (following determination of the General Reserve Fund Required Amount in respect of each Calculation Date up to but excluding the Calculation Date immediately preceding the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier)) determine the General Reserve Fund Excess Amount for application as Available Revenue Receipts on the immediately following Interest Payment Date (if any).

On each Interest Payment Date up to but excluding the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier), the Cash Manager will apply the General Reserve Fund Excess Amount (as determined on the immediately preceding Calculation Date) as Available Revenue Receipts.

On any Calculation Date up to but excluding the Calculation Date immediately preceding the Early Redemption Amount (prior to the service of an Enforcement Notice), if the Cash Manager determines that on the immediately following Interest Payment Date, there would be a Revenue Deficit, the Cash Manager will apply on such Interest Payment Date an amount from the General Reserve Fund equal to the lesser of:

- (a) the amount standing to the credit of the General Reserve Fund Ledger on such Interest Payment Date; and
- (b) the amount of such Revenue Deficit,

(such amount being the "**General Reserve Fund Release Amount**"), in meeting such Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments (any such amount to be debited from the General Reserve Fund Ledger immediately prior to the application of Available Revenue Receipts pursuant to the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date).

The "**Revenue Deficit**" shall be, on any Interest Payment Date an amount equal to the aggregate of:

- (a) any shortfall in Available Revenue Receipts and any Class A Liquidity Reserve Fund Release Amounts to pay items (a) to (g) (inclusive) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date;
- (b) either:
 - (i) if:
 - (1) the Class B Notes are the Most Senior Class then outstanding; or
 - (2) if the Class B Notes are not the Most Senior Class of Notes then outstanding and there is no debit balance on the Class B Principal Deficiency Sub Ledger on such Interest Payment Date,

any shortfall in Available Revenue Receipts to pay item (j) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date; or

- (ii) if the Class B Notes are not the Most Senior Class of Notes then outstanding and if there is a debit balance on the Class B Principal Deficiency Sub Ledger on such Interest Payment Date, zero;

(c) either:

(i) if:

- (1) the Class C Notes are the Most Senior Class then outstanding; or
- (2) if the Class C Notes are not the Most Senior Class of Notes then outstanding and there is no debit balance on the Class C Principal Deficiency Sub Ledger on such Interest Payment Date,

any shortfall in Available Revenue Receipts to pay item (l) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date; or

- (ii) if the Class C Notes are not the Most Senior Class of Notes then outstanding and if there is a debit balance on the Class C Principal Deficiency Sub Ledger on such Interest Payment Date, zero;

(d) either:

(i) if:

- (1) the Class D Notes are the Most Senior Class then outstanding; or
- (2) if the Class D Notes are not the Most Senior Class of Notes then outstanding and there is no debit balance on the Class D Principal Deficiency Sub Ledger on such Interest Payment Date,

any shortfall in Available Revenue Receipts to pay item (n) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date; or

- (ii) if the Class D Notes are not the Most Senior Class of Notes then outstanding and if there is a debit balance on the Class D Principal Deficiency Sub Ledger on such Interest Payment Date, zero;

(e) either:

(i) if:

- (1) the Class E Notes are the Most Senior Class then outstanding; or
- (2) the Class E Notes are not the Most Senior Class of Notes then outstanding and there is no debit balance on the Class E Principal Deficiency Sub Ledger on such Interest Payment Date,

any shortfall in Available Revenue Receipts to pay item (p) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date; or

- (ii) if there is a debit balance on the Class E Principal Deficiency Sub Ledger on such Interest Payment Date, zero;

as determined by the Cash Manager on the immediately preceding Calculation Date.

For the avoidance of doubt, in the event there is a shortfall in Available Revenue Receipts to pay items (j), (l), (n) or (p) in the Pre-Enforcement Revenue Priority of Payments on any applicable Interest Payment Date, but there is a debit balance on the Principal Deficiency Sub-Ledger for the relevant Class of Notes, the shortfall for the purposes of such item shall be deemed to be zero for the purposes of the calculation of any General Reserve Fund Release Amount and such items will not be relevant items for the purposes of the application of the General Reserve Fund Release Amount.

On the Early Redemption Date only, all amounts standing to the credit of the General Reserve Fund Ledger will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments. On the Optional Purchase Completion Date only and/or following the delivery of an Enforcement Notice on the Issuer, all amounts standing to the credit of the General Reserve Fund Ledger will be applied in accordance with the Post-Enforcement Priority of Payments.

The "**General Reserve Fund Excess Amount**" on any Interest Payment Date will be an amount equal to the greater of:

- (a) zero; and
- (b) the amount standing to the credit of the General Reserve Fund Ledger on such Interest Payment Date, less the General Reserve Fund Required Amount on such Interest Payment Date.

"**General Reserve Fund Required Amount**" means:

- (a) on any Interest Payment Date up to and including the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier), an amount equal to 0.75 per cent. of the aggregate current Principal Amount Outstanding of the aggregate of the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes prior to the application of Available Redemption Receipts on such Interest Payment Date; and
- (b) on each Interest Payment Date on and including the Early Redemption Date and/or the Optional Purchase Completion Date (whichever is earlier), zero.

3. **Use of Available Redemption Receipts to pay Senior Expenses Deficit**

On each Calculation Date prior to the service of an Enforcement Notice, and with reference to the immediately following Interest Payment Date, the Cash Manager will calculate whether there will be a shortfall of the aggregate of the Available Revenue Receipts, Class A Liquidity Reserve Fund Release Amounts and any General Reserve Fund Release Amounts in meeting a Senior Expenses Deficit on such Interest Payment Date. If the Cash Manager determines that there will be a Senior Expenses Deficit, then pursuant to item (a) of the Pre-Enforcement Redemption Priority of Payments, the Cash Manager on behalf of the Issuer shall apply an amount of Available Redemption Receipts equal to the lesser of:

- (a) the amount of Available Redemption Receipts available for application pursuant to the Pre-Enforcement Redemption Priority of Payments on such Interest Payment Date; and
- (b) the amount of such Senior Expenses Deficit,

(such amount being the "**Principal Addition Amounts**"), in meeting such Senior Expenses Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments.

The "**Senior Expenses Deficit**" shall be, on any Interest Payment Date, an amount equal to any shortfall in the aggregate of the Available Revenue Receipts, any General Reserve Fund Release Amounts and any Class A Liquidity Reserve Fund Release Amounts to pay:

- (a) items (a) to (g) of the Pre-Enforcement Revenue Priority of Payments (excluding, for this purpose, any Class Y Payments);
- (b) if the Class B Notes are the Most Senior Class of Notes then outstanding, item (j) of the Pre-Enforcement Revenue Priority of Payments;
- (c) if the Class C Notes are the Most Senior Class of Notes then outstanding, item (l) of the Pre-Enforcement Revenue Priority of Payments;
- (d) if the Class D Notes are the Most Senior Class of Notes then outstanding, item (n) of the Pre-Enforcement Revenue Priority of Payments;
- (e) if the Class E Notes are the Most Senior Class of Notes then outstanding, item (p) of the Pre-Enforcement Revenue Priority of Payments;

on such Interest Payment Date, as determined by the Cash Manager on the immediately preceding Calculation Date.

Any Available Redemption Receipts applied as Principal Addition Amounts will be recorded as a debit on the Principal Deficiency Ledger (as further described below).

For more information about the application of Available Redemption Receipts to pay Senior Expenses Deficits, see the section "*Cashflows - Application of Available Redemption Receipts to cure a Senior Expenses Deficit*".

4. **Class A Liquidity Reserve Fund and Class A Liquidity Reserve Fund Ledger**

On the Closing Date, the Issuer will establish a fund which will be credited with the Class A Liquidity Reserve Fund Required Amount from part of the proceeds of the subscription for the Class X Notes on the Closing Date (the "**Class A Liquidity Reserve Fund**") to provide liquidity support (and ultimately, credit enhancement) for the Class A Notes. The Class A Liquidity Reserve Fund will be deposited in the Deposit Account (with a corresponding credit being made to the Class A Liquidity Reserve Fund Ledger). For more information about the application of the amounts standing to the credit of the Class A Liquidity Reserve Fund, see the section "*Cashflows - Application of Monies released from the Class A Liquidity Reserve Fund*" below.

The Cash Manager will maintain the Class A Liquidity Reserve Fund Ledger pursuant to the Cash Management Agreement to record the balance from time to time of the Class A Liquidity Reserve Fund.

After the Closing Date, on each Interest Payment Date up to but excluding the Class A Redemption Date, the Class A Liquidity Reserve Fund will be replenished up to the Class A Liquidity Reserve Fund Required Amount from Available Revenue Receipts (to the extent available) in accordance with the provisions of the Pre-Enforcement Revenue Priority of Payments.

Following the determination by the Cash Manager on each Calculation Date up to but excluding the Calculation Date immediately preceding the Class A Redemption Date of the Class A Liquidity Reserve Fund Required Amount in respect of the immediately following Interest Payment Date, the Cash Manager shall determine the Class A Liquidity Reserve Fund Excess Amount to be applied as Available Revenue Receipts on the immediately following Interest Payment Date (if any).

On each Interest Payment Date up to but excluding the Class A Redemption Date, the Cash Manager will apply as Available Revenue Receipts the Class A Liquidity Reserve Fund Excess Amount (as determined on the immediately preceding Calculation Date).

On any Calculation Date up to and including the Calculation Date immediately preceding the Class A Redemption Date (prior to the service of an Enforcement Notice), if the Cash Manager determines that on the immediately following Interest Payment Date, there would be a Class A

Liquidity Deficit, the Cash Manager will apply on such Interest Payment Date an amount from the Class A Liquidity Reserve Fund equal to the lesser of:

- (a) the amount standing to the credit of the Class A Liquidity Reserve Fund Ledger on such Interest Payment Date (for the avoidance of doubt, prior to any amounts being debited from the Class A Liquidity Reserve Fund Ledger on such Interest Payment Date); and
- (b) the amount of such Class A Liquidity Deficit,

(such amount being the "**Class A Liquidity Reserve Fund Release Amount**"), in meeting such Class A Liquidity Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments (any such amount to be debited from the Class A Liquidity Reserve Fund Ledger immediately prior to the application of any General Reserve Fund Release Amount, Principal Addition Amounts and Available Revenue Receipts pursuant to the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date).

On the Class A Redemption Date only, all amounts standing to the credit of the Class A Liquidity Reserve Fund (after first having applied any Class A Liquidity Reserve Fund Release Amount in meeting any Class A Liquidity Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments and debiting such amount from the Class A Liquidity Reserve Fund Ledger) will be applied as Available Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments.

The "**Class A Liquidity Deficit**" shall be, on any Interest Payment Date, an amount equal to any shortfall in Available Revenue Receipts to pay items (a) to (g) of the Pre-Enforcement Revenue Priority of Payments, on such Interest Payment Date, as determined by the Cash Manager on the immediately preceding Calculation Date.

The "**Class A Liquidity Reserve Fund Excess Amount**" shall be:

- (a) on each Interest Payment Date up to but excluding the Class A Redemption Date, all amounts standing to the credit of the Class A Liquidity Reserve Fund in excess of the Class A Liquidity Reserve Fund Required Amount on such Interest Payment Date (prior to any amounts being debited from or credited to the Class A Liquidity Reserve Fund Ledger on such date); and
- (b) on each other Interest Payment Date, zero.

"**Class A Liquidity Reserve Fund Required Amount**" means:

- (a) on any Interest Payment Date falling prior to the Class A Redemption Date, an amount equal to the greater of (i) 0.75 per cent. of the aggregate current Principal Amount Outstanding of the Class A Notes prior to the application of Available Redemption Receipts on such Interest Payment Date and (ii) €1,000,000; and
- (b) on any Interest Payment Date falling on or after the Class A Redemption Date, zero.

The "**Class A Redemption Date**" means the Optional Purchase Completion Date or the Interest Payment Date in respect of which the Cash Manager determines on the immediately preceding Calculation Date that, following the application on such Interest Payment Date of (i) Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments, (ii) any Class A Liquidity Reserve Fund Release Amounts in meeting any Class A Liquidity Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments and (iii) any General Reserve Fund Release Amounts in meeting any Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments, the sum of the Available Redemption Receipts (including all

amounts standing to the credit of the Class A Liquidity Reserve Fund Ledger) would be sufficient to redeem in full the Class A Notes on such Interest Payment Date.

5. **Principal Deficiency Ledger**

A Principal Deficiency Ledger will be established to record:

- (a) any Losses affecting the Loans in the Portfolio;
- (b) without double counting, in the case of a Loan in arrears by 180 days or more past the date originally specified for payment and in respect of which amounts have not been recorded in paragraph (a) above, an amount equal to the Current Balance of such Loan multiplied by the then current Arrears Percentage, provided that, for the avoidance of doubt, if (i) the number of days by which such Loan is in arrears increases such that the corresponding Arrears Percentage increases, the debit entry on the Principal Deficiency Ledger shall be increased to an amount equal to the Current Balance of such Loan multiplied by the then current Arrears Percentage; (ii) the number of days by which such Loan is in arrears decreases such that the corresponding Arrears Percentage decreases, the difference between the previous debit entry on the Principal Deficiency Ledger and the amount equal to the Current Balance of such Loan multiplied by the then current Arrears Percentage shall be credited to the Principal Deficiency Ledger; and (iii) such Loan no longer falls under paragraph (a), (b) or (c) of the definition of Arrears Percentage, the amount previously debited to the Principal Deficiency Ledger is instead credited to the Principal Deficiency Ledger (such amounts to be recorded on the date that the Cash Manager is informed of the relevant amount by the Servicer) (such entry, an "**Arrears Percentage Loss**"); and/or
- (c) and/or any Principal Addition Amounts.

The "**Principal Deficiency Ledger**" will comprise the following sub-ledgers: the Principal Deficiency Ledger relating to the Class A Notes (the "**Class A Principal Deficiency Sub-Ledger**"), the Principal Deficiency Ledger relating to the Class B Notes (the "**Class B Principal Deficiency Sub-Ledger**"), the Principal Deficiency Ledger relating to the Class C Notes (the "**Class C Principal Deficiency Sub-Ledger**"), the Principal Deficiency Ledger relating to the Class D Notes (the "**Class D Principal Deficiency Sub-Ledger**"), and the Principal Deficiency Ledger relating to the Class E Notes (the "**Class E Principal Deficiency Sub-Ledger**") (each a "**Principal Deficiency Sub-Ledger**"). Any Losses and/or, without double counting, any Arrears Percentage Losses on the Portfolio and/or any Principal Addition Amounts will be recorded as a debit (on the date that the Cash Manager is informed of such Losses or Arrears Percentage Losses (as applicable) by the Servicer or such Principal Addition Amounts are determined by the Cash Manager (as applicable)) first (a) to the Class E Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class E Notes; then (b) to the Class D Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class D Notes; then (c) to the Class C Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class C Notes; then (d) to the Class B Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class B Notes and then (e) to the Class A Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class A Notes. The Cash Manager will record as a credit to the Principal Deficiency Ledger (i) Available Revenue Receipts applied pursuant to items (i), (k), (m), (o), and (q), of the Pre-Enforcement Revenue Priority of Payments (if any) (which amounts shall, for the avoidance of doubt, thereupon become Available Redemption Receipts) and (ii) Enhanced Amortisation Amounts applied in accordance with item (u) of the Pre-Enforcement Revenue Priority of Payments (which amounts shall, for the avoidance of doubt, thereupon become Available Redemption Receipts).

Available Revenue Receipts will be applied on an Interest Payment Date as follows (and recorded as a credit against the Principal Deficiency Ledger as follows):

- (a) first, to the Class A Principal Deficiency Sub-Ledger to reduce the debit balance to zero;

- (b) second, to the Class B Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (c) third, to the Class C Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (d) fourth, to the Class D Principal Deficiency Sub-Ledger to reduce the debit balance to zero;
- (e) fifth, to the Class E Principal Deficiency Sub-Ledger to reduce the debit balance to zero;

Prior to the Step-Up Date, in the event that it is subsequently determined that the debit balance of the Principal Deficiency Ledger was erroneously calculated as being higher than was subsequently found to be the case (as a result of Loans in arrears being subsequently found to have been fully or partially cured), it may be the case that, on any Interest Payment Date, the Available Revenue Receipts that were applied to cure a debit entry on the Principal Deficiency Ledger were excessive for such purpose. In such circumstances, following the application of Available Revenue Receipts, the Principal Deficiency Ledger will have a negative debit balance (any such amount, the "**Principal Deficiency Excess**"). Any amounts equal to the balance of such Principal Deficiency Excess shall form part of the Available Revenue Receipts on the next following Interest Payment Date (such amounts being "**Principal Deficiency Excess Revenue Amounts**") and shall be recorded as a credit against the Principal Deficiency Ledger.

"**Arrears Percentage**" means:

- (a) for Loans between 180 days and 269 days in arrears, 50 per cent.;
- (b) for Loans between 270 days and 359 days in arrears, 75 per cent.; and
- (c) for Loans more than 359 days in arrears, 100 per cent.;

6. **Available Revenue Receipts and Available Redemption Receipts**

Available Revenue Receipts and Available Redemption Receipts shall be applied on each Interest Payment Date in accordance with the Pre-Enforcement Revenue Priority of Payments and the Pre-Enforcement Redemption Priority of Payments, respectively. Other than amounts which the Issuer expects to generate in each accounting period as its profit in respect of the business of the Issuer, amounts standing to the credit of the Class A Liquidity Reserve Fund Ledger (other than any amounts representing Class A Liquidity Reserve Fund Release Amounts or Class A Liquidity Reserve Fund Excess Amounts), the General Reserve Fund Ledger (other than any amounts representing General Reserve Fund Release Amounts or General Reserve Fund Excess Amounts) and the Swap Collateral Ledger (if any), it is not intended that any surplus will be accumulated in the Issuer.

If, on any Interest Payment Date, the Issuer has insufficient Available Revenue Receipts, Class A Liquidity Reserve Fund Release Amounts, General Reserve Fund Release Amounts and Principal Addition Amounts to pay the interest that would otherwise be payable on the Notes, then the Issuer will be entitled under Condition 18 (*Subordination by deferral*) to defer payment of that amount (to the extent of the insufficiency) until the following Interest Payment Date. Any such deferral in accordance with the deferral provisions contained in the Conditions will not constitute an Event of Default. However, the obligation to pay interest on the Most Senior Class may not be deferred and failure to pay interest on the Most Senior Class of Notes within any applicable grace period in accordance with the Conditions shall constitute an Event of Default under the Notes which may result in the Notes being declared due and payable and the Security becoming enforceable.

7. **Interest Rate Risk for the Notes**

Swap Agreement

On or about the Closing Date, the Issuer and the Swap Provider will enter into a swap master agreement in the form of the 2002 ISDA Master Agreement as published by the International Swaps and Derivatives Association, Inc. ("**ISDA**") and schedule thereto, together with a credit

support annex (as amended or supplemented from time to time, the "**Swap Master Agreement**"). On or about the Closing Date, the Issuer and the Swap Provider will also enter into a swap transaction (the "**Swap Transaction**"), which will be documented by a confirmation supplementing, forming part of and being subject to the Swap Master Agreement (the Swap Master Agreement and the Swap Transaction are together, the "**Swap Agreement**").

Swap Transaction

Some of the Loans in the Portfolio pay or will pay a fixed rate of interest for an initial period of time before switching to a variable rate, and certain other Loans may, following a Product Switch, either extend the initial fixed rate period or switch from a variable rate to a fixed rate of interest. However, the Issuer's liabilities under the Notes are based on EURIBOR for the relevant period.

To provide a hedge against the possible variance between:

- (a) the fixed rates of interest payable on the Fixed Rate Loans in the Portfolio; and
- (b) the rate of interest under the Notes being calculated by reference to EURIBOR,

the Issuer will enter into the Swap Transaction with the Swap Provider under the Swap Master Agreement with effect from the Closing Date.

Additionally, on each Swap Determination Date, the Swap Provider and the Issuer will determine the adjustment (if any) to the Swap Notional Amount and the Swap Fixed Rate of the Swap Transaction that will apply from the Swap Calculation Period commencing on the immediately following Swap Payment Date, in accordance with the following: (a) the Swap Provider and the Issuer will calculate the Swap Shortfall Amount (as defined below) for each Swap Calculation Period that commences on or after the immediately following Swap Payment Date; and (b) if the Swap Provider and the Issuer confirm that a Swap Adjustment Trigger (as defined below) applies to such Swap Determination Date, the Swap Transaction will be adjusted such that, (i) for each Swap Calculation Period that has a Swap Shortfall Amount greater than zero, the Swap Notional Amount for such Swap Calculation Period will be increased by an amount equal to that Swap Shortfall Amount and (ii) the Swap Provider and the Issuer will calculate the Swap Blended Fixed Rate (as defined below) in respect of such Swap Determination Date, which will apply for the purpose of determining the Swap Fixed Rate from the Swap Calculation Period that commences on the immediately following Swap Payment Date.

If a Swap Adjustment Trigger applies to a Swap Determination Date, the Swap Provider will prepare a revised schedule setting out the Swap Notional Amount, adjusted where applicable, for every Swap Calculation Period during the term of the Swap Transaction, and will provide the revised schedule to the Issuer and the Cash Manager, which schedule will be deemed to replace the one annexed to the confirmation of the Swap Transaction with effect from the Swap Payment Date immediately following the relevant Swap Determination Date.

Under the Swap Transaction, for each Swap Calculation Period falling prior to the termination date of the Swap Transaction, the following amounts will be calculated:

- (a) the amount equal to the product of (i) three month EURIBOR (as determined in accordance with the 2006 ISDA Definitions as published by ISDA), subject to a floor of minus 0.67% until the Step-Up Date under the Notes and minus 1.005% thereafter, (ii) the Swap Notional Amount and (iii) the Day Count Fraction (as defined below) (the "**Swap Provider Swap Amount**"); and
- (b) the amount equal to the product of (i) the Swap Fixed Rate; (ii) the Swap Notional Amount and (iii) the Day Count Fraction (the "**Issuer Swap Amount**").

After the above amounts are calculated in relation to a Swap Payment Date, the payment (the "**Net Swap Payment** ") that will apply on that Swap Payment Date will be as follows:

- (a) if the Swap Provider Swap Amount for that Swap Payment Date is negative, then the Issuer will pay an amount equal to the sum of the Issuer Swap Amount and the absolute value of the Swap Provider Swap Amount to the Swap Provider; or
- (b) otherwise:
 - (i) if the Swap Provider Swap Amount for that Swap Payment Date is greater than the Issuer Swap Amount for that Swap Payment Date, then the Swap Provider will pay an amount equal to the excess to the Issuer;
 - (ii) if the Issuer Swap Amount for that Swap Payment Date is greater than the Swap Provider Swap Amount for that Swap Payment Date, then the Issuer will pay an amount equal to the excess to the Swap Provider; and
 - (iii) if the two amounts are equal, neither party will make a payment to the other.

For the purposes of determining the adjustments that apply to, and the amounts payable under, the Swap Transaction, the following definitions apply:

"Aggregate Fixed Rate Loan Principal Amount" means, as at any Swap Determination Date, (a) in respect of the Swap Calculation Period commencing on the Swap Payment Date immediately following such Swap Determination Date, the aggregate principal balance outstanding of the Fixed Rate Loans within the Portfolio (including any loans in respect of which a Product Switch or Further Advance has been effected during the immediately preceding Collection Period) as at the last calendar day of the immediately preceding Collection Period, and (b) in respect of each subsequent Swap Calculation Period, the estimate of the aggregate principal balance outstanding of the Fixed Rate Loans within the Portfolio (including any loans in respect of which a Product Switch or Further Advance has been made) for such future Swap Calculation Period, assuming a constant prepayment rate of zero.

"Day Count Fraction" means in respect of any Swap Calculation Period, the number of calendar days in that Swap Calculation Period divided by 360.

"Swap Additional Fixed Rate" means, in respect of any Swap Determination Date to which a Swap Adjustment Trigger applies, the sum of (a) the Swap Reference Fixed Rate for the adjustment to the Swap Notional Amount of the Swap Transaction, as determined on that Swap Determination Date and (b) the Swap Adjustment Charge.

"Swap Adjustment Charge" means, in respect of a Swap Determination Date, the rate specified as the "Adjustment Charge" in the confirmation for the Swap Transaction.

A **"Swap Adjustment Trigger"** will apply to a Swap Determination Date if:

- (a) the Swap Provider and the Issuer have determined on that Swap Determination Date that at least one Swap Calculation Period has a Swap Adjustment Amount that is greater than or equal to the Swap Shortfall Amount Threshold; and
- (b) the Swap Provider has determined, in a commercially reasonable manner, that there is no disruption of the market for interest rate swaps on that Swap Determination Date that would have the effect of (i) preventing market participants from establishing the price of a new interest rate swap on that date, or (ii) causing the pricing of new interest rate swaps on that date to be unreliable or volatile.

"Swap Blended Fixed Rate" means, in respect of any Swap Determination Date to which a Swap Adjustment Trigger applies, the rate determined by the Swap Provider and the Issuer as the average, weighted by their respective PV01 values, of (a) the Swap Fixed Rate applicable to the Swap Transaction on such date and (b) the Swap Additional Fixed Rate for such adjustment to the Notional Amount under the Swap Transaction, as determined on such date, where the PV01 value

for each of (a) and (b) will be calculated in respect of the Swap Calculation Period commencing on the next Swap Payment Date.

"Swap Calculation Period" means, in respect of the Swap Transaction, each period that commences on (and includes) a Swap Payment Date and ends on (but excludes) the next following Swap Payment Date, except that the first Swap Calculation Period for the Swap Transaction shall be the period commencing on (and including) the Closing Date and ending on (but excluding) the first Swap Payment Date immediately following the Closing Date.

"Swap Determination Date" means, in respect of each Swap Payment Date falling on or prior to the Step-Up Date, the date (which shall be agreed by the Swap Provider and Issuer, being a date no earlier than the Quarterly Servicer Reporting Date immediately preceding the relevant Swap Payment Date and no later than the day falling three (3) Business Days prior to such Swap Payment Date) on which the Swap Provider and Issuer determine the adjustment, if any, to the Swap Notional Amount and the Swap Fixed Rate of the Swap Transaction in accordance with the process set out in the confirmation for the Swap Transaction.

"Swap Fixed Rate" means the rate specified as the "Fixed Rate" in the confirmation for the Swap Transaction, being the rate equal to:

- (a) in respect of each Calculation Period commencing during the period from (and including) the Effective Date to (but excluding) the Swap Initial Adjustment Date, the Swap Initial Fixed Rate; and
- (b) in respect of each Calculation Period commencing on (or after) the Interest Payment Date immediately following a Swap Determination Date to which a Swap Adjustment Trigger applies, the Swap Blended Fixed Rate calculated on such Swap Determination Date.

"Swap Initial Adjustment Date" means the Swap Payment Date immediately following the first Swap Determination Date on which a Swap Adjustment Trigger applies.

"Swap Initial Fixed Rate" means 2.20% per annum.

"Swap Notional Amount" means, in relation to the Swap Transaction, an amount in Euro determined in respect of each Swap Calculation Period, as follows:

- (a) if such Calculation Period commences during the period from (and including) the Effective Date to (but excluding) the Swap Initial Adjustment Date, the amount specified for the relevant period as of the Effective Date (being the **"Initial Swap Notional Amount"** of such period) and set out in the confirmation for the Swap Transaction; and
- (b) if such Calculation Period commences on (or after) the Swap Initial Adjustment Date, the Initial Swap Notional Amount for such period as may be adjusted from time to time in accordance with the process in the confirmation for the Swap Transaction, and as set out in the revised notional amount schedule most recently prepared by the Swap Provider as a deemed replacement for the schedule annexed to the confirmation for the Swap Transaction.

"Swap Payment Date" means the 24th day of each of September, December, March and June in each year or, if such day is not a Business Day, the immediately following Business Day unless it would as a result fall into the next calendar month, in which case it will be brought forward to the immediately preceding Business Day, with the first Swap Payment Date commencing in September 2024 and ending on the Termination Date, subject to adjustment in accordance with the Modified Following Business Day Convention.

"Swap Reference Fixed Rate" means, in respect of an adjustment to the Notional Amount under the Swap Transaction as determined on a Swap Determination Date, the mid-market rate for a reference swap for which the notional amount of such reference swap has a profile that matches the increases in the notional amount of the Swap Transaction as adjusted on that date, and for which the benchmark for the floating leg of the reference swap is three month EURIBOR (as determined

in accordance with the 2006 ISDA Definitions as published by ISDA), and being subject to a floor of minus 0.67% until the Step-Up Date under the Notes and minus 1.005% thereafter.

"**Swap Shortfall Amount**" means, in respect of a Swap Calculation Period, an amount determined on a Swap Determination Date for such period that is equal to the difference between:

- (a) the Aggregate Fixed Rate Loan Principal Amount for such Swap Calculation Period; and
- (b) the Swap Notional Amount for such Swap Calculation Period,

subject to a minimum of zero.

"**Swap Shortfall Amount Threshold**" means €5,000,000.

The Swap Payment Dates will align to the Interest Payment Dates under the Notes and the Effective Date (as defined in the Swap Transaction) will align to the Closing Date under the Notes.

The Swap Transaction may not fully hedge the Issuer's interest rate risk as discussed under the section entitled "*Risk Factors - Interest Rate Risk*" above.

General

If an amount is received by the Issuer in relation to the Swap Agreement (other than (i) Swap Collateral (other than any Swap Collateral Account Surplus), (ii) any Replacement Swap Premium paid to the Issuer to the extent used to pay a termination amount owed to the Swap Provider, and (iii) amounts in respect of Swap Tax Credits), that amount will be included in the Available Revenue Receipts and will be applied on the relevant Swap Payment Date according to the applicable Priority of Payments. If a payment is to be made by the Issuer in relation to (i) return of Swap Collateral, (ii) termination amounts due to the Swap Provider out of Replacement Swap Premium, (iii) amounts due to a replacement swap provider to enter into a replacement swap transaction and (iv) Swap Tax Credits, it will be made directly to the Swap Provider (or, in the case of (iii), directly to the replacement swap provider), in each case outside the Priorities of Payments of the Issuer.

Under the terms of the Swap Agreement, in the event that the relevant ratings of the Swap Provider (or its successor or any relevant guarantor) assigned by a Rating Agency fall below the required swap rating (the "**Required Swap Rating**") (as to which see further the section entitled "*Transaction Overview Triggers Tables*"), the Swap Provider will, in accordance with the Swap Agreement, be required to take certain remedial measures within the timeframe stipulated in the Swap Agreement and at its own cost which may include providing collateral for its obligations under the Swap Agreement, arranging for its obligations under the Swap Agreement to be transferred to an entity with the Required Swap Ratings or procuring another eligible entity with the Required Swap Ratings to become co-obligor or guarantor, as applicable, in respect of its obligations under the Swap Agreement. However, no assurance can be given that, at the time that such actions are required, sufficient collateral will be available to the Swap Provider for posting or that another entity with the Required Swap Rating will be available to become a replacement swap provider, co-obligor or guarantor or that the applicable Swap Provider will be able to take the requisite other action. If the remedial measures following a downgrade below the Required Swap Rating are not taken within the applicable time frames, this will in certain circumstances permit the Issuer to terminate the Swap Transaction early.

The Swap Transaction may be terminated in certain circumstances, including the following, each as more specifically defined in the Swap Agreement (each, an "**Early Termination Event**"):

- (a) if there is a failure by a party to pay amounts due under the Swap Agreement and any applicable grace period has expired;
- (b) if a breach of a provision of the Swap Agreement by the Swap Provider is not remedied within the applicable grace period;

- (c) if an event set out in Section 5(a)(iii) (*Credit Support Default*) of the Master Swap Agreement has occurred with respect to the Swap Provider;
- (d) if a material misrepresentation is made by the Swap Provider under the Swap Agreement;
- (e) if certain insolvency events occur with respect to the Swap Provider;
- (f) if an event set out in Section 5(a)(viii) (*Merger Without Assumption*) of the Master Swap Agreement has occurred with respect to the Swap Provider;
- (g) if a change of law results in the obligations of one of the parties becoming illegal;
- (h) if certain force majeure events occur and result in one of the parties being prevented from performing its obligations, receiving payments or complying with any material provision of the Swap Agreement;
- (i) in certain circumstances, if a deduction or withholding for or on account of taxes is imposed on payments under the Swap Transaction due to a change in law;
- (j) if an event set out in Section 5(b)(iv) (*Tax Event Upon Merger*) of the Master Swap Agreement has occurred with respect to the Swap Provider or the Issuer;
- (k) if the Swap Provider is downgraded and fails to comply with the requirements of the downgrade provisions contained in the Swap Agreement and described above;
- (l) service by the Note Trustee of an Enforcement Notice on the Issuer pursuant to Condition 11 (*Events of Default*) of the Notes;
- (m) if there is a redemption in full of the Notes pursuant to Conditions 8.2 (*Mandatory Redemption prior to the service of an Enforcement Notice*), 8.3 (*Mandatory Redemption of the Notes in Full*), 8.4 (*Ten per cent. clean-up call*) 8.5 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*) or 8.6 (*Mandatory Redemption if no sale of Portfolio before Portfolio Sale Longstop Date*);
- (n) any of the Transaction Documents are modified without the Swap Provider's prior written consent where such consent is required in accordance with the terms of the Notes as at the Closing Date; and
- (o) if the Seller repurchases a Fixed Rate Loan included in the Portfolio from the Issuer, in which case the Swap Transaction may be partially terminated in respect of a notional amount equal to the aggregate outstanding principal amount of the Fixed Rate Loan repurchased (as at the last date of the Collection Period prior to the date of such repurchase).

Under the terms of the Swap Agreement, upon an early termination of the Swap Transaction, depending on the type of Early Termination Event and the circumstances prevailing at the time of termination, one of the Parties may be liable to make a termination payment to the other. This termination payment will be calculated and made in Euros. The amount of any termination payment may reflect, among other things, the cost of entering into a replacement transaction at the time, third party market data such as rates, prices, yields and yield curves, or similar information derived from internal sources of the party making the determination and will include any unpaid amounts that became due and payable in respect of the terminated Swap Transaction on or prior to the date of termination.

Depending on the terms of the terminated Swap Transaction and the circumstances prevailing at the time of termination, any such termination payment could be substantial and may affect the funds available for paying amounts due to the Noteholders.

The Issuer will use its reasonable endeavours, upon termination of the Swap Transaction, to find a replacement swap provider although no guarantees of such replacement can be given.

The Swap Provider may, subject to certain conditions specified in the Swap Agreement including (without limitation) the satisfaction of certain requirements of the Rating Agencies, transfer its obligations under the Swap Agreement in accordance with Section 7 (as amended) of the Swap Master Agreement to another entity with the ratings as specified in the Swap Agreement.

The Issuer is not obliged under the Swap Agreement to gross up payments made by it if a withholding or deduction for or on account of taxes is imposed on payments made to the Swap Provider under the Swap Agreement. However, if a payment to the Swap Provider in respect of the Swap Transaction is, due to a change in law, subject to such withholding under the Swap Agreement, the Swap Provider may terminate the Swap Transaction.

If a withholding or deduction for or on account of tax is imposed on payments made by the Swap Provider to the Issuer under the Swap Agreement (save for any such withholding related to FATCA), the Swap Provider will generally be obliged to gross up such payments. However, if the Swap Provider is required, due to a change in the law, to gross up such a payment to the Issuer in respect of a Swap Transaction, the Swap Provider may terminate the Swap Transaction.

The Swap Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Swap Collateral

In the event that the Swap Provider is required to transfer collateral to the Issuer in respect of its obligations under the Swap Agreement (the "**Swap Collateral**") in accordance with the terms of the Credit Support Annex of the Swap Agreement (the "**Swap Credit Support Annex**"), that Swap Collateral (and any interest and/or distributions earned thereon) will be credited to a separate swap collateral account (the "**Swap Collateral Account**") and credited to the Swap Collateral Ledger. In addition, (a) any Swap Tax Credits and (b) upon any early termination of the Swap Transaction, (x) any Replacement Swap Premium received by the Issuer from a replacement swap provider and (y) any termination payment received by the Issuer from the outgoing Swap Provider will be credited to the Swap Collateral Account and recorded on the Swap Collateral Ledger, each identified separately.

Amounts standing to the credit of the Swap Collateral Account (including interest and distributions thereon) and recorded on the Swap Collateral Ledger will not be available for the Issuer or the Security Trustee to make payments to the Secured Creditors generally (including the Noteholders), but will be applied by the Cash Manager only in accordance with the following provisions (the "**Swap Collateral Account Payments**"):

- (a) to pay to the relevant Swap Provider immediately following receipt by the Issuer an amount equal to any Swap Tax Credits received by the Issuer and deposited by the Issuer into the Swap Collateral Account;
- (b) on any day prior to the designation of an Early Termination Date (as defined in the Swap Agreement, the "**Early Termination Date**") in respect of the Swap Transaction, solely in or towards payment or discharge of any Return Amounts, Interest Amounts and Distributions (each as defined in the Swap Credit Support Annex) or other amounts (other than the Issuer Swap Amount or Net Swap Payment) due to the Swap Provider;
- (c) following the designation of an Early Termination Date in respect of the Swap Transaction in full or in part, on the date on which the relevant payment is due, where a Replacement Swap Premium was paid to the Issuer by a replacement swap provider that the Issuer was required to pay into the Swap Collateral Account, any amounts remaining due in or towards payment of any termination payment or other amounts due to the outgoing Swap Provider under the applicable Swap Agreement, following payments made in accordance with the Priority of Payments;
- (d) following the designation of an Early Termination Date, in respect of the Swap Transaction in full, on the date on which the relevant payment is due, any Swap Collateral required to be returned to the Swap Provider pursuant to the Swap Agreement; and
- (e) following the designation of an Early Termination Date, in respect of the Swap Transaction in full and payments of amounts due pursuant to sub-paragraph (d) above, if amounts remain standing to the credit of a Swap Collateral Account, such amounts may be applied only in accordance with the following provisions:
 - (i) *first*, in or towards payment of any amount payable by the Issuer to a replacement swap provider in order to enter into a Replacement Swap Transaction(s) with the Issuer with respect to the terminated Swap Transaction; and
 - (ii) *second*, any surplus remaining after payment of such amount to be transferred to the Deposit Account to be applied as Available Revenue Receipts.

"**Swap Collateral Account Surplus**" means, following the designation of an Early Termination Date in respect of the Swap Transaction in full, amounts standing to the credit of the Swap Collateral Account that are not required to be returned to the Swap Provider pursuant to the Swap Agreement and the above, such amounts being available to be applied as Available Revenue Receipts.

The Swap Collateral Account will be opened in the name of the Issuer and will be held at a financial institution which satisfies the Account Bank Rating. A Swap Collateral Account and Swap Collateral Ledger will be established and maintained in respect of the Swap Agreement. As security for the payment of all monies payable in respect of the Notes and the other Secured Obligations, the Issuer will grant a first fixed charge over the Issuer's interest in the Swap Collateral Account and the debts represented thereby

(which may, however, take effect as a floating charge and therefore rank behind the claims of any preferential creditors of the Issuer).

Amounts received by the Issuer in respect of Swap Collateral, Swap Tax Credits and Replacement Swap Premium (to the extent it is applied directly to pay a termination payment due and payable by the Issuer to the Swap Provider) shall be paid directly to the Swap Provider without regard to the Priority of Payments and in accordance with the terms of the Swap Agreement, the Deeds of Charge and the Cash Management Agreement.

DESCRIPTION OF THE GLOBAL NOTES

General

Each Class of Notes as at the Closing Date will be represented by a Global Note. All capitalised terms not defined in this section shall be as defined in the Conditions of the Notes.

The Global Notes will be registered in the name of the nominee for the common safekeeper for both Euroclear and Clearstream, Luxembourg (the "**Common Safekeeper**"). The Registrar will maintain a register in which it will register the nominee for the Common Safekeeper as the owner of the Global Note.

Upon confirmation by the Common Safekeeper that it has custody of the Global Notes, Euroclear or Clearstream, Luxembourg, as the case may be, will record in book-entry form interests representing beneficial interests in the Global Note attributable thereto ("**Book-Entry Interests**").

Book-Entry Interests in respect of each Global Note (other than the Global Note relating to the Class Y Note, the Class R1 Note and the Class R2 Note) will be recorded in denominations of €100,000 and higher integral multiples of €1,000, the Book-Entry Interests in respect of each Global Note relating to the Class Y Note will be recorded in denominations of €5,000 and Book-Entry Interests in respect of each Global Note relating to each of the Class R1 Note and the Class R2 Note will not have a minimum denomination (an "**Authorised Denomination**"). Ownership of Book-Entry Interests is limited to persons that have accounts with Euroclear or Clearstream, Luxembourg ("**Participants**") or persons that hold interests in the Book-Entry Interests through Participants or through other Indirect Participants ("**Indirect Participants**"), including, as applicable, banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with Euroclear or Clearstream, Luxembourg, either directly or indirectly. Book-Entry Interests will not be held in definitive form. Instead, Euroclear and Clearstream, Luxembourg, as applicable, will credit the Participants' accounts with the respective Book-Entry Interests beneficially owned by such Participants on each of their respective book-entry registration and transfer systems. The accounts initially credited in relation to the Collateralised Notes and the Class X Notes will be designated by the Joint Lead Managers. Ownership of Book-Entry Interests will be shown on, and transfers of Book-Entry Interests or the interests therein will be effected only through, records maintained by Euroclear or Clearstream, Luxembourg (with respect to the interests of their Participants) and on the records of Participants or Indirect Participants (with respect to the interests of Indirect Participants). The laws of some jurisdictions or other applicable rules may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may therefore impair the ability to own, transfer or pledge Book-Entry Interests.

So long as a nominee for the Common Safekeeper is the registered holder of the Global Note underlying the Book-Entry Interests, the nominee for the Common Safekeeper will be considered the sole Noteholder of the Global Note for all purposes under the Trust Deed. Except as set out under "*Description of the Global Notes - Issuance of Registered Definitive Notes*", below, Participants or Indirect Participants will not be entitled to have Notes registered in their names, will not receive or be entitled to receive physical delivery of the Notes in definitive registered form and will not be considered the holders thereof under the Trust Deed. Accordingly, each person holding a Book-Entry Interest must rely on the rules and procedures of Euroclear or Clearstream, Luxembourg, as the case may be, and Indirect Participants must rely on the procedures of the Participants or Indirect Participants through which such person owns its interest in the relevant Book-Entry Interests, to exercise any rights and obligations of a holder of the Notes under the Trust Deed. See "*Description of the Global Notes - Action in respect of the Global Notes and the Book-Entry Interests*", below.

Unlike legal owners or holders of the Notes, holders of the Book-Entry Interests will not have the right under the Trust Deed to act upon solicitations by the Issuer or consents or requests by the Issuer for waivers or other actions from Noteholders. Instead, a holder of Book-Entry Interests will be permitted to act only to the extent it has received appropriate proxies to do so from Euroclear or Clearstream, Luxembourg, as the case may be, and, if applicable, their Participants. There can be no assurance that procedures implemented for the granting of such proxies will be sufficient to enable holders of Book-Entry Interests to vote on any requested actions on a timely basis. Similarly, upon the occurrence of an Event of Default under the Global Note, holders of Book-Entry Interests will be restricted to acting through Euroclear or Clearstream, Luxembourg unless and until Registered Definitive Notes are issued in accordance with the Conditions.

There can be no assurance that the procedures to be implemented by Euroclear and Clearstream, Luxembourg under such circumstances will be adequate to ensure the timely exercise of remedies under the Trust Deed.

In the case of a Global Note, unless and until Book-Entry Interests are exchanged for Registered Definitive Notes, the Global Note held by the Common Safekeeper may not be transferred except as a whole by the Common Safekeeper to a successor of the Common Safekeeper.

Purchasers of Book-Entry Interests in a Global Note will hold Book-Entry Interests in the Global Note relating thereto. Investors may hold their Book-Entry Interests in respect of a Global Note directly through Euroclear or Clearstream, Luxembourg (in accordance with the provisions set out under "*Description of the Global Notes - Transfers and Transfer Restrictions*", below), if they are account holders in such systems, or indirectly through organisations which are account holders in such systems. Euroclear and Clearstream, Luxembourg will hold Book-Entry Interests in the Global Note on behalf of their account holders through securities accounts in the respective account holders' names on Euroclear's and Clearstream, Luxembourg's respective book-entry registration and transfer systems.

Although Euroclear and Clearstream, Luxembourg have agreed to certain procedures to facilitate transfers of Book-Entry Interests among account holders of Euroclear and Clearstream, Luxembourg, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Arranger, the Joint Lead Managers, the Note Trustee, the Security Trustee or any of their respective agents will have any responsibility for the performance by Euroclear or Clearstream, Luxembourg or their respective Participants or account holders of their respective obligations under the rules and procedures governing their operations.

Payments on the Global Notes

Payment of principal and interest on, and any other amount due in respect of, the Global Notes will be made in Euros by or to the order of Elavon Financial Services DAC (the "**Principal Paying Agent**"), on behalf of the Issuer to the order of the Common Safekeeper or its nominee as the registered holder thereof with respect to the Global Notes. Each holder of Book-Entry Interests must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of any amounts paid by or on behalf of the Issuer to the order of the Common Safekeeper or their nominees in respect of those Book-Entry Interests. All such payments will be distributed without deduction or withholding for or on account of any taxes, duties, assessments or other governmental charges of whatever nature except as may be required by law. If any such deduction or withholding is required to be made, then neither the Issuer, the Paying Agents nor any other person will be obliged to pay additional amounts in respect thereof.

In accordance with the rules and procedures for the time being of Euroclear or, as the case may be, Clearstream, Luxembourg, after receipt of any payment from the Principal Paying Agent to the order of the Common Safekeeper, the respective systems will promptly credit their Participants' accounts with payments in amounts proportionate to their respective ownership of Book-Entry Interests as shown in the records of Euroclear or Clearstream, Luxembourg. On each record date (the "**Record Date**") Euroclear and Clearstream, Luxembourg will determine the identity of the Noteholders for the purposes of making payments to the Noteholders. The Record Date in respect of the Notes (i) where the Notes are in global registered form, shall be at the close of the Business Day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) prior to the relevant Interest Payment Date and (ii) where the Notes are in definitive registered form, shall be the date falling 15 days prior to the relevant Interest Payment Date. The Issuer expects that payments by Participants to owners of interests in Book-Entry Interests held through such Participants or Indirect Participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participants or Indirect Participants. None of the Issuer, any agent of the Issuer, the Arranger, the Joint Lead Managers, the Note Trustee or the Security Trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of a Participant's ownership of Book-Entry Interests or for maintaining, supervising or reviewing any records relating to a Participant's ownership of Book-Entry Interests.

Both Euroclear and Clearstream, Luxembourg act under such rules and operating procedures only on behalf of their respective account holders, and have no record of or relationship with persons holding through their respective account holders.

The Issuer understands that under existing industry practices, if any of the Issuer, the Note Trustee or the Security Trustee requests any action of owners of Book-Entry Interests or if an owner of a Book-Entry Interest desires to give instructions or take any action that a holder is entitled to give or take under the Trust Deed, the Irish Deed of Charge or the English Deed of Charge, Euroclear or Clearstream, Luxembourg as the case may be, would authorise the Participants owning the relevant Book-Entry Interests to give instructions or take such action, and such Participants would authorise Indirect Participants to give or take such action or would otherwise act upon the instructions of such Indirect Participants.

However, the deposit of the Notes with one of the ICSDs as common safekeeper upon issuance or otherwise does not necessarily mean that they will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem at issuance or at any time during their life. Such recognition will depend upon the European Central Bank being satisfied that Eurosystem eligibility criteria have been met. The Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes are not expected to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem upon issue or at any or all times during their life.

"**Rate of Interest**" and together the "**Rates of Interest**") will be, in respect of the relevant Notes and any Interest Period, determined on the basis of the following provisions:

- (i) the Agent Bank will determine the Relevant Screen Rate as at or about 11.00 a.m. (Brussels time) on the Interest Determination Date (as defined below) in question. If the Relevant Screen Rate is unavailable, the Agent Bank will request the principal Brussels office of each of the Reference Banks to provide the Agent Bank with its offered quotation to leading banks for three month Euro deposits (or, in respect of the first Interest Period for the Notes, the linear interpolation of EURIBOR for three and six month deposits in Euros) in a Representative Amount in the Eurozone interbank market as at or about 11.00 a.m. (Brussels time) on the relevant Interest Determination Date. The Rates of Interest for the relevant Interest Period shall be the aggregate of (I) (A) from and including the Closing Date to (but excluding) the Step-Up Date, the Relevant Margin or (B) from (and including) the Step-Up Date, the Relevant Step-Up Margin, and (II) the Relevant Screen Rate (or, if the Relevant Screen Rate is unavailable, the arithmetic mean of such offered quotations for three months or in respect of the first Interest Period only, the linear interpolation of three and six monthly Euro deposits (rounded upwards, if necessary, to five decimal places));
- (ii) if, on any Interest Determination Date, the Relevant Screen Rate is unavailable and only two or three of the Reference Banks provide offered quotations, the Rates of Interest for the relevant Interest Period shall be determined in accordance with the provisions of sub-paragraph (i) above on the basis of the offered quotations of those Reference Banks providing such quotations. If, on any such Interest Determination Date, only one or none of the Reference Banks provides the Agent Bank with such an offered quotation, the Agent Bank shall forthwith consult with the Issuer for the purposes of agreeing two banks (or, where one only of the Reference Banks provided such a quotation, one additional bank) to provide such a quotation or quotations to the Agent Bank and the Rates of Interest for the Interest Period in question shall be determined, as aforesaid, on the basis of the offered quotations of such banks as so agreed (or, as the case may be, the offered quotations of such bank as so agreed and the relevant Reference Bank). If no such bank or banks is or are so agreed or such bank or banks as so agreed does or do not provide such a quotation or quotations, then the Rates of Interest for the relevant Interest Period shall be the Rates of Interest in effect for the last preceding Interest Period to which sub-paragraph (i) shall have applied but taking account any change in the Relevant Margin and/or any change in the applicability of the Relevant Step-Up Margin,

PROVIDED THAT, if there has been a public announcement of the permanent or indefinite discontinuation of the relevant screen rate or the relevant base rate that applies to the Notes at that time (the date of such public announcement being the "**Relevant Time**"), the Issuer (or the Servicing Advisor on its behalf) shall, without undue delay, use commercially reasonable endeavours to propose an Alternative Base Rate in accordance with Condition 13.7 (*Base Rate Modification and Swap Rate Modification*) (the "**Relevant Condition**"). For the avoidance of doubt, if an Alternative Base Rate proposed by or on behalf of the Issuer has failed to be implemented in accordance with the Relevant Condition as a result of Noteholder objections to the modification, the Issuer shall not be obliged to propose an Alternative Base Rate under this Condition 6.3; and in the event that the Rate of Interest is less than zero per cent., the Rate of Interest shall be deemed to be zero per cent.

13.8 **Authorisation or Waiver of Breach**

The Note Trustee may, without the consent or sanction of the Noteholders or the other Secured Creditors and without prejudice to its rights in respect of any further or other breach, from time to time and at any time, authorise or waive (or direct the Security Trustee to authorise or waive) any proposed or actual breach of any of the covenants or provisions contained in the Conditions or any of the Transaction Documents by any party thereto, provided that the Note Trustee shall not exercise any powers conferred on it by this Condition 13.8 in contravention of any express direction given by Extraordinary Resolution of the holders of the Most Senior Class or by a direction under Condition 11 (*Events of Default*) but so that no such direction or request shall affect any waiver, authorisation or determination previously given or made. Any such waiver of any proposed or actual breach of a Transaction Document shall not be binding on the other parties to such Transaction Document unless they have agreed in writing to such waiver.

13.9 **Notification of modifications, waivers, authorisations or determinations**

- (b) a resolution in writing signed by or on behalf of the Noteholders of not less than three-quarters in aggregate Principal Amount Outstanding of the relevant Class of Notes, which resolution may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the Noteholders of the relevant Class; or
- (c) consent given by way of electronic consents through the relevant Clearing System(s) (in a form satisfactory to the Note Trustee) by or on behalf of the Noteholders of not less than three-quarters in aggregate Principal Amount Outstanding of the relevant Class of Notes.

"Eligible Person" means any one of the following persons who shall be entitled to attend and vote at a meeting:

- (a) a bearer of any Voting Certificate; and
- (b) a proxy specified in any Block Voting Instruction.

"Voting Certificate" means an English language certificate issued by the Paying Agents in which it is stated:

- (a) that on the date thereof the Notes (not being the Notes in respect of which a Block Voting Instruction has been issued and is outstanding in respect of the meeting specified in such Voting Certificate) are blocked in an account with a Clearing System and that no such Notes will cease to be so blocked until the first to occur of:
 - (i) the conclusion of the meeting specified in such Voting Certificate; and
 - (ii) the surrender of the Voting Certificate to the Paying Agents who issued the same; and
- (b) that the bearer thereof is entitled to attend and vote at such meeting in respect of the Notes represented by such Voting Certificate.

"Block Voting Instruction" means an English language document issued by the Paying Agents in which:

- (a) it is certified that on the date thereof Notes in respect of which a Voting Certificate has been issued and is outstanding in respect of the meeting specified in such Block Voting Instruction are blocked in an account with a clearing system and that no such Notes will cease to be so blocked until the first to occur of:

- (i) the conclusion of the meeting specified in such Block Voting Instruction; and
 - (ii) the Notes ceasing with the agreement of the Paying Agents to be so blocked and the giving of notice by the Paying Agents to the Issuer of the necessary amendment to the Block Voting Instruction;
- (b) it is certified that each holder of such Notes has instructed such Paying Agents that the vote(s) attributable to the Notes so blocked should be cast in a particular way in relation to the resolution(s) to be put to such meeting and that all such instructions are, during the period commencing 48 hours prior to the time for which such meeting is convened and ending at the conclusion or adjournment thereof, neither revocable nor capable of amendment;
- (c) the aggregate principal amount or aggregate total amount of the Notes so blocked is listed distinguishing with regard to each such resolution between those in respect of which instructions have been given that the votes attributable thereto should be cast in favour of the resolution and those in respect of which instructions have been so given that the votes attributable thereto should be cast against the resolution; and
- (d) one or more persons named in such Block Voting Instruction (each hereinafter called a "proxy") is or are authorised and instructed by such Paying Agents to cast the votes attributable to the Notes so listed in accordance with the instructions referred to in (c) above as set out in such Block Voting Instruction, provided that no such person shall be named as a proxy:
- (i) whose appointment has been revoked and in relation to whom the relevant Paying Agents have been notified in writing of such revocation by the time which is 48 hours before the time fixed for such meeting; and
 - (ii) who was originally appointed to vote at a meeting which has been adjourned for want of a quorum and who has not been re-appointed to vote at the meeting when it is resumed.

Details of any Extraordinary Resolution and any Ordinary Resolution passed in accordance with the provisions of the Trust Deed shall be notified to each of the Rating Agencies by the Principal Paying Agent on behalf of the Issuer.

13.10 Issuer Substitution Condition

The Note Trustee (acting in accordance with the Trust Deed) may agree (and direct the Security Trustee to agree), subject to such amendment of these Conditions and of any of the Transaction Documents, and to such other conditions as the Note Trustee may require and subject to the terms of the Trust Deed, but without the consent of the Noteholders, to the substitution of another body corporate in place of the Issuer as principal debtor under the Trust Deed, the Notes and in respect of the other Secured Obligations, provided that the conditions set out in the Trust Deed are satisfied including, inter alia, that the Notes are unconditionally and irrevocably guaranteed by the Issuer (unless all of the assets of the Issuer are transferred to such body corporate) and that such body corporate is a single purpose vehicle and undertakes itself to be bound by provisions corresponding to those set out in Condition 5 (*Covenants*) (the "**Issuer Substitution Condition**"). In the case of a substitution pursuant to this Condition 13 (*Meetings of Noteholders, modification, waiver and substitution*), the Note Trustee (acting in accordance with the Trust Deed) may in their absolute discretion agree, without the consent of the Noteholders, to a change in law governing the Notes and/or any of the Transaction Documents unless such change would, in the opinion of the Note Trustee, be materially prejudicial to the interests of the Noteholders.

14. Indemnification and Exoneration of the Note Trustee and the Security Trustee

The Trust Deed, the Irish Deed of Charge and the English Deed of Charge contain provisions governing the responsibility (and relief from responsibility) of the Note Trustee and the Security

Trustee respectively and providing for their indemnification in certain circumstances, including provisions relieving them from taking action or, in the case of the Security Trustee, enforcing the Security, unless indemnified and/or prefunded and/or secured to their satisfaction.

The Trust Deed, the Irish Deed of Charge and the English Deed of Charge also contain provisions pursuant to which the Note Trustee and the Security Trustee are entitled, *inter alia*, (a) to enter into business transactions with the Issuer and/or any other party to any of the Transaction Documents and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any other party to any of the Transaction Documents, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, individual Noteholders and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

15. Replacement of notes

If any Note is mutilated, defaced, lost, stolen or destroyed, it may be replaced at the specified office of the Registrar subject to all applicable laws and stock exchange requirements. Replacement of any mutilated, defaced, lost, stolen or destroyed Note will only be made on payment of such costs as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. A mutilated or defaced Note must be surrendered before a new one will be issued.

16. Notice to Noteholders

16.1 Publication of Notice

- (a) In respect of Notes in definitive form, notices to Noteholders will be sent to them by first class post (or its equivalent) or (if posted to an address outside Ireland) by airmail at the respective addresses on the Register (or the first named of joint holders). Any such notice will be deemed to have been given on the fourth day after the date of posting.
- (b) While the Notes are represented by Global Note, notices to Noteholders will be delivered to Euroclear and/or Clearstream, Luxembourg for communication by them to Noteholders. Any notice delivered to Euroclear and/or Clearstream, Luxembourg, as aforesaid shall be deemed to have been given on the day of such delivery.
- (c) Irrespective of whether the Notes are in definitive form or are represented by Global Notes, so long as the relevant Notes are admitted to trading on, and listed on the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, any notices to the Noteholders shall also be published in a manner which complies with the relevant guidelines of the Luxembourg Stock Exchange (including, where applicable, by way of stock exchange announcement), and any such notice will be deemed to have been given on the date sent to the Luxembourg Stock Exchange. Notices will be published on the website of the Luxembourg Stock Exchange, www.luxse.com.
- (d) A copy of each notice provided to the Noteholder shall also be sent to the Swap Provider.

16.2 Note Trustee's Discretion to Select Alternative Method

The Note Trustee shall be at liberty to sanction another method of delivering notices to the Noteholders or category of them if, in its sole opinion, such other method is reasonable having regard to market practice then prevailing and to the requirements of the stock exchanges, competent listing authorities and/or quotation systems on or by which the Notes are then listed, quoted and/or traded and provided that notice of such other method is given to the Noteholders in such manner as the Note Trustee shall require.

17. Replacement notes

If the Issuer Substitution Condition is satisfied in accordance with these Terms and Conditions and the Trust Deed, the Issuer may, without the consent of the Noteholders, issue one or more classes of replacement notes ("**Replacement Notes**") to replace one or more Classes of Notes, each class of which shall have terms and conditions which may differ from the terms and conditions of the Class of Notes which it replaces. The issuance of the Replacement Notes shall not be materially prejudicial to the interests of the Noteholders.

18. **Subordination by deferral**

18.1 **Interest**

If, on any Interest Payment Date, the Issuer has, after having paid or provided for items of higher priority in the Pre-Enforcement Revenue Priority of Payments, insufficient funds to make payment in full of all amounts of interest (which shall, for the purposes of this Condition 18 (*Subordination by deferral*), include any interest previously deferred under this Condition 18.1 and accrued interest thereon) payable in respect of the Notes other than the Most Senior Class of Notes, then the Issuer shall be entitled to defer to the next Interest Payment Date the payment of interest (such interest, the "**Deferred Interest**") in respect of the Notes other than the Most Senior Class of Notes to the extent only of any insufficiency of funds.

18.2 **General**

Any amounts of Deferred Interest in respect of a Class of Notes shall accrue interest ("**Additional Interest**") at the same rate and on the same basis as scheduled interest in respect of the corresponding Class of Notes, but shall not be capitalised. Such Deferred Interest and Additional Interest shall, in any event, become payable on the next Interest Payment Date (unless and to the extent that Condition 18.1 (*Interest*) applies) or on such earlier date as the relevant Class of Notes becomes due and repayable in full in accordance with these Conditions.

18.3 **Notification**

As soon as practicable after becoming aware that any part of a payment of interest on a Class of Notes will be deferred or that a payment previously deferred will be made in accordance with this Condition 18 (*Subordination by deferral*), the Issuer will give notice thereof to the relevant Class of Noteholders in accordance with Condition 16 (*Notice to Noteholders*). Any deferral of interest in accordance with this Condition 18 (*Subordination by deferral*) will not constitute an Event of Default. The provisions of this Condition 18 (*Subordination by deferral*) shall cease to apply on the Final Maturity Date, or any earlier date on which the Notes are redeemed in full or, are required to be redeemed in full, at which time all deferred interest and accrued interest thereon shall become due and payable.

19. **Non-responsive rating agency**

- (a) In respect of the exercise of any power, duty, trust, authority or discretion as contemplated hereunder or in relation to the Notes and any of the Transaction Documents, the Note Trustee and the Security Trustee shall be entitled but not obliged to take into account any written confirmation or affirmation (in any form acceptable to the Note Trustee and the Security Trustee) from the relevant Rating Agencies that the then current ratings of the Rated Notes will not be reduced, qualified, adversely affected or withdrawn thereby (a "**Rating Agency Confirmation**").
- (b) If a Rating Agency Confirmation or other response by a Rating Agency is a condition to any action or step under any Transaction Document and a written request for such Rating Agency Confirmation or response is delivered to each Rating Agency by or on behalf of the Issuer (copied to the Note Trustee and the Security Trustee, as applicable) and:
 - (i) (A) one Rating Agency (such Rating Agency, a "**Non-Responsive Rating Agency**") indicates that it does not consider such Rating Agency Confirmation or response necessary in the circumstances or that it does not, as a matter of practice

or policy, provide such Rating Agency Confirmation or response or (B) within 30 days of delivery of such request, no Rating Agency Confirmation or response is received and/or such request elicits no statement by such Rating Agency that such Rating Agency Confirmation or response could not be given; and

- (ii) one Rating Agency gives such Rating Agency Confirmation or response based on the same facts,

then such condition to receive a Rating Agency Confirmation or response from each Rating Agency shall be modified so that there shall be no requirement for the Rating Agency Confirmation or response from the Non-Responsive Rating Agency if the Issuer provides to the Note Trustee and the Security Trustee a certificate signed by two directors certifying and confirming that each of the events in paragraphs (i)(A) or (B) and (ii) above has occurred. If no such Rating Agency Confirmation is forthcoming and two directors of the Issuer have certified the same in writing to the Security Trustee (an "**Issuer Certificate**"), the Security Trustee shall be entitled (but not obliged) to assume from a written certificate of the Cash Manager to the Note Trustee and Security Trustee (a "**Cash Manager Certificate**") that such proposed action:

- (i) (while any of the Notes remain outstanding) has been notified to the Rating Agencies;
- (ii) would not adversely impact on the Issuer's ability to make payment when due in respect of the Notes;
- (iii) would not affect the legality, validity and enforceability of any of the Transaction Documents or any Security; and
- (iv) (while any of the Rated Notes remain outstanding) the then current rating of the Rated Notes would not be reduced, qualified, adversely affected or withdrawn,

upon which confirmation from the Rating Agencies, Issuer Certificate and/or Cash Manager Certificate, the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person for so doing. In being entitled to take into account any such confirmation from the Rating Agencies, it is agreed and acknowledged by the Note Trustee and the Security Trustee that this does not impose or extend any actual or contingent liability for each of the Rating Agencies to the Security Trustee, the Note Trustee, the Noteholders or any other person or create any legal relations between each of the Rating Agencies and the Security Trustee, the Note Trustee, the Noteholders or any other person whether by way of contract or otherwise.

20. **Jurisdiction and governing law**

- (a) The Courts of England (the "**Courts**") are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Notes and the English Transaction Documents (including a dispute relating to non-contractual obligations or a dispute regarding the existence, validity or termination of any of the Notes or the English Transaction Documents or the consequences of their nullity) and accordingly any legal action or proceedings arising out of or in connection with the Notes and/or the English Transaction Documents may be brought in such Courts.
- (b) The courts of Ireland (the "**Irish Courts**") have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Irish Transaction Documents (including a dispute relating to non-contractual obligations of the Irish Transaction Documents) and accordingly any legal action or proceedings arising out of or in connection with the Irish Transaction Documents may be brought in the Irish Courts.
- (c) The Transaction Documents (other than the Mortgage Sale Agreement, the Servicing Agreement, the Corporate Services Agreement, the Irish Deed of Charge, the Originator Declaration of Trust, the Irish Issuer Power of Attorney, the Originator Power of Attorney

and the Servicer Power of Attorney (together, the "**Irish Transaction Documents**"), the Notes and these Conditions (and any non-contractual obligations arising out of or in connection with them) are governed by, and shall be construed in accordance with, English law. The Irish Transaction Documents and all non-contractual obligations arising from or connected with them are governed by Irish law.

21. **Rights of third parties**

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes or these Conditions, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

TAXATION

Ireland Taxation

The following is a summary of the principal Irish withholding tax consequences for individuals and companies of ownership of the Offered Notes and some other miscellaneous tax matters based on the laws and practices of the Revenue Commissioners currently in force in Ireland and may be subject to change. It deals with Noteholders who beneficially own their Notes as an investment and who are not associated with the Issuer (otherwise than by virtue of holding the Notes). Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, such as dealers in securities, trusts etc. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Withholding Tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which should include interest payable on the Offered Notes.

The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on an Offered Note provided the following conditions are met:

1. the Offered Notes are quoted Eurobonds, i.e. securities which are issued by a company (such as the Issuer), which are listed on a recognised stock exchange (such as the Luxembourg Stock Exchange) and which carry a right to interest;
2. the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:
 - (i) the Offered Notes are held in a clearing system recognised by the Revenue Commissioners (Euroclear, Clearstream Banking SA and Clearstream Banking AG are, amongst others, so recognised), or
 - (ii) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest: is not resident in Ireland and has made a declaration to the person by or through whom the payment is made in the prescribed form; and
3. it is reasonable to consider that the Issuer is not, and should not be, aware that interest is paid to an 'associated entity'.

So long as the Offered Notes are quoted on a recognised stock exchange, are held in a recognised clearing system and the Issuer is not aware that interest is paid to an 'associated entity', interest on the Offered Notes can be paid by the Issuer and any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax. If the Offered Notes continue to be quoted but cease to be held in a recognised clearing system, interest on the Offered Notes may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland (which would not include the Principal Paying Agent).

Interest which is to any extent profit dependent or exceeds a reasonable commercial rate of return and which is paid out on the Offered Notes could, under certain anti-avoidance provisions, be re-characterised as a non-deductible distribution and subject to dividend withholding tax in certain circumstances. However, this should not apply on the basis of a confirmation by the Issuer that, at the time the Offered Notes were issued, the Issuer was not in possession or aware of any information, including information about any arrangement or understanding in relation to ownership of the Offered Notes after that time, which could reasonably be taken to indicate that interest or other distributions paid on the Offered Notes would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that relevant

territory by persons from sources outside that relevant territory, where the term "relevant territory" means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty ("**Relevant Territory**").

Encashment Tax

Irish tax will be required to be withheld at a rate of 25 per cent. from interest on any Note, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder. There is an exemption from encashment tax where (i) the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank or (ii) the beneficial owner of the interest is a company which is within the charge to Irish corporation tax in respect of the interest.

Stamp Duty

No stamp duty or similar tax is imposed in Ireland on the issue, transfer or redemption of the Offered Notes provided the Issuer is a qualifying company for the purposes of Section 110 of the TCA and the proceeds of the Offered Notes are used in the course of the Issuer's business.

The Class Y Notes, the Class R1 Notes and the Class R2 Notes are not being sold by this Prospectus and are intended to be sold only in privately placed, offshore transaction to persons other than U.S. persons in accordance with Regulation S. The Issuer will sell the Class R1 Notes and the Class R2 Notes (other than those Class R1 Notes and Class R2 Notes which form part of the Retained Exposures) directly to the initial holders of the Class R1 Notes and the Class R2 Notes and will not offer the Class R1 Notes and the Class R2 Notes pursuant to this Prospectus.

The Issuer and the Originator have agreed to indemnify the Arranger and the Joint Lead Managers against certain Liabilities in connection with the issue of the Notes.

Pursuant to the Subscription Agreement, Finance Ireland will undertake to the Joint Lead Managers and the Arranger that (i) it will as originator (as defined in Article 2(3) of the EU Securitisation Regulation and in Article 2(3) of the UK Securitisation Regulation), retain on an ongoing basis, the Retained Exposures in accordance with (x) Article 6 of the EU Securitisation Regulation and (y) Article 6 of the UK Securitisation Regulation, (ii) as at the Closing Date, such interest will, in each case, comprise retention of no less than 5 per cent. of the nominal value of each of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes, the Class X Notes, the Class R1 Notes and the Class R2 Notes; (iii) it will not change the manner or form in which it retains such net economic interest, except to the extent permitted or required under the EU Securitisation Regulation or the UK Securitisation Regulation (as the case may be), in which case, it shall report (or cause to be reported) such change through the Quarterly Investor Report; (iv) it will immediately notify the Issuer, the Security Trustee and the Note Trustee if for any reason it ceases to hold the Retained Exposures in accordance with the requirements of the Mortgage Sale Agreement or fails to comply with the covenants set out in the Mortgage Sale Agreement in respect of the Retained Exposures; (v) to comply with the disclosures and obligations described in (x) Article 7(1)(iii) of the EU Securitisation Regulation including by confirming the Retention Holder's risk retention as contemplated by Article 6(1) of the EU Securitisation Regulation and (y) Article 7(1)(e)(iii) of the UK Securitisation Regulation including by confirming the Retention Holder's risk retention as contemplated by Article 6(1) of the UK Securitisation Regulation, in each case through the timely provision of the information in the prospectus for the securitisation, disclosure in the Quarterly

Investor Report and procuring provision to the Joint Lead Managers, the Arranger and the Issuer access to any reasonable and relevant additional data reasonably available to the Retention Holder and information referred to in Article 7(1)(e)(iii) of the EU Securitisation Regulation or, as the case may be, in Article 7(1)(e)(iii) of the UK Securitisation Regulation, (subject, in each case, to all applicable laws) (vi) at all times confirm, promptly upon the written request of the Issuer or the Security Trustee, the continued compliance with paragraphs (i) and (ii) above and (vii) and (viii) below; (vii) not sell, hedge or otherwise transfer all or part of the Retained Exposures, enter into a transaction synthetically effecting any such actions or take any action which would reduce its exposure to the economic risk of the Retained Exposures in such a way that it ceases to hold the Retained Exposures, except to the extent permitted under the EU Securitisation Regulation or the UK Securitisation Regulation (as the case may be) and (viii) the entry by the Originator into the Retention Financing will not constitute a hedge or transfer of the credit risk exposure of the Retained Exposures as prohibited by (x) Article 6 of the EU Securitisation Regulation and Article 12 of the Draft EU RTS, but rather will constitute a permitted secured funding transaction for the purposes of Article 12(2) of the Draft EU RTS and (y) Article 6 of the UK Securitisation Regulation and Article 12 of the UK RTS, but rather will constitute a permitted secured funding transaction for the purposes of Article 12(2) of the UK RTS.

As at the Closing Date, such interest will comprise retention of no less than 5 per cent. of the nominal value of each of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class Y Notes and the Class X Notes, the Class R1 Notes and the Class R2 Notes on the Closing Date, as required by the text of each of Article 6(3)(a) of the EU Securitisation Regulation and Article 6(3) of the UK Securitisation Regulation.

This Prospectus does not constitute, and may not be used for the purpose of, an offer or a solicitation by anyone to subscribe for or purchase any of the Notes in or from any country or jurisdiction where such an offer or solicitation is not authorised or is unlawful.

United States

The Notes have not been and will not be registered under the Securities Act or the state securities laws or "blue sky" laws of any state or any other relevant jurisdiction of the United States and therefore may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements under the Securities Act and applicable state or federal laws. Accordingly, the Notes are being offered and sold in offshore transactions in reliance on Regulation S. In connection with the initial distribution of the securities offered hereby, the Notes will be offered and sold only outside the United States to persons who are not U.S. Persons. There has been and will be no public offering of the Notes in the United States.

Each of the Joint Lead Managers has agreed that, except as permitted by the Subscription Agreement, it will not offer, sell or deliver the Notes (a) as part of its distribution at any time or (b) otherwise until 40 days after the later of the commencement of the offering and the closing date (the "**Distribution Compliance Period**") within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each affiliate or other dealer (if any) to which it sells Notes during the Distribution Compliance Period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. See "*Transfer Restrictions and Investor Representations*" below.

In addition, prior to the expiration of the Distribution Compliance Period, an offer or sale of Notes within the United States by the Joint Lead Managers may violate the registration requirements of the Securities Act.

"**U.S. person**" means any of the following: (A) any natural person resident in the United States; (B) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States; (C) any estate of which any executor or administrator is a U.S. person; (as defined under any other clause of this definition); (D) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition); (E) any agency or branch of a foreign entity located in the United States; (F) any non-discretionary account or similar account (other than an

estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition); (G) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and (H) any partnership, corporation, limited liability company, or other organisation or entity if: (1) organised or incorporated under the laws of any foreign jurisdiction; and (2) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Act. "U.S. person(s)" does not include: (A) any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a person not constituting a U.S. person (as defined in paragraph (i) of this section) by a dealer or other professional fiduciary organised, incorporated, or (if an individual) resident in the United States; (B) any estate of which any professional fiduciary acting as executor or administrator is a U.S. person (as defined in paragraph (i) of this section) if: (1) an executor or administrator of the estate who is not a U.S. person (as defined in paragraph (i) of this section) has sole or shared investment discretion with respect to the assets of the estate; and (2) the estate is governed by foreign law; (C) any trust of which any professional fiduciary acting as trustee is a U.S. person (as defined in paragraph (i) of this section), if a trustee who is not a U.S. person (as defined in paragraph (i) of this section) has sole or shared investment discretion with respect to the trust assets and no beneficiary of the trust (and no settlor if the trust is revocable) is a U.S. person; (as defined in paragraph (i) of this section); (D) an employee benefit plan established and administered in accordance with the law of a country other than the United States and customary practices and documentation of such country (E) any agency or branch of a U.S. person (as defined in paragraph (i) of this section) located outside the United States if (i) the agency or branch operates for valid business reasons; and (ii) the agency or branch is engaged in the business of insurance or banking and is subject to substantive insurance or banking regulation, respectively, in the jurisdiction where located; and (F) the International Monetary Fund, the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the United Nations and their agencies, affiliates and pension plans and any other similar international organisations, their agencies, affiliates and pension plans.

Except with the prior consent of Finance Ireland in the form of a U.S. Risk Retention Waiver and where such sale falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules the Notes sold as part of the initial distribution of the Notes may not be purchased by, or for the account or benefit of, any person except for persons that are not Risk Retention U.S. Persons. Prospective investors should note that, although the definition of "U.S. person" in the U.S. Risk Retention Rules is similar, but not identical, to the definition of "U.S. person" in Regulation S and that persons who are not "U.S. Persons" under Regulation S may be "U.S. Persons" under the U.S. Risk Retention Rules. Each purchaser of Notes, including beneficial interests therein, will, by its acquisition of a Note or beneficial interest therein, be deemed to have made certain representations and agreements, including that it: (1) is not a Risk Retention U.S. Person (or, if it is a Risk Retention U.S. Person, it has obtained the prior consent of the Originator in the form of a U.S. Risk Retention Waiver); (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules.

Prospective investors should consult their own advisors as to the U.S. Risk Retention Rules.
